IMPORTANT NOTICE

Evergy Missouri Metro has filed a rate increase request with the Missouri Public Service Commission (“PSC”). The increase would total approximately 5.65 percent in the Evergy Missouri Metro territory.

For the average residential customer the proposed increase would be approximately \$8.46 per month.

Evergy has also asked the PSC to continue the Fuel Adjustment Clause (“FAC”). The FAC allows Evergy to adjust customers’ bills two times per year based on the varying cost of fuel and power purchased in the current volatile market. Any increase or decrease in fuel costs is reflected in the FAC. This means the customer bill is based on more current fuel costs. The FAC rate will be charged on a separate line on a customer’s bill on a per kWh basis. The amount of the change in base rates due to the rebasing of energy costs is \$0.00051 per kWh. This will make for an approximate impact of a typical residential customer’s bill of \$0.41 per month which is included in the average residential customer increase above.

Local public hearings for specific Evergy service areas have been scheduled to occur virtually before the PSC. However, all Evergy customers are welcome to attend and ask questions at any of the planned virtual public hearings which will include an opportunity to provide sworn testimony to the Commission. To attend, go to **evergy.com/TBD** and click on the featured link to join any of these scheduled virtual meetings:

Aug. 8, 2022. Noon and 6 p.m. for customers of Evergy Missouri Metro

Aug. 9, 2022. Noon and 6 p.m. for customers of Evergy Missouri West

Aug. 10, 2022. Noon for customers in either of those areas

Consumers wishing to comment of the rate proposal may also: Mail a written comment to the Public Service Commission, P.O. Box 360, Jefferson City, Missouri 65102; Electronically submit a comment to the PSC by accessing the PSC's Electronic Filing and Information System at **efis.psc.mo.gov/mpsc** (please reference case number ER-2022-0129); or Contact the Office of the Public Counsel, P.O. IMPORTANT NOTICE

Evergy Missouri West has filed a rate increase request with the Missouri Public Service Commission (“PSC”). The increase would total approximately 8.31 percent in the Evergy Missouri West territory.

For the average residential customer the proposed increase would be approximately \$10.66 per month.

Evergy has also asked the PSC to continue the Fuel Adjustment Clause (“FAC”). The FAC allows Evergy to adjust customers’ bills two times per year based on the varying cost of fuel and power purchased in the current volatile market. Any increase or decrease in fuel costs is reflected in the FAC. This means the customer bill is based on more current fuel costs. The FAC rate will be charged on a separate line on a customer’s bill on a per kWh basis. The amount of the change in base rates due to the rebasing of energy costs is \$0.00327 per kWh. This will make for an approximate impact of a typical residential customer’s bill of \$2.78 per month which is included in the average residential customer increase above.

Local public hearings for specific Evergy service areas have been scheduled to occur virtually before the PSC.
