Access Services Tariff
Section 9
1st Revised Sheet 1
Replacing Original Sheet 1

ACCESS SERVICES

9. DIRECTORY ASSISTANCE SERVICE

The Telephone Company will provide Directory Assistance (DA) Service to an IC from Directory Assistance Service locations (DA location).

9.1 General Description

DA Service provides Directory Access Service to DA locations, use of DA access equipment and use of DA operators.

9.2 Undertaking of the Telephone Company

A. A Telephone Company DA operator, when furnished a name and locality, will provide or attempt to provide the telephone number listed in the Telephone Company DA records associated with the name given at the rates and charges as set forth in Paragraph 9.6, following. The Telephone Company's contact with the IC's End User shall be limited to that effort necessary to process an IC's End User's request for a telephone number; and the Telephone Company will not transfer, forward or redial an IC's end user call to any other location for any purpose other than provision of DA Service. Telephone Company DA Service is not available for 800-555-traffic.

B. A maximum of two (2) requests for telephone numbers will be accepted per call to the DA operator.

C. A telephone number which is not listed in DA records will not be available to the IC's End User.

D. The Telephone Company will specify the DA location which provides the DA Service for each Numbering Plan Area Code (NPA).

When it becomes necessary, as determined by the Telephone Company, to change a DA location, the Telephone Company will notify the IC's involved six months prior to the change. For such changes, the regulations as set forth in Section 2, Paragraph 2.1.4, preceding, apply.

E. When DA Service is ordered, Directory Access Service will be provided between the IC terminal location and the DA location by the Telephone Company at rates and charges as set forth in Paragraph 9.6, following.

ACCESS SERVICES

9. DIRECTORY ASSISTANCE SERVICE

The Telephone Company will provide Directory Assistance (DA) Service to an IC from Directory Assistance Service locations (DA location).

9.1 General Description

DA Service provides Directory Access Service to DA locations, use of DA access equipment and use of DA operators.

9.2 Undertaking of the Telephone Company

- A. A Telephone Company DA operator, when furnished a name and locality, will provide or attempt to provide the telephone number listed in the Telephone Company DA records associated with the name given at the rates and charges as set forth in Paragraph 9.6, following. The Telephone Company's contact with the IC's End User shall be limited to that effort necessary to process an IC's End User's request for a telephone number; and the Telephone Company will not transfer, forward or redial an IC's end user call to any other location for any purpose other than provision of DA Service.
- B. A maximum of two (2) requests for telephone numbers will be accepted per call to the DA operator.
- C. A telephone number which is not listed in DA records will not be available to the IC's End User.
- D. The Telephone Company will specify the DA location which provides the DA Service for each Numbering Plan Area Code (NPA).

When it becomes necessary, as determined by the Telephone Company, to change a DA location, the Telephone Company will notify the IC's involved six months prior to the change. For such changes, the regulations as set forth in Section 2, Paragraph 2.1.4, preceding, apply.

- E. When DA Service is ordered, Directory Access Service will be provided between the IC terminal location and the DA location by the Telephone Company at rates and charges as set forth in Paragraph 9.6, following.

ACCESS SERVICES

9. DIRECTORY ASSISTANCE SERVICE-(Continued)

9.2 Undertaking of the Telephone Company-(Continued)

E. (Continued)

1. General

Each Directory Access Service will consist of the following:

- An Interface Group equipped with an available Premises Interface Code at the customer's premises.
- Directory Transport between the premises of the ordering customer and the DA location.

When required by the Telephone Company, a separate Directory Access Service trunk group will be provided for DA Service for each NPA. Separate trunk groups will be required when the Telephone Company notifies the customer that the mechanized search of its data base and its mechanized operator practices require a mechanized identification of the NPA code for which the customer's End User desires DA information.

Further, when an access tandem is available and is provided, the Directory Access Service will be provided at Telephone Company's choice either as a separate Directory Access Service trunk group or in combination with FGB, FGC, FGD, BSA-B, BSA-C or BSA-D Switched Access Service.

2. Interface Group and Premise Interface Code

Interface Groups 2 through 10 as set forth in Paragraph 6.1.2, A., preceding, are available for Directory Access Service. When only Directory Access Service is provided, only the following Premise Interface Codes are available:

4DS9-15	6EA2-E	4RV2-0
4DS9-31	6EA2-M	4AH5-B
4DS0-63	4SF3	4AH6-C
4DS6-44		4AH6-D

ACCESS SERVICES

9. DIRECTORY ASSISTANCE SERVICE-(Continued)

DEC 29 1983

9.2 Undertaking of the Telephone Company-(Continued)

E. (Continued)

1. General

Each Directory Access Service will consist of the following:

- A Switched Access Service Access Connection equipped with one of the following Switched Access Service Access Connection IC Interface codes:

4DS9-15	6EA2-E	4RV2-0
4DS9-31	6EA2-M	4AH5-B
4DS0-63	6EX2-B	4AH6-C
4DS6-44	4SF3	4AH6-D
4DS6-27	2RV3-0	

- Directory Transport between the IC terminal location serving wire center and the DA location.

When required by the Telephone Company, a separate trunk group will be provided for DA Service for each NPA.

2. Access Connection and IC Interface Code

The Switched Access Service Access Connection and IC Interface Codes are provided as set forth in Section 6, preceding. Further, when an access tandem is provided, the Access Connection for Directory Access Service will be provided, at Telephone Company choice, either as a separate trunk group or in association with Switched Access Service. Except as set forth in Paragraph 9.4, A., following the Access Connection and IC Interface Codes provided under a Special Order for Directory Access Service are subject to the order conditions as set forth in Section 5, preceding. For purposes of applying the order regulations, a DA location is considered to be an End User serving wire center.

3. Directory Transport

BY 12/25/83
PUBLIC SERVICE COMMISSION
OF MISSOURI

Directory Transport provides the transmission facilities and transport termination between the IC terminal location and the DA location. For purposes of determining Directory Transport mileage, distance will be measured from the wire center that normally serves the IC terminal location to the DA location(s).

Replacing 1st Revised Sheet 3

ACCESS SERVICES

9. DIRECTORY ASSISTANCE SERVICE-(Continued)

9.2 Undertaking of the Telephone Company-(Continued)

E. (Continued)

3. Directory Transport-(Continued)

Directory Transport is a two-way voice frequency transmission path composed of facilities determined by the Telephone Company. The two-way voice frequency path transports calls in the terminating direction (from the IC terminal location to the DA location). The voice frequency transmission path may be comprised of any form or configuration of plant capable of and typically used in the telecommunications industry for the transmission of voice and associated telephone signals within the frequency band width of approximately 300 to 3000 Hz.

(AT)

The Telephone Company will determine whether the Directory Access Service is to be routed directly to a DA location or through an access tandem switch appropriately equipped for DA measurement and served by DA trunks to the DA location when such an access tandem switch is available. The combination of FGB, FGC, FGD, BSA-B, BSA-C or BSA-D Switched Access Service with DA Service will only be provided at such available and appropriately equipped access tandem switches. If the IC desires the traffic routing to be other than that selected by the Telephone Company, it may request a cooperative effort to determine if customer-specified traffic routing can be used in lieu of the Telephone Company-selected traffic routing.

When Directory Transport is provided using a direct route to the DA location, no address signaling is provided. When Directory Transport is provided with the use of an access tandem switch, wink start-start pulsing signaling is provided at the access tandem switch. The IC will be notified by the Telephone Company when access tandem routing is provided, and the IC shall address each call to the DA location using NPA + 555-1212 or when required by the Telephone Company, 555-1212. Only NPA codes handled by the DA Service access location served by the access tandem switch will be processed.

(FC)

The number of Directory Transport transmission paths provided is based on the IC's order and is determined by the Telephone Company in a manner similar to Switched Access Service transmission paths as set forth in Section 6, Paragraph 6.8.5, preceding.

Directory Transport may, at the option of the IC, be provided for both interstate and intrastate communications. When the IC requests such mixed access, the intrastate Directory Transport charges will be determined by the Telephone Company using the reports furnished by the IC as set forth in Section 2, Paragraph 2.3.12, preceding.

E. (Continued)

7. Acceptance Testing and Testing Capabilities

The acceptance testing and testing capabilities for Directory Access Service traffic routed through an access tandem are the same as those for the associated Feature Group B, C or D end office switching. The acceptance testing for Directory Access Service traffic routed directly to the DA location will be as set forth in Section 6, Paragraph 6.1.6, preceding. The testing capabilities for Directory Access Service traffic routed directly to the DA location will be as set forth for cooperative scheduled testing or manual scheduled testing in Section 13, following.

8. Provision Of Other Than Telephone Company-Selected Traffic Routing

This option allows the IC to specify a particular routing for trunk groups in lieu of Telephone Company-Selected traffic routing, i.e., the IC may specify that the routing be on a direct-trunk basis or via an access tandem.

- F. Trunk-side switching is provided at the DA Service access location. The DA Service access location will provide trunk-answer and disconnect supervisory signaling.
- G. The Telephone Company will distribute the calls received over the Directory Access Services to the DA operators using the DA location access equipment.
- H. In the event that no, or an incorrect, telephone number is provided, except when the DA location or DA operator equipment or terminals are out of service due to a Telephone Company equipment failure, no credit applies for the charge for the call to the DA operator. When the DA location or DA operator equipment or terminals are out of service due to a Telephone Company equipment failure, a credit as set forth in Paragraph 9.4, H., following, will apply.
- I. DA Service may, at the option of the IC, be provided for interstate and intrastate communications. When the IC requests such mixed access, the intrastate DA Service charges will be determined by the Telephone Company using the reports furnished by the IC as set forth in Section 2, Paragraph 2.3.14, preceding.

9.3 Obligations of the IC

- (CP) A. The IC shall determine and order the busy-hour minutes of capacity and interface type of Directory Access Services it needs for DA Service.
- (CP) B. When DA Service is initially ordered, the IC shall order the service for at least six months. Thereafter, additional service may be ordered for a minimum of six months. Not later than three months prior to the end of the six-month period, the IC shall notify the Telephone Company if the service is to be discontinued at the end of the six-month period. If no notice is received from the IC, the Telephone Company will automatically extend the service for another six months, and all appropriate charges as set forth in Paragraph 9.6, following, for another six months will apply.
- C. The IC facilities at the IC terminal location shall provide the necessary on-hook and off-hook supervision.
- (AT) D. When requested by the Telephone Company, the IC shall order a separate trunk group for DA Service for each NPA. The conditions when the customer will be requested to order separate trunk groups for each NPA are set forth in Paragraph 9.2, E.I., preceding.
- E. When the IC bills its End Users, the IC shall be responsible for all contacts and arrangements with its End Users concerning the provision and maintenance of, and the billing and collecting of charges, for DA services furnished to its End Users. When the Telephone Company bills the IC End Users at the request of the IC, contacts and arrangements with IC End Users concerning the billing and collecting of charges will be as set forth in Section 8, Paragraph 8.2, preceding.
- (CT) F. The customer understands that DA Operators will respond to two (2) requests per call only and will not transfer, forward or redial the call to another location for any purpose other than the provision of DA Service.

When the IC bills its End Users, the IC shall be responsible for all contacts and arrangements with its End Users concerning the provision and maintenance of, and the billing and collecting of charges, for DA services furnished to its End Users. When the Telephone Company bills the IC End Users at the request of the IC, contacts and arrangements with IC End Users concerning the billing and collecting of charges will be as set forth in Section 8, Paragraph 8.2, preceding.
- F. The IC shall notify its End Users through its tariff or other appropriate means that DA Operators will respond to two requests per call only and will not transfer, forward or redirect the call to another location for any purpose other than the provision of DA Service.

9.4 Payment Arrangements

A. Minimum Periods

BY DRS 6
PUBLIC SERVICE COMMISSION
OF MISSOURI

The minimum period for which DA Service and the Directory Access Service is provided and for which charges apply is one year. A minimum period of one year applies for each additional period of service ordered or extended.

If DA Service is discontinued prior to the end of each one-year period, the minimum monthly charge applies for each remaining month and fraction of month in the one-year period.

B. Minimum Monthly Charge

DA Service is subject to a minimum monthly charge. The minimum monthly charge consists of the following elements:

For those rate elements that are billed a flat monthly rate, i.e., Directory Transport options, the minimum monthly charge is the monthly rate as set forth in Paragraph 9.6, following.

The minimum monthly charge for Directory Assistance Service calls is the charge as set forth in Paragraph 9.6, following, for the actual usage for the month.

For the Directory Transport rate element, the minimum monthly charge is assessed in terms of a Minimum Monthly Usage Charge (MMUC). If the Directory Transport usage charges based on the actual usage for the month are greater than the MMUC, the IC will be assessed the usage charges based on actual usage. If the Directory Transport usage charges based on the actual usage for the month are lower than the MMUC, the IC will be assessed the MMUC charge. The MMUC is determined as set forth in Paragraph 9.4, C., following. Rates for actual usage are set forth in Paragraph 9.6, following.

C. Minimum Monthly Usage Charge (MMUC)

(RT)
(AT)

The Minimum Monthly Usage Charge (MMUC) for Directory Transport is a distance-sensitive charge that varies by mileage band and busy-hour minutes of capacity (BHMC) provided for the customer's use to the DA location.

MMUC per mileage band equals the Minimum Directory Transport charge per BHMC times the BHMC provided.

The Minimum Directory Transport charge per BHMC is as follows:

	Mileage Band	Minimum Directory Transport Charge per BHMC(1)
(CR) (RT) (RT) (CR) (CR) (CR) (RT)	0 to 1	\$0.7582
	Over 1 to 25	1.6130
	Over 25 to 50	6.0732
	Over 50	9.5170

(CT) (1) BHMC is the Directory Assistance Service busy-hour minutes of capacity provided for the customer's use to the DA location.

D. Cancellation of a Special Order

An IC may cancel a Special Order for DA Service on any date prior to notification by the Telephone Company that service is available for the IC's use. The cancellation date is the date the Telephone Company receives written or verbal notice from the IC that the Special Order is to be canceled. The verbal notice must be followed by written confirmation within ten days.

When an IC cancels a Special Order for DA Service after the order date but prior to the start of service, the appropriate cancellation charges as set forth in Section 5, preceding, apply for the Directory Access Service canceled. In addition, a charge equal to any unrecoverable capital costs incurred by the Telephone Company will apply to the IC.

E. Changes to Special Orders

When an IC requests changes to a pending order for DA Service, such changes will be undertaken if they can be accommodated by the Telephone Company. The appropriate charges as set forth in Section 5, preceding, apply for the Directory Access Service changed. In addition, a charge equal to any other costs incurred by the Telephone Company because of the change will apply.

F. Moves

A move involves a change in the physical location of the point of termination at the IC terminal location or the IC terminal location. Moves will be treated as set forth in Section 6, Paragraph 6.10.9, preceding, and all associated nonrecurring charges will apply. Minimum period requirements will be established at the new location as set forth in Section 6, Paragraph 6.10.9, preceding. The IC will also remain responsible for satisfying all outstanding minimum period charges for the discontinued service.

G. DA Service Rearrangements

Nonrecurring charges apply for service rearrangements. Service rearrangements are as set forth in Section 6, Paragraph 6.10.1, C.2, preceding. The Service rearrangement Charges are as set forth in Section 6, Paragraph 6.10.1, C.2, for the type of change provided by the Telephone Company.

(CP) H. Credit Allowance for DA Service

1. When the DA location or DA operator equipment or terminals are out of service due to a Telephone Company equipment failure or an incorrect number is provided and an IC DA call has been answered or forwarded to a DA operator, a credit allowance for a call answered or forwarded to the DA operator equal to the rate for a Directory Assistance Service Call as set forth in Paragraph 9.6, following, plus the rate for a Directory Transport call will be applied to the IC's charges. The rate for a Directory Transport call will be the average of the Directory Transport rates per call as set forth in Paragraph 9.6, following.
2. In addition to the credit as set forth in Paragraph 1., preceding, when a DA operator or DA equipment provides an incorrect number for a call and the customer reports such occurrences to the Telephone Company, a credit allowance for such DA call will apply. The credit will be as set forth in Paragraph 3., following. When the customer reports such a call, the number requested, the number provided and the reason the number provided is incorrect, the number of calls for which a credit will apply will be developed by the Telephone Company in cooperation with the customer.
3. When a DA call is not completed due to the failure of Directory Access Service to DA locations, DA access equipment or DA operator activities, a credit allowance for the Switched Access Service portion in the originating LATA of such DA call will apply. When the customer reports such a call and DA number dialed, time of the call and the date of the call, the number of calls for which a credit will apply will be developed by the Telephone Company in cooperation with the customer. The credit will be as set forth following:

set forth in Section 2, Paragraph 2.4.4, preceding.

9.5 Rate Regulations

A. The Directory Assistance service call charge as set forth in Paragraph
9.6, A., following, applies for each call to DA Service. A call is a
call which has been answered by or forwarded to a DA operator. The
charge applies whether or not the DA operator provides the requested
telephone number. The number of calls answered or forwarded to DA opera-
tors will be accumulated by Telephone Company measuring equipment. A
credit for the provision of an incorrect telephone number will be applied
as set forth in Paragraph 9.4, H., preceding.

(FC) B. The mileage for Directory Transport is measured from the serving wire
center of the IC terminal location to the DA location. Title page not-
withstanding, these two wire centers may be in different LATA's. In
addition, the premises of the ordering customer must be in the LATA where
DA service is requested or in the LATA where the DA location is located.
However, the IC terminal location must be in a LATA served by the DA
location. The measurement will be performed as set forth in Section 6,
Paragraph 6.10.15, preceding.

C. The charge per call for Directory Transport, as set forth in Paragraph
9.6, B., following, applies for each call to DA Service. A call is as
set forth in Paragraph 9.5, A., preceding. The number of calls will be
accumulated as set forth in Paragraph 9.5, A., preceding.

ACCESS SERVICES

10. SPECIAL FEDERAL GOVERNMENT ACCESS SERVICES

10.1 General

- (AT) This Section covers Special Access Services that are provided to an IC(1) for use only by agencies or branches of the Federal Government and other users authorized by the Federal Government. In addition, this section covers the Telecommunications Service Priority (TSP) System procedures as set forth in this section and administered by the National
- (AT) Communications System (NCS). Services provided to state emergency operations centers are included. These services provide for command and control communications, including communications for national security, emergency preparedness and presidential requirements. They are required to assure continuity of Government in emergency and crisis situations and to provide for national security.

Services for command and control communications and for national security and emergency preparedness sometimes require short-notice and short-duration service provisions. These provisions are especially needed to meet presidential requirements or in response to natural, man-made or declared emergencies. Requirements of this type cannot be forecasted and are usually needed for a relatively short period. The provision of service under these conditions may require the availability of facilities, such as portable microwave equipment, which are provided on a temporary basis by the Telephone Company, IC or End User.

10.2 Emergency Conditions

These services will be provided on the date requested or as soon as possible thereafter when the emergency falls into one of the following categories:

- State of crisis declared by the National Command Authorities (includes commitments made to the National Communications System in the "National Plan for Emergencies and Major Disasters").

- (1) The Federal Government may be an IC for the provision of intrastate telecommunications services for itself or for others.

B. Wideband Digital Special Access Service

Service arrangement for secured communications to accommodate the transmission of binary digital baseband signals in a random polar format.

1. Wideband Secure Communications Type I
For transmission at the rate of 18,750 bits per second.
2. Wideband Secure Communications Type II
For transmission at the rate of 50,000 bits per second.
3. Wideband Secure Communications Type III

To accommodate the transmission of restored polar two-level facsimile signals with a minimum signal element width of twenty microseconds at a rate of 50,000 bits per second.

(MT)

(AT)

C. Telecommunications Service Priority (TSP) System

1. The TSP System is a service, developed to meet the requirements of the Federal Government, which provides the regulatory, administrative, and operational framework for the priority installation and/or restoration of National Security Emergency Preparedness (NSEP) telecommunications services. The TSP System is available for both Switched and Special Access Services. The TSP System applies only to NSEP telecommunications services, and requires and authorizes priority action by the Telephone Company providing such services.

The TSP System applicability is limited to Access Services that the Telephone Company can discretely identify for priority provisioning and restoring.

In addition, TSP System service shall be provided in accordance with the "Telecommunications Service Priority (TSP) System for National Security Emergency Preparedness (NSEP) Service" and the "Telecommunications Service Priority (TSP) System for National Security Emergency Preparedness (NSEP) Service."

(AT)

C. Telecommunications Service Priority (TSP) System-(Continued)

2. Some of the rate elements required for the TSP System are included in other sections of this tariff as general service offerings. This section makes reference to them for regulations, rates, and charges in order to reflect the complete TSP System.
3. The customer for TSP System Service also must be the same customer for the Access Service with which it is associated.
4. Under certain conditions it may be necessary to preempt one or more customer services with a lower or no restoration priority in order to install or restore NSEP telecommunications service(s) of a higher priority. If such preemption is necessary, and if circumstances permit, the Telephone Company will make reasonable effort to notify the preempted service customer of the action being taken. Credit allowance for such service preemption shall be made in accordance with the provisions set forth in Section 2, Paragraph 2.4.4, E., preceding, concerning Temporary Surrender of a Service.
5. The customer, in obtaining TSP System service, acknowledges and consents to the provision of certain customer service record information by the Telephone Company to the National Communications System (NCS) in order for the NCS to maintain and administer its overall TSP System. This customer service record information will include only TSP Authorization Code and Telephone Company Circuit/Service ID.
6. When TSP is revoked, or discontinued, and the associated Access Service is continued in service, no charge applies for such a discontinuance.
7. Credit allowance for service interruption for Telecommunications Service Priority shall be the same as for the Access Service with which it is associated as set forth in Section 2, Paragraph 2.4.4, preceding.

ACCESS SERVICES

10. SPECIAL FEDERAL GOVERNMENT ACCESS SERVICES-(Continued)

10.7 Service Offerings to the Federal Government-(Continued)

10.7.1 Type and Description-(Continued)

(AT)

C. Telecommunications Service Priority (TSP) System-(Continued)

8. Certain activities associated with the TSP System performed by the Telephone Company are included in the following rate elements:
 - a. Priority Installation (Provisioning) - The act of supplying telecommunications service to a customer, including all associated transmission, wiring, and equipment, if provided by the Telephone Company, at an earlier time than standard order intervals would allow.
 - b. Priority Restoration Level Implementation (Assignment) - The act of designating the priority level for the restoration of a particular NSEP telecommunications service.
 - c. Priority Restoration Level Change - The act of changing the priority level assignment for an NSEP telecommunications service. This includes any extension of an existing priority level assignment to an expanded NSEP service.
 - d. Priority Restoration Administration and Maintenance - The act of administering and maintaining the TSP system in such a manner that it corresponds to the National Communications System data base.
9. When performing Priority Restoration (Repair), and/or Priority Installation, of an Access Service, the Telephone Company will attempt to notify the customer regarding certain Access Services where additional labor charges apply, as set forth in Section 13, Paragraph 13.2.6, following, before the required additional labor is undertaken. The customer, in obtaining a Priority Restoration, recognizes that quoting charges and obtaining permission to proceed with the restoration of certain Access Services may cause unnecessary delays and, as a result, would be contrary to the aforementioned Rules and Regulations.

In subscribing to TSP Service, the customer recognizes this condition and grants the Telephone Company the right to quote charges after the restoration or installation has been completed.

10. SPECIAL FEDERAL GOVERNMENT ACCESS SERVICES-(Continued)

10.7 Service Offerings to the Federal Government-(Continued)

10.7.5 Rates and Charges-(Continued)

(AT)

C. Telecommunications Service Priority (TSP) System

The following rates and charges are in addition to all other rates and charges that may be applicable for other services furnished under the provisions of this tariff which operate in conjunction with the TSP System. This includes, but is not limited to, Testing Services as set forth in Section 13, Paragraph 13.3.5, following.

Access Ordering Charges as set forth in Section 5, preceding, apply to TSP.

The Priority Installation (PI) charge and the Priority Restoration (PR) charge are applied per circuit for Special Access Service; per line or trunk for Switched Access Service. PI and PR apply only one time per circuit or line except when there is subsequent order activity to add legs or lines to the service. One PI or PR will apply each time leg(s) or line(s) are added to an existing TSP service. No TSP charges apply to subsequent order activity that does not affect the TSP assignment.

The Priority Level Change charge (PR8) applies when the only TSP order activity is that of changing priority levels. It applies each time the level is changed to a higher or a lower level.

The Administration and Maintenance charge (PR9) applies per line or trunk for Switched Access Service and per circuit for Special Access Service. Each leg of a multipoint service will be treated as a

(AT)

separate circuit and the PR9 will apply on a per leg basis.

C. Move Charges-(Continued)

When any service, the rates and charges for which include a Termination Charge, is moved and is installed at a new location, the IC may elect:

1. To pay the unexpired portion of the Termination Charge for the service, if any, with the application of a nonrecurring charge and the establishment of a new Termination Charge for such service at the new location, or
2. To continue service subject to the unexpired portion of the Termination Charge, if any, and pay the estimated costs of moving such service, provided that the IC requests these charges be quoted prior to ordering the service move. Charges for moving such service will be based on estimated costs attributable to the move.

Move charges include the estimated costs of removal, restoration of services or facilities necessitated by the move, transportation, storage, reinstallation, engineering, labor, supervision, materials, administration and any other specific items of cost directly attributable to the move.

RECEIVED

11. SPECIAL FACILITIES ROUTING OF ACCESS SERVICES

11.1 Description of Special Facilities Routing of Access Services JUN 27 1986

The services provided under this Tariff are provided over such facilities as the Telephone Company may elect. Special Facilities Routing is involved when, in order to comply with requirements specified by the IC or End User, the Telephone Company provides Switched Access Service, Special Access Service or Special Federal Government Access Service in a manner which includes one or more of the following conditions:

11.1.1 Diversity

Two or more services must be provided over not more than two different physical routes.

11.1.2 Avoidance

A service must be provided on a route which avoids specified geographic locations.

11.1.3 Cable-Only Facilities

Certain Voice Grade services are provided on Cable-Only Facilities to meet the particular needs of an IC or End User.

Service is provided subject to the availability of Cable-Only Facilities. In the event of service failure, restoration will be made through the use of any available facilities as selected by the Telephone Company.

(RT) Avoidance and Diversity are available on Switched Access Service as set forth in Section 6, preceding; Special Access Services as set forth in Section 7, Paragraphs 7.2.1, 7.2.3 and 7.2.5, preceding, and Special Federal Government Access Services as set forth in Section 10, preceding. Cable-Only Facilities are available for Switched Access Service as set forth in Section 6, preceding; Voice Grade Special Access Services as set forth in Section 7, Paragraph 7.2.3, preceding, and Special Federal Government Access Services as set forth in Section 10, preceding.

ACCESS SERVICES

13. ADDITIONAL ENGINEERING, ADDITIONAL LABOR AND MISCELLANEOUS SERVICES

For the purposes of Section 13 of the Southwestern Bell Telephone Access Tariff P.S.C. Mo.-No. 36 the terms "Basic Time", "Overtime" and "Premium Time" are defined as follows:

Basic Time - Work related efforts of the Telephone Company performed during normally scheduled working hours.

Overtime - Work related efforts of the Telephone Company performed outside of a normally scheduled work day.

Premium Time - Work related efforts of the Telephone Company performed outside of a normally scheduled work week.

13.1 Additional Engineering

Additional Engineering will be provided by the Telephone Company at the request of the customer only when:

- A. A customer requests additional technical information after the Telephone Company has already provided the technical information normally included on the Design Layout Report (DLR) as set forth in 6.1.4 and 7.1.6, preceding.
- B. Additional engineering time is incurred by the Telephone Company to engineer a customer's request for a customized service as set forth in 7.2, preceding.

The Telephone Company will notify the customer that additional engineering charges, as set forth in 13.1.1 following, will apply before any additional engineering is undertaken.

If more than one engineer is involved in the same additional engineering project, the total amount of time for all engineers involved will be aggregated prior to the distribution of time between the "First Half Hour or Fraction Thereof" and "Each Additional Half Hour or Fraction Thereof" rate categories.

13.1.1 Charges for Additional Engineering

The charges for additional engineering are as follows:

Access Services Tariff
Section 13
Original Sheet 1

ACCESS SERVICES

13. ADDITIONAL ENGINEERING, ADDITIONAL LABOR AND MISCELLANEOUS SERVICES

13.1 Additional Engineering

DEC 29 1983

Additional Engineering is that engineering or engineering consultation requested by the IC as set forth in Paragraphs 13.1.1 through Paragraph 13.1.3, following. The Telephone Company will notify the IC that additional engineering charges as set forth in Paragraph 13.1.4, following, will apply before any additional engineering is undertaken.

13.1.1 Engineering Consultation

Engineering Consultation involves technical advice from the Telephone Company to the IC not in connection with a specific order. Engineering Consultation also includes situations in which the IC requests the Telephone Company to provide information or to perform a function which will entail additional engineering by the Telephone Company. Inquiries of a short duration in which no significant engineering time is required and inquiries associated with IC service forecasts are not included.

13.1.2 Engineering of Connections with Other Telephone Companies

Engineering of connections with other telephone companies, if not Concurring Carriers, is the engineering activity of contacting, coordinating and designing with another telephone company, portions of facilities which connect to facilities provided by the other telephone company.

13.1.3 Charges for Additional Engineering

The charges for additional engineering are as follows:

Basic Time, per engineer	AEH	\$75.99	\$21.40
Overtime, per engineer	AEH	79.33	74.24

13.2 Additional Labor

(CT)

Additional Labor is that labor requested by the customer on a given service and agreed to by the Telephone Company.

The Telephone Company will notify the customer that Additional Labor Charges will apply before any additional labor is undertaken. Additional Labor Charges apply on a first and additional basis for each half hour or fraction thereof. If more than one technician is involved in the same Additional Labor Project, the total amount of time for all technicians involved will be aggregated prior to the distribution of time between the "First Half Hour or Fraction Thereof" and "Each Additional Half Hour or Fraction Thereof" rate categories.

(CT)

A call-out of a Telephone Company employee for Additional Labor at a time not consecutive with the Telephone Company's Business Day is subject to a minimum charge of four hours, i.e., when Overtime and/or Premium Time charges apply.

(AT)

(AT)

For Testing and Maintenance Services, if the customer elects not to release a circuit during the Telephone Company's Business Day, the Telephone Company will work with the customer to reach a mutually agreed upon time.

13.2 Additional Labor

Additional labor is that labor requested by the IC on a given service and agreed to by the Telephone Company as set forth in Paragraphs 13.2.1 through 13.2.5, following. The Telephone Company will notify the IC that additional labor charges as set forth in Paragraph 13.2.6, following, will apply before any additional labor is undertaken.

13.2.1 Overtime Installation

Overtime installation is that Telephone Company installation effort outside of regularly scheduled working hours.

13.2.2 Overtime Repair

Overtime repair is that Telephone Company maintenance effort performed outside of regularly scheduled working hours.

(1) A call-out of a Telephone Company employee at a time not consecutive with the employee's scheduled work period is subject to a minimum charge of four hours.

(AT) (2) Restoration Priority has been superseded by Telecommunications Service Priority (TSP) System as set forth in Section 10, Paragraph 10.7.1, C., preceding. Prior to March 10, 1993, RP and TSP will both be in effect, but no new assignments of RP will be allowed. The existing RP services will be honored and maintained during the interim period between the Initial Operating Capability (IOC) and Full Operating Capability (FOC) of TSP. No order for changes to existing RP circuits will be accepted without a TSP Authorization Code or a definitive statement to remove the RP assignment. On March 10, 1993, the Telephone Company will remove all RP assignments that have not been converted to TSP or discontinued free of charge.

13.3.3 Easy Access Dialing

A. GENERAL DESCRIPTION

Easy Access Dialing is an arrangement whereby an end user customer (herein referred to as customer) of the Telephone Company or a local service provider that resells services of the Telephone Company for Telephone Exchange Service (either lines or trunks), FGA and BSA-A lines, WATS Access Lines and Plexar lines may select and designate to the Telephone Company an Interexchange Carrier (IC) to access, without dialing an access code. These are referred to as the customer's Primary Interexchange Carrier (PIC) for interLATA toll calls and the intraLATA Primary Interexchange Carrier (LPIC) for intraLATA toll calls. The customer may designate an IC for PIC and a different IC for LPIC.

(AT) | The end user or customer is identified as the person on the account who is responsible for payment of the account or any person contractually or otherwise lawfully authorized to change

(AT) telecommunications services and/or represent the end user customer.

Each IC will have one or more access codes assigned to it for its various types of service. When a customer or agent selects an IC as its PIC and/or LPIC, only one access code of that IC may be incorporated into the switching system of the Telephone Company permitting access to that IC by the customer or agent without dialing an access code except "1+" or "0+".

Should a customer or agent wish to use other services of the same IC or services of a different IC it will be necessary for the customer or agent to dial the necessary access code(s) to reach that IC's other service(s).

At the time a customer or agent advises the Telephone Company of its PIC and/or LPIC, the Telephone Company will use the IC access code for that IC from the designated carrier list unless the customer at that time directs the Telephone Company to use a different IC access code assigned to the customer's chosen IC. The PIC and LPIC may either be the same IC or a different IC.

Interstate intraLATA toll calls, service between points in different states which are in the same

Local Access and Transport Area, will be routed to the LPIC selected by the customer.

This IC is referred to as the End User's primary IC and must be the same for both interLATA interstate and interLATA intrastate calls.
- B. Prior to the introduction of Easy Access Dialing in a serving end office, the existing End Users have Access Service to AT&T as their primary IC. With the introduction of Easy Access Dialing in a serving end office, End Users will be asked to select one of the following options at no charge:
- Designate an IC as their primary IC from a list of ICs offering service in the End Users serving end office and dial 10XXX or other access codes to reach other ICs.
 - Designate that they do not want to have a primary IC and choose to dial 10XXX or other access codes for all calls for all ICs.

If the End User does not choose one of the preceding options prior to the Easy Access conversion date, an IC will be randomly assigned to them using the allocation process mandated by the Federal Communications Commission in the Interstate Access Tariff, FCC No. 68. The End User will then have (6) months after the conversion date in which they can choose one of the preceding options at no charge. Thereafter, a nonrecurring charge as set forth in Paragraph 13.3.3, D., following, applies for any change in Easy Access Dialing.

B. PIC and LPIC Assignments

The Telephone Company will make changes in the customer's PIC and LPIC assignment pursuant to (1) through (2) following:

1. New Service Requests

New customers will be asked to select a PIC and LPIC when they place an order with the Telephone Company for Telephone Exchange Service, FGA, BSA-A, WATS Access Line Service and Plexar Service.

For Telephone Exchange service, FGA, BSA-A, and WATS Access Line Service, customers may select a separate PIC and LPIC for each line requested.

For Plexar service, customers may select their PIC and LPIC for a single Plexar line, multiple Plexar Lines or the Plexar Group. A Plexar Group defines a group of Plexar facilities (i.e., line, trunks, attendant features, etc.) with a common dialing pattern. A customer may have multiple Plexar Groups.

If a new customer fails to make a selection when placing an order for Telephone Exchange Service, FGA or BSA-A lines, WATS Access Line Service or Plexar Service, the customer will be allowed a six month period from installation of their service to select a PIC and LPIC at no charge. Any changes made after the six month period has expired or any change subsequent to the initial PIC and LPIC selection during the six month period will incur Easy Access Dialing Change charges as set forth in Section 13.4.3, following, specific to the line or lines being changed.

New customers may also designate that they do not want a PIC and/or LPIC. This choice (No-PIC and No-LPIC) is considered a valid PIC and LPIC selection. Any subsequent changes will incur Easy Access Dialing Change charges as set forth in Section 13.4.3, following, specific to the line or lines being changed.

On all requests for new service, the Telephone Company will notify the customer of the PIC and LPIC assigned to the relevant line(s).

Easy Access Dialing for agents of public and semipublic pay
telephones is furnished using guidelines as detailed in the Federal
Communications Commission's Allocation Plan set forth above, except
the six month notification provided to interexchange carriers of end
offices converting to equal access prior to June 1, 1989.

(MT)

C. Principal Provisions of the Allocation Plan:

1. The Telephone Company will notify customers and agents of the availability of equal access and Easy Access Dialing in their particular areas through the mailing of an Equal Access Ballot. The mailing of initial ballots will occur no later than 85 days prior to the conversion of the end office serving the customers and agents. Customers and agents will be asked to return their respective ballot within 30 days of its receipt.

Customers and agents may select one of the following options at no charge:

- indicate a primary IC for all of its lines
- indicate a different IC for each of its lines

Only one carrier may be selected for each particular line.

2. The Telephone Company will accept IC provided lists of customers and agents that have made individual arrangements with a specific IC to designate that IC as their primary long distance carrier. However, an IC must also submit a Limited Blanket Agency Agreement affirming that it does have authorization to act on behalf of the customer or agent to establish Easy Access Dialing Service. When customer or agent choice discrepancies occur, it may be necessary for the IC to furnish evidence of proper authorization upon request by the Telephone Company.

(Continued)**MISSOURI****Public Service Commission**

13.3 Miscellaneous Services-(Continued)

(CP) 13.3.3 Easy Access Dialing-(Continued)

C. Principal provisions of the Allocation Plan:

1. The Telephone Company will notify customers of the availability of equal access and Easy Access Dialing in their particular areas through the mailing of an Equal Access Ballot. The mailing of initial ballots will occur no later than 85 days prior to the conversion of the end office serving the customers. Customers will be asked to return their respective ballot within 30 days of its receipt.

Customers may select one of the following options at no charge:

- indicate a primary IC for all of its lines
- indicate a different IC for each of its lines

Only one carrier may be selected for each particular

2. The Telephone Company will accept IC provided lists of customers that have made individual arrangements with a specific IC to designate that IC as their primary long distance carrier. However, an IC must also submit a Limited Blanket Agency Agreement affirming that it does have authorization to act on behalf of the customer to establish Easy Access Dialing Service. When customer choice discrepancies occur, it may be necessary for the IC to furnish evidence of proper authorization upon request by the Telephone Company.

3. The Telephone Company will tabulate the initial ballots and the lists of customers provided by ICs to determine the percentage of customers that selected each IC. ICs that wish to receive allocated traffic must meet and maintain the ordered allocation eligibility criteria for the two year period following the equal access conversion date. If an IC wishes to change any of the agreed upon criteria within the two year period, it must notify the telephone company and its allocated customers of those changes 30 days before the changes are to take place. ICs participating in the allocation process will have customers that have not selected a primary IC assigned, at random, in proportion to the results of the first ballot response for a particular serving end office.

2. Existing Service Requests

- a. Customers of existing Telephone Exchange Service, FGA or BSA-A lines, WATS Access Line Service and Plexar Service may request changes to their PIC and LPIC according to the selection options set forth in B., 1., preceding (e.g., separate PIC and LPIC, No-PIC and No-LPIC). For these services, the Telephone Company will make PIC and LPIC changes based upon the following:
 1. For customer initiated requests, the Telephone Company will make PIC and LPIC changes upon notification by the customer of the change desired.
 2. For IC initiated changes of customer PIC and/or LPIC assignments, the Telephone Company will make PIC and/or LPIC changes pursuant to an IC-provided list of customers accepted by the Telephone Company under a Limited Blanket Agency Agreement. When an IC relies on a Letter of Authorization (LOA) to make a change it must obtain from the customer a signed LOA authorizing the change. LOAs or other valid forms of authorization based on Missouri and/or Federal regulations, must not be more than 45 days old when such changes are submitted to the Telephone Company.

B. PIC and LPIC Assignments-(Continued)

2. Existing Service Requests

- a. Customers of existing Telephone Exchange Service, FGA or BSA-A lines, WATS Access Line Service and Plexar Service may request changes to their PIC and LPIC according to the selection options set forth in B., 1., preceding (e.g., separate PIC and LPIC, No-PIC and No-LPIC). For these services, the Telephone Company will make PIC and LPIC changes based upon the following:

1. For customer initiated requests, the Telephone Company will make PIC and LPIC changes upon notification by the customer of the change desired.
2. For IC initiated changes of customer PIC and/or LPIC assignments, the Telephone Company will make PIC and/or LPIC changes pursuant to an IC-provided list of customers accepted by the Telephone Company under a Limited Blanket Agency Agreement. When an IC relies on a Letter of Authorization (LOA) to make a change it must obtain from the customer a signed LOA authorizing the change. LOAs or other valid forms of authorization based on Missouri and/or Federal regulations, must not be more than 45 days old when such changes are submitted to the Telephone Company.

b. Unauthorized PIC and LPIC Charge

An unauthorized PIC and/or LPIC change occurs when a customer's PIC and LPIC is changed without proper authorization by the customer. When a customer notifies the Telephone Company within 12 months of the date that its PIC and/or LPIC has been changed without its consent, the Telephone Company will notify the disputed PIC and/or LPIC of the dispute and revert the customer to its previous PIC and/or LPIC at no charge to the customer except as set forth in this section. The Telephone Company will also credit the customer's account for the disputed PIC and/or LPIC change.

The Telephone Company will request evidence of proper customer authorization from the disputed IC or agent that requested the PIC and/or LPIC change. If the IC or agent does not provide a LOA or other valid forms of authorization based on Missouri and/or Federal regulations, with a customer authorization date less than or equal to 45 days old from the date the change was submitted to the Telephone Company, Easy Access Dialing Change charges as set forth in Section 13.4.3, following, will be assessed to the disputed IC or agent. If the IC or agent provides a LOA or other valid forms of authorization based on Missouri and/or Federal regulations, appropriately signed and dated as described above, the Telephone Company will assess applicable PIC and/or LPIC Easy Access Dialing Change charges to the customer.

In lieu of the above LOA investigation, the IC may choose to participate in PIC and/or LPIC Switchback.

C. Rate Regulation

1. Unless otherwise specified, Easy Access Dialing Change charges apply to each PIC and LPIC selection on Telephone Exchange Service, FGA and BSA-A lines, WATS Access lines and Plexar lines, including changes to or from a No-PIC and No-LPIC designation.

Easy Access Dialing PIC and LPIC Change charges are set forth in Section 13.4.3 following. Since Easy Access Dialing PIC Change charges exist in the Telephone Company Intrastate Access Service Tariff and the Interstate Access Service Tariff, the total charge to the customer will be calculated based on one half of the intrastate charge and one half of the interstate charge.

2. Initial and Subsequent Selection

Existing customers may select an LPIC within six months from the implementation of intraLATA Dialing Parity in Missouri July 22, 1999 – January 22, 2000 without charge (No-LPIC is also a valid selection). Selection of an LPIC after the six-month period or any change to the customer's initial LPIC selection will result in LPIC Change Charges as set forth in 13.4.3, following.

5. Pay Telephone SmartCoinsm Access Lines

If the customer's PIC and/or LPIC elects not to submit an order for its 1+ interLATA or intraLATA sent paid traffic from SmartCoin Access Lines or fails to select a designated subcontractor (secondary service provider) for such traffic, the 1+ interLATA or intraLATA carrier sent paid traffic will be routed to the existing default 1+ interLATA or intraLATA carrier (provided such carrier continues to accept the traffic) until the customers' PIC and/or LPIC is ready to handle the 1+ interLATA or intraLATA sent paid traffic, or makes arrangements with another IC to handle the traffic, as set forth in Section 21 Coin Services, following.

6. Discontinuance of FGD or BSA-D Service

If an IC discontinues its FGD or BSA-D service in an end office, Easy Access Dialing Change charges as set forth in Section 13.4.3, following, will apply to the IC discontinuing the FGD or BDA-D service. These charges will be assessed to the IC for each end user that is presubscribed to that IC.

The IC must contact in writing all affected customers for whom it serves as their PIC and/or LPIC. The IC must notify these customers that they must select a new PIC and LPIC and the IC will pay all related Easy Access Dialing Change Charges.

7. PIC and LPIC Disputes

The alleged unauthorized carrier will be billed the appropriate Easy Access Dialing Change Charge(s) for the alleged unauthorized change and the appropriate Easy Access Dialing Change Charge(s) to change the customer to their preferred IC. For multiple alleged unauthorized PIC changes, supplemental charges, as set forth in section 13.4.3 (A) following will apply.

MO. PUBLIC SERVICE COMM.

1. Easy Access Dialing change charges, as set forth in Paragraph
13.3.3., F. will be applied as follows:- (Continued)

- a. An Easy Access Dialing change charge does not apply to any changes made prior to the end office equal access conversion date. If the customer or agent does not designate a primary IC prior to the equal access conversion date, the customer or agent may make an initial primary IC selection at no charge during the six month period following the equal access conversion date. Customers or agents will incur an Easy Access Dialing change charge for any subsequent changes. An Easy Access Dialing change charge will apply for any change made to the customer's or agent's primary IC after the six-month period has expired.
- b. The Easy Access Dialing change charge does apply if an IC discontinues its FGD or BSA-D offering within two years after the introduction of FGD or BSA-D in the converting end office. The IC will be billed this change charge for each end user that is designated to the IC.
- c. The Telephone Company will notify customers and agents that are allocated as set forth in C.3, and 5, preceding, of the date that the IC selected for allocation purposes will be activated. In the case of those customers or agents that will be retroactively allocated, an Easy Access Dialing change charge does not apply to any changes made during the 90-day period prior to the allocation activation date. If the customer or agent does not designate a primary IC prior to the allocation activation date, the customer or agent may make an initial primary IC selection at no charge during the six-month period following the allocation activation date. An Easy Access Dialing change charge will apply for any change made to the customer's or agent's primary IC after the six-month period has expired. The Easy Access Dialing Change Charge may be billed to the end user, agent or IC.

7. PIC and LPIC Disputes-(Continued)

a. Unauthorized PIC and LPIC Option-(Continued)

If an IC that does not participate in the Switchback option set forth in (b) below does not provide the Telephone Company with an appropriately signed and dated LOA (as described above) or other valid forms of authorization based on Missouri and/or Federal regulations, authorizing the change, the Telephone Company will credit the customer's account for the disputed PIC or LPIC change charge. The IC will be held liable for 90 days. The IC will be billed for each change in the PIC and LPIC designation (i.e., two PIC and LPIC changes for each line) plus an Unauthorized PIC and LPIC change charge for each PIC and LPIC change. When multiple PIC and LPIC changes are required as a result of an Unauthorized PIC and LPIC Change, first and supplemental charges, as set forth in Section 1.3.4.3.B., will apply.

b. PIC and LPIC Switchback Option

The PIC and LPIC Switchback option is available to any IC that has a Limited Blanket Agency Agreement for submitting PIC and LPIC orders on file with the Telephone Company and that notifies the Telephone Company in writing of that IC's desire to participate in PIC and LPIC Switchback. Under this option, the Telephone Company neither requests, nor accepts, LOAs from the IC.

If the Telephone Company is notified that a customer disputes a PIC and/or LPIC change within 90 days from when the PIC and/or LPIC change was made, the Telephone Company will restore the customer's previous PIC and/or LPIC without charge. Additionally, the customer will be credited the PIC and/or LPIC change charge(s) assessed by the Telephone Company.

- f. The Easy Access Dialing change charge will not apply to customers or agents who select a primary IC as part of the retro-active balloting process referred to in Paragraph 13.3.3., C.5 preceding.
- g. Single line customers, agents or multiline customers requesting an Easy Access Dialing change to only one line will incur the per line change charge. Multiline customers who request an Easy Access Dialing change to more than one line in a single request will incur the per line change charge for the first line and the supplemental line change charge for each additional line as set forth in Paragraph 13.3.3., F., following.
- h. Centrex customers have the capability to change their primary IC for a single Centrex line, multiple Centrex lines or the Centrex Group. A Centrex Group defines a group of Centrex facilities (i.e., lines, trunks, attendant features, etc.) with a common dialing pattern. A customer may have multiple Centrex Groups.

h. (Continued)

Centrex customers requesting an Easy Access Dialing change to only one line will incur the per line change charge. When a Centrex customer wishes to make an Easy Access Dialing change to multiple lines and does so with a single request, the per line change charge will apply to the first line, and the supplemental line change charge will apply to each additional line as set forth in Paragraph 13.3.3, F., following. Centrex customers who request an Easy Access Dialing change to their Centrex Group will incur the per Centrex Group change charge for each Centrex Group changed and a Centrex Group line change charge for each line in the Centrex Group that does not have an individual primary IC assigned to it.

1. The Telephone Company will make changes in the customer's or agent's primary IC assignment pursuant to an IC provided list of customers or agents accepted by the Telephone Company under a Limited Blanket Agency Agreement. Should customer or agent choice discrepancies occur, and the IC is unable to produce proper agency authorization, the IC rather than the customer or agent will be billed for any post-conversion Easy Access Dialing charge(s) that may apply for making the change and/or restoring the customer's or agent's original IC assignment.

The Telephone Company will make changes in the customer's or agent's primary IC assignment resulting from an IC merger or separation into more than one entity or subsidiary. The applicable change charges will be determined on an Individual Case Basis (ICB) and billed to the IC rather than the customer or agent provided that the merger or separation does not involve discontinuance of the merged IC's FGD or BSA-D services. If FGD or BSA-D services are discontinued, then the rules and regulations specified in 13.3.3, C.6, preceding will apply.

13.3 Miscellaneous Services-(Continued)

(CP) 13.3.3 Easy Access Dialing-(Continued)

C. (Continued)

Centrex customers have the capability to change their primary IC for a single Centrex line, multiple Centrex lines or the Centrex Group. A Centrex Group defines a group of Centrex facilities (i.e., lines, trunks, attendant features, etc.) with a common dialing pattern. A customer may have multiple Centrex Groups.

Centrex customers requesting an Easy Access Dialing change to only one line will incur the per line change charge. When a Centrex customer wishes to make an Easy Access Dialing change to multiple lines and does so with a single request, the per line change charge will apply to the first line, and the supplemental line change charge will apply to each additional line as set forth in Paragraph 13.3.3, D., following. Centrex customers who request an Easy Access Dialing change to their Centrex Group will incur the per Centrex Group change charge for each Centrex Group changed and a Centrex Group line change charge for each line in the Centrex Group that does not have an individual primary IC assigned to it.

D. The nonrecurring charge for Easy Access Dialing is as follows:

Easy Access Dialing,

- per line change charge	\$6.65 (1)
- supplemental line change charge	1.52 (1)
- per Centrex Group change charge	6.65 (1)
- Centrex Group line change charge	0.47 (1)

- (1) This charge is billed to the End User which is the subscriber to the Telephone Exchange Service. If nonrecurring charges for Easy Access Dialing exist in the Telephone Company Intrastate Access Service and the Interstate Access Service Tariff, the total charge to the customer will be calculated based on one half of the Intrastate charge and one half of the Interstate charge.

- I. PIC Switchback is an option under which no investigation activities are performed by the Telephone Company when a business or residence end user customer denies requesting a PIC change previously submitted by an IC participating in PIC Switchback.

PIC Switchback is available to all ICs who participate in the Equal Access subscription process and have a Limited Blanket Agency Agreement for submitting PIC orders on file with the Telephone Company. In addition, ICs must provide written notification to the Telephone Company of their desire to participate in PIC Switchback.

When the Telephone Company is notified by a business or residence end user who denies requesting a PIC change within 90 days from when the PIC change was made and provided the IC participates in this option, the Telephone Company will restore the end user to their previous IC at no charge. Additionally, the end user will be credited the PIC change charge(s) assessed by the Telephone Company for the disputed PIC change.

The participating IC who initiated the disputed PIC change will be billed the PIC change charge(s) credited to the end user's account, as well as the PIC change charge(s) to change the end user back to their previous IC. A Letter of Authorization (LOA) will not be requested from the IC nor accepted at a later date under the PIC Switchback option. ICs participating in the PIC Switchback option will be assessed the applicable Easy Access Dialing Change Charge(s).

CANCELLED

JUL 22 1999

By **2 RS #9.04**
Public Service Commission
MISSOURI

Easy Access Dialing Unauthorized PIC Change regulations and rates will continue to apply to ICs choosing not to participate in PIC Switchback.

This option does not relieve the IC of the F.C.C.'s requirements for verifying all PIC orders obtained by telemarketing prior to submitting orders to the Telephone Company and for instituting steps to obtain LOAs on all PIC orders submitted to the Telephone Company. In addition, the end user has the option of initiating a complaint to the F.C.C. concerning unauthorized PIC changes.

13.3.4 Standard Jacks - Registration Program

(AT) Registered jacks are provided by the Telephone Company to connect Registered Equipment to those services that are subject to the Registration Program as set forth in Technical Reference Publication AS No. 1. Registered jacks are used to terminate services provided by the Telephone Company. For each service provided by the Telephone Company, a specific registered jack has been selected as the standard for the service. This jack will be provided and installed at no additional charge. Other services or facilities, provided either by the Telephone Company or by others, may also be terminated in any spare capacity of the standard jack. There is no charge for the use of spare capacity of the jack.

The customer may procure an additional jack (or jacks) from either the Telephone Company or another vendor for installation on the customer's side of the demarcation point.

The use of Jacks is covered in Part 68 of the F.C.C.'s Rules and Regulations. Specific jacks are described in the document on file with the F.C.C. entitled "Descriptions of Standard Registration Program Connection Configurations Supplementing Configurations described in Subpart F of Part 68 of the F.C.C.'s Rules and Regulations".

13.3.5 Testing Services

(CT)

Testing Services offered under this section of the tariff are optional and subject to rates and charges as set forth in 13.3.5, C., following. Other testing services provided by the Telephone Company in association with Access Services are furnished at no additional charge. These other testing services are described in Paragraphs 6.1.4 and 7.1.7, preceding.

Testing services are normally provided by Telephone Company personnel at Telephone Company locations. However, provisions are made in 13.3.5, A.5 and B.2, following for a customer to request Telephone Company personnel to perform testing services at the IC terminal location or End User's premises.

The offering of Testing Services under this section of the Tariff is made subject to the availability of the necessary qualified personnel and test equipment at the various test locations mentioned in Paragraphs 13.3.5, A., B. and C., following:

A. Switched Access Service

Testing Services for Switched Access are comprised of (a) tests which performed during the installation of a Switched Access Service and (b) tests which are performed after acceptance of such access services by an IC, i.e., inservice tests. These inservice tests may be further divided into two broad categories of tests: scheduled and nonscheduled.

Scheduled tests are those tests performed by the Telephone Company on a regular basis, e.g., monthly, which result in the measurement of Switched Access Service. Scheduled tests may be done on an automatic basis (no

Original Sheet 16

ACCESS SERVICES

13. ADDITIONAL ENGINEERING, ADDITIONAL LABOR AND MISCELLANEOUS SERVICES-
(Continued)

13.3 Miscellaneous Services-(Continued)

DEC 29 1983

13.3.5 Testing Services

The Telephone Company will, in addition to any IC-requested acceptance testing, perform such tests as it believes necessary to insure that the access services ordered by an IC are functioning properly prior to turning over such access services to the IC. In addition, the Telephone Company as part of the ongoing work to maintain the continued satisfactory performance of the access services ordered by the IC, may perform periodic tests.

Testing Services offered under this Section of the Tariff are in addition to the tests described above and will be provided when requested by the IC, except for scheduled testing of Feature Groups C and D, which is nonoptional. Testing services are normally provided by Telephone Company personnel at Telephone Company locations. However, provisions are made in Paragraphs 13.3.5, A.5. and B.2., following, for an IC to request Telephone Company personnel to perform testing services at the IC terminal location or End User's premises. In addition, the Telephone Company will, at the request of the IC, perform Acceptance Testing with the IC in accordance with the provisions set forth in Sections 6 and 7, preceding.

The offering of Testing Services under this Section of the Tariff is made subject to the availability of the necessary qualified personnel and test equipment at the various test locations mentioned in Paragraphs 13.3.5, A., B. and C., following:

A. Switched Access Service

Testing Services for Switched Access are comprised of (a) tests which are performed during the installation of a Switched Access Service and (b) tests which are performed after acceptance of such access services by an IC, i.e., in-service tests. These in-service tests may be further divided into two broad categories of tests: scheduled and nonscheduled.

Nonscheduled tests are performed by the Telephone Company "on demand," which result in the measurement of Switched Access Services. Nonscheduled tests may involve Telephone Company technicians at the Telephone Company offices and at the IC's terminal location.

1. Additional Cooperative Acceptance Testing

Additional Cooperative Acceptance Testing (ACAT) of Switched Access Service involves the Telephone Company provision of a technician at its office(s), and the IC provides a technician at its terminal location(s) with suitable test equipment to perform the required tests.

Additional Cooperative Acceptance Tests may, for an example, consist of the following tests:

- Impulse Noise
- Phase Jitter
- Signal to C-Notched Noise Ratio
- Intermodulation (Nonlinear) Distortion
- Frequency Shift (Offset)
- Envelope Delay Distortion
- Dial Pulse Percent Break

ACCESS SERVICES

13. ADDITIONAL ENGINEERING, ADDITIONAL LABOR AND MISCELLANEOUS SERVICES-
(Continued)

13.3 Miscellaneous Services-(Continued)

13.3.5 Testing Services-(Continued)

A. Switched Access Service-(Continued)

4. Manual Scheduled Testing

Manual Scheduled Testing (MST) of Switched Access Services (FGB, FGC, FGD, BSA-B, BSA-C, BSA-D and Directory Access Service not routed through an access tandem), where the Telephone Company provides a technician at its office(s) and at the IC terminal location, will consist of quarterly loss and C-message noise tests and annual balance tests. However, the IC may specify a more frequent schedule of tests. In addition to the loss/noise/balance tests, the IC may also order, at additional charges, gain-slope and C-notched noise testing.

The Telephone Company will provide, on a quarterly basis, a MST report that lists the test results for each trunk tested. Trunk test failures requiring IC participation for trouble resolution will be provided to the IC on an as-occurs basis.

13. ADDITIONAL ENGINEERING, ADDITIONAL LABOR AND MISCELLANEOUS SERVICES-(Continued)

13.3 Miscellaneous Services-(Continued)

13.3.5 Testing Services-(Continued)

A. Switched Access Service-(Continued)

4. Manual Scheduled Testing

Manual Scheduled Testing (MST) of Switched Access Services (Feature Groups B, D and Directory Access Service not routed through an access tandem), where the Telephone Company provides a technician at its office(s) and at the IC terminal location, will consist of quarterly loss and C-Message Noise tests and annual balance tests. However, the IC may specify a more frequent schedule of tests. In addition to the loss/noise/balance tests, the IC may also order, at additional charges, gain-slope and C-Notched Noise testing.

With Feature Group B Switched Access Service, MST is only provided to IC's who order it, i.e., MST is optional. However, with Feature Group D, MST may be provided as an alternative to the nonoptional AST. Trunks from a Telephone Company digital switch (e.g., 4E, 5E or DMS10) to an IC digital switch utilizing digital facilities are excluded from mandatory routine testing.

The Telephone Company will provide, on a quarterly basis, a MST report that lists the test results for each trunk tested. Trunk test failures requiring IC participation for trouble resolution will be provided to the IC on an as-occurs basis.

A. Switched Access Service-(Continued)

5. Nonscheduled Testing

Nonscheduled Testing (NST) of Switched Access Services is where:

- the IC provides remote office test lines and 105 test lines with associated responders or their functional equivalent ("automatic testing"), or
- the Telephone Company provides a technician at its office(s), and the IC provides a technician at its terminal location(s) with suitable test equipment to perform the required tests ("cooperative testing"), or
- the Telephone Company provides a technician at its office(s), at IC terminal location(s) or End User's premises with suitable test equipment to perform the required tests ("manual testing").

Nonscheduled tests may consist of any tests, e.g., loss, noise, slope and envelope delay which the IC may require.

6. Obligations of the IC

- a. The IC shall provide the Remote Office Test Line priming data to the Telephone Company, as appropriate, to support AST as set forth in Paragraph 13.3.5, A.2., preceding, or NST as set forth in Paragraph 13.3.5, A.5., preceding.
- b. The IC shall make the facilities to be tested available to the Telephone Company at times mutually agreed upon.

B. Special Access Service

The Telephone Company will, at the request of an IC, provide assistance in performing specific tests requested by the IC.

1. Additional Cooperative Acceptance Testing (ACAT)

When an IC provides a technician at its terminal location or at the End User's premises with suitable test equipment to perform the required tests, the Telephone Company will provide a technician at its office for the purpose of conducting Additional Cooperative Acceptance Testing. At the IC's request, the Telephone Company will provide a technician at the IC terminal location or at the End User's premises. These tests may, e.g., consist of the following:

- VG1 through VG5: Attenuation Distortion,
C-Message Noise and Echo Control

- VG6 through VG12: Attenuation
Distortion, C-Message Noise, Echo
Control, Impulse Noise, Phase Jitter,
Intermodulation Distortion, Envelope
Delay Distortion and Frequency Shift.

2. Nonscheduled Testing (NST)

When an IC provides a technician at its terminal location or at the End User's premises with suitable test equipment to perform the required tests, the Telephone Company will provide a technician at its office for the purpose of conducting Nonscheduled Testing. At the IC's request, the Telephone Company will provide a technician at the IC terminal location or at the End User's premises. Nonscheduled tests may consist of any tests, e.g., loss, noise, slope and envelope delay which the IC may require.

PUBLIC SERVICE COMMISSION
OF MISSOURI

- (1) These three tests represent the minimum offering, i.e., an order for testing must at minimum consist of four 1004 Hz Loss Tests per transmission path, four C-Message Noise Tests per transmission path and one Return Loss (Balance) Test per transmission path, per year. The additional tests listed may be ordered by the IC at additional charges, 60 days prior to the start of the IC-prescribed schedule.
- (2) The IC may specify a more frequent schedule of tests, 60 days prior to the start of the IC-prescribed schedule.
- (3) Subject to a one-year minimum contract period and annually thereafter.

13.3.6 Provision of Access Service Billing Information:

- A. The customer will receive its monthly bills in a standard paper format or if requested by the customer, on magnetic tape in lieu of paper. Once billing has begun, the Telephone Company will accept subsequent customer requests for form changes in the primary billing data (e.g., paper to tape or tape to paper). The Access Billing Change charge set forth in Paragraph 13.3.6., D.1., following will apply for each form change requested by the customer per billing period per Revenue Accounting Office (RAO).

The period of time to implement the changes will be determined by the Telephone Company.

- B. At the option of the customer, and for an additional charge:

1. Billing detail may be sent to the customer's premises by data transmission.
2. Additional copies of the customer's monthly bill may be provided in standard paper, magnetic tape, floppy disk or microfiche format.
3. When additional copies of the customer's bill are ordered by the customer, the Access Billing Change charge will apply per billing period per RAO for each form of the bill ordered. For subsequent changes in bill form or number of additional copies, the Access Billing Change charge set forth in Paragraph 13.3.6., D.1., following, will apply per customer request, per billing period per RAO. The period of time to implement these options or make changes will be determined by the Telephone Company.

- C. On an individual case basis, other forms of the billing data or the preparation of the billing data for data transmission will be provided when the Telephone Company has determined that these provisions are economically beneficial and the customer is mutually agreeable to the provisions.

13.3 Miscellaneous Services-(Continued)

13.3.6 Provision of Access Service Billing Information:-(Continued)

D. If charges for Access Services Billing exist in the Telephone Company's Intrastate Access Service Tariffs and its Interstate Access Service Tariff, the total charge to the customer will be calculated based on one half of the intrastate charge and one half of the interstate charge. If charges for Access Services Billing exist only in the Telephone Company's Intrastate Access Services Tariff, full intrastate charges will apply.

E. Standard Bill Periods for Switched Access Services and Special Access Services are as follows:

Switched Access FGA/BSA-A	5th of the Month
FGB/BSA-B	5th of the Month
FGC/BSA-C	15th of the Month
FGD/BSA-D	5th and 15th of the Month
Special Access	25th of the Month

To the extent the Telephone Company can accommodate the customer's request to change an existing bill period, a nonrecurring charge will apply. The Billing Account Number (BAN) Administrative Change Charge as set forth in Section 6 does not apply when a customer requests a change of an existing bill period.

The nonrecurring charge for FGA and BSA-A is applied per line. For FGB, FGC, FGD, BSA-B, BSA-C and BSA-D, the nonrecurring charge is applied per end office and access tandem.

(CP)ACCESS SERVICES

13. ADDITIONAL ENGINEERING, ADDITIONAL LABOR AND MISCELLANEOUS SERVICES-
(Continued)

13.3 Miscellaneous Services-(Continued)

13.3.8 900 Call Restriction

An optional service available, where facilities permit, in Telephone Company electronic end offices. This service provides end office blocking of originating 900 calls by routing such calls to a recorded announcement.

Charges associated with 900 Call Restriction will be waived, on a one-time basis, to subscribers of a new telephone number for a period of 60 days after the new number is effective. For subsequent blocking requests, the Telephone Company will assess a nonrecurring charge to the subscriber on a per line basis. Any request by a subscriber to remove 900 Call Restriction must be submitted in writing to the Telephone Company.

Nonrecurring Charge

(A) FGA/BSA-A (RBVXF)

Per line - first request	\$25.00
Per line - subsequent request	\$25.00

(B) WATS Access Line Service (RBVXF)

Per line - first request	\$25.00
Per line - subsequent request	\$25.00

- Any customers of WATS Access Line Service,
including end users purchasing WAL Service out of
the Telephone Company's general exchange tariff,
may be considered a customer of 900 Call Restriction
for WAL Service.
