

As and FYI, my tax dollars that fund the Commission I want back. I'm pay to have a Commission in my tax dollars, yet Staff the Commission and the Regulatory Judge impose perjury risks in their filings.

In addition, my monthly services charges to Ameren (Aka, Scameren) go towards providing reliable and truthful business practices, not to corrupt practicing attorneys that commit perjury.

Let me know if Tueth Keeney needs help getting those altered Ameren docs and thank you for your perjury motion, I appreciate it.
