

EC-2025-0165

Since I didn't get my 28th filing in, I "promised" myself I'd give the grand entry of everything to everyone.

Hey Judge Clark, how is this for you in the exhibit and evidence department?

For a company like Ameren to "proclaim" that I have no relations involved to the mobility and communication industry, the State of North Carolina would certainly disagree.

Let me know when the Commission wants to set a date for hearing, therefore I can expose all their lies, sloppiness, counterfeit documents and their numerous violations and *** kissing to the Commission.

I also appreciate the Commission and Ameren doubting the industries and career fields I'm in. It allows me to continue poking the lies in your stories.

FYI, eventually you'll find out the Commission and Ameren are playing with the person that holds "powers" to get every document that Ameren tries to hide and delete, or counterfeit, forge.
