ExOp of Missouri, Inc.

Original Sheet No. 11

1. DEFINITIONS

The following terms, whether or not capitalized in this Tariff, shall have the meanings set forth below:

Business — When used in relation to service, means service provided in offices, stores, factories and all other places for business use.

Commission — The Missouri Public Service Commission, unless the context indicates otherwise.

Company — ExOp of Missouri, Inc. unless the context indicates otherwise.

Customer — The Person which orders or uses the service and is responsible for the payment of rates and charges and compliance with tariff regulations.

Customer Premises — One Customer Premises is all space in the same building occupied by a Customer and all space occupied by the same Customer in different buildings on the same property.

Customer Provided Equipment (CPE) — Equipment provided by the Customer.

Demarcation Point — That point of interconnection between the Company's facilities and the wiring at the Customer Premises. The Demarcation Point shall consist of wire or a jack conforming to Subpart F of Part 68 of the Federal Communications Commission's rules and regulations (a network interface).

The network interface may be located at a point other than the normal demarcation point where the network interface is already established by the presence of network equipment on the effective date of this Tariff. For multi-unit structures (e.g., apartments, college campuses, shopping centers), the structure owner shall make the final decision on whether the structure shall be treated as a multi-structure with one Demarcation Point per unit or, as a single unit with one Demarcation Point for the entire structure. The structure owner shall have the option of having the Demarcation Point placed at a location other than that determined by the Company, provided the structure owner pays any additional construction costs and such location is consistent with the minimum point of entry standard.

With regard to premises for any structure that is built to be mobile (e.g., mobile homes, recreational vehicles), the Company may place the Demarcation Point on a post or pole at or near the pad where such structure is intended to rest. Boat docks and similar premises may be treated by the Company as a single unit premises, with the Demarcation Point being placed on the shore.

Disconnection — The temporary cessation of telecommunications service.

Exchange Access Line — A central office line which provides access to the exchange telephone network for local and long distance telephone service and includes the service, central office equipment and all outside plant facilities furnished by the Company.

Exchange Service — The furnishing of service for telephone communication within local service areas in accordance with the provisions of this Tariff.

Original Sheet No. 32

3. EXCHANGE AREA

3.1 General

The Company provides services to Customers in the Kearney and Platte City exchanges. Except for commercial Customers that elect a more limited local calling scope (the "ExOp Calling Scope," see Sections 3.3 and 4.1.2), the Company's local calling scope includes all the exchanges of United Telephone Company of Missouri ("Sprint/United") and Southwestern Bell Telephone ("SWB") in the Kansas City Metropolitan Calling Area ("MCA"), as they appear on the maps in Sprint/United's tariff PSC Mo. No. 22. For all residential and electing commercial Customers, the basic local calling scope (the "ExOp-MCA Calling Scope") is described in more detail in Section 3.2. The Company concurs in the exchange boundary maps of Sprint/United's tariff, PSC Mo. No. 10.

3.2 ExOp-MCA Calling Scope

The ExOp-MCA Calling Scope covers all of Sprint/United and SWB's exchanges in the MCA, including SWB's Missouri and Kansas principal zones and the MCA-1, -2, -3, -4, and -5 zones, encompassing the following exchanges:

In the MCA-1 zone: Gladstone, Independence, Parkville, Raytown, South Kansas City, Bethel (Kansas), and Melrose (Kansas); in the MCA-2 zone: Belton, Blue Springs, East Independence, Lee's Summit, Liberty, Nashua, Tiffany Springs, Bonner Springs (Kansas), Olathe (Kansas), and Stanley (Kansas); in the MCA-3 zone: Farley, Smithville, Grain Valley, Greenwood, the Missouri customers in SWB's exchange of Leavenworth, Platte City, Ferrelview, Kearney, Missouri City, Buckner, and Lake Lotawana; in the MCA-4 zone: Excelsior Springs, Weston, Camden Point, Edgerton, Holt, Orrick, Oak Grove, Lone Jack, Pleasant Hill, and Harrisonville; and in the MCA-5 zone: Richmond, Archie, Dearborn, Henrietta, Wellington, Odessa, Holden, Kingsville, and Strasburg.

3.3 ExOp Calling Scope

The ExOp Calling Scope, which commercial Customers may elect, includes only the Kearney and Platte City exchanges.

4. LOCAL EXCHANGE SERVICES

4.1 Basic Local Telecommunication Service4.1.1 Description

Residential Basic Local Telecommunication Service provides for unlimited calling within the ExOp-MCA Calling Scope and for connection to the toll network. Commercial Basic Local Telecommunication Service may be purchased to provide for unlimited calling within either the ExOp Calling Scope or within the ExOp-MCA Calling Scope in addition to, in either case, connection to the toll network. This service is subject to all terms and conditions specified in this tariff. Basic Local Telecommunication Service rates are listed in Section 4.1.2.

4.2 Basic Rate ISDN Service (continued)

4.2.1 Description (continued)

Circuit-Switched Data provides the ability to originate and receive circuit-switched data calls over a 64 Kbps channel.

ISDN lines have two 64 Kbps B channels. Each channel can be combined (bonded together) to create a single, higher bandwidth channel (128 Kbps).

ISDN has one 16 Kbps data or D channel used primarily for signaling and data transmission.

4.2.2 Rates

<u>ISDN SERVICE</u>	<u>DESCRIPTION</u>	<u>MONTHLY CHARGE</u>
ISDN Package #1	Consists of: (1) basic rate ISDN as described in Section 4.2.1, (2) 1/ea. ISDN external terminal adapter at the Customer location. The terminal adapter will have the ability to: (1) bond the A & B channel for 128 Kbs, (2) provide the ability to use one of the 64 Kbs channels for voice/analog and one 64 Kbs for data and (3) when the 64 Kbs used for voice/analog is disconnected, the terminal adapter automatically re-bonds the A & B channels for 128 Kbs. Customers not requiring a terminal adapter may elect not to have one, resulting in the reduced price indicated at the right. Calls outside of the Company's service area will be charged at Standard intrastate rates and interstate rates. For the ExOp-MCA Calling Scope, an additional charge of \$12.35/month per channel Will be added for residential Customers and \$24.70/month for Commercial Customers.	\$58.75 (w/ terminal adapter) or \$45.00 (w/out terminal adapter)

4.5 Directory Listings

4.5.1 Description

1. One Directory listing is furnished without charge to each customer in conformity to the Company's practices with respect to its directories. Listings are intended primarily for the purpose of identification and are limited to information which is essential to such identification. Directories are furnished only as an aid to the use of the telephone service facilities and the Company reserves the right to refuse to insert any listing in its directories which does not facilitate telephone service.
2. A Primary Listing is furnished as part of and in the rates for telephone service. The Primary Listing may include the name, address and telephone number of:
 - a. The individual, organization, firm or corporation contracting for the service.
 - b. A residential primary listing may consist of a dual name listing whereby two individuals with the same surname who reside at the same address may both be listed with no more than two given names. Each given name for the purposes of this Tariff is defined as any combination, not to exceed two, of the following:
 - 1) First name
 - 2) Middle name
 - 3) Initial
 - 4) Nickname
 - 5) Maiden name
 - c. A Duplicate Listing reversing the order of the individuals given names above may be provided at the rates for Additional Listings,
 - d. When two or more lines serve a customer in a group arranged for "hunting", each group of lines is considered one telephone number and is entitled to only one Primary Listing.
3. An Additional Listing may also include the same address and telephone number as the Primary Listing, except that a different address may be shown for off-premises stations located on other premises occupied solely by the customer.
 - a. Additional Listings may be furnished with business or residence service for persons who occupy the same premises.
4. Non-published Listing is the omission of a customer's listing from both the telephone directory and Directory Assistance records.
 - a. When Non-published Service is to be furnished, the customer will hold the Company harmless from any damages which might arise, and will absolve the Company from any responsibility for the failure of the customer to receive calls because of the non-published listing.

5. OPTIONAL SERVICES

5.1 CLASS Services

Custom Local Area Signaling Services (CLASS Services) provide end-user services that allow the Customer more control over incoming and outgoing calls based on Signaling System 7 (SS7) hardware and software. The following services are offered where technically feasible.

5.1.1 Caller ID

Caller ID enables the subscriber to view on a display unit the Calling Party Directory Number (the "CPN") on incoming telephone calls.

When Caller ID is activated on a subscriber's line, the CPNs of incoming calls are displayed on the subscriber's display unit during the first long silent interval of the ringing cycle.

Per line blocking for the blocking of the subscriber's CPN will be available upon request, at no charge, to the following entities for lines over which the official business of the agency is conducted, including those at the residences of employees/volunteers, where an executive officer of the agency registers a need for blocking and provides the required certification to the Company: a) private, nonprofit, tax-exempt, domestic violence intervention agencies and b) federal, state, and local law enforcement agencies. The CPN will not be transmitted from a line equipped with this capability. Per line blocking is operational on a continuous basis but can be deactivated by the subscriber by dialing an access code immediately prior to placing a call.

Line blocking subscribers can unblock their CPN information on a per call basis, at no charge, by dialing an access code (*82 on their Touch Tone pad or 1182 from a rotary phone) immediately prior to placing a call.

A subscriber may prevent the delivery of their calling name and/or number to the called party by dialing an access code (*67 on their Touch Tone pad or 1167 from a rotary phone) immediately prior to placing a call. The access code will activate per call blocking, which is available at no charge. If the calling party activates blocking, the CPN will not be transmitted across the line to the called party. Instead, Caller ID subscribers will receive an anonymous indicator. This anonymous indicator notifies the Caller ID subscriber that the calling party has elected to block the delivery of their name and telephone number. The blocking of CPN will not be provided on calls originating from a Customer-Owned Pay Telephone Service.

Any Customer subscribing to Caller ID will be responsible for the provision of a display device which will be located on the subscriber's premises. The installation, repair, and technical capability of that equipment to function in conjunction with the features specified herein will be the responsibility of the subscriber. The Company assumes no liability and will be held harmless for any incompatibility of this equipment to perform satisfactorily with the network features described herein.

5.1 CLASS Services (continued)

5.1.1 Caller ID (continued)

Telephone CPN information transmitted via Caller ID is intended solely for the use of the Caller ID subscriber. Resale of this information is prohibited by this Tariff. The CPN will not be displayed if the called party is off-hook or if the called party answers during the first ring interval. CPN will be displayed for calls made from another central office only if it is linked by appropriate facilities. Caller ID is not available on operator-handled calls.

5.1.2 Call Forwarding

Call Forwarding allows the subscriber to have calls forwarded to a designated remote Station.

5.1.3 Call Waiting

Call Waiting informs a subscriber, when busy on one call, that another call is waiting.

5.1.4 Three-Way Calling

Three-Way Calling allows the subscriber to connect to two other numbers at once.

5.1.5 Six-Way Calling

Six-Way Calling allows the subscriber to connect up to five other numbers at once. Six-Way Calling is only available to Customers with ISDN services.

5.1.6 Call Return

Call Return permits a subscriber to have a call automatically returned to the last party who called. If that line is busy when the recall attempt is made, the call is queued until both the subscriber and the last calling party are idle, at which point the subscriber is rung first. When the subscriber answers, the last calling party is rung to complete the call.

5.1.7 Selective Call Forwarding

Selective Call Forwarding allows the subscriber to have certain terminating calls forwarded to a designated remote Station. The activity will occur whenever a call is received from a directory number which has been indicated on a list of numbers referred to as the Selective Call Forwarding screening list. Calls from directory numbers which cannot be identified or have not been indicated on the list will be given standard terminating treatment.

5. OPTIONAL SERVICES (continued)

5.1 CLASS Services (continued)

5.1.9 Automatic Redial

(T)

Automatic Callback permits a subscriber encountering a busy connection to have call setup performed automatically when the called station becomes idle. This feature is designed to automatically set up a call to the last telephone number called by the subscriber, regardless of whether the called telephone number was busy or idle, answered, or unanswered. If the call cannot be completed immediately because of a busy line, the call is queued and call completion is attempted when both lines are idle. As part of the completion attempt, the calling subscriber is given special ringing, and when the called subscriber answers, the calling subscriber is given regular ringing.

5.1.10 Remote Access Call Forwarding

(T)

Remote Access Call Forwarding allows a subscriber to initiate Call Forwarding activation and deactivation from a location other than the subscribing Station.

5.1.11 Speed Dial

(T)

Speed Dial permits the subscriber to program up to eight numbers that can be dialed automatically, using special Station equipment.

5.1.12 Customer-Oriented Trace

Customer-Oriented Trace allows the Customer to initiate a trace on the last incoming call by dialing an activation code. The call will be traced automatically, and the telephone number that originated the call and the time the call was made will be recorded in the Company office. Information recorded will be released by the Company only to an authorized representative of a law enforcement agency and, in no event, other than as provided by applicable state and federal law. Customer-Originated Trace will be made available to all Customers. Charges for the services will be made on a per-call basis when the Customer uses the activation code and the number is successfully retrieved.

5.1.13 Teen Ring

(N)

This feature allows the Customer to have an additional telephone number assigned to one local exchange line. Each telephone number will provide a distinctive ring on incoming calls to allow for identification of the incoming call.

5.1.14 Anonymous Call Rejection

Allows a Customer to redirect incoming calls for which calling name and number display has been suspended through the use of per-call blocking or per-line blocking, to an announcement indicating the Customer is not presently accepting such calls.

5.1.15 Selective Call Block

An arrangement that allows a subscriber to selectively block any calls from a list of previously identified directory numbers.

5.1.16 Call Blocking

Blocking service is a feature that permits customers to restrict access from their telephone line to various discretionary services.

11.3 Voice Advantage II Bundles

11.3.1 Description

These bundles provide residential customers with the option of subscribing to service packages that provide a dial tone access line, local usage, IntraLATA toll usage* and InterLATA toll usage* for a single bundled rate.

Toll Usage Options:

1. Voice Advantage II Basic – includes 120 minutes of combined IntraLATA and InterLATA usage
2. Voice Advantage II 600 – includes 600 minutes of combine IntraLATA and InterLATA usage
3. Voice Advantage II Unlimited – includes unlimited minutes of combined IntraLATA and InterLATA usage

11.3.2. Regulations

- A. Voice Advantage II Bundles are only available to residential customers.
- B. Voice Advantage II Bundles are only available to customers who are presubscribed to Ex-Op of Missouri, Inc. d/b/a FairPoint Communications as their primary interexchange carrier for both IntraLATA and InterLATA calling.
- C. Voice Advantage II Bundles are not available in combination with other optional calling plans or private lines.
- D. Voice Advantage II Bundles are not available with services provided under special contract.
- E. Standard installation charges apply.
- F. Long distance calling includes calling to anywhere within the United States, U.S. Territories and Canada.
- G. Voice Advantage II Bundles are available only in areas specifically equipped to provide such service and are subject to the availability and technical limitations of facilities.
- H. Rates do not include Federal Subscriber Line Charges, Universal Service Charges, fees, taxes, and any other applicable surcharges.
- I. Voice Advantage II Bundle customers may terminate the package or switch to another calling package or plan at any time.
- J. The Voice Advantage II Bundles are offered only to residential customers for the customer's personal, residential, non-business and non-professional use. Use of the Voice Advantage II Bundle is prohibited for any profit or nonprofit commercial or governmental activities, including, but not limited to, activities related to home office, business, sales, telecommuting, telemarketing, continuous autodialing, fax broadcast, fax blasting, resale or transfer of the Voice Advantage II Bundle or any other activity that would be inconsistent with the normal residential voice-grade applications and usage patterns. If it is determined that the usage on the Voice Advantage II Bundle is not consistent with residential applications or is otherwise prohibited as specified in this tariff,
