Good morning, I apologize. I know I talked about dismissing this matter, unfortunately my wife put the subpoenas out for service and we've received three returns of service already.

I know you represent Ameren Missouri and their employees, but now is the time to tell the truth. After the Ameren subpoena gets served, I cannot reverse anything. The subpoena for Ameren Missouri lists all computers and servers that data was received on for the alteration of documents to bring.

I'll know in about 30 minutes if Ameren tried to delete any altered documents, what specific documents Ameren Missouri altered, etc. Hard drive deletions, transfers, erases, etc.

I strongly encourage Ameren Missouri to work with me and resolve this matter, as I already know the truth, furthermore, Ameren has hid the truth.

Just make sure that Mrs. Krcmar and Ameren comply with the subpoenas and I get all the documents, computers and servers and all the altered documents Mrs. Krcmar spent time altering.

At this time we are prepared to move forward, just make sure Ameren Missouri & Mrs. Krcmar comply with the subpoenas.

(I'm not trying to argue about it. I see this in about 99.9% of counterfeit document matters where a party tries to delete objects or data and that data remains on the computer and server)
