The Callaway County Commission visited Cheri Meadows property and do not agree with the Grain Belt express line going over that section of her property and believe it should be moved just south of her property to avoid such a small piece of property.

The Callaway County Commission previously met with representatives from Grain Belt but didn't learn about the route until around the same time Cheri Meadows learned the route and will meet with a Grain Belt representative for the second time at some point in the beginning of December.

Thank you,
