REBUTTAL TESTIMONY

OF

KELLY DORIA

FILE NO. ER-2024-0319

I. INTRODUCTION

1
2 **Q. Please state your name and your business address.**

3 A. My name is Kelly Doria. My business address is One Ameren Plaza, 1901
4 Chouteau Avenue, St. Louis, Missouri 63103.

5 **Q. By whom and in what capacity are you employed?**

6 A. I am employed by Ameren Services as the Senior Director,
7 Communications.

8 **Q. Please describe your employment history with Ameren Missouri.**

9 A. I joined Ameren Services Company in January 2020 as the Senior Director,
10 Communications and have been in that role since.

11 **Q. Please describe your duties and responsibilities as Senior Director,**
12 **Communications.**

13 A. My current responsibilities include oversight of advertising and customer
14 communications (print and digital) for Ameren Missouri, Ameren Illinois and Ameren. I
15 also have responsibility for creative services, communications analytics, budget
16 management, and Digital Communications (managing and updating content on
17 Ameren.com, managing and publishing on our social media channels, and sending emails
18 to customers about programs and services that help them manage their accounts and their
19 energy use).

1 **Q. Please describe your qualifications.**

2 A. I have more than 22 years of experience in communications, public
3 relations, marketing and advertising. Prior to joining Ameren, I spent almost 16 years at
4 Scottrade, a financial services company formerly based in St. Louis. When I left Scottrade,
5 I was the Senior Vice President, Brand Marketing, and had responsibility for
6 communications strategy and planning, digital marketing, public relations and creative
7 services across multiple lines of business. I also have experience as the Vice President,
8 Public Relations, Creative Solutions and Brand Marketing Communications at Commerce
9 Bank, where I led brand, public relations, investor communications, social media, content
10 marketing and creative services. I have also served as an independent marketing consultant
11 to financial services companies. I am experienced in modern marketing and
12 communications and have spent most of my career working in this field. Over the last 5
13 years I have been at Ameren, I have led numerous communications projects for Ameren
14 Missouri customers and am very well versed in Ameren Communications practices. I have
15 a Bachelor of Science degree in Mass Media with an emphasis in Journalism from Missouri
16 State University (formerly Southwest Missouri State University). Prior to beginning my
17 communications career, I worked as a journalist for newspapers in southwest Missouri and
18 St. Louis.

19 **II. PURPOSE AND SUMMARY OF TESTIMONY**

20 **Q. What is the purpose of your rebuttal testimony?**

21 A. The purpose of my rebuttal testimony is to discuss the appropriate
22 classification of Ameren Missouri advertising and the need to communicate with customers
23 about Commission-approved programs. I will also respond to the filed Missouri Public

1 Service Commission Staff ("Staff") testimony of Ben Burton and Office of the Public
2 Counsel ("OPC") Chief Economist Dr. Geoff Marke.

3 **Q. Do you have any general comments regarding why Ameren Missouri**
4 **customers benefit from the advertising of specific programs like Economic**
5 **Development, Renewable Solutions and Community Solar?**

6 A. Yes. All three of the programs mentioned have been approved by the
7 Missouri Public Service Commission. We use advertising as a form of communication to
8 help our customers learn about the programs we offer, to raise awareness of these programs
9 and to give customers and prospective customers the opportunity to enroll or take part in
10 these programs. To say that the Company should not recover the cost of raising awareness
11 about programs that it offers is not reasonable. Company programs are designed for the
12 benefit of Ameren Missouri customers, and they must know about the programs in order
13 to participate in them.

14 **Q. Please describe the criteria Staff used to evaluate Ameren Missouri's**
15 **communications expenditures.**

16 Mr. Burton cites a Commission decision from a 1985 Kansas City Power and Light
17 case. The cost categories established in that order are:

- 18 • General: information that is useful in the provision of adequate service;
- 19 • Safety: advertising which conveys the ways to safely use electricity and to
20 avoid accidents;
- 21 • Promotional: advertising used to encourage or promote the use of
22 electricity;
- 23 • Institutional: advertising used to improve the company's public image; and

1 • Political: advertising associated with political issues.¹

2 **Q. Does Ameren Missouri produce advertisements that fall in all five of**
3 **these categories?**

4 A. No. Ameren Missouri has messages that fall in three categories – general,
5 institutional and safety.

6 **Q. Do you have any other concerns with how Staff categorized**
7 **communications costs for recovery and disallowance?**

8 A. Yes, in some instances.

9 **Q. Please explain.**

10 A. Staff classified some of the Company's expenses as promotional. In doing
11 so, they are recommending disallowance of the cost of the communications needed to reach
12 customers and prospective customers about programs they could benefit from using.

13 **III. SPECIFIC ADVERTISING CAMPAIGNS AND EXPENSES**

14 **Q. Are there specific campaigns that Mr. Burton recommended for**
15 **disallowing that you believe should be included in the Company's cost of service?**

16 A. Yes. I will outline them and explain why we are using this type of advertising
17 to communicate with customers.

18 • **Economic Development**

19 Mr. Burton has recommended a disallowance of \$178,615.51 for the Economic
20 Development campaign. This campaign is used to educate and inform current and
21 prospective business customers about doing business inside of our service territory.

¹ *Re: Kansas City Power & Light Co.*, 28 Mo. P.S.C. (N.S.) 228 (1986)

1 Mr. Burton classified these expenses as promotional expenses. The correct classification is
2 general expenses.

3 The Missouri Public Service Commission has found economic development to be
4 a legitimate benefit to be considered when deciding whether to approve utility programs,
5 including the Company's Renewable Solutions Program. The Commission stated in its
6 Report & Order approving this program:

7 Additionally, the RSP [Renewable Solutions Program] will make Missouri
8 more competitive in attracting and retaining businesses or business
9 expansions, which in turn generates jobs, taxes, other economic benefits and
10 allows the Company to spread its fixed costs over more sales, to the benefit
11 of all customers.²

12 Economic Development messages are targeted to companies that are looking to
13 grow and/or expand their businesses, informing them of the services and incentives offered
14 by Ameren Missouri. Utility services are a leading factor in many companies' decisions on
15 where to do business. Our communications educate customers by using examples (called
16 case studies) of how other businesses have successfully found the services they need at
17 Ameren Missouri. We highlight those businesses and provide links to our Ameren Missouri
18 Economic Development web page, which has additional information and contact
19 information for our team of professionals. Ameren Missouri then brings in additional
20 experts to answer customers' questions and identify ways their businesses can benefit by
21 operating in the Ameren Missouri service territory. Similar to the above statement from the
22 Commission, this investment in business attraction and expansion benefits our
23 communities in the form of job growth, taxes and other economic benefits.

² File No. EA-2022-0245, Report & Order, April 22, 2023, p. 33-34.

1 With the correct classification of all economic development communications, we
2 believe the full \$178,615.51 should be included in the Company's revenue requirement in
3 this case.

4 • **Renewable Solutions**

5 Staff recommended a disallowance of \$27,824.68 for the Renewable Solutions
6 campaign. Mr. Burton classified these expenses as promotional expenses, without
7 explanation. It is more appropriate to classify these communications as general expenses
8 and to include these amounts in the Company's revenue requirement.

9 The Renewable Solutions campaign was approved by the Missouri Public Service
10 Commission on April 22, 2023, in File No. EA-2022-0245. The program is directed at large
11 commercial and industrial Ameren Missouri customers (3M, 4M, 11M rate classes). The
12 Renewable Solutions program allows companies to power up to 100% of their business'
13 energy with renewable energy sources. Subscribing customers pay additional amounts for
14 the right to claim the renewable attributes of the renewable energy sources supported by
15 the program. Those revenues offset the revenue requirement in this case by approximately
16 \$7 million, as described in the testimony of Company witness Steven Wills. Those
17 reductions in the revenue requirement that arise from Renewable Solutions are a very clear
18 benefit to all customers.

19 The program communication is designed to raise awareness and educate customers
20 about the program, and encourages adoption of renewable energy, supporting their
21 individual business goals and Ameren's target of net-zero carbon emissions by 2045, and
22 directly results in the beneficial revenues that lower the revenue requirement. Consistent
23 with the program's goals, our communications target companies that are most likely to have

1 sustainability goals or corporate requirements and provide them energy solutions on how
2 we can help them reach their goals. With the correct classification, the full \$27,824.68
3 should be included in the Company's revenue requirement.

4 • **Community Solar**

5 The Community Solar campaign cost of \$87,772.86 was classified as promotional
6 and recommended to be disallowed. Mr. Burton classified all of the expenses as
7 promotional expenses. They are properly classified as general expenses.

8 The Community Solar program was initially approved by the Commission effective
9 September 8, 2018, in File No. EA-2016-0207. The program was then extended in File No.
10 ET-2020-0022 by Commission order effective June 27, 2020. Both of these cases were
11 resolved by a Stipulation and Agreement and Staff was a signatory to each. The
12 Community Solar campaign targeted residential electric and combo (gas/electric)
13 customers and rate 2M business electric and combo customers. Existing Community Solar
14 subscribers and waitlisted customers were also encouraged to increase their subscription
15 levels based on the new percentage-based program that allows customers to allocate up to
16 100% of their energy use to Community Solar. The goal of the campaign was to drive
17 enough subscriptions for 15 - 35 MW of solar to be built. Subscribers to this program also
18 pay incremental amounts above the level required from their base service classification
19 tariff that are designed to cover the costs of the program resources, ensuring that they do
20 not negatively impact the affordability of service for other customers.

21 With the correct classification, the full \$87,772.86 should be included in the
22 Company's revenue requirement.

1 • **Social Media**

2 The Company submitted the cost of the social media campaign in MSPC data
3 request 0003. Meta (Facebook) and LinkedIn charge based on daily limits set by Ameren
4 Missouri and include a multitude of different posts in the sum of the charge. The social
5 media companies serve each post based on the target audience established by Ameren
6 Missouri while budgets and a schedule dictate how long the posts are available. Each post
7 does not receive equal budget distribution. Ameren Missouri agreed in discussions with
8 Mr. Burton to allow the categorizing by post. In doing so, we also need to review the costs
9 and assign classification based on each post. (Please see Schedules KD-R1 and KD-R2).

10 Mr. Burton did not provide any explanation of how he determined his classification
11 or basis for those decisions. Many of the posts for products and/or services were classified
12 as promotional by Mr. Burton. The Company does not agree with this classification. The
13 intent of the posts was not to encourage the use of more electricity. The posts were intended
14 to raise awareness and educate customers about the product or service.

15 Mr. Burton did indicate that two of the posts were outside of the test year. That is
16 not the case. The posts were created outside of the test year but money for the posts was
17 spent during the test year. These expenses should be allowed.

18 With following the guidance of allowing General and Safety classified messages,
19 the total amount that should be allowed for these posts is \$146,671.31.

20 • **Louie the Lightning Bug**

21 Staff recommends disallowance of the syndication expense for the use of Louie the
22 Lightning Bug. The company uses this syndicated service to promote safety around

1 electricity. Mr. Burton classified these expenses as an institutional expense, without
2 explanation. They should be classified as a safety expense.

3 Louie the Lightning Bug is a syndicated service provided by Moore Syndication.
4 To use the Louie the Lightning Bug material, Ameren Missouri pays an annual fee. This
5 will allow for the use of any of the costumes, website, parade balloons, public service
6 announcements (PSAs) and other communication materials, which helps children learn to
7 be safe around electricity. Louie has been around for four decades and is a widely
8 recognized ambassador of safety. Even Dr. Marke has referred to the safety PSAs in his
9 direct testimony. The total amount spent on Louie the Lightning Bug in the test year was
10 \$5,250 and should be allowed.

11 • **Giveaway Items**

12 Mr. Burton has disallowed all costs of giveaway items. He does not give any
13 explanation for his decision. The company uses giveaways in many ways, from
14 sponsorships to energy assistance events. Typically, the items contain a web address that
15 allows the customer to access additional information that can help them manage their
16 service or account at a time that is convenient for them. These items should be classified
17 as General and be allowed. Below is a vendor proof of each giveaway, the cost of each and
18 a screenshot of the web page we are directing customers to for additional information.
19 Pens – \$1,650.

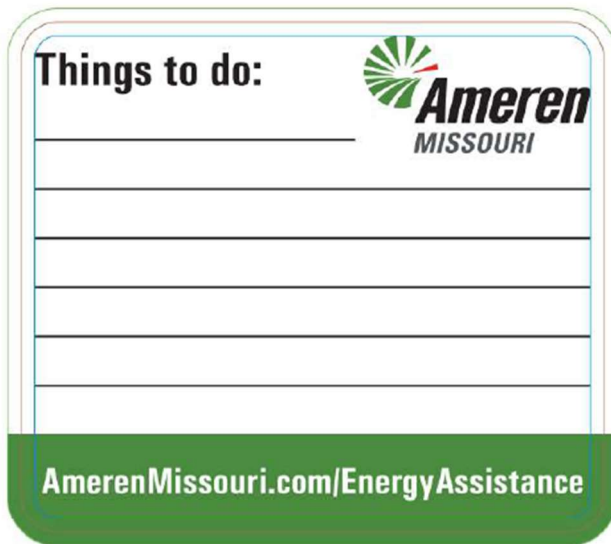

Rebuttal Testimony of
Kelly Doria

1 Pencils -- \$160

2

3 Sticky Notes -- \$298

4

5 Light Bulb Magnets -- \$310

Electric Vehicles

Choose your state

Ameren Illinois

[Learn more >](#)

Ameren Missouri

[Learn more >](#)

Why choose electric?

Lower Costs

In addition to Federal & State Incentives the fuel and maintenance costs for EVs are three to four times cheaper than conventional vehicles.

Charging is Easy and Convenient

EVs can charge overnight or during idle times at home (or at fleet facilities) or charged "on the go" at public stations.

Variety of Models Available

Car and equipment manufacturers are constantly introducing new options to meet all your needs.

Performance Features

EVs can match or surpass the performance of their conventional counterparts, and they're much quieter.

2

3

The total amount of giveaways was \$4,128, which should be allowable.

4

IV. RECOMMENDATIONS BY THE OFFICE OF THE PUBLIC COUNSEL

5

6

Time of Use Public Service Announcement Recommendation

7

Q. Do you agree with the recommendation made in the testimony of Geoff

8

Marke that Ameren Missouri should issue Public Service Announcements ("PSAs")

9

to raise awareness of Time of Use ("TOU") rates?

10

A. No. PSAs are messages in the public interest disseminated by the media

11

without charge to raise public awareness and change behavior. They are mostly used to

12

raise awareness of dangerous or life-threatening events or experiences. Since TOU is a rate

13

option, news outlets would require companies like Ameren Missouri to pay to run these

14

messages.

1 As the Commission is aware, Ameren Missouri communicated to all residential and
2 small business customers about TOU rates when their smart meters were installed using
3 door hangers, direct mail and emails. Beginning thirty days after the installation of their
4 smart meters, customers were then provided additional information to help them choose a
5 rate that fits their lifestyle. A letter was also sent a year after the upgrade to remind
6 customers of the rate options. Ameren Missouri has information on our website readily
7 available to help customers understand their rate options.

8 (<https://ameren.sharefile.com/public/share/web-sf2f1609bc70544d180e7b72c55859136>).

9 In 2024, Ameren Missouri included rate options in their advertising to let customers
10 know about the rate options available to them. While the Company appreciates the
11 creative thinking around ways to improve awareness about its TOU programs, PSAs are
12 not an effective way to communicate this information.

13 **Q. Does this conclude your rebuttal testimony?**

14 A. Yes, it does.

As part of Jewish American Heritage Month, we encourage you to join us in listening to two co-workers share their stories. Hear how their experiences have impacted them both personally and professionally in "Time to Understand." Continue the conversation at https://www.ameren.com/company/careers/diversity/discussions-across-differences/dod-2021 . #OurSharedHeritage	FBPAGE	2023-05-08 09:01:01	300	Institutional Institutional
Dear Lou, We're proud to support you and organizations like @[111475134318915:Once and for All] and @[115601211847306:Beyond Housing] dedicated to making stronger communities.				
Together, we have the power to brighten the future for all: https://www.onceandforall.org/ameren-pledges-1-million-to-support-beyond-housings-once-and-for-all/ .	FBPAGE	2023-07-27 15:42:26	249.98	Institutional Institutional
Since 2004, the @[55701226138:American Heart Association] has educated millions of women about their No. 1 killer: cardiovascular disease. Join us as we support this year's @[52436029740:Go Red for Women] campaign chairperson, and our very own executive vice president, general counsel and secretary Chonda Nwamu. Volunteer Month is in full swing! Thanks to the co-workers participating in the AmerenCares Spring into Action initiative. This group spent the day removing invasive species from the Meramec Greenway for @[172067796262837:Great Rivers Greenway].	FBPAGE	2023-04-25 09:00:04	250	Institutional Institutional

Today's the day! We're stepping up in the fight against cancer during the @[15726030300:American Cancer Society]'s #Fit2BeCancerFree challenge. Join us along with our President and CEO, Marty Lyons, and Sr. EVP & CFO, Michael Moehn, to take strides forward in reducing our risk. Learn more at https://www.cancer.org/about-us/our-partners/ceos-against-cancer.html .	FBPAGE	2023-04-27 14:08:08	250	Institutional	Institutional
Plan before you plant! 4 common mistakes to avoid when planting a tree. #ArborDay	FBPAGE	2023-04-28 09:00:05	299.41	Safety	General
On behalf of the Ameren Military-Veteran Employees (AMVE) ERG, and all of us at Ameren, we recognize and honor those who have served our country, we're grateful to all military personnel for their service. #MemorialDay	FBPAGE	2023-05-26 07:45:57	350	Institutional	Institutional
To help stop the disappearance of pollinator habitats across the country, we're stepping up to create space for bees, beetles, butterflies, bats and birds on our properties. Help us celebrate National Pollinator Week with @[168407595355:Electric Power Research Institute (EPRI)] and learn how your efforts can make an impact too! #PowerInPollinators	FBPAGE	2023-06-20 09:00:01	250	Institutional	Institutional
We're happy to once again be a part of @[109878022414680:Starkloff Disability Institute]'s Dream Big Career Camp, which strives to empower youth with disabilities who are college and/or technical school bound to dream big about their future. The program aims to give students the confidence to explore different career paths and understand the steps necessary to successfully live independently.
