

EC-2025-0165

Everyone that lied to me deserves to be subjected to those words. I have no remorse at this point.

If you want me to have remorse, it's called start telling the truth, instead of trying to sell fabricated lies and delusional stories.

I don't issue apologies for people that steal my money, commit theft by deception, mislead people, deceive people, commit extortion, admit to altering, Staff members that admit to clear violations, Staff members that lie during cross examination about an audio tape. Utility companies that verbally and physically on paper alter their wording structure and statements, Fail to disclose conflict of interested parties, such as Commissioners and Ameren executives that are on the same board as one another and make rulings on my matter. Admit to failing to send out 10 day letters, etc. Commissioners who openly admit to allowing Ameren to eclipse rules, regulations and tariffs by openly admitting in a Report & Order. Regulatory Judges that openly admit to violations on numerous occasions, only for Staff and the Regulatory Judge to alter their words 5 minutes later to something else.

If you want me to issue an apology, it starts with everyone who lied admitting to what I just stated above and what is below.

Please admit Ameren Missouri, the Commission, the Commissioners, Staff that [www2.ameren.com](http://www2.ameren.com) is NOT an email address? Ameren Missouri, the Commission, the Commissioners, Staff and Regulatory Judge Clark that these are settlement agreements, payment agreements or payment plans and not "pending" like you allow Ameren Missouri swap, alter, modify and change it to?

The derogatory words reflect, what lies you've told me.

No secrets? Right Judge Clark? I hardly call someone a Judge or a title of Judge if they fail to disclose conflict of interests, prior to a proceeding either.

You reap what you sow. It's called Karma. You Con Artists
