GENERAL EXCHANGE SERVICE TARIFFS  
APPLICATION AND EXPLANATION OF SYMBOLS

A. APPLICATION (T)

These Tariffs apply to the General Telephone Exchange Services of the Green Hills Telephone Corporation, hereinafter referred to as the Telephone Company, in Exchanges of the Telephone Company in Missouri. In the event of any conflict between any rate rule or regulation contained in these General Exchange Service Tariffs and any rate, rule or regulation contained in the Local Exchange Service Tariffs, the rate, rule or regulation contained in the Local Exchange Service Tariff shall apply.

The provision of services and facilities, as provided herein, is subject to the General Rules and Regulations of the Telephone Company, which General Rules and Regulations as they now exist or as they may be revised, added to or supplemented by superseding issues are hereby made a part of these General Exchange Service Tariffs.

These Tariffs cancel and supersede all other Tariffs of the Telephone Company issued and effective prior to the effective date of these Tariffs.

B. EXPLANATION OF SYMBOLS

- (C) Signifies a changed regulation.
- (D) Signifies a discontinued rate, treatment or regulation.
- (I) Signifies an increased rate or new treatment resulting in increased rate.
- (N) Signifies a new rate, treatment or regulation.
- (R) Signifies a reduced rate or new treatment resulting in reduced rate.
- (T) Signifies a change in text but no change in rate, treatment or regulation.

SERVICE CONNECTION CHARGES

(T)

A. General

The term "Service Connection Charges" is used to define the non-refundable charges made for the establishment of a class of telephone service or subsequent additions, moves, or changes to that service.

Service Connection Charges are in addition to any other scheduled rates and charges normally applying under the tariffs. They apply in addition to and not in lieu of Mileage Charges, Installation Charges, or Construction Charges made because of unusual costs in establishing service.

Service Connection Charges are payable at the time application is made for the particular service or facility, and prior to the establishment of service, or upon presentation of a bill. Service may be established in advance of payment in the case of Service Connection Charges for additions to the service of existing subscribers or for Departments, Administrations, and Agencies of the Federal, State, County, Township, or Municipal Governments.

B. Multi Element Charge Plan

Elements Covered:

1. SERVICE ORDER CHARGE  
Covers all work associated with creation and processing of service order, including initial interview with subscriber, work done as to application for service and other permanent records, typing service orders, distribution of service order copies and completion of all other records originating from service orders.
2. CENTRAL OFFICE ACCESS CHARGE  
Covers all work (i.e. central office wiring, programming, or outside wiring) involving the access line extending from the Company's Central Office to the protector and or demarcation point on the subscriber's premises. One charge will apply for each access line. This charge does not anticipate "construction" which is covered in other parts of these tariffs.
3. RESTORAL OF SERVICE CHARGE  
Where service has been discontinued for nonpayment of any charges due or for failure of the subscriber to establish credit in accordance with regulations, the following charges apply for reconnecting all services and facilities being provided a subscriber at one location.
4. PREMISE VISIT CHARGE  
This charge is applicable for each visit to a customer's premises in connection with completion of a service order when requested by the customer. It also covers the labor cost associated with the trip to the premises and any work performed by the Company on its side of the demarcation point.
5. MAINTENANCE OF SERVICE CHARGE  
This charge is applicable for each visit to a customer's premises in connection with a service difficulty when it is determined that the difficulty was due to a condition in a customer-provided terminal equipment or inside wiring.

GENERAL EXCHANGE SERVICE TARIFFS  
SERVICE CONNECTION CHARGES

MAY 23 1968

Public Service Comm.

A. GENERAL

1. The term "Service Connection Charges" is used to define the non-refundable charge made for the establishment of a class of telephone service or subsequent additions to that service.
2. No distinction is made between a "New Installation" and an "Outside Move." All Changes of subscribers' equipment or service from one premises to another (except as otherwise provided under "Inside Moves and Changes") are treated as new service connections with Service Connection Charges applying. (For definition of "Premises" see "Definitions" under General Rules and Regulations Part I.)
3. Service Connection Charges are in addition to any other scheduled rates and charges normally applying under the tariffs. They apply in addition to and not in lieu of Mileage Charges, Installation Charges, or Construction Charges made because of unusual costs in establishing service.
4. Service Connection Charges are payable at the time application is made for the particular service or facility, and prior to the establishment of service, or upon presentation of a bill. Service may be established in advance of payment in the case of Service Connection Charges for additions to the service of existing subscribers and in the case of any service for Departments, Administrations, and Agencies of the Federal, State, County, Township or Municipal Governments.

B. CHARGES

1. Service Connection Charges apply as follows:
  - (a) Where instrumentalities are not in place:  
Main stations; P.B.X. trunks; long distance terminals; private line terminals, tie trunk terminals; and central office lines terminating in Key Equipment each:
 

Business and Semi-Public . . . . .	\$ 5.00
Residence . . . . .	\$ 5.00

- \*EXTENSION STATIONS IN CONNECTION with any of the above services not within the same building or requiring outside additions (separate drop & block terminations) each:
- |                                    |         |
|------------------------------------|---------|
| Business and Semi-Public . . . . . | \$ 5.00 |
| Residence (N) . . . . .            | \$ 5.00 |

SERVICE CONNECTION CHARGES – (Cont'd)

C. Rates

Service Order Charge . . . . .	\$ 8.00
Central Office Access Charge . . . .	\$20.00
Restoral of Service Charge . . . . .	\$14.50
Premise Visit Charge . . . . .	\$30.00
Maintenance of Service Charge . . .	\$30.00

(I)  
 (I)  
 (N)  
 (N)  
 (I)

The charges specified herein do not contemplate work being performed by the telephone company employees at a time when overtime wages apply, due to the request of the customer, nor does it contemplate work once begun being interrupted by the customer. If the customer requests that overtime labor be performed or interrupts work once begun, an additional charge, based on the additional costs involved applies.

(T)

D. Conditions

Service connection charges do not apply to:

1. Directory Listings
2. In the following instances, provided service and facilities are assumed prior to their discontinuance and without lapse in rendition of service or billing for service:
  - (a) A Change of name without a change of ownership.
  - (b) A change of ownership without a change of name.
  - (c) When one member of a family applies for the service previously contracted for by another member of the same family residing in the same household.
3. When a receivership for an existing subscriber is established or terminated.
4. Service changed from a residence to a business classification, or vice versa, without change in the identity of the subscriber.
5. Service re-established after the destruction or partial destruction of the subscriber's premises by means beyond the control of the subscriber whether at the same or another location. However, if service is established at a new location and the subscriber later moves back to the old location, the Service Connection Charge is applied in connection with re-establishment of service at the old location.

\*Rates shown on this tariff sheet are for information purposes only and are not subject to the jurisdiction of the Missouri Public Service Commission.

Public Service Commission

\*A. GENERAL (CONTINUED)

3. CHARGES

FIVE ELEMENT CHARGES ARE AS FOLLOWS:

- (1). Service Order Charge \$4.00
- (2). Trip Charge \$6.00
- (3). Central Office Access Charge (Per Main Line) \$2.50
- (4). Station Handling Charge (Per instrument or item of terminal equipment). \$2.00
- (5). Inside Wiring Charge (Per instrument or item of terminal equipment). \$6.50

The charges specified herein do not contemplate work being performed by the telephone company employees at a time when overtime wages apply, due to the request of the customer, nor does it contemplate work once begun being interrupted by the customer. If the customer requests that overtime labor be performed or interrupts work once begun, an additional charge, based on the additional costs involved applies.

3.1 Reconnect after suspension for non-payment. \$6.50

4. EXEMPTIONS:

- (1). "Public Pay Stations" established for the use of the General Public (but not including coin-box service at locations which are classed as semi-public).
- (2). Service changed from a residence to a business classification, or vice versa, provided there is no change in telephone number.

Service re-established after the destruction or partial destruction of the subscriber's premises by means beyond the control of the subscriber whether at the same or another location, however, if service is established at a new location and the subscriber later moves back to the old location, applicable Five Element Plan Charges are applied in connection with the re-established service at the old location.

GENERAL EXCHANGE SERVICE TARIFFS

SERVICE CONNECTION CHARGES (Continued)

C. SERVICE CONNECTION CHARGES DO NOT APPLY TO:

1. "Public Pay Stations" established for the use of the general public (but not including Coin-Box Service at locations which are classed as Semi-Public.)
2. Private Branch Exchange Switchboards.
3. Service Stations.
4. Battery Supply.
5. Directory Listings or Joint User Service.
6. The following cases, provided service and facilities are assumed prior to their discontinuance and without lapse in rendition of service or billing for service:
  - (a) A change of name without a change of ownership.
  - (b) A change of ownership without a change of name.
  - (c) When one member of a family applies for the service previously contracted for by another member of the same family residing in the same household.
7. When a receivership for an existing subscriber is established or terminated.
8. Service changed from a residence to a business classification, or vice versa, without change in the identity of the subscriber.
9. Changes in the grade of service, i.e. changes from individual line to party line service or vice versa.
10. Service re-established after the destruction or partial destruction of the subscriber's premises by means beyond the control of the subscriber whether at the same or another location. However, if service is established at a new location and the subscriber later moves back to the old location, the Service Connection Charge is applied in connection with the re-establishment of service at the old location.

A. DEMARCATIION POINT

The point of connection, provided and maintained by the telephone utility to which the inside station wiring becomes dedicated to an individual customer's use. For an individual customer dwelling, this point of connection will generally be immediately adjacent to the protector or the customer's side of the protector. The drop and block, including the protector, will continue to be provided by and remain the property of the telephone utility.

Where the connection between the Company's serving wire center and the customer's end user premises is by fiber optical cable, the demarcation point may be an Optical Network Terminal ("ONT").

GENERAL EXCHANGE SERVICE TARIFFS  
INSIDE MOVES AND CHANGES (Continued)

a. In the case of private branch exchange equipment for which the initial contract period is for a number of years at the same location, the customer is given the choice of arranging for the change of location on the same or to a different premises in the same exchange area, by one of the following methods and regardless of whether or not the initial contract period has expired.

- (1) By terminating the contract for service at the old location, and signing a new application for a five year period at the new location. In this case, the customer is required to pay the sum of any termination charges which may be applicable, plus the not in place service connection charges which would apply in case of a new installation.
- (2) By paying the cost of making the change in location, including the cost of removing all of the equipment from the old location and the cost of installing the equipment at the new location. In this case the contract period is not affected.

C. Change Charges

1. (T) A change is substitution of a different type, style, or color of telephone equipment or a rearrangement of equipment as wiring which does not involve a change in location of the instrument.

2. Charges for changes in telephone equipment or wiring, made at the initiative of the customer, except as otherwise provided in this section, apply as follows:

Company owned Station in Exchange Area

A. (T) Changes in style, color or type of telephone Stations made on the same premises or in the same building for a subscriber at one time, each station \$ 2.00

GENERAL EXCHANGE SERVICE TARIFFS

E. MISCELLANEOUS EQUIPMENT

RECEIVED

JAN 20 1961

MISSOURI  
Public Service Comm.

A. Booths

Monthly Rate

Standard type, each  
Special type, each

\$ 1.50  
Based on Cost

The customer on whose premises a telephone booth is to be located is required to furnish, maintain and assume all responsibility for the necessary power wiring and power outlet at the location where the booth is to be installed, and to provide the electric current required to properly light and ventilate the booth and shall be responsible for the safe condition of the booth in respect to such wiring, outlets and current.

B. Buzzer Circuits

1. Push button and buzzer or bell equipment including battery supply or power transformer is furnished and maintained by the Telephone Company at the following charges for each associated group.

Monthly Rates

- (a) Push Buttons, each
- (b) Buzzer, or 3 inch bells, each
- (c) Installation charge for each 50 feet of circuit or fac-tion thereof.

\$ .25  
\$ .35  
\$ 2.00

Note: When power transformers are used, the subscriber is required to furnish the power and wire it to the transformer at his expense.

2. In lieu of the above, the subscriber may provide and maintain his own buzzer circuits and buzzer or bell equipments.

E. Extension and Auxiliary Signals (1)

MISSOURI  
Public Service Commission

1. Extension and Auxiliary Signals are designed to supplement or replace, the usual station ringers where such ringers do not furnish a sufficient volume of sound, or where a visual signal is desired in addition to or in place of an audible signal.
2. Such signals operated by ringing current are furnished in connection with all classes of service (except coin).
3. Extension and auxiliary signals operated by commercial power are designed to be used on 110 volts, 60 cycle alternating current. Except for extension bells which are operated by ringing current, the power for operating the signals is furnished by the subscriber and is obtained from convenient outlets furnished, installed and maintained by the subscriber.
4. The rates herein quoted contemplate the use of standard equipment and that it be located on the same premises and within 250 feet of the main station. When equipment of a special type is desired, the charges will be based upon the costs involved to meet the individual requirements of each case.

MISCELLANEOUS EQUIPMENT (continued)

E. Extension and Auxiliary Signals (continued)

- 3. Extension and Auxiliary Signals operated by commercial power are designed to be used on 110 volts, 60 cycle alternating current or 110 volts direct current. Except for extension bells which are operated by ringing current, the power for operating the signals is furnished by the subscriber and is obtained from convenient outlets furnished, installed, and maintained by the subscriber.
- 4. The rates herein quoted contemplate the use of standard equipment and that it be located on the same premises and within 250 feet of the main station. When equipment of a special type is desired, the charges will be based upon the costs involved to meet the individual requirements of each case.

DIRECTORY ASSISTANCE SERVICE

A. CONDITIONS

- 1. Directory Assistance (DA) Service is defined as furnishing telephone numbers and/or addresses. The Directory Assistance charges specified in this tariff apply when a customer dials 411 or 1411 and requests the telephone numbers and/or addresses of other customers within an exchange served by the Company (i.e., Local DA) or within the United States (i.e., Non-Local DA).
- 2. A maximum of two telephone numbers and/or addresses will be provided with each DA call (except for non-published/unlisted numbers).
- 3. The Company will provide call completion if requested by the customer for Non-Local calls.

(N)(C)

B. RESIDENCE AND BUSINESS RATES\*

	<u>Rate</u>
1. Local and Non-Local DA	\$1.00 per call
2. Call completion for Non-Local calls	\$0.25 per minute **

(N)(C)

\* Rates shown on this tariff are for informational purposes only and are not subject to the jurisdiction of the Missouri Public Service Commission.

\*\* All calls are billed at 1-minute minimums and 6-second increments thereafter.

## OPERATOR SERVICES

## Directory Assistance Services

(C)

## A. Directory Assistance Rate Structure

Charges for Directory Assistance (DA) and all other DA services are assessed on a flat rate per call, regardless of call duration.

## B. Directory Assistance Call Processing

Where technically feasible and/or available, customer's presubscribed interexchange carrier (PIC) will provide the following DA Services when an end user served dials 411, 1-411, HNP+555-1212, or 1+555-1212 regardless of whether Operator Services are also requested.

1. Local Directory Assistance. Consists of providing published name, address and telephone number to the dialing end user.
2. Directory Assistance Call Completion (DACC). A service in which a local or an intraLATA call to the requested number is completed on behalf of the DA end user, utilizing an automated voice system or with operator assistance.
3. National Directory Assistance (NDA). A service whereby callers may request Directory Assistance outside their LATA or local calling area for any listed telephone number in the United States.
4. Reverse Directory Assistance (RDA). A service consisting of providing listed local and national name and address information associated with a telephone number provided by the individual originating the call.
5. Business Category Search (BCS) (Where Available). A service in which the end user may request business telephone number listings for a specified category of business, when the name of the business is not know. Telephone numbers may be requested for local and national businesses.

## C. Residence and Business Rates

1. All DA services are provided by customer's presubscribed interexchange carrier (PIC).
2. DA services rates are determined by the interexchange carrier.

(C)

Rates shown on this tariff are for informational purposes only and are not subject to the jurisdiction of the Missouri Public Service Commission.

OPERATOR SERVICES

Local Directory Assistance Service

MO. PUBLIC SERVICE COMMISSION

A. General Regulations

Directory Assistance service is defined as furnishing aid in obtaining telephone numbers. The Directory Assistance charges specified in this tariff apply when a customer within Missouri request the telephone numbers of other customers within the same LATA.

B. Conditions

- 1. All accounts are entitled to three free direct dialed calls per month to Directory Assistance service for each individual access line.
- 2. Call allowances are not transferable between accounts.
- 3. For the purposes of administering this tariff the full allowance will apply for service on record as of the customer's billing date.
- 4. Rates specified in C.1. below are not applicable to:
  - Calls placed from hotels and motels.
  - Calls placed from hospitals.
  - Calls placed from residence telephones where a member of the customer's household has been certified by a qualified authority as unable to use a directory or from the business telephone of a certified customer where other assistance is not available. A qualified authority is defined as including doctors of medicine, ophthalmologists, optometrists, registered nurses, therapists, professional staff of hospitals, institutions and public welfare agencies. Certification of physical disability sufficiently severe to prevent reading or using conventional reading or using conventional reading materials may also be made by professional librarians or by any person whose competence in this area is acceptable to the Librarian of Congress of the United States.
  - Calls from certified exempt customers and charged to their Calling Card.

C. Residence and Business Rates

- 1. Customer originated calls (maximum of two requests per call), each ..... \$ .40
- 2. Customer originated calls (maximum of two requests per call) billed to a calling card or third number, each ..... \$1.45

FILED AUG 1 1999

Busy Verification and Interrupt Service

A. General

Upon request of a calling party, the Operator will verify a busy condition on a called line. An operator will determine if the line is clear or in use and report to the calling party. In addition, the operator will intercept an existing call on the called line if the calling party indicates an emergency and requests interruption.

Rates shown on this tariff are for informational purposes only and are not subject to the jurisdiction of the Missouri Public Service Commission.

Intercept Service

MO. PUBLIC SERVICE COMMISSION

A. General

1. Intercept Service provides a service to local exchange business and residence customers who have requested their service be discontinued because they have moved to a new location or requested a change in their telephone number. Dialing the customer's former number results in a prerecorded message which announces the new number.
  2. Intercept Service is offered to residence and business customers subject to the availability of suitable facilities.
3. Intercept Service will not be provided to customers disconnected for non-payment.
4. On Company initiated telephone number changes, the charge will not apply, and the telephone number will be intercepted for the life of the directory.
5. At the time the customer places the request for a change in their telephone number, the customer must notify the Company of the number of days, up to the life of the directory, for calls to be intercepted and referred.

B. Rates and Charges

This service is offered free of charge to all eligible customers for a period of 30 days following the discontinuance of service. The following rate is in addition to any other applicable rates and charges shown in the tariff's of the Company.

G. JACK AND PLUG EQUIPMENT

1. Jack and Plug Equipment is available in connection with all classes of service, except Coin Box Service. All jacks on a line must be on the same premises.
2. The maximum number of jacks permitted for any one main station or P.B.X. station is 5. The number of portable and permanently connected telephones allowed on any one line shall not exceed the number of permanently connected telephones permitted for the class of service involved. (See Section I, Extension Stations.)
3. Portable telephones (equipped with plugs) are connected only as extension stations, the main station being permanently connected with the line.
4. One bell permanently connected to the line is provided without additional charge for each portable telephone. Bells in excess of the allowance and other than those associated with stations permanently installed, are bridged to the line at the regular rate for extension bells. Not more than 3 bells are permitted on any one line.
5. Mounted spring jacks of flush or non-flush type and associated wiring will be furnished at an installation charge of \$7.50 each. Conduit & outlet box furnished & installed by customer, charge will be made of \$5.00 each.

H. JOINT USERS

Joint User Service, including one listing in the directory, is furnished at the following rates for each joint user, per month:

Business Individual Line 40 per cent of individual  
Service business line rate computed to  
the next higher multiple of 25¢.

Residence Individual Line 40 per cent of individual  
Service residence line rate computed to  
the next higher multiple of 25¢.

**GENERAL EXCHANGE SERVICE TARIFFS**

**MISCELLANEOUS SERVICES AND FACILITIES (CONT'D)**

**I. Reserved for future use.**

**J. Special Construction and Facilities**

The Telephone Company will provide an estimate of actual charges to the customer prior to the start of construction.

The customer will provide the Company without charge written permission for the placing of the Company's facilities on the property.

Where no facilities are in place, the Company will build and extend facilities at prices to be determined on an individual case basis.

Ownership of all facilities constructed under this section up to the demarcation point will remain with the Telephone Company.

Special Construction is that construction undertaken:

1. where facilities are not presently available, and there is no other requirement for the facilities so constructed;
2. of a type other than that which the Company would normally utilize in the furnishing of its services;
3. over a route other than that which the Company would normally utilize in the furnishing of its services;
4. in a quantity greater than that which the Company would normally construct;
5. on an expedited basis;
6. on a temporary basis until permanent facilities are available;
7. in advance of its normal construction;
8. involving abnormal costs.

Where the Company furnishes a facility on a special construction basis, charges will be based on the costs incurred by the Company and may include: (1) partial or full payment in advance; (2) non-recurring type charges; (3) recurring type charges for contract periods longer than one month; (4) termination liabilities; or (5) combinations thereof.

**GENERAL EXCHANGE SERVICE TARIFFS**

**MISCELLANEOUS SERVICES AND FACILITIES (CONT'D)**

**K. Extension Stations.**

Detached extension stations are provided upon customer request on the customer's premises or at off-premises locations only if facilities are available. Customers may be required to reimburse the Company for a portion of the construction costs according to the rules and regulations as specified in Special Construction Charges section of this Tariff. In the case of off-premise extensions, primary exchange service must be established at the same location as the detached extension.

- Extension service is not available if cable route is over 500 feet.
- Extension service is not available where facilities must be bridged/joined in the Central Office.

(N)  
(D)  
(D)

Mileage charges apply for each extension station that is located in a different building on the same premise and over one hundred fifty feet (150') from the main station and for all off-premise extension outlets.

See "Mileage Charges" section of this Tariff below for applicable rates.

**L. Mileage Charges**

Mileage rates apply for extending standard voice grade intra-exchange service between locations on the same premises, or between premises where adequate facilities exist. The rates and charges contained herein are in addition to all other applicable rates and charges located in other parts of this tariff, such as Special Construction.

Detached Extension Mileage

Below is the rate for a detached extension, airline mileage measurement via the central office if that route is necessary.

	<u>Monthly Rates*</u>
a. Between buildings on different premises	
First ¼ mile or fraction thereof	\$4.00
Each additional ¼ mile	\$2.00
b. Between buildings on the same premises	
First ¼ mile or fraction thereof	\$2.00
Each additional ¼ mile	\$1.00

\* Rates shown on this tariff sheet are for informational purposes only and are not subject to the jurisdiction of the Missouri Public Service Commission.

GENERAL EXCHANGE SERVICE TARIFFS  
OPTIONAL SERVICES AND FEATURES

RECEIVED

A. Description

FEB 23 1997

Optional Services and Features are services which provide special features from exchange areas where the central offices are appropriately equipped, and are in addition to basic telephone services. (N)

MISSOURI  
Public Service Commission

The rate and charges for these features are in addition to all other applicable rates and charges in other parts of this tariff.

1. Feature Descriptions

Automatic Callback

Repeat Dialing, when activated, automatically redials the last number the customer attempted to call. If the called line is not busy, the call will be placed. If the called line is busy, a confirmation announcement is heard, the customer hangs up and a queuing process begins. For the next 30 minutes, both the calling and called lines are checked periodically for availability to complete the call. If during the queuing process the called line becomes idle, the customer is notified, via a distinctive ring, that the network is ready to place the call. When the customer picks up the telephone, the call will automatically be placed.

Automatic Recall

This feature enables a customer to place a call to the telephone number associated with the most recent call received, whether or not the call was answered or the number is known. The customer can dial a code to request that the network place the call.

If the called line is not busy, the call is placed. If the called line is busy, a confirmation announcement is heard, the customer hangs up, and a queuing process begins. For the next 30 minutes, both the calling and the called lines are checked periodically for availability to complete the call. If during this queuing process the called line becomes idle, the customer is notified, via a distinctive ring, that the network is ready to place the call. When the customers picks up the telephone, the call will automatically be placed.

Call Forwarding

Permits a subscriber to have all incoming calls forwarded to another preselected number. Calls may be transferred to any other location providing the necessary facilities are available in the central office from which the calls are to be transferred. Customers utilizing this service are responsible for the payment of each toll call charge that may be incurred.

Call Waiting

Permits a subscriber to who is using the telephone to be alerted that another call is waiting by receiving an audible tone signal. The called party may put the existing call on hold and connect to the waiting call.

Public Service Commission

A. Description (Continued)

1. Feature Descriptions (Continued)

Calling Number Identification

This feature enables the customer to view on a display unit the Directory Number (DN) on incoming telephone calls.

When Caller ID is activated on a customer's line, the Directory Numbers of incoming calls are displayed on the called CPE during the first long silent interval of the ringing cycle.

Any GREEN HILLS TELEPHONE CORP. calling party may prevent the delivery of the calling party number (CPN) to the called party by dialing an access code immediately prior to placing a call. The access code activates per call blocking. Per call blocking is available at no charge. The blocking of CPN will not be provided on calls originating from public, semi-public or customer-owned and coin operated telephone.

Per line blocking for the delivery of the calling number is available upon request, at no charge, to the following entities for lines over which the official business of the agency is conducted, where an executive officer of the agency registers a need for blocking and provides the required certification to GREEN HILLS TELEPHONE CORP. (a) private, nonprofit, tax exempt, domestic violence intervention agencies and (b) federal, state, and local law enforcement agencies. The calling number will not be transmitted from a line equipped with this capability. Per line blocking is operational on a continuous basis but can be deactivated by the customer by dialing an access code immediately prior to placing a call.

Any customer subscribing to Caller ID will be responsible for the provision of a display device which will be located on the customer's premises. The installation, repair, and technical capability of that equipment to function in conjunction with the feature specified herein will be the responsibility of the customer. The Company assumes no liability and will be held harmless for any incompatibility of this equipment to perform satisfactorily with the network features described herein.

Caller ID - Name and Number

This feature enables the customer to view on a display unit the Name, as well as the Directory Number (DN), associated with the calling party on incoming telephone calls.

When Caller ID - Name and Number is activated on a customer's line, the Name associated with the Directory Number of a incoming call is displayed on the called CPE during the first long silent interval of the ringing cycle.

If the calling telephone number and name are not available for forwarding to the called party, a message indicating unavailability will be forwarded.

A. Description (Continued)

1. Feature Descriptions (Continued)

MISSOURI  
Public Service Commission (N)

Caller ID/Calling Number

This feature enables the customer to view on a display unit the Directory Number (DN) on incoming telephone calls.

When Caller ID is activated on a customer's line, the Directory Numbers of incoming calls are displayed on the called CPE during the first long silent interval of the ringing cycle.

Any GREEN HILLS TELEPHONE CORP. calling party may prevent the delivery of the calling party number (CPN) to the called party by dialing an access code immediately prior to placing a call. The access code activates per call blocking. Per call blocking is available at no charge. The blocking of CPN will not be provided on calls originating from public, semi-public or customer-owned and coin operated telephone.

Per line blocking for the delivery of the calling number is available upon request, at no charge, to the following entities for lines over which the official business of the agency is conducted, where an executive officer of the agency registers a need for blocking and provides the required certification to GREEN HILLS TELEPHONE CORP. (a) private, nonprofit, tax exempt, domestic violence intervention agencies and (b) federal, state, and local law enforcement agencies. The calling number will not be transmitted from a line equipped with this capability. Per line blocking is operational on a continuous basis but can be deactivated by the customer by dialing an access code immediately prior to placing a call.

Any customer subscribing to Caller ID will be responsible for the provision of a display device which will be located on the customer's premises. The installation, repair, and technical capability of that equipment to function in conjunction with the features specified herein will be the responsibility of the customer. The Company assumes no liability and will be held harmless for any incompatibility of this equipment to perform satisfactorily with the network features described herein.

Customer Originated Trace

Customer Originated Trace enables the customer to initiate an electronic trace of the last call received.

Upon activation by the customer, the network automatically sends a message to the Company indicating the calling number, the time the call was received, and the time the trace was activated. The customer using this feature would be required to contact the local business office for further action. The customer is not provided the traced number. The results of a trace will be furnished only to legally constituted authorities upon proper request by them.

Rates

1. Handsets for the Hard of Hearing

Handset telephones will be furnished, when available, equipped with a locking button which can be operated to raise the incoming voice level approximately 12db. above normal, at the rate in addition to the rate for standard handset. Each \$ 1.50

2. Handset telephones will be furnished, when available, equipped with a non-locking control button which can be operated to raise the incoming voice level approximately 12db. above normal and also reduce sidetone by shunting the transmitter with a condenser, at a rate in addition to the rate for standard handset. Each \$ 1.50

R. SPECIAL REVERSE CHARGE TOLL SERVICE

1. Special Reverse Charge Toll Service provides a service whereby a subscriber in one exchange arranges that patrons in one or more other exchanges may call him without toll charges and without requesting that charges be reversed.
2. The Telephone Company assigns and lists in the directory a special call number designation for the use of patrons in each exchange in which the service is to be furnished. One directory listing for each such exchange is provided without extra charge.
3. Directory listings in connection with this service ordinarily will include the name of the subscriber, his business designation, his city, his special number, and instruction to ask Long Distance for the special number. Where the subscriber so desires, the phrase "No Toll Charge" also be included.

Customer Originated Trace

Customer Originated Trace enables the customer to initiate an automatic trace of the last call received.

Upon activation by the customer, the network automatically sends a message to the Company indicating the calling number, the time the call was received, and the time the trace was activated. The customer using this feature would be required to contact the local business office for further action. The customer is not provided the traced number. The results of a trace will be furnished only to legally constituted authorities upon proper request by them.

Only calls from appropriately equipped and technically capable area are traceable using Customer Originated Trace.

This feature will not work if the incoming call is from a telephone number in a multi-line hunt group, unless the telephone number is the main telephone number in the hunt group, or is Telephone Number identified.

If the customer makes or receives another call after hanging up from the annoying call, prior to activating the trace, Customer Originated Trace will not record the correct number.

Selective Call Acceptance

This feature provides the customer the ability to screen incoming calls against a list of up to thirty-one subscriber-specified directory numbers and then accepts any calls only from those specified directory numbers.

A screening list is created by the customer either by adding the last number associated with the line (incoming or outgoing), or by pre-selecting the telephone numbers to be accepted. When a call is placed to the customer's number from a number not on the screening list, the call receives an announcement indicating that the party he is attempting to call does not wish to receive calls at this time.

This feature will not work if the incoming call is from a telephone number in a multi-line hunt group, unless the telephone number is the main telephone number for the hunt group, or is telephone number identified.

Selective Call Forwarding

Selective Call Forwarding allows the customer to transfer selected calls to another telephone number. A screening list of up to thirty-one numbers is created by the customer and placed in the network memory via an interactive dialing sequence. Subsequently, calls are forwarded to the Call Forwarding telephone number only if the calling number can be obtained and is found to match a number on the screening list.

Selective Call Forwarding (Continued)

If the customer also subscribes to Selective Call Rejection and the same telephone number is entered on both screening lists, the Selective Call Rejection features must be deactivated to allow the call to forward.

This feature will not work if the calling line is not referenced to and originated by the main telephone number, or an identified telephone number that represents all the lines in a collection of lines such as multi-line hunt groups.

Selective Call Rejection

This feature provides the customer the ability to prevent incoming calls from up to thirty-one different telephone numbers.

A screening list is created by the customer either by adding the last number associated with the line (incoming or outgoing), or by pre-selecting the telephone numbers to be blocked. When a call is placed to the customer's number from a number on the screening list, the caller receives an announcement indicating that the party he is attempting to call does not wish to receive calls at this time.

If the customer also subscribes to Selective Call Forwarding and/or Selective Distinctive Ringing \ Call Waiting and the same telephone numbers appear on those screening lists, Selective Call Rejection will take precedence.

This feature will not work if the incoming call is from a telephone number in a multi-line hunt group, unless the telephone number is the main telephone number for the hunt group, or is telephone number identified.

Selective Distinctive Ringing \ Call Waiting

Selective Distinctive Ringing \ Call Waiting provides a distinctive ringing pattern to the subscribing customer for calls received from specific telephone numbers.

The customer creates a screening list of up to thirty-one telephone numbers through an interactive dialing sequence. When a call is received from one of the predetermined telephone numbers, the customer is alerted with a distinctive ringing pattern (short, long, short). Calls from telephone numbers not included on the screening list will produce a normal ring.

If the customer subscribes to Call Waiting in Section 2 of this Tariff and a call is received from a telephone number on the Selective Distinctive Ringing \ Call Waiting screening list while the line is in use, the Call Waiting tone will also be distinctive.

1. Feature Descriptions (Continued)

MISSOURI  
Public Service Commission

Selective Distinctive Ringing \ Call Waiting (Continued)

When a telephone number on the Selective Distinctive Ringing \ Call Waiting screening list also appears on the Selective Call Forwarding list, the Selective Call Forwarding will take precedence. Likewise, when the same number is shown on the Selective Call Rejection list, the call will be blocked.

A customer's line will not produce a distinctive alert if the calling line is not referenced to and originated by the main telephone number or an identified telephone number than represents all the lines in a collection of lines, such as multi-line hunt groups.

Speed Calling

Permits a subscriber to place calls to other telephones numbers by dialing a one or two digit code rather than dialing the complete telephone number.

Three Way Calling

Permits a subscriber to add a third party to an existing call, thereby establishing a three-way conversation. Transmission qualities could be affected depending on the distance involved in the routing of the connected parties.

Toll Access Restriction

(N)

Toll Access Restriction provides a means of restricting access to the Long Distance Message Network. Three options are available to the customer:

- a. Restriction of 1+ calls only.
- b. Restriction of 1+ calls and 0+ and 0- (operator handled) calls, except 8XX IN-WATS.
- c. Restriction of 1+, 0+, 0- and 8XX IN-WATS where facilities allow.

Restriction of 0+ and 0- operator handled calls prevents the customer from dialing a long distance telephone number or telephone operator for any purpose including for emergency or telephone assistance purposes. The Company shall not be liable to the customer or any third party for any and all claims, losses or damages caused by the restriction to any toll service.

Customers must apply in writing for the establishment of Toll Access Restriction.

The appropriate non-recurring charges will apply to establish service.

The rate for this service will be charged on a monthly basis

Three Way Calling

Permits a subscriber to add a third party to an existing call, thereby establishing a three-way conversation. Transmission qualities could be affected depending on the distance involved in the routing of the connected parties.

B. General Regulations

1. Optional Services and Features are provided subject to the availability of facilities. Additionally, the features described will only operate on calls originating and terminating within appropriately equipped offices, or similarly equipped offices of interconnecting Local Exchange Companies. Also, feature screening lists can only contain telephone numbers of subscribers served out of service capable offices.
2. Optional Services and Features are available to all one party customers who have Rotary or Push Button service. The Caller ID feature is available to one party residence and business customers.
3. Optional Services and Features cannot be provisioned on an originating basis with Company provided Public, Semi-Public, Customer Owned and Coin Operated Telephone Service, Trunks, or some Remote Switching Locations.

(1) Only one Service Connection Charge applies per section 2 of this tariff when more than One Distinctive Ring Number is ordered or changed simultaneously.

- Rates and charges shown on this tariff sheet are for informational purposes only and are not subject to the jurisdiction of the Missouri Public Service Commission.

4. Special Construction

When the customer desires a type of construction other than that which the telephone company would normally provide (i.e., concealed wiring, etc.), or where abnormal cabling conditions exist (i.e., solid abutments, special insulation, etc.), charges based on labor and material cost of the installation shall apply.

5. Standard Provisions

a. Signaling - Each telephone within the system may be equipped with a bell or buzzer to be used for either the main central office lines or the intercom line. Signals in excess of one bell or buzzer at any one location will be provided on an additional charge basis.

b. Power Supply - The telephone company will provide the battery supply required for operation of the multiline telephone systems and luminous keys in the base of the telephone instrument, the customer will be required to furnish, install, and maintain the commercial power, wiring, power outlet, and electric energy required to operate the battery supply.

c. Common Equipment: Multiline System

1. Expandable line capacities to six lines.
2. Illumination - flashing incoming, steady busy, and wink hold.
3. Hold - line and station.
4. Signaling - common audible for incoming calls.
5. Pick-up - line and station.
6. Power - for signaling and illuminations.
7. Interrupted ringing.

GENERAL EXCHANGE SERVICE TARIFFS  
MISCELLANEOUS SERVICE AND FACILITIES

**W. WIRING PLANS - KEY SYSTEMS**

1. **GENERAL:** A key telephone system enables the subscriber to pick up on two (2) or more central office lines which are on automatic trunk hunting; hold on each central office line; and manual or automatically (dial) signal one or more extension stations associated with the key telephone system. The key telephone system also offers lamp flash on incoming calls, a steady lamp to indicate a line in use and a wink signal to indicate a line on hold. The general exchange rules and regulations hereof apply to key telephone systems, as do the general exchange charges for installations, moves, changes and other miscellaneous charges.
2. **BASIC UNIT:** The basic unit key telephone system shall consist of two (2) central office lines on automatic trunk hunting (which entitles the subscriber to two (2) main stations) on incoming calls, two (2) line and two (2) holding keys on central office lines.
3. **ADDITIONAL CENTRAL OFFICE LINES (Main Stations):** The basic unit is capable of being expanded from the minimum of two (2) central office lines.
4. **EXTENSION STATIONS:** Extension stations are additional telephones installed and connected to the key telephone system, each of which will have:
  - A. Access to all central office lines
  - B. Access to manual intercom circuit (if equipped)
  - C. Lamp and hold features identical to the basic unit main stations
5. **DIAL INTERCOM:** Dial intercom enables any main or extension station to selectively signal any other main or extension station by dialing the proper number for the desired station.

A. Description (Continued)

1. Feature Descriptions (Continued)

Toll Access Restriction With PIN

Toll Access Restriction With PIN (Personal Identification Number) is a service allowing customers to block all the outgoing toll calls unless the PIN number is entered before dialing. Outgoing toll calls as referred to in this tariff include all 1+, 0+, 0-, and international calls. This service is available to all residential and business customers. It is not available for public, non-public, or customer owned pay telephones.

A service connection charge will apply to each request to change the PIN (Personal Identification Number).

(N)

(N)

Warm Line

Warm Line is an feature which gives the customer 30 seconds after going off-hook to dial a number before it automatically dials a predestinated number. This feature allows the customer to use the telephone line normally, but to go to a designated number by simply staying off-hook.

Call Forwarding – Busy

Allows a customer engaged in a telephone conversation to have incoming calls routed to another predetermined number. The customer purchasing the Call Forwarding feature is responsible for payment of all charges for each call between his call-forwarding-equipped telephone and the telephone to which the call is forwarded.

(N)

Call Forwarding – No Answer

Allows automatic transfer of all incoming calls, not answered within a prescribed time, to another number. The customer purchasing the Call Forwarding feature is responsible for the payment of all charges for each call between his call-forwarding-equipped telephone and the telephone to which the call is forwarded.

REC'D FEB 15 2002

Service Commission

A. Description (Cont'd)

1. Feature Descriptions (Cont'd)

Distinctive Ring Service

Distinctive Ring allows a customer to establish up to two telephone numbers on the same local exchange access line and distinguish calls to each number by a distinctive ringing pattern. The billing number is called the Primary Number and additional associated telephone number is called Distinctive Number. A customer may subscribe to one Distinctive Ring Number. The standard ringing pattern is provided for the Primary Number. Unique ringing is provided for the Distinctive Ring Number.

Distinctive Ring is available in conjunction with compatible residence and business service where technology, facilities and telephone numbers are available.

Some customer provided terminal equipment may not recognize the distinctive ringing patterns associated with this service.

In addition to the provisions of this Tariff, the Telephone Company shall not be liable for any loss or damages arising out of error, interruptions, defects, failure or malfunctions of Distinctive Ring or equipment. Damages arising out of such interruptions, defects, failures, or malfunctions of this service after the Telephone Company has been notified, and has had a reasonable time for repair, shall in no event exceed an amount equivalent to the charges made for the service for the period following notice from the customer until service is restored.

The Primary number is the telephone number associated with the access line and therefore is allowed direct-dialed Directory Assistance calls in accordance with the Directory Assistance Service section of this Tariff. No additional call allowances are provided with Distinctive Ring.

One directory listing is provided for each telephone number associated with Distinctive Ring Service.

Additional listing rates and extra or alternate listing rates shown in the Directory Listings section of this Tariff apply to Primary and Distinctive Ring numbers.

If a customer requests a change in the listings for telephone numbers associated with Distinctive Ring Service, the regular Service Connection Charges of this Tariff will apply.

Distinctive Ring customers who subscribe to Call Forwarding can choose one of two forwarding arrangements. The first arrangement forwards the Distinctive Ring number(s) along with the Primary number when it is forwarded. The second arrangement provides no forwarding of the Distinctive Ring number(s). A forwarding arrangement must be selected at the time Distinctive Ring is ordered. If a customer later requests a change in forwarding, the regular Service Connection Charges of this Tariff will apply.

If a customer requests a number change for either the Primary number, or the Distinctive Ring number, the regular Service Connection Charges of this Tariff will apply.

**GENERAL EXCHANGE SERVICE TARIFFS  
OPTIONAL SERVICES AND FEATURES (Continued)**

**B. General Regulations**

1. Optional Services and Features are provided subject to the availability of facilities. Additionally, the features described will only operate on calls originating and terminating within appropriately equipped offices, or similarly equipped offices of interconnecting Local Exchange Companies. Also, feature screening lists can only contain telephone numbers of subscribers served out of service capable offices.
2. Optional Services and Features are available to all one party customers who have Rotary or Push Button service. The Caller ID feature is available to one party residence and business customers.
3. Optional Services and Features cannot be provisioned on an originating basis with Company provided Public, Semi-Public, Customer Owned and Coin Operated Telephone Service, Trunks, or some Remote Switching Locations.

(1) Only one Service Connection Charge applies per section 2 of this tariff when more than One Distinctive Ring Number is ordered or changed simultaneously.

- Rates and charges shown on this tariff sheet are for informational purposes only and are not subject to the jurisdiction of the Missouri Public Service Commission.

4. Disaster Assistance Plan

In the event that a natural disaster occurs in one of the Company's exchanges and destroys or partially destroys customers' premises, the Company may, at its sole discretion, elect to implement a Disaster Assistance Plan. Under the Plan, the Company may, for example, waive the installation fee and up to three months' recurring service charges for Call Forwarding, Call Forwarding - Busy Line, Call Forwarding - No Answer, and/or other features the Company may deem appropriate. This plan will only be available to residential and business customers whose premises are damaged to the point they are considered unsafe, unsuitable, or uninhabitable. Charges will only be waived with respect to existing local exchange service accounts, which are not partially or fully suspended at the time of the offer. Charges will not be waived on service established at a new location.

GENERAL EXCHANGE SERVICE TARIFFS  
OF GREEN HILLS TELEPHONE CORPORATION

RECEIVED

JAN 20 1961  
MISSOURI  
Public Service Comm.

A. GENERAL G. PRIVATE BRANCH EXCHANGE SERVICE

1. Standard Facilities

The rates quoted herein contemplate the use of standard equipment and apply at all business and residence locations; special equipment and arrangements are furnished where practicable at charges, based on costs, determined as outlined under Miscellaneous Equipment in this Tariff.

2. Installation

Regular Service Connection Charges apply for the installation, inside moves or changes of all stations, station equipment, and trunks. Beyond the circuit limit of 250 ft., if not within the same building, the cost of labor and material is chargeable.

A three year contract is required on systems listed under B. 1 and B. 3 of this Part. A five year contract is required for systems listed under B. 2 of this Part.

3. Power Equipment

Power equipment and batteries, for equipment operation, including talking, battery and ringing current, is furnished without additional charge in connection with P.B.X., P.A.B.X., and Dial Inter-communicating systems. A charge is made for battery equipment used in connection with Manual Inter-communicating or Key Systems. Current necessary to operate the power equipment is provided by the customer at his expense and must be suitable to meet operating requirements.

4. P.B.X. Systems Outside the Base Rate Area

When the private branch exchange is located outside of the Base Rate Area, the mileage charges apply as specified under Mileage Charges in this Tarriff.

Green Hills Telephone Corporation For All Missouri Exchanges  
 Name of Issuing Corporation Community, Town or City

<u>General Exchange Service</u> <u>of Green Hills Telephone Corporation</u>		<b>RECEIVED</b>  <b>JAN 24 1992</b>  <b>MISSOURI</b> <b>Public Service Commission</b>
Continued		
FEATURE DESCRIPTIONS		
(N)	1. <u>Call Waiting</u> - Permits a subscriber to who is using the telephone to be alerted that another call is waiting by receiving an audible tone signal. The called party may put the existing call on hold and connect to the waiting call.	
(N)	2. <u>Call Forwarding</u> - Permits a subscriber to have all incoming calls forwarded to another preselected number. Calls may be transferred to any other location providing the necessary facilities are available in the central office from which the calls are to be transferred. Customers utilizing this service are responsible for the payment of each toll call charge that may be incurred.	
(N)	3. <u>Three Way Calling</u> - Permits a subscriber to add a third party to an existing call, thereby establishing a three-way conversation. Transmission qualities could be affected depending on the distance involved in the routing of the connected parties.	
(N)	4. <u>Speed Calling</u> - Permits a subscriber to place calls to other telephones numbers by dialing a one or two digit code rather than dialing the complete telephone number.

PRIVATE BRANCH EXCHANGE SERVICE (Continued)

A. General (continued)

5. Location of Stations

P.B.X., and P.A.B.X. Stations may be located at any point on the same or other premises of a customer or on the premises of the customer's agents or representatives. Stations located on premises of the customer other than those on which the switchboard is located are offered subject to the availability of circuits and to the requirement that the customer contract for such facilities as are necessary to provide standard operation and transmission. The station rates quoted herein are for stations located on the same premises as the private branch exchange switchboard and within 250 feet of the switchboard or main distribution terminal.

Mileage charges, as specified under Mileage Charges in this Tariff, apply in connection with each station not located within the limits set out above.

6. Operating

All operating at the customer's premises is performed at the expense of the customer and must conform with the regulations which the Telephone Company establishes as necessary in order to maintain a proper standard of service.

7. Operators Sets

Operators sets or operators telephones are provided without additional charge in connection with Cordless or Cord type private branch exchange switchboards or with Cordless or Cord type attendants cabinets used with private automatic branch exchanges.

OPTIONAL SERVICES AND FEATURES (Continued)

## CONFERENCE BRIDGE SERVICE

## A. Description of Service

This service allows the end-user to reserve a conference bridge located in the Company's central office for convening a dial-in conference call for up to twenty-four parties. The customer will call the Company's business office to reserve the conference bridge for a specified day and time and will be given a phone number for the conference parties to call at the appointed time.

Up to twenty-four parties may dial into the conference bridge at the appointed time. Local or toll charges from the calling location to the conference bridge number will be applied.

## B. Limitations

Only one conference bridge is available so only one party can reserve the bridge at a given day and time.

## C. Rates

Use of the conference bridge will be charged on an hourly basis with the following charge applying for each full hour or fraction of an hour that the bridge is in use.

- |    |   |         |
|----|---|---------|
| 1. | Charge for first full hour or fraction                                  | \$10.00 |
| 2. | Charge per hour for each additional hour or fraction                    | \$ 5.00 |
| 3. | Per attendee fee  | \$ 1.00 |
| 4. | No service order charge will apply for reserving the conference bridge. |         |

## CONFERENCE BRIDGE SERVICE

(M)

## A. Description of Service

This service allows the end-user to reserve a conference bridge located in the Company's central office for convening a dial-in conference call for up to twenty-four parties. The customer will call the Company's business office to reserve the conference bridge for a specified day and time and will be given a phone number for the conference parties to call at the appointed time.

Up to twenty-four parties may dial into the conference bridge at the appointed time. Local or toll charges from the calling location to the conference bridge number will be applied.

## B. Limitations

Only one conference bridge is available so only one party can reserve the bridge at a given day and time.

## C. Rates

Use of the conference bridge will be charged on an hourly basis with the following charge applying for each full hour or fraction of an hour that the bridge is in use.

- |    |   |         |
|----|---|---------|
| 1. | Charge for first full hour or fraction                                  | \$10.00 |
| 2. | Charge per hour for each additional hour or fraction                    | \$ 5.00 |
| 3. | Per attendee fee  | \$ 1.00 |
| 4. | No service order charge will apply for reserving the conference bridge. |         |

REC'D APR 20 2001

**GENERAL**

**A. Service Description**

Service Commission

- 1. Local Reach is an optional one way, outward service where, for a monthly recurring flat rate, customers can place calls within their LATA to other customers in exchanges within the Local Reach calling scope, as defined in sub-section C of this section.
- 2. Qualified usage under this plan is intraLATA customer-dialed, sent-paid, non-coin calls originating at a subscriber's access line and terminating at an access line in an exchange within the Local Reach calling scope as defined in sub-section C of this section.
- 3. Calls included in this plan are dialed using a ten-digit local dialing pattern.

**B. Service Availability**

- 1. This service is furnished subject to the availability of the required telecommunications facilities. Implementation of local Reach will be simultaneous in Green Hills Telephone Corporation exchanges; therefore the service will be available in all exchanges during the implementation period.
- 2. Subject to the restriction in paragraph B.1 above, service is available to Missouri local exchange customers of Green Hills Telephone Corporation as listed in the Local Exchange Tariff Section.

**C. Calling Scope**

The Local Reach Calling Scope includes all customer exchanges as listed below:

- Carrollton
- Chillicothe
- Metropolitan Kansas City\*
- Richmond

LOCAL REACH, continued

(N)

**REGULATIONS****A. Rules and Regulations**

1. Unless otherwise stated, Local Reach is subject to the Rules and Regulations applying to all customer contracts as specified in the General Exchange Tariff.

**B. Qualified Customer Accounts**

1. This service is available to single-party, residence and business customers. The service is available to multi-line customers.
2. Local Reach is not offered in conjunction with Customer-Owned Pay Telephone Service.
3. Local Reach is not offered in conjunction with Cellular Service.
4. Local Reach is not offered in conjunction with Foreign Exchange Service.

**C. Use Restrictions**

1. Local Reach is not offered in conjunction with services designed to forward calls in mass including but not limited to Simultaneous Call Forwarding, Disaster Routing Service and Intelligent Redirect or similar services that might be offered under other names.
2. Local Reach is sold in conjunction with and solely for use on Local Exchange Telephone Service access lines and trunks.
3. Local Reach may only be used for the communications of a single end user. It may not be used to aggregate the communications of multiple end users for resale (including but not limited to, arrangements using services such as Simultaneous Call Forwarding to aggregate calling capability for resale or to provision communications services for others).
4. This tariff shall only be effective as long as the use restrictions and the rules and regulations in this tariff remain in effect for all users (including any exchange telecommunications company or other company reselling this service, and their customers.) In the event any of these restrictions or rules and regulations are held not to apply to all such users, upon notification by the Telephone Company to the Commission, this tariff shall not be available except to existing subscribers of the service at existing service levels at existing locations. The Telephone Company shall also have the right to withdraw this service offering in its entirety.

**D. Multi-line Accounts**

With the following exceptions, Local Reach subscribers are not required to purchase Local Reach on all access lines of a multi-line account. Exceptions are as follows:

1. In cases where a single working telephone number is used for multiple access lines, if Local Reach is purchased for one line in the arrangement, it must be purchased for all lines.
4. Within a multi-line hunting arrangement, if one access line is subscribed to Local Reach, all lines must be subscribed to Local Reach.

**E. Minimum Service Period**

The minimum service period for subscription to Local Reach is one month.

LOCAL REACH, continued

**RATE APPLICATION**

**A. General**

1. Local Reach rates and charges apply in addition to all other charges paid by the customer for other service of the Telephone Company.

**B. Monthly Recurring Rates**

1. The Local Reach monthly recurring rates apply on a per-line or per-trunk basis.
2. The Local Reach monthly recurring rates are billed one month in advance.

**RATES\***

**A. Monthly Recurring Rates, per line or per trunk:**

<u>Type of Service</u>	<u>Base Minutes of Use</u>	<u>Local Reach Basic Rate</u>	<u>Minutes of Use over Base</u>
Residence	240	\$16.95	\$.07
Residence	500	\$34.95	\$.07
Business	240	\$16.95	\$.07
Business	500	\$34.95	\$.07

**OPTIONAL DETAIL BILLING**

- A. Optional Detail Billing provides individually rated message detail at the customer's request when the billing system has the capability of providing by specific customer.
- B. This request must be made in advance of the month to be billed.
- C. The details of messages billed during the current billing cycle are on a printed listing.
- D. The following rates and charges apply for Optional Detail Billing.
  1. Monthly Preparation Charge \$1.00
  2. Printed Listing (per message charge) \$0.01
- E. Applicable Service and Equipment Charges apply for both initiating and terminating Optional Detail Billing.
- F. These charges apply in addition to the monthly recurring rates stated in RATES section, above.

H. PUBLIC TELEPHONE SERVICE

1. A public telephone is an exchange station installed at the Telephone Company's option, in charge of an attendant, or equipped with a coin collecting device, at a location chosen or accepted by the company as suitable and necessary for furnishing service to the general public.
2. Persons with whom arrangements are made by the Telephone Company for the installation of Public Telephones are considered as the agents of the Company in serving the public.
3. Public telephones are installed upon the agent signing established forms of application, without specific term, terminable by either an agent or the telephone company upon written notice.
4. No listings in the directory are allowed in connection with public telephone service.
5. Local Messages from Public Telephones are charged for at the rates shown in the General Exchange Service Tariffs and Toll Messages are charged for at the Telephone Company's established rates. No charges are applied to connections with the Telephone Company's toll operator, information clerk, repair clerk, business office or any of its duly authorized officials or to emergency calls to Fire and Police Departments, within the exchange area.

I. SEMI-PUBLIC TELEPHONE SERVICE

MISSOURI Public Service Commission

1. Semi-public telephone service is an arrangement under which subscriber station is equipped with a coin collecting device designed for a combination of subscriber and public usage, and will be furnished, on individual lines only, to the following types of locations:

- a. At locations where, in the opinion of the Telephone Company, the installation of a public telephone is not warranted but where there is an appreciable demand for service on the part of transients.
b. At locations where there is a collective use of the service by a relatively stable body of guests, members, employees, or occupants.
c. At any location where the demand for service is for a combination of transient and subscriber usage.

2. The Telephone Company does not undertake to provide booths for housing semi-public telephones but the subscriber may, at his option, provide, at his own cost, suitable booths, shelves or cubicles for such purpose.

3. Subscribers to semi-public telephone service are entitled to regular listings in the Telephone Company's official directory and may advertise such numbers for incoming calls and business purposes subject to rules and regulations otherwise specified in this tariff.

4. Local Messages from semi-public telephones are charged for at the rates shown in the General Exchange Service Tariffs and Toll Messages are charged for at the Telephone Company's established rates. No charges are applied to connections with the Telephone Company's toll operator, information clerk, repair clerk, business office or any of its duly authorized officials, or to emergency calls to Fire or Police Departments, within the exchange area.

5. The monthly rate for semi-public telephone service shall be equal to the individual business access line rate plus appropriate instrument charge.

5. Subscribers to semi-public telephone service are required to guarantee total monthly receipts from local exchange service equal to the individual line business rate. When the monthly receipts from local service are less than the amount of the guarantee, the subscriber will be billed for the difference. Such bills are subject to the same terms and treatment as bills rendered for other types of local exchange service.

GENERAL EXCHANGE SERVICE TARIFFS  
CUSTOMER-OWNED PAY TELEPHONE SERVICE

SEP 28 1992

A. GENERAL

MISSOURI  
Public Service Commission

1. Customer-Owned Pay Telephone Service is offered for use with a customer-provided pay telephone instrument. (1) All attachments of Customer-Owned Pay Telephone service to the network must be made pursuant to the rules and regulations set forth in this Tariff.
2. Customer-Owned Pay Telephone Service is a two-way or, optionally, one-way originating only business exchange access line composed of the serving central office line equipment with Selective Class of Call Screening treatment (where available), all outside plant facilities needed to connect the serving central office with the customer's premises and the network interface. These facilities are Telephone Company-provided and maintained and provide access to and from the telecommunications network for long distance service and local calling.
3. Selective Class of Call Screening treatment enables the customer to restrict outgoing operator-handled calls from the service point to only those call which are charged to a called telephone, a third number or a Calling Card account.
4. In the case of one-way service, intercept treatment will be provided (where available).
5. A maximum of one customer-provided pay telephone instrument may be connected to any one Customer-Owned Pay Telephone Service Access Line.
6. Selective Class of Call Screening must be provided where-ever available. Any customer who offers Customer-Owned Pay Telephone Service where Selective Class of Call Screening is not available, nonetheless assumes full and complete responsibility for all calls billed to his line.
7. Section 4 of this Tariff, General Rules and Regulations, is applicable to the provision of Customer-Owned Pay Telephone Service.

(1) For purposes of this Tariff, the term "customer" is defined as the party who is responsible for payment of the Customer-Owned Pay Telephone Service Exchange Access Line.

PAYPHONE SERVICE

JAN 15 1997

A. General Regulations (Cont'd)

**MISSOURI** (T)  
**Public Service Commission**

- 10. Installation Charges and the appropriate NID material charge apply when a premises visit is made for the sole purpose of installing a customer requested NID.
- 11. The Company shall not be liable for shortages of coins collected and deposited at the subscriber's equipment. The limit of the Company's liability for end user fraud of whatever nature occurring at or in associations with the subscriber's equipment shall be governed by provisions of this Tariff and rule or regulations of the Missouri Public Service Commission. In case of conflict between the tariff provisions and Commission rules and regulations, the rule or regulations shall prevail.
- 12. Off-Premise Extensions are not permitted.
- 13. Local messages from Payphones are charged at no higher than twenty-five (25) cents for each call. Upon implementation of the FCC rules pre-empting state regulation of payphone rates, this subsection will not apply.
- 14. The Multiline Business Subscriber Line Charge, found in the interstate access tariff, is applicable to all payphone Instrument and CO implemented coin lines.

B. Responsibility of the Customer

- 1. The Customer, for the purposes of this tariff, is defined as the Payphone Service Provider.
- 2. The customer shall be responsible for the installation, operation, and maintenance of the customer-provided instrument, plus all ancillary equipment, such as booths, shelves, lighting, directories, etc., used in connection with this service. The customer is responsible for complying with the requirements set forth in the Americans With Disabilities Act of 1990.

The customer-provided instrument must be registered in compliance with Part 68 of the FCC's Registration Program. In addition, the customer must comply with the Missouri Public Service Commission's Rules and Regulations regarding the use of customer-provided pay telephones.

- 3. The customer shall be responsible for the payment of charges for all local and toll messages originating from or accepted at this type of service, including any Directory Assistance Calls.
- 4. The customer shall be responsible for obtaining a Certificate of Service Authority (CSA) to provide Payphone Service and for providing proof of said authority prior to installation of service.

PAYPHONE SERVICE

JAN 15 1997

MISSOURI  
Public Service Commission (T)

B. Responsibility of the Customer (Cont'd)

- 5. Customers who elect not to subscribe to Selective Class of Call Screening will be fully responsible for all calls billed to customer's exchange access line. The Telephone Company shall have no responsibility to adjust any such charges and/or release customer from paying any such charges. Customer will hold the Telephone Company harmless from and against any liability or loss resulting from all calls billed to customer's exchange access line.
- 6. Any federal, state, or local taxes on the Customer Owned Pay Telephone or calls made from that phone are the responsibility of the customer.
- 7. The customer shall not program or cause to be programmed any such telephone used in connection with this service to limit the duration of a local message.

C. Violation of Regulations

- 1. Upon notification from the Company that the customer-provided equipment or inside wire is causing or is likely to cause harm, the customer shall make such change as is necessary to remove such harm. Failure to make such change will result in the disconnection of service until such change is completed to the satisfaction of the Company.
- 2. The customer may be required, as a condition of service, to pay in full all sums due the Company including, but not limited to, customer activity charges, termination charges, minimum charges, and reimbursement for loss or damage to Company facilities as may apply.

D. Instrument Implemented Payphone Service

Instrument Implemented Payphone Service is offered for use with a customer provided pay telephone. All attachments of a customer-provided instrument to the network must be made pursuant to the rules and regulations set forth in this Tariff and is required by State and Federal commissions.

E. Central Office (CO) Implemented Coin Line

- 1. Central Office Implemented Coin Line provides coin signaling. It is a line side connection from the local exchange switch point of demarcation at the customer premise.

2. Features are additives to the operation of a flat rate access line that provide for CO Implemented coin line service. The Company offers those features that are provided by the functionality of the Company's switches. These include coin supervision, coin control (collect and return of coins, if applicable), and answer supervision. CO implemented coin line features that are implemented by the functionality of an operator service provider, such as coin rating, coin refund, repair referral, and operator call screening, are the responsibility of the Payphone service provider (Customer).
3. CO Implemented Coin Line features, including coin line signaling, coin collect, and return (where applicable) and answer supervision, are provided by the Telephone Company per the technology available from the Company's facilities. It shall be the responsibility of the CO implemented Coin Line payphone owner to assure technical and operational compatibility with the coin line features offered by the Telephone Company.

F. Features and Functions

1. Answer Supervision provides signaling on the line notifying the line that the called party has answered. This feature is an additive to the CO Implemented Coin Line.
2. Coin Collection and Return provides an electrical signal on a CO Implemented Line indicating to the payphone equipment to collect coin(s) from or return coin(s) to the calling party. This feature is an additive to the CO Implemented Coin Line.
3. Special Number Assignment is a specific number requested by the customer. This service is available where facilities are accessible and it is technically feasible to provide. This features is an additive to the CO Implemented Coin Line or to the Instrument Implemented Payphone Service.
4. Selective Class of Call Screening will be provided where such facilities are available at the customer's option. Selective Class of Call Screening treatment enables the customer to restrict outgoing operator-handled calls, placed over the Telephone Company's network, from the service point to only those calls which are charged to a called telephone, a third number, or a calling card.
5. Validation may be performed through Originating-Line Screening (OLS). OLS enables operator service providers to determine whether there are billing restrictions on the exchange access line from which a call originates. OLS service delivers codes on operator assisted calls to identify calls originating from privately owned payphones, inmate locations, and hotels/motels, etc. Rates for this service are found in the appropriate interstate access tariff, when facilities and service are available. The customer has the option to request either Selective Class of Call Screening or OLS.
