**EVERGY MISSOURI METRO AND EVERGY MISSOURI
APPLICATION FOR APPROVAL OF MODIFICATION
TO ITS TECHNICAL RESOURCE MANUAL**

COMES NOW, Evergy Metro, Inc. d/b/a Evergy Missouri Metro (“Evergy Missouri Metro”) and Evergy Missouri West, Inc. d/b/a Evergy Missouri West (“Evergy Missouri West”) (collectively, the “Company”), and submits this *Application for Approval of Modification to Its Technical Resource Manual* to the Missouri Public Service Commission (“Commission”) for approval. In support thereof, the Company respectfully states as follows:

1. On December 11, 2019, the Commission approved the Company’s MEEIA 3 application in its Report and Order. On November 18, 2021, Evergy Missouri Metro and Evergy Missouri West filed an application for approval of modifications to their TRMs to incorporate updated EM&V results from program year 1 of MEEIA Cycle 3. The Company requested that the modified TRM be allowed to become effective on January 1, 2022. On December 15, 2021 the Commission approved Evergy Missouri Metro’s and Evergy Missouri West’s modified TRM, with the modified TRMs effective January 1, 2022.

2. The TRM sets forth measures, the level of energy savings, incremental costs and effective, useful lives associated with each measure. The TRM, and certain updates thereto, are

also used to calculate throughput disincentive on a prospective basis (subject to DSIM¹ true-up provisions).

3. The Company offers a revised TRM for the Commission's approval. The revised TRM updates are based on incorporating the final EM&V results from Evergy Missouri Metro's and Evergy Missouri West's program year 1 in MEEIA Cycle 3. These updates are in line with the Company's commitment during the MEEIA Cycle 3 application supporting testimony to enhance the TRM to provide more clarity and sourcing for measure attributes. The proposed revisions to the TRM were reviewed by the Third- Party Evaluators Guidehouse, Inc, and ADM Associates.

4. These updates were provided to Staff ("Staff") for the Commission on November 18, 2022. Staff provided communication to Evergy Missouri that based on their review to date, they do not have any concerns at this time. These updates were also reviewed by the Implementation Team and by the Company's contractors. Additionally, the measure changes will not require any adjustment of the portfolio's goals. The revisions are found in the following attachments:

| <u>Attachment</u> | <u>Name</u> | <u>Description</u> |
|--------------------------|--|---|
| A | TRM MEEIA Cycle 3 2023-01-01_Public | DSM Measure Assumptions for Evergy MO TRM with updates proposed |
| CONFIDENTIAL B | Incentive Ranges MEEIA Cycle 3 2023-01-01_CONF | Updated Incentive Range list with updates proposed |

5. Based on the information provided herein, Evergy Missouri Metro and Evergy Missouri West asks the Commission to approve the TRM as revised to be effective on January 1, 2023. A January 1, 2023 effective date is necessary to align program tracking data and program evaluation data.

¹ "Demand-Side Investment Mechanism"

WHEREFORE, the Company requests the Commission issue an order approving the proposed revisions to the TRM.

Respectfully submitted,

/s/ Roger W. Steiner
