4	JUDGE CLARK: Can everyone hear me okay?
5	MR. PRINGLE: Yep, I can hear you, Judge.
б	JUDGE CLARK: Thank you, Mr. Pringle. I
7	think I've got everybody necessary to start. Am I
8	waiting on anyone for which anyone is aware?
9	MR. PRINGLE: I'm not sure if Ms. Meadows
10	is on yet.
11	JUDGE CLARK: Good question. Thank you.
12	MS. HANSON: I don't know if I see her.
13	JUDGE CLARK: I do not. I'm going to give
14	it a couple of minutes for Ms. Meadows to show up.
15	(Short break.)
16	MS. HANSON: Good afternoon. I show a
17	call-in user. Ms. Meadows, is that you?
18	MS. MEADOWS: Yes.
19	MS. HANSON: Perfect. Thank you.
20	JUDGE CLARK: Okay. So I'm Now it
21	appears we may have everybody we need. Okay. I'm
22	going to go Well, I'm going to say this before we
23	go on the record. We do not a court reporter present
24	for this discovery conference, this is a common
25	occurrence, this is something that we have elected to

1	do. Page 3
2	Today's date is June 12th of 2025. And the
3	current time is 2:03 p.m.
4	The Commission has set aside this time for
5	a Webex Discovery Conference in the case captioned as
б	Cheri Meadows, Complainant, versus Grain Belt Express,
7	LLC, Respondent. And that is Case No. EC-2025-0136.
8	My name is John Clark. I'm the Regulatory
9	Law Judge overseeing this case. I'm going to begin by
10	asking the attorneys to make their entry of appearance
11	for the record. Starting with Ms. Meadows who is
12	pro se. Ms. Meadows, you're here; correct?
13	MS. MEADOWS: Yes.
14	JUDGE CLARK: And you are representing
15	yourself; correct?
16	MS. MEADOWS: Yes.
17	JUDGE CLARK: On behalf of Grain Belt
18	Express?
19	MS. CALLENBACH: Yes. Good afternoon,
20	Judge. Anne Callenbach of the Law Firm
21	Polsinelli, PC, appearing on behalf of Grain Belt
22	Express, LLC.
23	JUDGE CLARK: Thank you, Grain Belt. On
24	behalf of the Commission Staff.
25	MS. HANSON: So we have me, Andrea Hanson,

1	Page4 we also have Travis Pringle, and we have a staff
2	member, and then a number of interns who are observing
3	as well.
4	JUDGE CLARK: Okay. That's great. Thank
5	you, Staff. Is there anyone present from the Office
6	of the Public Counsel? I hear none. They participate
7	in these kinds of cases at their whim, and so just
8	because they're not participating now does not mean
9	that they may not necessarily take an interest in this
10	case in the future, but they're entitled to
11	participate in any proceeding regarding this case.
12	Is there anyone I've missed? I don't
13	believe so.
14	Okay. I'm going to remind everyone that
15	the Presiding Officer, which is me, can rule on
16	substantive issues at a prehearing conference, which
17	would include this kind of conference, pursuant to
18	Commission Rule 20 CSR 4240-2.090, Subsection 6.
19	This discovery conference was called to
20	discuss Ms. Meadows' motion to compel and her
21	subsequent request for a discovery conference.
22	With that, Ms. Meadows, I'm going to kind
23	of just start and go through this and then I'll ask
24	the parties to kind of weigh in.
25	You had filed this Motion to Compel

1	Page 5 discovery at I don't remember the exact date you
2	filed it, but I in any normal pleading ten days are
3	given to allow other parties to respond, so I waited
4	ten days to see if any of the parties would respond
5	and no parties responded to your Motion to Compel
6	discovery.
7	I was still tempted to just summarily deny
8	it, and the main reason for denying it is honestly not
9	really the content as much as it is the procedure that
10	you went through. Pursuant to the Commission's rules
11	in these kinds of cases, normally any Motion to Compel
12	can't be filed until after you have attempted to
13	resolve your discovery dispute with the opposing party
14	have represented that to the presiding officer and
15	have asked for an immediate discovery conference via

16 phone.

25

That didn't happen in this case, you did 17 request a discovery conference, and so I decided to 18 19 wait to deny yours on procedural grounds largely 20 because I think there is some stuff in here that it's 21 -- quite possibly you might be entitled to in the way 22 of discovery, and I thought we could discuss that 23 before further motions are filed. 24 No, I didn't --MS. MEADOWS: Yeah.

JUDGE CLARK: Do you understand --

	Audio Transcript June 12, 2025
1	Page6 MS. MEADOWS: I didn't do that correctly,
2	and I'm sorry. I'll note for future reference, but,
3	yeah, I kind of did one before the other accidentally,
4	so, yeah, that was my fault there, in filing the
5	Motion to Compel without doing the Meet and Confer I
6	believe it's called first?
7	JUDGE CLARK: I don't know that it has a
8	particular name, but I do agree with you.
9	Who is on discovery? Hold on just a
10	second, let me look And then I'll go over that
11	section, Except when authorized by an order of the
12	Commission, the Commission will not entertain any
13	discovery motions until the following requirements
14	have been satisfied. And have you seen that section
15	of the Commission's
16	MS. MEADOWS: I have. I still did After
17	the fact, but yes.
18	JUDGE CLARK: Okay. So you're aware of
19	that now?
20	MS. MEADOWS: I am.
21	JUDGE CLARK: Okay.
22	MS. MEADOWS: And, I'm sorry, I'm sorry I
23	didn't do that correctly, I'm doing my best here.
24	JUDGE CLARK: Ms. Meadows
25	MS. MEADOWS: although I missed that.

1	Page7 JUDGE CLARK: you don't have to
2	apologize, there is nothing to apologize for, this
3	happens all of the time, attorneys do this with
4	regularity, so it's not I wouldn't
5	MS. MEADOWS: So
б	JUDGE CLARK: It is certainly something
7	that is navigateable in a variety of different ways.
8	Grain Belt, do you disagree with anything
9	I've said so far regarding this?
10	MS. CALLENBACH: No, Judge, not really.
11	We, in fact we received Ms. Meadows' Motion to
12	Compel that was filed on May 23rd, and we originally
13	reached out to her and let her know of the regulation
14	that requires a meet-and-confer process. We also did
15	request that she withdraw the Motion to Compel, as it
16	was filed on May 23rd and the responses to the data
17	requests that she was trying to compel weren't even
18	due until May 27th, so we did think that it was both
19	procedurally improper and also premature from a timing
20	standpoint. We also did have a meet-and-confer I'm
21	just I'm saying meet-and-confer, that's just
22	the vernacular
23	JUDGE CLARK: Yeah, I'm not interested in
24	the vernacular, I'm just curious because you mentioned
25	that it predated, but it looks like if this was

	Audio Transcript Julie 12, 2023
1	Page 8 if this motion predates a discussion, it looks like
2	what she's listed in here are objections to answering,
3	so that would kind of well, put a kind of an ending
4	point on that is discovery going to be provided or
5	not. In other words, I'm not sure that the date
6	matters if she had already received an objection to
7	answering.
8	MS. CALLENBACH: She had received
9	MS. MEADOWS: Correct.
10	MS. CALLENBACH: Yes, she did receive a
11	timely-filed objection, but she also did receive
12	answers which were filed subsequent sorry,
13	submitted to her subsequent to the filing of the
14	Motion to Compel.
15	JUDGE CLARK: Okay. Can I ask what she's
16	received? And if it's out if that's out of bounds
17	for me, please let me know. I ask a lot of questions
18	that I may not be allowed to ask, but I do it anyway.
19	MS. CALLENBACH: No. No, certainly that's
20	fine for you to ask. She had requested the Motion to
21	Compel responses to DR No. 18, and we responded to
22	that on May 27th indicating that without waiving the
23	foregoing objection, there were no notes, emails, text
24	memos, etc., that were responsive to the request other
25	than those that were covered by attorney/client

1	Page 9 privilege.
2	JUDGE CLARK: Okay. And why would those be
3	covered by attorney/client privilege? If neither
4	MS. CALLENBACH: She re
5	JUDGE CLARK: Of them are attorneys?
6	MS. CALLENBACH: Because to the extent that
7	there were emails from either of those Invenergy
8	employees were really Greg Smith was from CLS, that
9	were copied that we were copied on, then they would be
10	covered by privilege.
11	JUDGE CLARK: Okay.
12	MS. CALLENBACH: So there are no notes, or
13	emails, texts, etc., of anything not privileged that
14	we can provide.
15	JUDGE CLARK: Okay. But she would still be
16	entitled to call this person as a witness; correct?
17	MS. CALLENBACH: Certainly. In fact, Jason
18	Brown is one of our witnesses.
19	JUDGE CLARK: Okay. So, Ms. Meadows, you
20	would be able to ask Mr. Brown those questions at the
21	hearing, you understand that?
22	MS. MEADOWS: I do. But here is where I
23	ran into a little bit of problems with their response
24	to, There were no notes, there were no anything,
25	because Jason brown came to my house and in front of

1	Page 10 me he said he him and Greg Smith had talked about
2	me, and I'm quoting, A lot. So that means more than
3	one or two, or even three times, that's several times.
4	So I wanted to know, after I've literally met Greg
5	Smith in person at my house, and him and Jason have
6	had discussions, I'm assuming about my property, and
7	he even admitted they talked a lot, how come I can't
8	get any information on that, but Grain Belt supplied
9	let me see my notes here eight attempted calls,
10	visits, and letters from a different land agent, Rick
11	Phillips, who I've never seen or spoken to, but yet
12	Greg Smith actually showed up at my house, and they
13	didn't have any documentation about that other than he
14	came to my house?
15	I mean, it just didn't make any sense that
16	they have all of this documentation on someone else

16 they have all of this documentation on someone else 17 that came here, or tried calling, or whatever, but the 18 guy who actually came here, he didn't take any notes, 19 he didn't make any notes of anything, and him and 20 Jason brown had all of these discussions, but yet they 21 don't have anything to submit? I mean, it doesn't 22 seem right.

JUDGE CLARK: Well, and it may not, and I'm going to say first off saying that somebody talked a lot, doesn't necessarily mean that they talked

1	Page 11 multiple times, it could mean that they talked at
2	length about yours in a single visit, but assuming
3	but that's neither here nor there. I do not go around
4	all day taking notes on all of my conversations with
5	everybody I talk to, that's not something that people
6	normally do, and even in the prospects of business,
7	they may strike up conversations that are not
8	recorded.
9	I think what Grain Belt is getting to, and
10	they'll correct me if I'm wrong, is that they're not
11	required to manufacturer something for you that
12	doesn't exist. In other words, they're not required
13	to come up with a transcript of a conversation for
14	which there is no transcript existing before.
15	MS. MEADOWS: True.
16	JUDGE CLARK: You are certainly entitled to
17	propound discovery asking kind of as a gist what was
18	said, you can do that. I believe you can also, as I
19	indicated before, ask the person directly questions on
20	the stand, You talked to such and such, what did you
21	say? Those are certainly things that you can do.
22	MS. MEADOWS: Does a privilege log apply to
23	this case, Judge?
24	JUDGE CLARK: I'm sorry?
25	MS. MEADOWS: Does a privilege log apply in

	Addio Transcript Julie 12, 2023
1	Page 12 this particular instance?
2	JUDGE CLARK: Does a privilege log? Okay.
3	I follow what you're saying.
4	MS. MEADOWS: Yes.
5	JUDGE CLARK: It certainly could. I see
6	those in cases generally where there is a lot more
7	evidence than here, but usually, yes, they are
8	required if they are asserting privilege to explain
9	briefly what the privilege is. They At least in
10	their at least in the response as you've put it
11	forth to me, it looks like they have done that, they
12	say that it is a privileged communication in that it
13	was between this person apparently and their attorney,
14	or it was between their attorney and someone regarding
15	this, any of those would correctly fall under the
16	privilege.
17	MS. MEADOWS: Yeah, they referred to Work
18	Product Doctrine and some other things in their reply.
19	Like I said, it's just it's gotten to the point
20	where they haven't I mean, Invenergy is a billion
21	dollar multi-billion dollar company, and I've
22	worked for a couple of companies, they weren't as
23	large as those, but whenever we talked with customers,
24	we had to make notes on the phone of why they called,
25	what it was about, any resolutions, who we transferred

LEXITAS

June 12, 2025

1	Page 13 them to, whatever. I mean, and those were just
2	companies that sold work comp insurance, or sold
3	products to customers, or whatever, those weren't a
4	transmission line company having talked having
5	conversations with people whose lives were going to be
6	affected by their line in it.

7 It seems like for two years I basically 8 protested this line, brought up concerns, worked with 9 I thought the person who could get the line moved off of me, and yet here we are, I'm literally on Data 10 11 Request No. 21, and I haven't seen a single piece of 12 information about any of those discussions that were 13 take -- that took place between the land agent at 14 Grain Belt and I, in the numerous conversations and 15 meetings we had.

16 So I'm to the point that I almost feel like 17 I got brushed off for two years, and he didn't make a 18 single note, or talk to anyone about my concern, that 19 he just made me think he cared and was listening, and 20 was trying to do whatever he could. And so that's 21 part of the reason why the Motion to Compel was 2.2 because I'm kind of frustrated at this point because 23 I've sent all of these data requests trying to get where my property was discussed, and what they were 24 25 saying.

	Audio Transcript June 12, 2025
1	Page 14 Because all I want is a fair hearing here,
2	and I'm not getting anything, and it either doesn't
3	exist apparently, or they're finding ways to avoid
4	turning it over. So that's how I feel about that.
5	And that's why now I'm researching, okay, well, so
6	it's privileged, so can you share a privilege log of
7	what you talked about that's so secretive that you
8	can't share it? I mean, it should have just been,
9	hopefully, it was just about my property, it wasn't
10	anything personal or whatever that they don't want to
11	share.
12	JUDGE CLARK: Okay. Well
13	MS. MEADOWS: Does that all make sense?
14	JUDGE CLARK: we kind of jumped in, and
15	it's partially my fault, I kind of jumped in and
16	started addressing the subject of the Motion to
17	Compel, I heard at one point that they had asked you
18	to withdraw your Motion to Compel, but you chose not
19	to do so.
20	Grain Belt, do you want to address the
21	Motion to Compel today?
22	MS. CALLENBACH: You know, Judge, we're
23	happy to do that, but as we explained to Ms. Meadows
24	when we spoke on the phone on June 3rd, we indicated
25	that these responses that we submitted on May 27th

	Audio Transcript June 12, 2025
1	Page 15 were verified by the witness, and to the extent we say
2	that there are no notes of those conversations, that
3	that is the truth, there are no notes that are not
4	privileged. As you noted, they there were
5	perhaps there were discussions between Jason Brown and
б	Greg Smith, but there were no notes of those
7	conversations, or transcriptions, or etc., so there is
8	simply nothing tangible to provide.
9	JUDGE CLARK: Okay. Well, the
10	MS. MEADOWS: But I Excuse me, I didn't
11	mean to interrupt you.
12	JUDGE CLARK: You're fine. What about
13	Ms. Meadows' request to that you provide a
14	discovery or a privilege log?
15	MS. CALLENBACH: I don't think we have any
16	objection to doing that.
17	JUDGE CLARK: Okay. I think that would be
18	appropriate, at least then she would have general idea
19	of why you're objecting to turning that over. Because
20	she just said you either that they either don't
21	exist or you're finding ways not to turning them over.
22	And I'm going to caveat that with finding ways to not
23	turn them over is not illegal, it's not even immoral
24	if it's done pursuant to the rules. I mean, saying
25	that something is privileged, or is a trial tactic, or

	Audio Transcript June 12, 2025
1	Page 16 is work product, those are all reasonable reasons to
2	not have to turn something over to you if it would
3	disadvantage them in a way that would be unfair. So
4	But if it comes down to it, and you are not
5	satisfied with the privilege log, then it's possible
6	that we could have a situation where I would have to
7	look at the information and determine whether it met
8	the privilege.
9	So at least with DR 18, it doesn't sound
10	like there is information that was not privileged, and
11	I'm going to ask Grain Belt to provide a privilege log
12	in regards to the DR 18.
13	And, Grain Belt, are you okay with that?
14	MS. CALLENBACH: Yes, Judge. Thank you.
15	JUDGE CLARK: Okay. I believe there was
16	also a DR 13, which is: Provide all documents, maps,
17	memos, communications, transcripts report, risk
18	assessments, notes, and any other documents, including
19	electronic documents in the possession of Grain Belt
20	Express, its routing contractor, or any other persons
21	involved in the Tiger Connector Routing project that
22	discussed my property.
23	And Grain Belt said it was overly broad,
24	unduly burdensome, and not reasonably calculated to
25	the to lead to the discovery of admissible

1	Page 17 evidence. The request contains no temporal bounds and
2	is not narrowed to focus on any particular issue which
3	related to a matter before the issue. And my
4	immediate thing to look at that and say is to say,
5	I disagree because it simply at the end states "That
6	discussed my property." Why, Grain Belt, would you
7	find that that would be overly broad if it's
8	restricted to her parcel of land?
9	MS. CALLENBACH: Well, first I'd like to
10	point out, the DR 13 is not part of the Motion to
11	Compel, it was simply referenced in here, but it is
12	not part of her request for relief in the Motion.
13	JUDGE CLARK: Okay.
14	MS. CALLENBACH: She did not re that 13
15	be compelled, so I don't believe that that's actually
16	on the table this afternoon.
17	JUDGE CLARK: Okay.
18	MS. CALLENBACH: But to answer your
19	question from a substantive standpoint, "Discussed her
20	property," that would include all notes from our
21	routing team going back three years, every detail, and
22	graphic, and discussion that went into the preparation
23	of the 100-plus page routing study, all of those could
24	reasonably be construed to have, quote, "Discussed her
25	property." It we do feel that it's extremely

	Audo Hanschpt June 12, 202
1	Page 18 broad. I think "Discussed my property," is overbroad,
2	and since there is no time constraint on it, that
3	could go back to four years ago when we established
4	the routing team and we were doing windshield
5	drive-bys on various routes.
6	JUDGE CLARK: Let me think about that for a
7	little bit. I'm going to put a star on that. As you
8	pointed out (technical difficulty). Give me just one
9	second, I want to make a note. All right. You're
10	correct, she only asks that responses to Request 18
11	and 19, so at this point, for right now at least,
12	we'll skip over 13.
13	Now 19 was a request regarding tower
14	placement. And I believe and, Ms. Meadows, I had a
15	little bit of trouble following this, so correct me if
16	I'm wrong, I'm going to kind of summarize it. My
17	understanding is that you had a route explained to you
18	and that or shown to you and that route indicated
19	there would be a tower on your neighbor's property,
20	and then at some point you saw another map that showed
21	no tower there, and you are asking for a rendering
22	Just a second. Can you provide the rendering of the
23	line being extended west from the 34, slash, 3 tower
24	and remaining along the roadway approximately 700
25	feet?

1	Page 19 As I explained at the beginning of this,
2	you can ask for things that they have, but you can't
3	require them to manufacture things for you, so if a
4	map doesn't exist of that, I'm not going to require
5	them to make one. So I'm not sure what to do with
6	your request at this time because you're saying
7	essentially, I saw something previously that is not
8	the way it is being shown to me now; is that correct?
9	MS. MEADOWS: Well, basically going back to
10	we've I've been in discussions with Grain Belt for
11	over two years now, they haven't once provided a map
12	of the alternative route not going on me. I've
13	provided a alternate route of the line not going on
14	me, but I thought this was interesting, because when I
15	mentioned that in the February 20th procedural
16	conference, bam, they made a map of it. But for over
17	two years I've been saying, Please, don't risk my
18	life, just move the line south of me where it's not
19	going to block my drive, or burn my house down if it
20	falls, and yet, no map, nothing.
21	So once again it goes back to is anyone
22	even listening to me? I mean, I really feel like at
23	this point I was just being listened to for the, I
24	don't know, fact of just let her talk and then we'll
25	keep doing what we're already planning on doing.

1	Page 20 We're not going to make any effort to move this line
2	or have a discussion about these possible risks or
3	anything. So I just thought, how is it that they can
4	draw a map up lickety-split based on that one
5	conversation, but yet no others in over two years of
6	me trying to get this line moved.
7	And also the fact in the response they said
8	that they didn't have possession, custody, or control
9	of this and it would be more easily prepared by other
10	parties using publicly acceptable records.
11	JUDGE CLARK: When you say "This," what are
12	you meaning "this"? Define that with particularity
13	for me
14	MS. MEADOWS: Well
15	JUDGE CLARK: when you say "They don't
16	have this in their possession," what do they not have
17	in their possession?
18	MS. MEADOWS: I guess the map. Because it
19	didn't make sense to me either to be honest with you.
20	JUDGE CLARK: You're talking about a map of
21	an alternative route?
22	MS. MEADOWS: Correct.
23	JUDGE CLARK: Why would that be relevant to
24	whether or not
25	MS. MEADOWS: Because to date I have not

	Page 21
1	seen a single map of a possible alternative route.
2	And even at this point
3	JUDGE CLARK: Well, I guess why does
4	Your complaint, and it is a complaint, complaints are
5	limited to whether or not Grain Belt violated a
6	Commission rule, tariff, order, law subject to the
7	Commission's authority, that would be the limitation
8	of that. In regards So the question really before
9	the Commission is largely: Are they violating the
10	order, or some rule, tariff, law provision, by running
11	it across your land. So I'm kind of struggling to see
12	what the relevance would be of an alternative route
13	other than an attack on the Commission's previous
14	order granting them the authorization to construct the
15	line along a preset route.
16	MS. MEADOWS: Well, the preset
17	JUDGE CLARK: So is there another purpose
18	or relevance to that?
19	MS. MEADOWS: I'm trying to keep up here.
20	So basically the route that they have across my
21	property is across my drive, during that procedural
22	conference, I mentioned if they really have to go
23	across my property, why can't they just go north of my
24	house where it's not over my electric line, not over
25	my drive, I don't walk every day with my animals, why

	Audio Transcript June 12, 2025
1	don't they
2	JUDGE CLARK: I remember you saying that.
3	MS. MEADOWS: That would have been a much
4	easier pill to swallow here. And so they immediately
5	drew up a map for that, but for the last two years
б	I've said, All you have to do is move it south of me a
7	few hundred feet, and then I have no risk. There is
8	zero risk to me of ever getting blockaded in, or
9	falling on my existing I mean, you know, there is
10	just so many benefits of this not being across my
11	property and blocking my drive and stuff.
12	And so I'm like, How can you come up with a
13	map that quick and for that question, but you can't
14	for me for over the past two years, and then go on to
15	say you don't have that within your ability, and it's
16	burdensome, and there is other parties using publicly
17	acceptable records that could more easily prepare it.
18	And I'm like, Well, tell me who that is. Because I
19	thought the people building the line would have the
20	ability and ease of putting the map together, but
21	apparently it's supposed to be someone else.
22	JUDGE CLARK: What are you asking for a map
23	of again, an alternative route, or a proposed
24	alternative route by yourself?
25	MR. PRINGLE: And, Judge, I don't mean to

	Audio Transcript June 12, 2025
1	Page 23 interrupt, real quick, but just Ms. Hanson is going to
2	be on line for Staff but I need to go to another
3	meeting real quick.
4	JUDGE CLARK: Thank you for letting me
5	know, Mr. Pringle. And for everybody's information,
6	I, too, have another meeting coming up shortly, but
7	so we may have to continue this at a future date if we
8	can't resolve something now. But, thank you,
9	Mr. Pringle, you're excused.
10	MR. PRINGLE: Thank you, Judge.
11	JUDGE CLARK: Okay.
12	MS. CALLENBACH: Judge, may I respond? I'm
13	sorry, go ahead.
14	JUDGE CLARK: No, you may go ahead and
15	respond and then I'll ask my question again.
16	MS. CALLENBACH: Okay. Ms. Meadows has
17	said that I don't recall the exact wording, but
18	that there was a question about a route north of her
19	property, and we prepared it I believe she said
20	lickety-split. That map was prepared in response to a
21	request from Staff for I believe it was
22	Staff DR 12. And, Ms. Hanson, correct me if I'm
23	wrong, for a had we ever considered a route that
24	went north of Ms. Meadows' property. And we did, I
25	believe, prepare that, and we did explain why there

	Audio Transcript Julie 12, 2023
1	Page 24 were certain issues with that route as far as
2	additional turning structures, and crossing through
3	agricultural fields, and unnoticed landowners, etc.,
4	so we did prepare that for Staff, but that was really
5	the only purpose.
б	The reason that we objected to this DR 19
7	is it is a request for a very specific rendering
8	extending the line west from one tower remaining along
9	the roadway for 700 feet before crossing the road at a
10	gap in the trees, etc., that is a rendering that we
11	have not done, it's a very specific
12	JUDGE CLARK: Is that Ms. Callenbach, is
13	that a rendering of a route that she is proposing?
14	MS. CALLENBACH: That is our understanding,
15	yes, sir.
16	JUDGE CLARK: Is that correct, Ms. Meadows?
17	Is this that you're wanting a rendering of a route
18	you're proposing.
19	MS. MEADOWS: Well, it's a possible
20	yeah, it's a proposal of avoiding my property by just
21	continuing the line south of me before crossing over
22	instead of coming across the road and crossing over
23	me. Do you have
24	JUDGE CLARK: Why would
25	MS. MEADOWS: I'm sorry. Do you have this

	Audio Transcript June 12, 2023
1	map? Page 25
2	JUDGE CLARK: Why would they prepare your
3	map for why would they prepare a map of your route
4	for you when you're capable of preparing that map?
5	MS. MEADOWS: Because I don't know where
6	towers would need to be or any of the I mean, they
7	put all of the details in their map that
8	JUDGE CLARK: Okay. So you believe that
9	you lack you can propose an alternative route, but
10	you're saying you lack the technical expertise to
11	place the towers for that route; is that correct?
12	MS. MEADOWS: Correct.
13	JUDGE CLARK: Such that you believe the map
14	would be satisfactory?
15	MS. CALLENBACH: Well, Judge, I'd also
16	point out that Ms. Meadows has already provided a map
17	with a route that is south of her property, it was
18	submitted in response to her November 26th, '24,
19	reply. It does not have tower placement on it, but it
20	is a proposed southern route on a map.
21	MS. MEADOWS: Are you talking about the one
22	that I drew myself?
23	JUDGE CLARK: Again, Ms. Meadows, I'm going
24	to have to say, you can't the fact that they chose
25	to prepare something for Staff doesn't mean that they

June 12, 2025

	Addio Transcript Julie 12, 2023
1	Page 26 are compelled to provide something to you that would
2	be different. So they were asked a question by Staff,
3	it sounds like there is a number of ways they could
4	have answered that, including as simply as "Yes" we
5	have considered a route to the north, but instead they
6	decided to answer that question by preparing a map.
7	Discovery does not require them to do that, and so me
8	requiring them to create a map that they have not
9	previously created is not something that discovery
10	contemplates.
11	MS. MEADOWS: Okay. So who would this
12	other party using publicly accessible records that
13	could more easily prepare it, who would that be? Who
14	would have the public
15	JUDGE CLARK: I
16	MS. MEADOWS: records of the towers and
17	stuff then?
18	JUDGE CLARK: I don't know, you would have
19	to ask Grain Belt since they're proposing it.
20	Grain Belt, do you have an answer to that,
21	why was a third party thrown in here?
22	MS. CALLENBACH: Judge, I believe that's
23	just the standard language that we utilize when we
24	make the indication that it's not in our possession,
25	custody, or control, but it could be done by other

	Audio Transcript June 12, 2025
1	Page 27 means. As Ms. Meadows has already shown by providing
2	a southern rendering in her November reply.
3	JUDGE CLARK: So basically you're just
4	saying a third party could do it, but it's not our
5	responsibility, if Ms. Meadows wants to hire a third
6	party to do so, she can do so; is that correct?
7	MS. CALLENBACH: Yes, for the most part. I
8	wouldn't say that we indicated she should hire
9	somebody, but we said that it would be she's
10	clearly created one map already, so she clearly has
11	the ability to create a second one.
12	MS. MEADOWS: But it says "Using publicly
13	accessible records," so there is public records of
14	where these towers are going to be now, or how they'll
15	need to be
16	JUDGE CLARK: I think Here is the
17	problem I think you're running into, Ms. Meadows, is
18	you're postulating a route that they may or may not
19	have considered. They've certainly indicated that
20	they don't have a map of it of this proposed route
21	of yours to provide you, and so it doesn't sound like
22	they have a map of any towers along the route you've
23	contemplated, so you are in essence asking them to
24	take your map and essentially place towers as they
25	should be appropriately placed along that route. I

	Audio Transcript June 12, 2025
1	Page 28 think you can ask them at the hearing, subject to
2	objection, to point out where they might put towers
3	along a map that you provide, but I don't think that
4	they are required to provide where they might put
5	towers along a route that you've proposed
6	MS. MEADOWS: Well, they did indicate
7	JUDGE CLARK: outside of that for
8	discovery purposes.
9	MS. MEADOWS: They did indicate in one of
10	their data requests, and I don't have that one in
11	front of me unfortunately, but they indicated one of
12	the reasons that it would be a problem moving the line
13	is because of having to because of the towers, and
14	how they would have to do turning structures, and I
15	don't know, it was way over my head what they were
16	talking about. But it sounded like to me they had
17	already had a map that they had drawn up and they knew
18	that, or maybe they were just able to I don't know
19	how any of this works, maybe they were just able to
20	look at a map and be like, Oh, yeah, if we put a line
21	there, we'd have to (technical difficulty,) maybe they
22	don't actually have to map it out to know that, I
23	don't know.
24	But again, we're going on me going back and
25	forth, Please move this line, please (technical

1	Page 29 difficulty,) you'll see the detriment that this is
2	going to cause, this why can't you just move the
3	line a little south of me. And yet no maps were ever
4	drawn of that potential. And is that going to be the
5	excuse they have if hopefully the hearing after the
6	hearing, the PSC agrees this should be moved? Well,
7	we don't have a map, so we can't move it. I mean, I
8	don't know how this works maybe, that's not even an
9	excuse.

10 Well, I'm not going to get to JUDGE CLARK: what kind of relief would be available to the 11 Commission if it's determined that Grain Belt violated 12 13 a rule, order, tariff, law, so I'm not going to get 14 into what relief would be done, but certainly one would assume that if the Commission ordered an 15 16 alternative route, that we would have to design a map 17 thereof.

18 MS. MEADOWS: Okay. That's fine. 19 Here is what I'd like to do JUDGE CLARK: 20 with this right now, because I am running around --21 out of time on this with another conference, it sounds 2.2 like for DR 18 they're going to submit a privilege log 23 for me to look at. And that's correct, 24 Ms. Callenbach? 25 MS. CALLENBACH: Yes, Judge.

	Audio Transcript Julie 12, 2023	
1	Page 30 JUDGE CLARK: And if they have they have	
2	voiced an objection to answering DR 19 because it asks	
3	to it asks them to render something that currently	
4	does not exist for them, and I'm not going to require	
5	them to do that. However, if you can somehow come up	
6	with different questions that they might be able to	
7	answer around that subject, that might be something	
8	you could do.	
9	And since Ms. Callenbach correctly said	
10	that while you have added DR 13, or that Request 13,	
11	from January 13, that is not something you asked them	
12	to compel in regard to providing all maps, memos,	
13	communications. It sounds like from them, I asked	
14	them if "Discuss my property," narrowed it	
15	sufficiently. And I still have my thoughts on that	
16	going both directions as to whether I think what	
17	they're saying in that regard is reasonable or not,	
18	but certainly I think there is room to narrow down	
19	that request timewise or subjectwise in such a way to	
20	give them another chance to answer that.	
21	MS. MEADOWS: Okay.	
22	JUDGE CLARK: What I would	
23	MS. MEADOWS: Because if it's as	
24	JUDGE CLARK: What I would like to do	
25	MS. MEADOWS: easy as submitting a new	

	Audo Hanschpt June 12, 2020		
1	Page 31 data request, I'm not opposed that, I just I don't		
2	want the same response back or whatever if I do that		
3	that		
4	JUDGE CLARK: I can't guarantee that. I		
5	mean, they're allowed to object to any response they		
6	don't like, and I'll determine whether or not their		
7	objections are valid or not, I'm asking them to submit		
8	a privilege log as to that one where they have to at		
9	least in a general kind of way indicate to me what the		
10	privilege is such that I can see how it would apply.		
11	That's generally I believe the requirement for a		
12	discovery log.		
13	But in regards to DR 13 and DR 19, it		
14	sounds like what I would like you to do is to		
15	communicate with Grain Belt and see if you can		
16	Ms. Callenbach, will you guys see if you can help her		
17	narrow it down to something where you might be able to		
18	provide her something?		
19	MS. CALLENBACH: Yes, we can talk with her		
20	about that.		
21	JUDGE CLARK: Okay. And the answer may be,		
22	you know, "no", there is nothing we can narrow it down		
23	to that we can provide. But again, you know, you may		
24	have to you may have to submit your reasons for		
25	that, and then I'll have to determine whether those		

	Page 32
1	reasoning that reasoning is correct. Not in terms
2	of the privilege log, but in regard to overly broad or
2	or one privilege rog, but in regula to overry broad or
h	
3	burdensome.

4 But it sounds like, as I had indicated 5 before, Ms. Meadows, I was going to deny this motion 6 on its face for failure to follow procedures, but then 7 Grain Belt did not respond or object, and then you 8 asked for a discovery conference. I don't like having 9 to force parties to provide stuff, I prefer them to provide it in good faith, I would like to -- for you 10 11 to make another stab at getting the information from 12 them, and then if that doesn't work, if you'll follow 13 the rule, and to that effect, ask for an immediate telephone conference with me, or, I honestly don't 14 15 mind having things noticed up for a discovery 16 conference, so we can certainly have another one of 17 those.

But it's -- I'm in a very interesting 18 19 situation in that I am talking about the substance of 20 a motion that I would have to rule on but for the fact 21 that it was procedurally deficient, but at the same 2.2 time I think there is some merit in there, and so if 23 you can work to resolve that without me having to make 24 a ruling on it, I think that keeps communication open 25 better between the parties. But certainly, you know,

1	Page 33 you're opposing parties, and you're allowed to dig
2	into that position, and if that's what you choose to
3	do, then I will be happy to rule on Motions to Compel.
4	Give me just a second to think. Given that
5	we're currently scheduled, I believe, for what,
6	August 19th, I think I lists I think I put out the
7	procedural schedule today that was agreed to by the
8	parties, given that we're scheduled for August the
9	19th, and we're now in the mid part of June,
10	Ms. Meadows, would you attempt to resolve your
11	discovery issues with Grain Belt by perhaps narrowing
12	the scope of what you're asking for, or trying to
13	reach with them an agreement as to what they are
14	willing to provide before the end of the month, and
15	then if that is if you guys are unable to agree to
16	something, Ms. Meadows, you can at that time file
17	another motion which I will take up.
18	MS. MEADOWS: Okay. That's fine.
19	JUDGE CLARK: Is that reasonable?
20	MS. MEADOWS: Sure.
21	JUDGE CLARK: And so, if you are unable to
22	resolve it by the 30th of June, you can file a motion
23	on July the 1st if you'd like or any time thereafter.
24	Grain Belt, is that an acceptable
25	resolution to you or would you like me to go ahead and

1	Page 34 rule on this motion and then do all of that outside of
2	the
3	MS. CALLENBACH: Excuse me, Judge. Well, I
4	mean, as I indicated, we thought the Motion to Compel
5	was premature to begin with, which is why we did not
6	file a written response to it since we had conferred
7	with Ms. Meadows and requested that it be withdrawn.
8	JUDGE CLARK: And I believe you said that
9	was because you had until May 27th to answer; is that
10	correct?
11	MS. CALLENBACH: Yes, sir. And this was
12	filed on May 23rd.
13	JUDGE CLARK: Okay. So are you I guess
14	the bottom line question, are you opposed to the way
15	I'm addressing this?
16	MS. CALLENBACH: No, sir, we are not
17	opposed. If I could just ask one clarifying question,
18	you asked that narrowing to occur if possible by
19	June 30th, is that the date you'd like our privilege
20	log as well or is that some other date?
21	JUDGE CLARK: I would say, if ever having
22	communicated with Ms. Meadows in regard to discovery
23	she wants, there is still discovery for which you are
24	unwilling to provide because it would fall under
25	privilege, or work product, or some other privilege,

June 12, 2025

1	Page 35 that at that time you would provide a privilege log.
2	I'm not If you guys reach an agreement whereby
3	she's satisfied that you provided sufficient
4	information, and you don't believe you need to claim
5	privilege as to what's been asked, then that I
6	don't see why that would be necessary, but if it's
7	still an outstanding issue like it is where you're
8	objecting to answer on privileged grounds, then, yes,
9	I think the privilege I think the I think prior
10	to me ruling on the Motion to Compel I would need to
11	see the privilege log.
12	MS. CALLENBACH: Okay. So, I'm sorry, I
13	thought you had said that you would like a privilege
14	log on DR 18, but I'm sorry to be
15	JUDGE CLARK: I did say that. I did in
16	fact actually say that
17	MS. CALLENBACH: Okay.
18	JUDGE CLARK: but it does not sound like
19	that is what's going to be necessary, so
20	MS. CALLENBACH: Okay. I'm just trying to
21	clarify what you
22	JUDGE CLARK: If you you're attempting to
23	work things out, I don't want you to have to prepare a
24	document that may ultimately be unnecessary
25	MS. CALLENBACH: Okay.

	Audio Transcript June 12, 2025				
1	Page 36 JUDGE CLARK: but if you're unable to				
2	work things out, then, yeah, I'm going to need to see				
3	that document just so that I can say satisfactory to				
4	Ms. Meadows, Yes, this meets of the privilege				
5	requirement.				
6	MS. CALLENBACH: Okay. Thank you. I				
7	appreciate the clarification.				
8	JUDGE CLARK: Okay. And that's acceptable?				
9	MS. CALLENBACH: Yes, that's acceptable.				
10	JUDGE CLARK: Because I know I do things in				
11	a rather unorthodox manner sometimes and that I'm not				
12	getting on and saying, I'm going to deny this motion				
13	but you can file another one, because I don't see the				
14	need to add unnecessarily additional procedure.				
15	MS. CALLENBACH: Understood.				
16	JUDGE CLARK: Okay. Well, I do have				
17	another conference to get to, and I apologize for				
18	that.				
19	Are there other matters that the Commission				
20	needs to take up at this time?				
21	MS. HANSON: Judge Clark, just one				
22	clarifying question. So Grain Belt and Ms. Meadows				
23	would be trying to resolve, let's see, 13, 18, and 19				
24	by June 30th, and if that's not it's not resolved				
25	by then, then she would Cheri would file the				
1	Page 37 motion?				
----	--	--	--	--	--
2	JUDGE CLARK: Then I'm authorizing her to				
3	file a Motion to Compel.				
4	MS. HANSON: Okay. Okay. Perfect. Thank				
5	you.				
6	JUDGE CLARK: Then we don't have to do all				
7	of the other stuff and I will consider that as having				
8	occurred here. In other words, we're doing things				
9	backwards, we're doing the what would normally be				
10	the immediate phone conference now, and then working				
11	back from that, we are doing the trying to work it out				
12	with Grain Belt, and then finally a Motion to Compel				
13	could be filed on the 1st provided that neither of				
14	those things are satisfied.				
15	MS. HANSON: Great. Okay. Thank you.				
16	JUDGE CLARK: Did I make sense?				
17	MS. HANSON: Yes.				
18	JUDGE CLARK: All right. Is there anything				
19	else the Commission needs to take up at this time?				
20	MS. CALLENBACH: No, Judge				
21	MS. MEADOWS: No.				
22	JUDGE CLARK: One at a time, please. I'll				
23	just start with, Ms. Meadows, anything that I need to				
24	take up at this time?				
25	MS. MEADOWS: My (inaudible) is still

1	Page 38 stemming from all of this from trying to digest
2	because you just keep saying a new motion, you're
3	meaning another Motion to Compel I would need to file;
4	correct?
5	JUDGE CLARK: Essentially. Because
б	essentially what I'm asking the parties to do is to
7	work together, you're pro se, but the rules say that
8	you have to follow the same rules as an attorney
9	MS. MEADOWS: Sure.
10	JUDGE CLARK: I can't bend or break
11	those, but it when parties communicate, it makes
12	everything easier, so I'm asking you and Grain Belt to
13	communicate to see if you could work out the discovery
14	issues without involving me, and then if you're unable
15	to work if you're unable to work those out, I would
16	like you to file a Motion to Compel. If this
17	MS. MEADOWS: Okay.
18	JUDGE CLARK: Motion is still accurate,
19	you can use most of this motion, if the requests have
20	been narrowed or changed that they are refusing to
21	answer, then you would need to point out how those
22	have been narrowed or changed
23	MS. MEADOWS: Sure. Yeah.
24	JUDGE CLARK: for me to go on
25	MS. MEADOWS: Yeah, I got all of that, but

4	MS. MEADOWS: saying a motion, and I
5	wanted to make sure I understood exactly when you said
6	motion you meant Motion to Compel, not some other
7	motion that
8	JUDGE CLARK: Just like you did here, this
9	is a great Motion to Compel. Again, I'm always
10	impressed with your legal work.
11	MS. MEADOWS: Okay. Okay. I just want to
12	make sure I understand exactly what you're saying, so
13	that all sounds good with me, I'm fine with that.
14	Thank you.
15	JUDGE CLARK: Okay. Thank you,
16	Ms. Meadows.
17	Anything additional from Grain Belt?
18	MS. CALLENBACH: No, Judge. Thank you.
19	JUDGE CLARK: Anything from Commission
20	Staff?
21	MS. HANSON: No, Judge. Thank you.
22	JUDGE CLARK: Okay. Thank you all for
