## **NOTICE OF REPOSITORY FILE REGARDING THE CHAPTER 22 ELECTRIC UTILITY RESOURCE PLANNING REVISIONS WORKSHOPS**

Issue Date: May 20, 2009

The Commission has opened this file as a repository for documents and comments regarding the Chapter 22 Electric Utility Resource Planning Revisions Workshops. The Commission's Staff will be hosting a series of workshops to consider changes to the Commission regulation that requires Missouri's investor-owned electric utilities to consider and analyze their resource plans, resource acquisition strategies, and investment decisions with the intent to provide safe, reliable and efficient energy services to the public at just and reasonable rates.

The regulation requires Missouri's electric utilities to consider energy efficiency measures to reduce the demand for electricity along with consideration of supply-side measures, such as the construction of new power plants, to meet the public's need for electricity. However, the regulation has been in place for nearly twenty years, and the Commission is considering ways to bring the regulation more in line with Missouri's Renewable Energy Standard statute, which was approved by voters as Proposition C, as well as with recent federal energy policy enactments.

Using this file, any person with an interest in these workshops may view documents pertaining to the project and may submit any pertinent responsive

comments or documents. As this is not a contested case, any person may make a filing without counsel and without *ex parte* constraints (arising from this matter). Intervention requests are not necessary to participate.

The public is welcome to file comments electronically or by mailing written comments. You may submit electronic comments by e-mail at Chapter\_22\_Comments@psc.mo.gov. Written comments in hard copy should be addressed to the Commission at P.O. Box 360, Jefferson City, Missouri 65102, and should reference File No. EW-2009-0412.
