

EC-2025-0165

Chairwomen Hahn, Commissioner Holseman, Commissioner Kolkmeier, Commissioner Coleman, Judge Clark, Jeff Keevil, Tracy Johnson, Travis Pringle, Contessa King, Sarah Fontaine, Jennifer Hernandez, Aubrey Krcmar, Ameren Missouri.

Did you ever think that sometimes admitting the truth is the best way to essentially and mutually settle all disagreements here? Do you think I keep asking the question is because I deserve an answer to if www2.ameren.com is an email address or not?

I refrained from adding Commissioner Mitchell to that, because he wasn't part of the matter. However, I believe that Mr. Mitchell should know the actual truth, not the fabricated and false lies out of those people name above.

Whether you agree or disagree, I deserve an answer to that question. Being a Commissioner, Judge, Staff employee doesn't exempt you from a yes or no answer about a bogus email address. Furthermore, importantly it doesn't deserve a fabricated delusional story.

At no time has anyone who's name is listed above reached out to me via phone call, or as simple as an email, stating that www2.ameren.com is NOT an email address.

It takes a coward not to admit responsibility, further it takes a coward to develop a delusional story around a bogus email address.

We can talk about the other numerous violations at another date and time, however, I want to focus on www2.ameren.com.

Essentially www2.ameren.com, the fake email address and fake counterfeit, impostor, forged agreement took eight months of utility service that I should have had away from me, because it was an illegal disconnection.

I'm going to leave my document at this. Think about it. If you tell the truth. The question will disappear, however, if you continue to feel the need to fabricate a story or avoid answering the question, then continue to be subjected to me asking that same question over and over again.

I'm simply stating your names because you had the power to intervene, step up and admit the truth, instead a total disregard and allowed Ameren Missouri to keep my utility services off illegally for eight months.

Remember, lies don't go away. However, the truth settles disagreements.

I'm giving an open invitation for those parties named above to reach out to me and discuss the fake email address of www2.ameren.com. That's if we want to settle everything. Otherwise, I'll continue to subject parties to the words.

Think about it.

Brett Felber
