4. Respondent is a public utility under the jurisdiction of the Missouri Public Service Commission.

5. The amount at issue is: \$ [REDACTED]
(If your complaint is about money state how much is in dispute here.)

6. Complainant now requests the following relief:

(Explain what you want the Commission to do: the specific results you are seeking in this complaint.)

We are requesting that the commission hold ATXI accountable for the specific performance assurances that were given in the testimony provided to the PSC relating to the Aquisition, construction, and restoration of this project. A list of examples are provided on the additional sheet.

Additionally, it is our position that the actions of ATXI rise to a level of fraudulent inducement to contract, along with the illegal condemnation of a native burial site. ATXI is not maintaining the access road as agreed to in the contract, has not paid for damages as agreed, restoration has not been completed, and the easement agreement was signed (V.C.) under duress. "vi coactus"- for those reasons we consider it void.

We are willing to enter into a new contract where ATXI can rent the property. The settlement funds recieved (minus attorney costs) will be applied to the damages and restoration costs.

7. The relief requested is appropriate because Respondent has violated a statute, tariff, or Commission regulation or order, as follows:

(Explain why the Commission should grant the relief you seek: the facts that constitute a violation of a statute, tariff, or Commission regulation or order.)
