Case No. EC-2020-0408

Invenergy's Second Supplemental Responses to Data Requests from Complainants to Respondents

18. Please provide a copy of all internal correspondence (including but not limited to emails, letters, and notes) generated on or after June 20, 2020, between or among individuals employed by or working for CLS, and dealing with one or more telephone conversations between a CLS land agent and Gary Mareschal and/or Marvin Daniels.

Response: Without waiving their prior objection, Respondents respond as follows: Respondents previously provided call logs in response to Complainants' Data Request No. 5. The only other internal correspondence that is responsive to this Data Request is either attached hereto as "Attachment 1 to Complainant DR18" or is attorney-client privileged, as it relates to the preparation of affidavits in this case at the instruction of counsel.

VERIFICATION OF RESPONSES

The answers provided to the foregoing Data Requests have been collected from various sources at Invenenergy Transmission LLC and Grain Belt Express LLC, and are true and accurate to the best of my knowledge and belief.

Signed: /s/ Eric Miller

Yes, get him to sign off on it to show that's what he is wanting and let him know that we will present it to Invenergy for their review.

Adam,

Yes, I realize that it will increase construction costs, but I am just presenting what the landowner asked for. I told him that it would increase costs because it would create 2 more turns in the line. His reply was that we were the ones with all the money and he was just a poor old dirt farmer. I was asking if I can send him the sketch so he can look at it to see if this is what he is asking for and get him to sign off on it. I didn't want to do that if Invenergy could not change the route.

That will add two angle points which will increase the cost of construction significantly. Have the landowner sign off on the map stating that is what he is requesting. After we have that, I can send to Invenergy for their review.

Thank you,

ADAM WHITE

Adam,

Mr. Daniels received his easement packet and has reviewed it. I talked to him this morning and he said that he doesn't know why we couldn't run the transmission line along his South fence line. I have attached a map showing what he has asked. I don't know if Invenergy would consider doing this but I told him I would ask. I haven't sent this to him but I think we should send it to him to make sure this is what he is asking for if Invenergy is willing to consider this change. Let me know what you think.
