

EC-2025-0165

Oh and since Mr. Clark, (hasn't earned the respect of Honorable Judge) doesn't like surprises. Maybe I should start my presentation by asking the other ratepayers, Ameren Missouri, Mr. Clark, the Commission and Staff if www2.ameren.com is an email address? Better yet, maybe we can take a mini-vote and ask ratepayers if www2.ameren.com is an email address.

Since I am speaking on the 23rd of January. That gives Ameren, Staff and the Commission eight days to come clean and admit that www2.ameren.com isn't an email address.

As and FYI, under Federal Law 18 U.S. Code 1341 and 18 U.S. Code 1342 it is illegal for a business to deceive someone by using a fake email address to obtain money, as this constitutes fraud and is considered a violation of those US codes mentioned above, which also covers mail fraud and schemes to defraud; using a fictitious name or address with the intent to deceive explicitly.

fake email address of www2.ameren.com, Ameren Missouri obtained \$ [REDACTED] to deceive me by using a fake email address.

Let me know if you'd like my attorney to file an entry of appearance.

Let's talk Regulation Compliance Mr. Clark, Ameren.

Oh, and if a "senior software engineer" did actually give you that, they f'ed you over, royally. However, I doubt a "senior software engineer" gave Ameren that document, because their filings speak differently.

It starts in the Regulatory Office with their master manipulator and master manipulator counsel.

Oh, so that way the Commission nor Ameren can feed me a delusional story. Here's the exact Federal Statute.

Have fun with your "pretend" Regulatory.

Read up.

And remember, the State and Federal Government love the information I give them. Because I give them the evidence and documents that point towards public corruption. You Con Artists.
