

EC-2025-0165

Oh, and this letter is directly for Corrupt Judge the alteration Clark. Never, ever tell me, how to do my job, or how to conduct my own internal investigation.

Your title of being a Regulatory Judge is misleading. See, in my industry, I'm the Final Boss, so when I ask a specific question such as to for example,

is www2.ameren.com an email address, you answer it. Period. My job, doesn't allow me to allow, especially corrupt lawyers, to get away with not answering the question. I have a clear responsibility in my field when I get a counterfeit document.

While you were playing buddy, buddy and *** kissing the Commissioners, Staff and Ameren's rear, I was playing the discovery game.

The fact of the matter is I've been talking to Ameren's domain hosting company this whole time. Why else would I continue to bring it up?

It is rather simple, if you don't want to be subjected to the question, then you probably shouldn't allow your corrupt friends to use it.

The fact of the matter, is I don't need Motions, Subpoena's, as I get it directly from the source. However, I've been more than generous on time given for parties to answer it. However, there is a point and time, when it needs to be addressed the the appropriate agencies and when that time comes. The Final Boss (me) makes sure those documents end up in their hands.

It is simply illegal to defraud and utterly publish a counterfeit document to deceive or gain money. Which www2.ameren.com did that.

At this point. I want you to recuse yourself from this matter, as you are listed as a party of participating as fraud, and I want to question you on that.

Assign my matter to either the Honorable Judge Pridgin or the Honorable Mrs. Dippell.

In the near future, I recommed you get your act together and clean up your s**t, because the only party you are allowing Ameren to fool, is you and yourself.

As an FYI, the derogatory words, refelect your poor quality and decisions as an acting Regulatory Judge, and that one star review sitting on the PSC's website from my business reflects the ethics of your job. Oh, and I shared that with the media, if you look at the post, because I'm tired of your BS.

Also, I don't get paid to dumb it down to you. I get paid to expose your absolute bs and incredible bs.

Now, I'll let you get back to your imaginary title of "Regulatory Judge."

And yes, I'm calling you out for your involvement with the the corruption.

Now please, please do entertain me with your thoughts, theories, the delusionals stories and abundant lies you want to continue feeding me.

You also have clear mental issues if you think that www2.ameren.com is an email address.

However, keep feeding me the BS, because it's rather entertaining.

Just remember, I want my 10 minutes of talk time on January 23 at 6 pm.

Oh and I'll keep it professional on behalf of my Missourians. Because they deserve the truth.
