2. Pursuant to RSMo. §393.1400, by each February 28th while an electrical corporation is allowed to make the PISA deferrals, the company shall submit to the Commission a five-year capital investment plan. 5. For the 2025 budget, grid modernization projects, within the meaning of RSMo. 393.1400 and the 25% requirement, constitute approximately 55% of planned capital expenditures for this calendar year.
6. Liberty continuously evaluates and analyzes the needs of its customers and the electric grid, the condition of the Company's infrastructure, the costs and accessibility of modern technologies, and the availability of new technologies. Also, Liberty continuously strives to make the most of every dollar and every hour of labor, in order to most efficiently provide reliable and affordable electric service to its customers. As such, the budget being provided herein is a snapshot in time, with priorities and plans shifting based on evolving needs and technology.
