FINANCIAL & BUSINESS ANALYSIS DIVISION

AUDITING DEPARTMENT

REBUTTAL TESTIMONY

OF

KEITH D. FOSTER

**OZARK CLEAN WATER COMPANY AND
FOX FIRE UTILITY COMPANY**

CASE NO. WM-2022-0186

*Jefferson City, Missouri
September 2022*

1 testimony on ratemaking matters numerous times before the Commission. I have performed
2 and led rate audits and prepared miscellaneous filings as ordered by the Commission.
3 In addition, I reviewed all exhibits and testimony on assigned issues, developed accounting
4 adjustments, and issued positions supported by workpapers and written testimony. For cases
5 that did not require prepared testimony, I prepared Staff Recommendation Memorandums.
6 I have also been responsible for the supervision of other Commission employees in rate cases
7 and other regulatory proceedings.

8 Q. Are you the same Keith D. Foster who contributed to Staff's Recommendation
9 filed on June 28, 2022, in this case?

10 A. Yes, I am.

11 **EXECUTIVE SUMMARY**

12 Q. What is the purpose of your testimony?

13 A. The purpose of my testimony is to rebut the Direct Testimony of Foxfire Utility
14 Company ("Foxfire") witness Garah F. (Rick) Helms' comment regarding Staff's rate base
15 number.

16 **RATE BASE**

17 Q. On lines 7-12 on page 7 of Mr. Helms' Direct Testimony he alleges "there are
18 investments that are not included in the [rate base] numbers used by Staff..." Is it your belief
19 that the costs of investments identified by Mr. Helms were not included in the rate base used in
20 Staff's Recommendation?

21 A. No, I do not. Based on a review of the invoices provided on July 26, 2022, by
22 Foxfire's legal counsel, all of the costs Mr. Helms stated as not being included were incurred
23 in 2016-2017 and 2019.

1 Q. Why is that important?

2 A. Pursuant to Commission Rule 20 CSR 4240-10.145(1) “All electric, gas, water,
3 sewer and steam heating utilities shall submit an annual report to the commission on or before
4 April 15 of each year...” [emphasis added] Page 3 of the Water and/or Sewer Annual Report
5 form for a Small Company (fewer than 8,000 customers) requires the submitting utility to
6 “describe MAJOR transactions occurring during the year ... of \$250 or more.” This includes
7 the “replacement of major equipment.” The dollar amounts are then to be recorded as
8 Additions to Plant on pages W-5 and S-4 for water and sewer plant in service, respectively.
9 Therefore, if there were major plant expenditures over \$250 that were incurred in 2016 and
10 2019, these amounts should be reported in the Annual Report for the year in which the plant
11 additions were placed in service.

12 Q. Did Foxfire report these expenditures in its Annual Reports it filed with the
13 Commission?

14 A. Yes, in my opinion.

15 Q. Please explain.

16 A. Foxfire’s Annual Report for 2016 (File No. BMAR-2017-1413) does not report
17 any major transactions on page 3, nor are there any additions for the water and sewer systems on
18 pages W-5 and S-4. However, Foxfire’s Annual Report for 2017 (File No. BMAR-2018-1451)
19 reports several plant additions. Page 3 describes, “major plant improvements of 74482.84 were
20 completed and placed in service in 2017” and “transportation equipment of 39647.17 was
21 purchased and placed in service in 2017.” This represents a total of \$114,130 in plant additions
22 for 2017. It is reasonable to assume that the plant expenditures incurred in 2016 would not be
23 reported until 2017 when the results of those expenditures are put into service and considered

1 used and useful. The total plant additions for water reported on page W-5 are \$62,320, and the
2 total reported for sewer on page S-4 is \$57,065, for a total of the combined plant additions of
3 \$119,385 which is over the “some \$78,000 in other various maintenance and improvement
4 projects” identified on page 7 of Mr. Helms’ Direct Testimony.

5 Q. What are your findings on amounts for 2019?

6 A. Foxfire’s Annual Report for 2019 (File No. BMAR-2020-1773) also reports
7 several plant additions. Page 3 describes “update of transportation equipment,” “repair and/or
8 replacement of multiple pressure regulating valves,” and “replace effluent valves and UV lamps
9 at sewer plant.” [emphasis added] The total plant additions for water reported on page W-5 are
10 \$26,842, which is slightly over the \$23,878.37 Mr. Helms identifies on page 7 of his Direct
11 Testimony as “costs relating to repairing, replacing, and installing new pressure regulation
12 valves.” [emphasis added]

13 Q. Is it fair to say that, in your opinion, the \$23,878.37 and \$78,000 in costs that
14 Mr. Helms alleges in his testimony were not included in Staff’s rate base numbers were, in fact,
15 included in Staff’s rate base numbers?

16 A. Yes. Staff used its numbers from Foxfire’s 2021 Annual Report for the calendar
17 year ending December 31, 2021. Staff was provided copies of invoices for 2016-2017 and 2019
18 to support the costs that Mr. Helms has claimed were excluded. Foxfire is required to report
19 the costs associated with any changes to plant in its Annual Reports filed with the Commission,
20 which it did for 2017 and 2019. Foxfire has remained current with its Annual Reports over the
21 years. It is fair for Staff to expect that Foxfire has already reported the \$23,878.37 and \$78,000
22 in costs in its Annual Reports that are reflected in the plant balances reported at December 31,

Rebuttal Testimony of
Keith D. Foster

1 2021. If, in fact, these amounts were not reported, then Foxfire would have filed erroneous
2 Annual Reports that need to be revised and resubmitted.

3 Q. What is your conclusion?

4 A. Based on Staff's review of the submitted Annual Reports, its Staff's conclusion
5 the \$23,878.37 and \$78,000 amounts are reflected in the December 31, 2021, plant balances
6 used in Staff's analysis.

7 Q. Does this conclude your rebuttal testimony?

8 A. Yes.
