SUBJECT: Update - Collection boxes at Raintree Plantation

Missouri Public
Service Commission

Dear Mr. Hockensmith:

In response to complaints and concerns for the conditions of the collection boxes surrounding the lake at Raintree, this is an effort to keep you informed of the progress of the ongoing maintenance program. To date we have cleaned the following locations:

Date: 11/24 & 11/27 2006

9505 East Vista

9533 East Vista

9599 East Vista

Across from Moonshine Dr. (lake's edge)

Date: 12/11/2006

Box between 9738 & 9754 W. Vista

Across St. from 9861 W. Vista

Box between 9650 & 9846 W. Vista

9634 W. Vista

9860 E. Vista

We have returned the material (taken from the boxes) to the Wastewater Treatment Plant in order to avoid disposal fees and operating in this manner requires some time between cleanings to allow the plant to process this material without negatively impacting the operation. We expect to clean the remaining 8 collection boxes during the next few weeks.

Sincerely,

Gene Thurman
Facility Manager
