

EC-2025-0165

Good afternoon please send any correspondence of filings pertaining to this matter to the following email addresses.

[REDACTED]

[REDACTED]

Also since I didn't know that I was able to give a personal biography in the first evidentiary hearing, like the alteration specialist did. I can't wait to tell the Regulatory Judge and Ameren Missouri my main focusing careers.

Lets just say, the Federal Government and State work for me. The Federal Government and State Government enjoy the information I give them.

Since Ameren loves giving me surprises, I figured give the favor back in return. That's why I decided to give Ameren the gift that revolves around investigations. I finally followed through and penned a letter to the US Attorney handling Ameren's Rush Island matter. After all the counterfeit documents and an evidentiary hearing full of nothing but lies from Ameren. (Also gave them the names of the parties that participated in fraud)

Oh, another tip, ask the alteration specialist for a specific audio tape around September 2024 of this year for a conversation I had with Ameren Missouri's web support team regarding Ameren's document. Even Ameren's web support team called the "senior software engineers" document a counterfeit.

But that's not important right now. What is important is why Ameren Missouri clearly altered, changed, modified, counterfeit, manipulated and canceled and sent me dated November 19, 2024, even though my payment wasn't due until November 20, 2024 and was only \$ [REDACTED], not \$ [REDACTED].

If my memory serves me correct, if Ameren did actually follow through with their 2 year retention period of "documents" they would have the same documents that agree with me. Wasn't that Banks Law LLC that said, that? I'm sure it was. However, I'm sure Ameren forgot about that already, just like their payment agreement policies.

Surprised that Ameren hasn't rushed for his help again. Maybe he can help Ameren "tweak" their words just a little more.

FYI, about the Federal Government and State Government Statement. I don't work for the Government, nor would I ever impersonate the government. Lets just say that my job requires upon suspicious and clear counterfeit documents or material that I am given that possibly resembles and has been forensically examined as a counterfeit I'm required by law to inform the authorities.

Again, the Federal Government and State Government work for me.

Happy Holidays to Ameren Missouri and I hope they enjoy my gift , I have a feeling they are going to have problems in the near future going forward if they continue their corrupt practices.

Sort of like scamming an elderly senior citizen and telling them AMI Smart Meter Engineering Group is a business and has an owner.

Essentially, the only part to blame and fails to admit responsibility is Ameren Missouri. Until they admit responsibility they are always going to be prone to someone investigating them.

Ameren Missouri owes me back what is mine. They stole from me. I want the money they stole from me prior to the amount being due. Plus all the damages for the eight months.

Ameren Missouri simply doesn't have it in them to tell the truth. Besides that they are a con-artist corporation.

Hopefully they can get their www2.ameren.com email address working, I've been waiting for those documents to come through .

We wouldn't be going through the SAME exact scenario over payment agreements, if Ameren would have been found in violation in the last matter, when I respectfully brought it up for a rehearing and other instances.

Just goes to show that regardless of me being argumentative or nice to Ameren Missouri, they continue the same bad business practices as before. Oh and ask for all the audio tapes from the new account, they'll show who the real aggressor is. It starts with an A and ends with an M.

I promise that this will be my last filing until the Staff report comes out. However, don't be surprised if somewhere along the line I file for subpoenas again. I want those servers, computers and data that Ameren is hiding.

Brett Felber
