# Deleted: Rebate Types:¶

Formatted: Highlight

Rehates will be either Standard (prescriptive) or Custom. ¶ Standard Rebates are fixed incentives for technologies with known performance characteristics, which may include HVAC. refrigeration, water heating, operational efficiency, and food preparation technologies. The Business Comfort, Products, and Operational components will offer standard rebates.¶ To participate in this rebate type, customers select energy-efficient equipment from a pre-qualified list, purchase and install the equipment, and submit a rebate application. Rebates will be issued to participants upon receipt and review of the rebate application.¶

Custom Rebates are variable incentives for qualifying projects, including New Construction. ¶
Custom rebates are determined on a \$/kW or \$/kWh bases for incremental savings above the baseline.¶ Projects must be pre-approved before equipment is purchased and installed. To be pre-approved, the project must

have a Total Resource Cost (TRC) Test benefit-cost ratio of at least 1.0. Once pre-approved, the customer purchases and installs the approved equipment and submits a rebate application. Rebates will be issued to participants upon receipt and review of the rebate application.¶

Total rebates per program year are limited to \$1,000,000 per

customer. Multiple rebate applications for different measures from the same customer may be submitted.¶

Deleted: filed in Case No. EO-2023-0369

Formatted: Space After: 6 pt, No bullets or numbering

Deleted: The program encompasses Business Custom and ew Construction, with measures varying based on calcula avings, Business Comfort, Business Products, and Busine onal measures. These measures include and are not . nited to the following equipment:¶

Air Compressors¶ HVAC (Heating, Ventilation, and Air Food Services and Refrigeration

Deleted: PURPOSE:¶

The Business Energy Efficiency Rebates - Custom program is designed to encourage more effective utilization of electric energy through Energy Efficiency improvement opportunities which are available at the time of new equipment purchases, facility modernization, and industrial process improvement. This program provides rebates for Energy Efficiency measures that are not specifically covered under the Business Energy Efficiency Rebates – Standard program. A "Custom Incentive" is a direct payment or bill credit to a Participant for installation of Measures that are part of projects that have been pre-approved by the Program Administrator. ¶

# EVERGY METRO, INC. d/b/a EVERGY MISSOURI METRO Revised Sheet No. 2.06 P.S.C. MO. No. Deleted: R-Canceling P.S.C. MO. No. Original Sheet No. 2.06 Deleted: R-For Missouri Retail Service Area **RULES AND REGULATIONS ELECTRIC** 23.05 BUSINESS DEMAND RESPONSE PROGRAM PURPOSE: Business Demand Response ("Program" or "BDR") is designed to reduce Participant load during peak\_periods to improve system reliability, offset forecasted system peaks that could result in future generation capacity additions. and/or provide a more economical option to generation or purchasing energy in the wholesale market. Participant curtailment may be requested for any of these operational or economic reasons as determined by the Company.

This Program is available during the Program Period and is available to all customers in the classes identified in the Business Demand-Side Management section that also meet Program provisions. Participants must show economic and technical feasibility for measurable and verifiable load curtailment during the Summer Curtailment Season of June 1 to September 30 and Winter Curtailment Season of October 1 to May 31 within designated Curtailment Hours of 8:00 a.m. to 8:00 p.m., on any weekday (Monday through Friday). In addition, the company may call a curtailment event on Saturday or Sunday during an Energy Emergency Alert (EEA) event officially designated as such. The Company will determine the most beneficial timing and length of curtailment events during the curtailment season, is not required to curtail all Participants simultaneously, and may elect to only call individual participants and/or stagger Participants as deemed appropriate. The Company also reserves the right to apply minimum and/or maximum event performance requirements for incentive payment, to apply financial bonuses or penalties and to terminate Participation Agreements for non-compliance.

**AVAILABILITY:** 

The Company reserves the right to curtail some or all Participants year-round if needed. This off-season curtailment would be utilized during emergency situations locally or regionally. Off-season participation is voluntary with participant payment at the discretion of the Company outlined in the Participation Agreement. The Company will engage a third-party Administrator to implement all recruitment, enrollment and daily operations for the Program and manage Company approved Aggregators. A Customer may participate directly through the Program Administrator ("Administrator") or a Company-approved Aggregator ("Aggregator"). An aggregator is a curtailment service provider, appointed by a customer to act on behalf of said Customer with respect to all aspects of the Program, including but not limited to: a) the receipt of notices from the Company under this Program; and b) the receipt of incentive payments from the Company. The Aggregator will be responsible for establishing independent business (B:B) contracts and administering the participation of said customer. The Aggregator is fully responsible for fulfillment of these B:B customer contracts. Contracts between Aggregator and their enrolled customers are not limited to Program provisions.

For this program only, a Participant with multiple accounts may request that some or all of its accounts be aggregated for event performance evaluation. If the Company deems an aggregation would not benefit the customers' ability to improve event performance, the Company will present the option to the customer to determine whether they would prefer a single account or aggregated view of participation. The aggregated Participant account will be treated as a single account for purposes of calculating potential Program incentive payments. The Aggregator is responsible for all of their independent B:B customer contracts; no minimum customer account requirements apply. Aggregator must maintain a minimum aggregated load as stated in their Aggregator Participation Agreement to maintain Program eligibility.

Deleted: Participants must show economic and technical feasibility for measurable and verifiable load curtailment¶ during the Summer Curtailment Season of June 1 to September 30 and Winter Curtailment Season of¶ October 1 to May 31 within designated Curtailment Hours of 8:00 a.m. to 8:00 p.m., Monday through Friday¶ excluding Holidays. The Company reserves the right to call events on any day and period during an SPP¶ Energy Emergency Alert (EEA) Level 2 or greater for local and/or regional reliability needs.

# **RULES AND REGULATIONS ELECTRIC**

# 23.09 BUSINESS DEMAND RESPONSE PROGRAM (continued)

This schedule is not applicable where the Customer's load reduction capability is registered for demand response participation in the wholesale market directly by the Customer or via a Demand Response (DR) Aggregator Agreements.

# **PROGRAM PROVISIONS:**

This Program may be executed by manual and/or automated demand response methods:

Regardless of the method by which the participating Customer chooses to participate, the Participant enrolls directly with the Administrator or Aggregator. The Administrator or Aggregator evaluates a Customer's metered usage data from the most recent Curtailment Season and gathers site-specific information from the Participant to establish their curtailment plan and estimated associated curtailable load (kW). The Participant or Aggregator enrolls this curtailable load in the Program by executing their Participation Agreement. The Company then issues notices to the Participant or Aggregator in advance of scheduled curtailment events, prompting Participants to respond in accordance with their chosen method of participation:

# 1. Manual Demand Response (DR)

The Participant manually executes their facility curtailment plan to curtail at least their enrolled curtailable load for the duration of the curtailment event.

# 2. Automated Demand Response (ADR)

The Participant's building/energy management system (BMS/EMS) or facility automation system is used to execute their curtailment plan. The Participant or Aggregator receives the integrated signal with the utility's event calling system and is used to execute their curtailment plan by enacting pre-programmed usage adjustments to respond to demand response events.

# **PARTICIPATION AGREEMENTS:**

There will be two versions of Program Participation Agreements ("Agreement"). Customers enrolling with the Administrator will have a customer Agreement between the customer and the Program. Aggregators will have an aggregator Agreement between the Program and the Aggregator. The participation agreements will include the terms and conditions of the agreement, including but not limited to committed event participation frequency, event frequency hours, and event days as well as performance measurement and payment structure. Multi-year participation Agreements will be re-evaluated annually or at any time the Company has data indicating the terms of the participation Agreement cannot be fulfilled by the Participant.

Deleted: The Company will communicate with Participants and Aggregators in advance of a curtailment event to¶ increase their ability to successfully participate. Customer and Aggregator Agreements will contain specific¶ information for curtailment specifications that fall within the following limits.¶ Maximum number of events per season - 20;¶ Minimum number of events per season - 1;¶ Maximum duration of an event - 10 hours:¶

EVALUATION:¶

The Company will hire a third-party evaluator to perform Evaluation, Measurement and Verification¶ (EM&V) of this Program. ¶

Minimum notification prior to an event - 1 hour¶

This baseline is then constructed the construction of the construction o	odel or lata that is then eline is npared to the the forecasted mpact of the ed divided by Aggregator for		Deleted: CURTAILMENT LIMITS: ¶ KCP&L may call a curtailment event any weekday, Monday through Friday, excluding Independence Day and Labor Day, or any day officially designated as such. A curtailment event occurs whenever the thermostat is being controlled by KCP&L or its assignees. KCP&L may call a maximum of one curtailment event per day per Participant lasting no longer than four (4) hours per Participant. KCP&L is not required to curtail all Participants simultaneously and may stagger curtailment events across participating Participants. ¶ CURTAILMENT OPT OUT PROVISION:¶ A Participant may opt out of any air conditioning cycling curtailment event during the Curtailment Season by notifying KCP&L at any time prior to or during a curtailment event. Participant may opt out of an ongoing event via their smart phone or by the thermostat itself. Notification must be communicated to KCP&L by using KCP&L's website (www.kcpl.com) or by calling KCP&L at the telephone number provided with the air conditioner cycling agreement. ¶ NEED FOR CURTAILMENT:¶ Curtailments may be requested for operational or economic reasons. Operational curtailments may occur when any physical operating parameter(s) approaches a constraint on the generation, transmission or distribution systems or to maintain KCP&L's capacity margin requirement. Economic reasons may include any occasion when the marginal cost to produce or procure energy or the price to sell the energy in the wholesale market is greater than a customer's retail price. ¶

Deleted: CONTRACT TERM:¶

¶ Initial contracts will be for a period of three years, terminable thereafter on 90 days written notice. At the end of the initial term, if the thermostat was provided free of charge to the Participant, then the thermostat becomes the Participant's property. The customer will remain subject to curtailment unless they make a request with KCP&L or its assignees to be removed from the program. However, so long as the agreement to participate in the Program is in force, KCP&L will provide maintenance and repair to the programmable thermostat as may be required due to normal use. If the Participant has the KCP&L provided thermostat and leaves the program prior to the end of the initial contract, KCP&L will have 60 days thereafter to remove the thermostat and/or other control equipment; otherwise, it becomes the Participant's property. KCP&L will also have a separate Customer Program Participation Agreement outlining Customer and KCP&L responsibilities, and additional information concerning data privacy and Program termination for customers who participate in any studies that will analyze and evaluate customers' behavior and usage of thermostat, and associated software.

# EVERGY METRO, INC. d/b/a EVERGY MISSOURI METRO P.S.C. MO. No. 2 1st Revised Sheet No. 2.20 Deleted: R. Canceling P.S.C. MO. No. 2 Original Sheet No. 2.20 Deleted: R. For Missouri Retail Service Area RULES AND REGULATIONS ELECTRIC

# 23.16 RESIDENTIAL DEMAND-SIDE MANAGEMENT

# PURPOSE:

The Residential Demand-Side Management (DSM) Programs (Programs), which consist of refive programs, are designed to encourage residential customers to proactively use energy in such a way as to reduce consumption of electricity or to shift consumption from times of peak demand to times of non-peak demand.

These Programs are offered in accordance with Section 393.1075, RSMo. Supp. 2009 (the Missouri Energy Efficiency Investment Act or MEEIA) and the Commission's rules to administer MEEIA.

# **AVAILABILITY:**

Except as otherwise provided in the terms governing a particular program, these Programs are available to residential customers in Evergy Missouri Metro Company's service area being served under any residential rate schedule.

Unless otherwise provided for in the tariff sheets or schedules governing a particular program, customers may participate in multiple programs, but may receive only one Incentive per Measure.

The Company reserves the right to discontinue the entire MEEIA cycle 4 portfolio, if Company determines that implementation of such programs is no longer reasonable due to changed factors or circumstances that have materially negatively impacted the economic viability of such programs as determined by the Company, upon no less than thirty days' notice to the Commission.

# **DEFINITIONS:**

Unless otherwise defined, terms used in tariff sheets or schedules in Section 23 have the following meanings:

<u>Applicant</u> – A customer who has submitted a program application or has had a program application submitted on their behalf.

<u>Demand Side Investment Mechanism (DSIM)</u> – A mechanism approved by the Commission in Evergy Missouri Metro's filing for demand-side program approval in Case No. EO-2023-0369.

Energy Efficiency - Measures that reduce the amount of electricity required to achieve a given end use.

Jncentive – Program costs for direct or indirect incentive payments to encourage customer and/or retail partner participation in programs and the cost of measures, which are provided at no cost as part of the program.

 Issued:
 October 15, 2024
 Effective: January 1, 2025

 Issued by:
 Darrin R. Ives, Vice President
 1200 Main, Kansas City, MO 64105

Commented [NG1]: Changed to 5 programs, four similar to MO West + UHI. - As noted in MO West...Leaving as 4 programs, as we have separated out the Modified PAYS to 2 separate programs, as discussed on 10/23/24 (2 programs will share the 1 total budget as in the S&A)

Deleted: eight

**Deleted:** Monetary incentives are not payable to customers that have received a state tax credit under sections 135.350 through 135.362, RSMo, or under sections 253.545 through 253.561, RSMo. As provided for in the Commission's rules, customers shall attest to non-receipt of any such tax credit and acknowledge that the penalty for a customer who provides false documentation is a class A misdemeanor

Deleted: . ¶

# Deleted:

**Deleted:** Any consideration provided by Evergy directly or through the Program Administrator and Program Partners, including buydowns, markdowns, rebates, bill credits, payment to third parties, direct installations, giveaways and education, which encourages the adoption of Measures.

Deleted: April 29

# 23.16 RESIDENTIAL DEMAND-SIDE MANAGEMENT

(continued)

Long-Lead Project - A project committed to by a Customer, accepted by the Company, and a signed commitment offer received by the program administrator by the end of the Program Period according to the terms and implementation of the MEEIA 2025-20268 pr

Measure - An end-use measure, energy efficiency measure, and energy management measure as defined in 20 CSR 4240-22.020(18), (20), and (21).

Participant - End-use customer and/or manufacturer, installer, or retailer providing qualifying products or services to end-use customers.

Program Administrator - The entity selected by Company to provide program design, promotion, administration, implementation, and delivery of services.

Program Period - The period of which the programs are available.

ack, and Income Eligible Programs the period will

7 Unless earlier terminated under the TERM provision of this tariff. Programs may have slightly earlier deadlines for certain activities, as noted on the Company website - www.evergy.com.

<u>Total Resource Cost (TRC) Test</u> – A test of the cost-effectiveness of demand-side programs that compares the avoided utility costs to the sum of all incremental costs of end-use measures that are implemented due to the program (including both Evergy Missouri Metro and Participant contributions), plus utility costs to administer, deliver and evaluate each demand-side program.

Program Partner - A retailer, distributor or other service provider that Company or the Program Administrator has approved to provide specific program services through execution of a Company approved service agreement.

If the Programs are terminated prior to the end of the Program Period, only Incentives for qualifying Measures that have been preapproved or installed prior to the Programs' termination will be provided to the customer.

# DESCRIPTION:

The reduction in energy consumption or shift in peak demand will be accomplished through the following Programs:

- Income Eligible Dece
- Home Demand Response
- Urban Heat Island (available for both business and residential customers)

er 31, 2026

These tariff sheets and the tariff sheets reflecting each specific residential DSM program shall be effective from the effective date of the tariff sheets to unless an earlier termination date is ordered or approved by the Commission.

technical and process assistance, and incentives for upgrades. Projects include both in-unit and common

include foundation issues, roof repairs, mold mitigation, etc.

measures at no cost. The measures may include: low-flow faucet aerators, low-flow showerheads, LEDs, advanced power strips, and hot water pipe insulation. Rebates for in-unit upgrades will also be available. Multi-Family Common Areas. Prescriptive and custom rebates will be available for qualifying upgrades.

Income Eligible Multi-Family New Construction. Encourages income eligible multi-family builders to build buildings more energy efficiently by offering rebates to offset the cost difference between an inefficient and an efficient building.

Some of these components will be co-delivered with Spire to eligible customers for both utilities. Evergy offerings are not contingent upon co-delivery.

# **EVALUATION:**

MPSC will hire a third-party evaluator to perform the Evaluation, Measurement, and Verification (EM&V) of the program.

receive an energy audit by an authorized trade ally, including a recommended scope of work and project quotes. A blower test must be performed for air sealing and insulation projects.

On-Bill Financing. Each customer project will be analyzed to determine a financing amount that is cost-effective (results in a net positive bill impact). The financing offer will be reviewed and accepted by the customer or landlord. If accepted, the upgrades will be made with the financed amount remaining at the premise where the energy savings will be realized, with the option to pay off early with no penalties. ¶ Energy Savings Kits & Assessments will be available to income-eligible customers. These customers can receive a no-cost home energy assessment, direct installation of energy savings measures, and a personalized recommendation report. The measures may include window weatherstripping, smart power strips, door draft stoppers, and faucet aerators. A virtual assessment option will be available.  $\P$ School kits, along with educational curriculum, will be distributed at schools located in low-income areas. ¶ Enhanced Home Products allows income-eligible customers to receive free qualified high-efficiency products through a tailored online hub. ¶ Income Eligible Single Family New Construction

encourages low income single-family builders to build more energy-efficient homes. Customers and/or builders will develop a customized new construction package by selecting any combination of eligible measures. Evergy will cover approximately 100% of the incremental cost of the measures. Single-family customers must select an eligible high-efficiency HVAC unit and building shell measure to qualify for the incentive. ¶

EVERGY METRO, INC. d/b/a EVERGY MISSOURI METRO

# EVERGY METRO, INC. d/b/a EVERGY MISSOURI METRO P.S.C. MO. No. 2 Original Sheet No. 2.37 Canceling P.S.C. MO. No. Revised Sheet No. For Missouri Retail Service Area RULES AND REGULATIONS

# RULES AND REGULATIONS ELECTRIC

# 23.22 MODIFIED PAY AS YOU SAVE (PAYS®)

# **PURPOSE:**

The purpose of the Residential Modified PAYS® Program is to promote affordability and accessibility for energy efficient upgrades to residential customers to create long-term energy savings and bill reduction opportunities through an on-bill tariff tied to the premise.

# AVAILABILITY:

This offer is available for participation by customers who are receiving services under any generally available Missouri residential rates and reside in a building with four (4) or fewer units, with each unit having its own entrance and meter. Evergy will target market this program in zip codes that generally fall below 300% Federal Poverty Income Levels based on current year's practice.

# **BUDGET:**

The program's combined jurisdiction budget is below:

Combined Jurisdictions

<u>Program</u>	2025	2026	<u>Total</u>
Modified PAYS®_	\$3,550,000	\$3,550,000	\$7,100,000

# **PROGRAM OFFER DESCRIPTION:**

# Participation

The Company will hire a Program Administrator(s) to implement the program. The Program Administrator(s) will provide the necessary services to effectively implement the program:

- Step #1: A visual home inspection/assessment with direct install of free energy savings measures. Homes that are deemed eligible for participation will move forward with a more in-depth data collection to record the actual features and conditions, including energy usage. Customers have the option to bypass the home assessment and enter through the Fast Track route if only HVAC upgrade is requested with the ability to complete a home inspection/assessment and direct install later,
- Step #2: The Program will analyze usage history, assessment data, and the participating contractor's
  installation costs to determine each participant's unique qualifying scope of work ensures that 80% of the
  estimated post upgrade savings over the lifetime of the measure makes up the monthly tariff charge, while
  20% of the estimated post upgrade savings flow to the participant, capped at up to 15 years.
  - Copayment Option: If a project is not cost-effective, customers may agree to pay a portion of the
    project's cost that prevents it from qualifying for the program as an upfront payment to the
    participating contractor.

Deleted: MODERATE INCOME SINGLE FAMILY ON-BILL FINANCING

**Deleted:** The purpose of the Residential Moderate Income On-Bill Tariff offer is to promote affordability and accessibility for energy efficient upgrades to moderate income customers in order to create long-term energy savings and bill reduction opportunities through an On-Bill tariff tied to the premise. ¶

Deleted: COMPONENT #1 MODIFIED INCOME WHOLE

**Deleted:** This offer is available for participation for customers who are receiving services under Missouri residential rates and reside in a single-family building. Single Family dwellings are defined as two (2) or fewer units. Qualifying participants must also live within a census tract that falls within 201-300% Federal Poverty Level, based on current years guidance. Customers who live outside of the census tract that fall within the 201-300% FPL, must provide proof of income.¶

**Deleted:** This offer is available for participation by customers who are receiving services under any generally available Missouri residential rates and reside in a single-family building. Single family dwellings are defined as two (2) or fewer units. Evergy will market this program in zip codes that generally fall below 300% Federal Poverty Income Levels based on current years guidance. ¶

**Deleted:** The combined program and combined jurisdiction budget is below

Deleted: To participate in the Program offer, a customer must 1) request an energy assessment, completed through the Hard-to-Reach program's Energy Savings Kits & Assessments component 2) Customer will then have the option to work with the Company's Program Administrator to request quotes from the company's Approved Trade Ally contractor network 3) Quotes and scope of work will be sent to the Company's Program Administrator to complete a utility analysis of cost-effective upgrades, which results in a net positive bill impact 4) Program Administrator will then provide customer with an Energy Efficiency Plan and coordinate between approved trade ally and customer to complete the work, should the customer agree to the Energy Efficiency Plan

# **MODIFIED PAY AS YOU SAVE (PAYS®)**

(continued)

- Step #3: If a participant agrees to the scope of work, the Program will facilitate installation through the Company's network of trade allies / contractors.
  - Post Install Quality Control inspections 100% of installations will be remotely inspected for quality assurance using geo-coded and time-stamped photo documentation.
  - Program Administrator to notarize and file Property Notice with the location's property records.
- Company will initiate on bill charge 45 days following verification of installation.

# **Participation Requirements:**

- Location Ownership: If the participant is not the owner of the location, the owner must sign an Owner Agreement. The owner must agree to have a Property Notice attached to their property records.
- Notice: If the signature of the successor customer renting the location is not obtained on the Property
  Notice form, or if the purchaser in jurisdictions where the company cannot attach the Property Notice to
  property records does not receive notice, it will be considered as the owner's acceptance of
  consequential damages. This also grants permission for the tenant or purchaser to terminate their lease
  or sales agreement without penalty. Also, the customer can pay off the remaining balance including cost
  of upgrades and the Company's cost of capital remaining due.
- Energy History: The customer authorizes the use of energy usage history by the Program Administrator to true up its energy analysis and determine qualifying recommendations.

# **Energy Efficiency Plans:**

The company will have its Program Administrator conduct a cost analysis and develop an Energy Efficiency Plan, outlining recommended upgrades to enhance energy efficiency and reduce utility costs. This report will be provided to the customer at no cost, aiming to incentivize and educate them on the suggested energy efficiency improvements.

- Incentive Payment: The Company will offer incentives currently available for an eligible residential
   Measure as defined in the Company's MEEIA 4 Demand-Side Plan. The company reserves the right to
   adjust incentives at its discretion based on targeted marketing to customers that reside in low-to moderate income zip codes.
- Net Savings: Recommended upgrades shall be limited to those where the annual Service Charges and the utility's cost for capital, are no greater than 80% of the estimated annual benefit from reduction to customer annual utility charges based on electricity and/or gas rates.
- Co-Pay Option: If a project is not cost-effective, customers may agree to pay the portion of a project's
  cost that prevents it from qualifying for the Program as an upfront payment to the contractor. The
  Company will assume no responsibility for such upfront payments to the contractor. Co-payments will be
  applied after applying relevant incentive payments.

# **MODIFIED PAY AS YOU SAVE (PAYS®)**

(continued)

## Service Charge:

The company will recover the costs for its investment including any fees as allowed in this tariff through a monthly Service Charge assigned to the location where upgrades are installed and paid by the Participant or successor customer occupying that location until all Company costs have been recovered. The Service Charge will also be set for a duration not to exceed 15 years. The Service Charge and duration of payments will be included in the Efficiency Upgrade Agreement.

- Cost Recovery: No sooner than 45 days after approval by the Company or its Program Administrator, the
  Participant shall be billed the monthly Service Charge as determined by the Company. The Company will
  bill and collect Service Charges until cost recovery is complete.
- Eligible Upgrades: All upgrades must have Energy Star certification, if applicable, the Program
   Administrator may seek to negotiate with contractors or upgrade suppliers extended warranties to
   minimize the risk of upgrade failure on behalf of customers.
- Ownership of Upgrades: During the duration that Service Charges are billed to customers at locations where
  upgrades have been installed, the Company will retain ownership of the installed upgrades. Upon
  completion of the cost recovery, ownership will be transferred to the location's owner.
- Maintenance of Upgrades: Participating customers and owner of the location (if the participant is not the
  owner) shall keep the installed upgrades in place, in working order, and maintained per manufacturer's
  instructions during the duration of the cost recovery. Participating customers shall report the failure of the
  installed upgrades to the Program Administrator or Company as soon as possible. If an upgrade fails, the
  Company is responsible for determining its cause and for repairing the equipment in a timely manner. If
  the owner, customer, or occupants caused the damage to the installed upgrades, they will reimburse the
  Company for the expenses incurred.
- Termination of Service Charge: Once the utility's cost for the upgrades at a location have been recovered, including its cost of capital, the cost paid to the contractor to perform the work, costs for any repairs made to the upgrades, the monthly service charge shall no longer be billed. Customers will have the option to pay off in full any costs associated with any installed upgrades early, with no penalties.
- Vacancy: If a location at which upgrades have been installed becomes vacant for any reason and electric
  service is disconnected, the Service Charge will be suspended until a successor customer takes
  occupancy. If the owner maintains electric service at the location, the owner will be billed the Service
  Charge as part of any charges it incurs while electric service is turned on.
- Extension of Program Charge: If the monthly service charge is reduced or suspended for any reason, once repairs have been successfully effected or service reconnected, the number of total monthly payments shall be extended until the total collected through the Service Charge is equal to the Company's cost for installation, including costs associated with repairs, deferred payments, and missed payments as long as the current occupant is still benefiting from the upgrades.
- Tied to the Location: Until cost recovery for upgrades at a location is complete or the upgrades fail, the terms of this tariff shall be binding on metered structure or facility and any future customer who shall receive service at that location.
- Disconnection for Nonpayment: As a charge paid in furtherance of an approved energy efficiency
  program, the Company may disconnect the metered structure for non-payment of the Service Charge
  under the same provisions as for any other electric service.

MPSC will hire a third-party evaluator to perform the Evaluation, Measurement, and Verification (EM&V) of the

Deleted: Energy Efficiency Plan¶

Incentive Payment: The company will offer incentives currently available for an eligible Hard-to-Reach residential measures available to all regions in a New York and Savardand Side Plan.¶

Net Savings: Recommended scope of work shall be limited to those where the annual Service Charges, and the utility's cost for capital show a net positive bill improvement, based on the Company's determination of energy rates. ¶

<u>Co Pay Option:</u> If a project is not cost effective, customers

may agree to pay the portion of a project's cost that prevents it from qualifying for the Program offer as an upfront payment to the contractor. The company will assume no responsibility for such upfront payments to the contractor. Co-payments will be determined after applying relevant incentive payments.

Participant Repayment Costs
The Company will recover the full costs of the upgrades including installation, and its approved rate of return. These costs are assigned to the location (point of service or meter) where Measures are installed and paid by Customers occupying that location until all costs specified in the Energy Efficiency Plan Agreement, as applicable, have been recovered.¶
Monthly Service Charge = (Total Amount Paid for Measures

minus the incentive payment and minus the participant co-payment) \* Approved rate of return at the time of the Energy Efficiency Plan Agreement and Term Length established. If Monthly Service charges are temporarily suspended for any reason or the Company has no customer at the location for a period of time, the term of recovery may be extended for an equivalent period, but in any event the Repayment Period will not exceed fifteen (15) years.¶
