**RE: Tariff Schedule to Adjust Renewable Energy Standard Rate Adjustment Mechanism rate of Evergy Missouri West, Inc. d/b/a Evergy Missouri West**

Dear Ms. Dippell :

Pursuant to 20 CSR 4240-20.100 of the regulations of the Missouri Public Service Commission (“Commission”), Evergy Missouri West or the “Company”, hereby submits a proposed rate schedule to adjust charges related to the Company’s approved Renewable Energy Standard Rate Adjustment Mechanism (“RESRAM”). The proposed rate schedule bears an issue date of September 30, 2024 and an effective date of December 1, 2024.

Retail customer revenues, as determined in general rate case, Case No. ER-2022-0130 which was approved in the Amended Commission Order issued on December 8, 2022, is \$750,036,250 therefore, the RESRAM cost recovery is capped at an annual Allowable RESRAM Revenue Requirement (ARRR) of \$7,500,363. This amount represents 1% of the electric retail customer revenues. However, the Company has reduced the ARRR in this filing to the remaining balance to be recovered as of August 31, 2024. Therefore, the resulting proposed RESRAM rate applicable to customers’ bills for the period of December 1, 2024 through November 30, 2025 is \$0.00062 per kWh and was calculated as follows:

Retail Customer Revenues (ER-2022-0130)	\$750,036,250
1% limit as stated in 20 CSR 4240-20.100(6)	1%
Allowable RESRAM Revenue Requirement	\$ 7,500,363
 Allowable RESRAM Revenue Requirement (As Adjusted)	 \$ 5,415,275
 Projected Energy (kWh)	 8,704,500,810
<b>RESRAM per kWh rate</b>	<b>\$ 0.00062</b>

Ms. Dippell  
Secretary/CRLJ Page 2

This proposed RESRAM rate of \$0.00062 per kWh is a decrease of \$0.30 per month for customers using 1,000 kWh per month. The decrease in the RESRAM rate is driven by a lower remaining total RESRAM expense balance than the allowable RESRAM revenue requirement from our most recent rate case. The total RESRAM expense balance at August 31, 2024 is \$5,415,275. In addition, the Company has removed the kWh projections related to the Special Rate for Incremental Load Service (Schedule SIL, Sheet No. 157) from the Projected Energy.

Concurrently, documentation containing information required by 20 CSR 4240-20.100(6)(12) consisting of a RESRAM revenue reconciliation as well as workpapers that support the proposed rate schedule have been provided.

Please feel free to email me at [lisa.starkebaum@evergy.com](mailto:lisa.starkebaum@evergy.com) with any questions concerning this filing.

Respectfully,

Lisa A. Starkebaum
