Case No. _____

**APPLICATION OF TELEPORT COMMUNICATIONS AMERICA, LLC
FOR NUMBERING RELIEF**

Teleport Communications America, LLC (“Teleport”), respectfully requests¹ the Commission issue an Order reviewing and reversing NANPA’s² denial of 3,000 consecutive numbers Teleport requested to meet the State of Missouri’s (hereinafter the “State”) expanding telecommunications needs in the Jefferson City Rate Center.

In support of this Application, Teleport states:

1. Teleport is a Delaware limited liability company with headquarters at One AT&T Way, Bedminster, New Jersey 07921. It may be contacted at the regular and electronic mail addresses and telephone and facsimile numbers of its attorneys, as set out under the signature block of this Application. Teleport is authorized to do business in Missouri.³ Teleport is a "local exchange telecommunications company" and a "public utility," and is duly authorized to provide

¹ Teleport files this verified Application pursuant to 4 CSR 240-2.060, 4 CSR 240-28.016(1) and 47 CFR 52.15(g)(3)(iv).

² The North American Numbering Plan Thousands-Block Pooling Administrator shall be referred to in this filing as “NANPA.”

³ In accordance with 4 CSR 240-2.060(1) and (G), a certified copy of Teleport’s Certificate of Registration as a Foreign Limited Liability Company, issued on June 7, 2012, by the Missouri Secretary of State was filed with the Commission on August 1, 2012, in Case No. TA-2013-0040. Teleport presently does not transact business in Missouri under any fictitious name.

"telecommunications service" within the State of Missouri, as each of those phrases is defined in Section 386.020, RSMo.⁴

2. All correspondence, pleadings, orders, decisions, and communications regarding this proceeding should be sent to:

3. The State requires additional numbers in the Jefferson City (JEFFERSNCY) Rate Center due to its number assignment plans for its employees. Attached hereto as "Exhibit A", is the August 19, 2024, letter from Angela N. Craig, with the State's Office of Administration, Information Technology Services Division, requesting the additional numbering resources on behalf of the State. (Exhibit A).

4. Teleport has researched the available numbering resources in the Jefferson City Rate Center and has determined that it cannot meet the State's needs; none of Teleport's existing blocks have 3000 consecutive numbers to meet the State's needs.

5. Consequently, Teleport requests that the Commission grant it numbering resources consisting of three (3) thousands-blocks with a 573 NPA. There are no other restrictions. The State will not be returning any numbers.

6. On August 28, 2024, Teleport submitted a Thousands-Block Application Form, Part 1A, for the numbering resources assignment necessary to meet the State's needs. (Exhibit B). Teleport completed the Application in accordance with the Industry Numbering Committee's

⁴ Teleport received a certificate of service authority to provide basic local, non-switched local, and interexchange telecommunications services in the State of Missouri from the MoPSC on August 28, 2012, in Case No. TA-2013-0040.

Thousands-Block Pooling Assignment Guidelines and completed the necessary Months-to-Exhaust and Utilization Certification Worksheet. (Exhibit C).

7. On August 28, 2024, NANPA denied the request on the grounds that Teleport had not met the months-to-exhaust threshold and/or the utilization requirements. (Exhibit D).

8. Teleport respectfully asks the Commission to overturn NANPA's decision to withhold numbering resources. This Commission has overturned NANPA's decision to withhold numbering resources in several cases and Teleport respectfully submits that it should likewise do so here.

9. Under existing procedures, NANPA has asserted that it is required to accept or reject an application for resources based solely on FCC criteria. However, the FCC's March 31, 2000, Order in its Number Resource Optimization docket states that a carrier may challenge a resource denial before the appropriate state regulatory commission and a state commission may choose to affirm or overturn NANPA's decision to withhold numbering resources.⁵ Thus, the Commission has the authority to "affirm or overturn the NANPA's decision to withhold numbering resources from the carrier based on its determination of compliance with the reporting and numbering resource application requirements herein."⁶ Moreover, the FCC determined that states may overturn NANPA's decision to withhold numbering resources from the carrier where there is a verifiable need for the carrier to satisfy a specific customer request:

We also agree with WinStar that a carrier should be able to get additional numbering resources when there is a verifiable need due to the carrier's inability to satisfy a specific customer request. We therefore clarify that states may also grant

⁵ Report and Order and Further Notice of Proposed Rule Making, In the Matter of Numbering Resource Optimization, CC Docket No. 99-200, March 31, 2000, Appendix A; *see also*, 47 CFR 52.15(g)(3)(iv).

⁶ *Id.*

relief if a carrier demonstrates that it has received a customer request for numbering resources in a given rate center that it cannot meet with its current inventory.⁷

10. The FCC further explained in its March 31, 2000, Order that a “[c]arrier may demonstrate such a need by providing the state with documentation of the customer request and current proof of the utilization in the rate center” and that states “may grant requests for customers seeking contiguous blocks of numbers.”⁸ Moreover, although the FCC declined to establish a specific timeframe for states to act on these requests, the FCC indicated “in most instances, 10 business days from receipt of request that the state determines to be sufficiently detailed and complete will be sufficient time to review and act upon safety valve requests.”⁹

11. Further, this Application complies with 4 CSR 240-28.016(1). Teleport has attached hereto its “Months-to-Exhaust Worksheet” indicating the month-to-exhaust in the Jefferson City rate center encompassing both the preceding six months and projected monthly utilization for the next twelve months. 4 CSR 240-28.016(1)(A). (Exhibit C). Finally, Teleport attaches copies of its originally filed request to NANPA (i.e., its Thousands-Block Application Form, Part 1A and NANPA’s denial of that request) pursuant to 4 CSR 240-28.016(1)(C). (Exhibits B and D, respectively). These materials and the instant Application demonstrate a verifiable need for the numbering resources requested herein. In connection with this request, Teleport has exhausted all other available remedies designed to conserve numbering resources. 4 CSR 240-28.016(1)(D).

⁷ Third Report and Order and Second Order on Reconsideration, In the Matter of Numbering Resource Optimization, CC Docket No. 99-200, et al., December 12, 2001, paragraph 64; *see also*, 47 CFR 52.15(g)(4).

⁸ *Id.*

⁹ *Id.* at paragraph 66.

12. Teleport has no final unsatisfied judgments or decisions against it from any state or federal agency or court which involve Missouri retail customer service or rates, which action, judgment or decision has occurred within three (3) years of the date of this Application.

13. Teleport does not have any annual report or assessment fees that are overdue in Missouri.

14. The State has explained that these numbers are needed to accommodate its plan to assign numbers to its individual employees. *See*, Exhibit A.

WHEREFORE, Teleport respectfully requests that the Commission overturn NANPA's previous determination in this matter and instruct NANPA to release the numbering resources described herein. Teleport further requests that if such specific resources are not available when the Commission issues its order, the Commission should direct NANPA to provide such resources to meet the numbering needs of the State of Missouri.

Respectfully submitted,

TELEPORT COMMUNICATIONS AMERICA, LLC

TNAC:

Please accept this Letter of Intent requesting additional numbering resources. The State of Missouri is requesting 3000 consecutive B-VoIP numbers in the Jefferson City, MO rate center. The only requirement that is needed is for the numbers to work out of the Jefferson City, MO area so a 573 area code or new 235 area code would be preferred.

These numbers will be needed to assign to each individual in the organization. Staff had not previously been assigned individual numbers and we were not aware that AT&T did not have the quantity needed to fulfill this request.

We are requesting these numbers as soon as possible. There are no restrictions on these numbers and will be a 10 digit dial. We will not be returning any of these numbers.

Thank you for your time and consideration in this matter,

Section 1.2 Service Providers (SP) who need a Thousands-Block (NPA-NXX-X) assignment or for a Location Routing Number (LRN) are required to fill in this section. If needed for an LRN, a Part 1 Central Office Code (NPA-NXX) Application needs to also be submitted to the Pooling Administrator (PA). The SP should supply the Numbering Plan Area (NPA); the Local Access Transport Area (LATA), which is a three-digit number that can be found in the Telcordia Technologies, Inc. dba iconectiv (iconectiv®) LERG™ Routing Guide^{xi}. The Operating Company Number (OCN) assigned to the SP and the OCN of its parent company. An OCN is a four-character alphanumeric NECA-assigned Company Code or a four-character alphanumeric identifier assigned by the iconectiv Telecom Routing Administration (TRA). In addition, the number of Thousands-Blocks requested should be supplied. The Switch Identification (Switching Entity/POI). Explanations of these terms may be found in the footnotes.

Section 1.3 The date the Service Provider (SP) completes the application should be entered in this section, as well as the Effective Date of the requested Thousands-Block.

Section 1.4 Service Providers (SP) should indicate their type, e.g., local exchange carrier, competitive local exchange carrier, interexchange carrier, CMRS or VoIP. Also indicate the primary type of business in which the Numbering Resource is to be used. SPs may indicate their preference for a particular Thousands-Block, e.g., 321-9XXX, or indicate any Thousands-Blocks that may be undesirable, e.g., 321-6XXX.

Section 1.6 Service Providers (SP) shall indicate the updated/current information in regards to contaminated Telephone Numbers (TN) on the Thousands-Block they are returning to the Industry Inventory Pool. Thousands-Blocks with over 10% contamination (101 TNs or more) shall not be returned to the Industry Inventory Pool except when a SP is exiting the market or is exchanging a Thousands-Block that was identified as being over 10% contaminated. If the Thousands-Block being returned is over 10% contaminated, the Pooling Administrator (PA) shall seek a new Thousands-Block Holder. If question c and/or d have a response of No, the request for return shall be denied.

The Thousands-Block applicant certifies veracity of this form by signing their name, and providing their title and date.
