OF THE STATE OF MISSOURI**

In the Matter of Missouri-American Water)
Company for a Certificate of Convenience and)
Necessity Authorizing it to Install, Own,)
Acquire, Construct, Operate, Control, Manage)
and Maintain a Water System and Sewer)
System in and around the City of Ironton,)
Missouri)

File No. WA-2023- 0434

REQUEST FOR EXTENSION

COMES NOW Missouri-American Water Company (MAWC), and, as its Request for Extension states the following to the Missouri Public Service Commission (Commission):

1. The Commission issued its Order Approving Transfer of Assets and Granting Certificate of Convenience and Necessity (“Order”) on November 8, 2023, with an Effective Date of December 8, 2023.
2. The closing contemplated by the Order was completed on December 13, 2023.
3. MAWC filed a Notice of Closing on December 14, 2023.
4. MAWC filed a Notice of Completion related to post-closing requirements 3.l, 3.o, 3.p and 3.q on February 12, 2024.
5. MAWC filed a Notice of Filing and Request for Extension and Request for Waiver on March 12, 2024 which included the filing of post-closing requirements 3.f.1 and 3.f.3.
6. The Order approving the Notice of Filing and Request for Extension and Request for Waiver was approved on March 18, 2024.
7. MAWC filed a Notice of Filing on July 25, 2024, which included the following agreements.
 - 1). Agreement for Emergency Interconnection between Missouri-American Water Company and the City of Pilot Knob.
 - 2.) Wastewater Treatment Agreement between Missouri-American Water Company and the City of Pilot Knob.

8. Post closing requirement 3.g. as contemplated by the Order requests the following:

MAWC shall file a status report in EFIS within one year of closing on the Ironton assets, documenting that all necessary repairs have been completed to enable the hay field to be properly utilized for land application (such as repairing the valve(s) to and sprinkler heads in the field)

MAWC requests an extension of up to one year up to and including December 13, 2025, for the completion of this post closing requirement. While we have been working closely with Missouri Department of Natural Resources (“MDNR”) regarding our discharge permit, to date we have not received our official limits. The ability of MAWC to utilize land application as an acceptable treatment option is based upon the MDNR permit limits. MAWC is actively pursuing inflow & infiltration investigation and abatement within the collection system which should reduce the overall effluent volume to be treated.

WHEREFORE, MAWC respectfully requests that the Commission consider this Request for Extension and such further orders as it shall find to be reasonable and just.

Respectfully submitted,

MISSOURI-AMERICAN WATER COMPANY
