ORDER DIRECTING FURTHER RESPONSES

Issue Date: October 16, 2019

Effective Date: October 16, 2019

The Commission opened this file as a working case to facilitate Staff's investigation of the self-commit and self-scheduling practices of Missouri's investor-owned electric utilities in their respective RTO energy markets. Staff filed its report describing the results of its investigation on August 23, 2019. The Commission accepted Staff's report, but directed the electric utilities to answer several additional questions regarding "economic" or "unit" minimums. While the utilities complied with that order, they failed to provide

adequate substance in their responses. Staff filed a supplemental report regarding the utility responses on October 7, 2019.

Staff explained that to fully consider the questions raised by the utility responses, it would need the answers to some more detailed questions. The Commission will direct the utilities to respond to the questions raised by Staff.

THE COMMISSION ORDERS THAT:

1. Union Electric Company d/b/a Ameren Missouri, Kansas City Power & Light Company, KCP&L Greater Missouri Operations Company, and The Empire District Electric Company shall answer the following questions by October 25, 2019:

A. Are the economic or unit minimums established based upon the physical limitations of each plant?

B. Are the economic or unit minimums established based upon the optimization of operation of each plant?

C. What factors are considered in the determination of the economic or unit minimums?

(i) What weighting is applied to each factor in the determination of the economic or unit minimums?

D. Do the economic or unit minimums ever vary for any reason other than the physical characteristics of the individual plant with the exception of unit testing?

(i) With the exception of unit testing, explain each instance that the utility deems that this action is appropriate for purposes of bidding into each market

(a) What are the potential economic outcomes from such action?

(b) Provide quantification of the benefits and detriments of each instance which the economic or unit minimum varied for reasons other than the physical characteristics of the individual plant.

(c) How often is an analysis conducted regarding the economic outcome of variances from physical characteristics within the bidding strategy of the unit?

(d) Who is responsible for determining the appropriateness of variances from physical characteristics within the bidding strategy of the unit?

2. The Commission's Staff shall file a supplemental report no later than November 8, 2019.

3. This order shall be effective when issued.

BY THE COMMISSION

A handwritten signature in black ink that reads "Morris L. Woodruff".

Morris L. Woodruff
Secretary

Morris L. Woodruff, Chief Regulatory
Law Judge, by delegation of authority pursuant
to Section 386.240, RSMo 2016.

Dated at Jefferson City, Missouri,
on this 16th day of October, 2019.

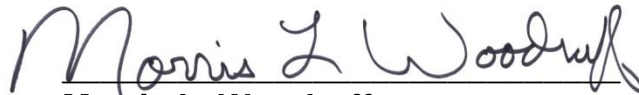

STATE OF MISSOURI

OFFICE OF THE PUBLIC SERVICE COMMISSION

I have compared the preceding copy with the original on file in this office and I do hereby certify the same to be a true copy therefrom and the whole thereof.

WITNESS my hand and seal of the Public Service Commission, at Jefferson City, Missouri, this 16th day of October 2019.

Morris L. Woodruff
Secretary
