

EC-2025-0165

As another memo, even though I and you already know the real answer to everything. The reason I continue to ask if www2.ameren.com is an email address, is because that brought eight months of an illegal disconnection upon me. So it is only fair, that I continue to ask that question.

Until everyone or anyone answers the question to if www2.ameren.com is an email address or not, then continue to be subjected to that question.

The "system" doesn't allow you to only ask questions. The system allows me to ask questions too.

Never dealt with a bunch of immature lawyers that have a severe pathological lying problem. That is also part of my job, I point out habitual lying attorneys.

If you think you are fooling anyone, you are fooling only yourself. Pathetic.

Now carry on with your delusional story.

Now that I got my point across, I'll let you all continue your internal and external lying game.

I'm going to leave you with this. I won't entertain any other filings by the Commission or Ameren until they answer to question.

Please admit that www2.ameren.com is NOT an email address?

Also let me know when you all figure out your payment agreements, settlement agreements and payment plans.

If you think you are fooling anyone, you really aren't.

More importantly, Judge Clark is the biggest liar of them on. Have fun fixing Ameren's shotty job.

Brett Felber
