Re: Application for Designation as an Eligible Telecommunications Carrier for Federal
Universal Service Fund Support, Case No. TO-98-49.

Dear Mr. Wright:

Enclosed for filing with the Missouri Public Service Commission please find revised Appendices C and D. The original Appendices consisting of affidavits of the independent local exchanges carriers comprising the Mid-Missouri Group and the Small Telephone Company Group were attached to the Joint Application filed by those groups on August 1, 1997. It has since been brought to our attention that one of the services provided by the companies was inadvertently omitted. Accordingly, the companies have executed new affidavits which include the service. All of these affidavits are original affidavits with the exception of the affidavits from Goodman Telephone Company, Le-Ru Telephone Company, MoKan Dial, Inc., and Seneca Telephone Company which are fax copies. Originals of these affidavits will be filed as soon as they are obtained. Would you please see that this filing is brought to the attention of the appropriate personnel?

Thank you for your assistance and cooperation in this matter. Copies of these documents are being provided to all parties of record either through hand delivery or by overnight delivery.

Sincerely yours,

BRYDON, SWEARENGEN & ENGLAND P.C.

By: *Sandra Morgan*

I, ORAL GLASCO, of lawful age, being first duly sworn upon my oath, state that I am the MANAGER of ALMA TELEPHONE COMPANY; that I am authorized to execute this Affidavit on behalf of ALMA TELEPHONE COMPANY; and that the facts set forth in this Affidavit and the foregoing Application are true to the best of my knowledge, information and belief.

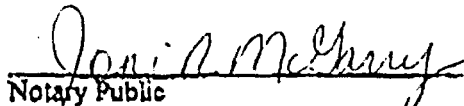

ALMA TELEPHONE COMPANY currently provides the following services as defined in 47 CFR 54.101(a) and 47 CFR 54.400(a) to its Missouri customers:

- a. Voice grade access to the public switched network;
- b. Local usage (to be defined in a future rulemaking);
- c. Dual tone multi-frequency signaling (touch tone);
- d. Single party service;
- e. Access to emergency services, e.g. 911 and F911;
- f. Access to operator services;
- g. Access to interexchange service; and
- h. Access to directory assistance.

ALMA TELEPHONE COMPANY is not at this time able to provide toll limitation for qualifying low-income consumers as that service is defined by the Federal Communications Commission in 47 CFR 54.400(a)(3). While ALMA TELEPHONE CO is able to provide toll blocking, 47 CFR 54.400(a)(4) defines "toll limitation" as both toll blocking and toll control. The company is not able to provide toll control due to the technical inability of our equipment to monitor a customer's bill in order to discontinue service when the charges for service reach a certain amount.

Subscribed and sworn to before me this 25th day of September, 1997.

Kingdom Telephone Co. currently provides the following services as defined in 47 CFR 54.101(a) and 47 CFR 54.400(a) to its Missouri customers:

- a. Voice grade access to the public switched network;
- b. Local usage (to be defined in a future rulemaking);
- c. Dual tone multi-frequency signaling (touch tone);
- d. Single party service;
- e. Access to emergency services, e.g. 911 and E911;
- f. Access to operator services;
- g. Access to interexchange service; and
- h. Access to directory assistance.

Kingdom Telephone Company is not at this time able to provide toll limitation for qualifying low-income consumers as that service is defined by the Federal Communications Commission in 47 CFR 54.400(a)(3). While Kingdom Telephone is able to provide toll blocking, 47 CFR 54.400(a)(4) defines "toll limitation" as both toll blocking and toll control. The company is not able to provide toll control due to the technical inability of our equipment to monitor a customer's bill in order to discontinue service when the charges for service reach a certain amount.

- e. Access to emergency services, e.g. 911 and E911;
- f. Access to operator services;
- g. Access to interexchange service; and
- h. Access to directory assistance.

Rock Port Telephone Company is not at this time able to provide toll limitation for qualifying low-income consumers as that service is defined by the Federal Communications Commission in 47 CFR 54.400(a)(3). While Rock Port Telephone is able to provide toll blocking, 47 CFR 54.400(a)(4) defines "toll limitation" as both toll blocking and toll control. The company is not able to provide toll control due to the technical inability of our equipment to monitor a customer's bill in order to discontinue service when the charges for service reach a certain amount.

PUBLIC SERVICE COMMISSION

I, W. JAY MITCHELL, of lawful age, being first duly sworn upon my oath, state that I am the VICE-PRES of SENECA TEL Co; that I am authorized to execute this Affidavit on behalf of SENECA TEL Co; and that the facts set forth in this Affidavit and the foregoing Application are true to the best of my knowledge, information and belief.

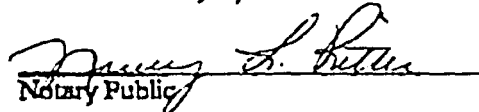

SENECA TEL currently provides the following services as defined in 47 CFR 54.101(a) and 47 CFR 54.400(a) to its Missouri customers:

- a. Voice grade access to the public switched network;
- b. Local usage (to be defined in a future rulemaking);
- c. Dual tone multi-frequency signaling (touch tone);
- d. Single party service;
- e. Access to emergency services, e.g. 911 and E911;
- f. Access to operator services;
- g. Access to interexchange service; and
- h. Access to directory assistance.

SENECA TEL is not at this time able to provide toll limitation for qualifying low-income consumers as that service is defined by the Federal Communications Commission in 47 CFR 54.400(a)(3). While SENECA is able to provide toll blocking, 47 CFR 54.400(a)(4) defines "toll limitation" as both toll blocking and toll control. The company is not able to provide toll control due to the technical inability of our equipment to monitor a customer's bill in order to discontinue service when the charges for service reach a certain amount.
