

**STATE OF MISSOURI
PUBLIC SERVICE COMMISSION**

At a session of the Public Service Commission held at its office in Jefferson City on the 28th day of June, 2017.

In the Matter of Kansas City Power & Light Company's)
Submission of its 2017 Renewable Energy Standard) **File No. EO-2017-0271**
Compliance Plan)

**ORDER REGARDING RENEWABLE ENERGY STANDARD
COMPLIANCE PLAN**

Issue Date: June 28, 2017

Effective Date: July 8, 2017

The Commission's Renewable Energy Standard (RES) rule, 4 CSR 240-20.100(8), requires each electric utility to file an annual RES compliance plan providing information about how the utility plans to comply with RES requirements in the current year and the two following years. Kansas City Power & Light Company (KCP&L) filed the required plan on April 13, 2017.

Subsection 4 CSR 240-20.100(8)(D) requires the Commission's Staff to examine KCP&L's plan and to file a report of its findings within 45 days. Staff's report is to identify any deficiencies in the utility's compliance with the RES. Subsection 4 CSR 240-20.100(8)(E) allows Public Counsel and other interested persons or entities to file comments based on their review of the utility's compliance report. Subsection 4 CSR 240-20.100(8)(F) provides that the Commission may direct the electric utility to "provide additional information or to address any concerns or deficiencies identified in the comments of staff or other interested persons or entities."

Staff filed its report regarding KCP&L's compliance plan on May 25. Staff did not identify any deficiencies in KCP&L's compliance plan, but found that KCP&L made an error in its calculation of its retail rate impact (RRI). Staff advises the Commission to direct KCP&L to correct that miscalculation in its 2018 plan. KCP&L replied to Staff's recommendation on June 15, indicating its agreement with Staff, and promising to correct the RRI calculation in its 2018 RES plan. No other comments were filed.

After reviewing KCP&L's filing and the response of Staff, the Commission will not require KCP&L to provide any additional information or to address any concerns or deficiencies aside from the correction of the identified error in the RRI calculation.

THE COMMISSION ORDERS THAT:

1. Kansas City Power & Light Company will not be required to provide additional information or to address any concerns or deficiencies, except that it shall correct the RRI calculation in its 2018 Renewable Energy Standard Compliance Plan.
2. This order shall be effective on July 8, 2017
3. This file shall be closed on July 9, 2017.

BY THE COMMISSION

A handwritten signature in black ink that reads "Morris L. Woodruff".
