

EC-2025-0165

I also respectfully ask the Commission to order Chairwomen Kayla Hahn recuse herself from any matter involving Ameren Missouri. It would be a conflict of interest and could lead to favoritism of obtaining a favorable decision for Ameren Missouri.

Chairwomen Hahn is on the FRI Advisory Board. Ameren Missouri is a Gold Sponsor to FRI and not only Ameren, but numerous utility companies shelled out over \$400,000.00 towards the election. Guess who was a Gold Star Donor? Ameren Missouri.

It goes back to what is in it for you Ameren Missouri? If Ameren was to be found in violations I have made the Commission aware of, the donor money stops coming in, so Ameren's Gold Star Membership and "donor money would drop.

Ameren and the Commission have lied to me so much, I had to follow the paper trail.

The more I think about it. Former Chairman, Commissioner Rupp was on the FRI Advisory board back in my last matter EC-2023-0395.

In fact, Ameren was able to obtain a favorable decision in that matter. Use a counterfeit document with the bogus address of www2.ameren.com. Eclipse violations, that even the Commissioners listed those violations in the report and order. No discovery granted. Ameren didn't have to produce one document. Staff lied and when cross-examined about the audio tape, changed their story and agreed the audio tape didn't state a date, amount, or the terms of the agreement. Failed to send out a proper 10 day notice. Lied and allowed Ameren Missouri to change and alter the words "settlement agreement and payment agreement to "pending" without a promulgate rule-making.

As an FYI, I obtain Discovery without the consent or needing consent of the Commission ordering it. That is how reputable and good I am at my job and profession. Ameren Missouri is known as a Con Artist in two States. I'm a reputable business in over 35 states and two international countries.

I come to the Commission to get it the proper way. Then I use my legal knowledge and legal resources to get that Discovery legally, outside of the Commission.

My next filing will probably breakdown the itemized lists of kickback, "donor" and lobbying money Ameren Missouri specifically gave each of the Commissioners. Stay tuned for that one.....
