

**OF THE STATE OF MISSOURI**

**File No. EW-2012-0065**

## ORDER EXTENDING TIME TO RESPOND TO FILINGS

Issue Date: August 29, 2014

Effective Date: August 29, 2014

The Commission established this working case to consider the potential impacts of current and future Environmental Protection Agency (EPA) rules on the reliability and cost of the electric generation plant operated by Missouri's electric utilities. To that end, the Commission directed Missouri's investor-owned electric utilities, and invited other interested stakeholders, to answer certain questions in writing by August 25, 2014. Furthermore, the Commission directed utilities and other stakeholders that wished to respond to the August 25 written submissions to do so by September 2. On August 28, Sierra Club filed a motion requesting that all parties be allowed until September 9 to file those responses. The motion explains that more time is needed to prepare a response to the extensive filings that were made on August 25.

The Commission created this file to gather information from interested stakeholders. Sierra Club's request for more time will allow it, and the other stakeholders, to present more meaningful information for the Commission's consideration. The Commission will grant the motion for extension of time.

**THE COMMISSION ORDERS THAT:**

1. Sierra Club's Motion for extension of time to respond to comments is granted.

2. Any utility or other stakeholder wishing to respond to the written submissions filed on August 25, 2014, shall do so no later than September 9, 2014.

3. This order shall become effective upon issuance.

**BY THE COMMISSION**

A handwritten signature in black ink that reads "Morris L. Woodruff".

Morris L. Woodruff  
Secretary

Morris L. Woodruff, Chief Regulatory  
Law Judge, by delegation of authority  
pursuant to Section 386.240, RSMo 2000.

Dated at Jefferson City, Missouri,  
on this 29<sup>th</sup> day of August, 2014.
