

EC-2025-0165

Oh and if you don't want to be subject to scrutiny and criticism, then design a complaint style that is fair and just towards the complainant as well.

During the time of my complaint, not only was I denied on all my motions, I was denied timely discovery requests, denied at a evidentiary hearing a "senior software engineer" to cross examine and a "line technician."

In addition, Staff and the Commission allowed Ameren Missouri to eclipse three rules and regulations, that doesn't include the numerous allowing to eclipse rules, regulations, tariffs, statutes in other complaints I've had within the Commission.

I've been hearing Ameren's "promise" to do better and miscommunication policy since 2018-2019. Nothings, changed and it is all the same, with these pathological liars, within Ameren Missouri.

It takes a very sick and twisted individual or entity to state, to put out a complaint as long as they possibly go, because a generator is supplying electric to a premises, instead of natural electric services. It also takes a sick individual or entity to produce a counterfeit document with the email address of [www2.ameren.com](mailto:www2.ameren.com), and a Commission to allow utility services to remain off despite bringing it to their attention. Not one occasion, but numerous, and still bringing it up.

Just sick.

I've been subjected to Ameren's numerous "do-overs" since 2018-2019 and still Ameren can't clean their extortion crap up.

Even though I followed all rules, regulations, Statutes, the Commission has allowed Ameren to eclipse those regulations time and time again.

Ameren Missouri isn't allowed anymore do overs, eclipses of rules, regulations, statutes and it is time from Ameren to accept it and admit they are a pathological liar.

I'm going to continue shoving [www2.ameren.com](mailto:www2.ameren.com) in filings until the Commission, Staff, Regulatory Judge and Ameren, of course, admit that [www2.ameren.com](mailto:www2.ameren.com) isn't an email address.

Just like the fraud the Commission has allowed Ameren to conduct.

Ameren is a pathological liar and fake, just like the fake document that never sent, because it never existed.

What you all did was sick, twisted and no more than an extortion plot against me.

I want my due process and that due process comes now. I recommend that Ameren stops with the pathological lying and admits their faults.

I “promise” this will be my last filing. Now I’m going to excuse myself to file a criminal complaint against Ameren to attach to my civil lawsuit that Ameren denies existed out of Sangamon County, that truly exists according to the Sangamon County civil clerks office.

For a company that steals everyone's money and hogs a huge profit. Ameren really isn't as intelligent and they under-estimate the intelligence of people.

As and FYI, I’m not going to tell you if and when I file a criminal complaint. Ameren’s going to have to face that music and time when it comes. It shouldn’t come as a shock if a criminal complaint does or is filed against them.

Nothing more than con artists.
