**EVERGY MISSOURI METRO AND EVERGY MISSOURI WEST
APPLICATION FOR APPROVAL OF MODIFICATION
TO THEIR TECHNICAL RESOURCE MANUAL**

COMES NOW Evergy Metro, Inc. d/b/a Evergy Missouri Metro (“Evergy Missouri Metro”) and Evergy Missouri West, Inc. d/b/a Evergy Missouri West (“Evergy Missouri West”) (collectively, “Evergy” or the “Company”), and submits this *Request to Revise Technical Resource Manual* to the Missouri Public Service Commission (“Commission”) for approval. In support thereof, the Company respectfully states as follows:

1. On December 11, 2019, the Commission approved the Company’s MEEIA 3 application in its *Report and Order*. On March 2, 2020, the Company filed an application for approval of modifications to their Technical Resource Manual (“TRM”) to incorporate updated EM&V results from program year 3 of MEEIA Cycle.
2. The Company requested that the modified TRM be allowed to become effective on April 1, 2020. On April 15, 2020 the Commission approved Evergy Missouri Metro’s and Evergy Missouri West’s modified TRM. The modified TRM was effective May 1, 2020.
3. The TRM sets forth measures, the level of energy savings, incremental costs and effective, useful lives associated with each measure. The TRM, and certain updates thereto, are also used to calculate throughput disincentive on a prospective basis (subject to Demand-Side Investment Mechanism (“DSIM”) true-up provisions).

4. The Company offers a revised TRM for the Commission’s approval. The revised TRM updates are based on incorporating the final EM&V results from Evergy Missouri Metro’s and Evergy Missouri West’s program year 4 in MEEIA Cycle 2. These updates are in line with the Company’s commitment during the MEEIA Cycle 3 application supporting testimony to enhance the TRM to provide more clarity and sourcing for measure attributes as requested by Staff (“Staff”) for the Commission. The proposed revisions to the TRM were reviewed by the Third-Party Evaluator (Guidehouse, Inc.).

5. These updates were provided to Commission Staff on November 20, 2020. Commission Staff provided communication to Evergy Missouri that based on their review to date, they do not have any concerns at this time. These updates were also reviewed by the Implementation Team and by the Company’s contractors. Additionally, the measure changes will not require any adjustment of the portfolio's goals. The revisions are found in the following attachments:

<u>Attachment</u>	<u>Name</u>	<u>Description</u>
A	TRM MEEIA Cycle 3 2021-01-01_Public	DSM Measure Assumptions for Evergy MO TRM with updates proposed
Confidential B	Incentive Ranges MEEIA Cycle 3 2021-01-01_CONF	Updated Incentive Range list with updates proposed

6. Based on the information provided herein, Evergy Missouri Metro and Evergy Missouri West asks the Commission to approve the TRM as revised to be effective on January 1, 2021. A January 1, 2021 effective date is necessary to align program tracking data and program evaluation data,

WHEREFORE, the Company requests the Commission issue an order approving the proposed revisions to the TRM.

Respectfully submitted,

/s/ Roger W. Steiner
