Digital Link Services Tariff
Section 3
5th Revised Sheet 1
Replacing 4th Revised Sheet 1

MEGALINK II®- PREMIUM DIGITAL SERVICE (1)

3.1 UNDERTAKING OF THE TELEPHONE COMPANY

3.1.1 Scope

- A. This Tariff section contains the general regulations and definitions governing MEGALINK II - Premium Digital Service furnished by the Telephone Company.
- B. MEGALINK II - Premium Digital Service is the furnishing of Telephone Company service components for communication between specified locations all within Local Access and Transport Areas (LATA's) of the State of Missouri 24 hours daily, seven days per week. Service components may be those of the Telephone Company only or those of the Telephone Company and other telephone companies.
- C. The Telephone Company does not undertake to transmit messages, but offers the use of its service components, where available, to customers for such purposes.
- D. This service is competitively classified.

(CT)

3.1.2 Limitations

- A. The use and restoration of service shall be in accordance with the Federal Communications Commission's Rules and Regulations which specifies the priority system for such activities.
- B. The furnishing of service under this Tariff will require certain physical arrangements of the service components of the Telephone Company and is, therefore, subject to the availability of such service components.
- C. MEGALINK II - Premium Digital Service may be limited in order to comply with orders issued under wartime authority of the President of the United States.

3.1.3 Liability

- A. The Telephone Company shall not be liable for damages arising out of mistakes, omissions, interruptions, delays or errors or defects in transmission occurring in the course of furnishing service hereunder where the same is caused by the negligence of the customer or user. Any liability of the Telephone Company for damages arising out of any of the foregoing, or for failing to maintain proper standards of maintenance and operation, or for failing to exercise reasonable supervision shall, in no event, exceed an amount equivalent to the proportionate charge to the customer for the period of service during which such mistake, omission, interruption, delay or error or defect in transmission occurs. No other liability shall in any case attach to the Telephone Company in consideration of such interruptions.

(1) Obsolete to existing customers.

MEGALINK IISM - PREMIUM DIGITAL SERVICE

Digital Link Services Tariff
Section 3
3rd Revised Sheet 1
Replacing 2nd Revised Sheet 1

RECEIVED

MAR 24 1997

3.1 UNDERTAKING OF THE TELEPHONE COMPANY

3.1.1 Scope

MISSOURI
Public Service Commission

- A. This Tariff section contains the general regulations and definitions governing MEGALINK II - Premium Digital Service furnished by the Telephone Company.
- B. MEGALINK II - Premium Digital Service is the furnishing of Telephone Company service components for communication between specified locations all within Local Access and Transport Areas (LATA's) of the State of Missouri 24 hours daily, seven days per week. Service components may be those of the Telephone Company only or those of the Telephone Company and other telephone companies.
- C. The Telephone Company does not undertake to transmit messages, but offers the use of its service components, where available, to customers for such purposes.
- D. This service was classified as transitionally competitive effective January 10, 1993.

3.1.2 Limitations

- A. The use and restoration of service shall be in accordance with the Federal Communications Commission's Rules and Regulations which specifies the priority system for such activities.
- B. The furnishing of service under this Tariff will require certain physical arrangements of the service components of the Telephone Company and is, therefore, subject to the availability of such service components.
- C. MEGALINK II - Premium Digital Service may be limited in order to comply with orders issued under wartime authority of the President of the United States.

3.1.3 Liability

- A. The Telephone Company shall not be liable for damages arising out of mistakes, omissions, interruptions, delays or errors or defects in transmission occurring in the course of furnishing service hereunder where the same is caused by the negligence of the customer or user. Any liability of the Telephone Company for damages arising out of any of the foregoing, or for failing to maintain proper standards of maintenance and operation, or for failing to exercise reasonable supervision shall, in no event, exceed an amount equivalent to the proportionate charge to the customer for the period of service during which such mistake, omission, interruption, delay or error or defect in transmission occurs. No other liability shall in any case attach to the Telephone Company in consideration of such interruptions.

MEGALINK II® - PREMIUM DIGITAL SERVICE (1) ~~Missouri Public Service Commission~~

3.1 UNDERTAKING OF THE TELEPHONE COMPANY-(Continued)

REC'D AUG 19 1999

3.1.3 Liability-(Continued)

B. The Telephone Company shall be indemnified and saved harmless by the customer or user against:

1. Claims for libel, slander and infringement of copyright arising from the material transmitted over the service components;
2. Claims for infringement of patents arising from combining with, or using in connection with, service components furnished by the Telephone Company, apparatus and systems of the customer or user; and
3. All other claims arising out of any act of omission of the customer or user in connection with the service components provided by the Telephone Company.

C. The Telephone Company does not guarantee nor make any warranty with respect to service components provided by it for use in an explosive atmosphere. The customer or user indemnifies and holds the Telephone Company harmless from any and all loss, claims, demands, suits or other action or any liability whatsoever, whether suffered, made, instituted or asserted by the customer or user or by any other party or persons for any personal injury to or death of any person or persons and for any loss, damage or destruction of any property, whether owned by the customer or others, caused or claimed to have been caused directly or indirectly by the installation, operation, failure to operate, maintenance, removal, presence, condition, location or use of said service components so provided.

The Telephone Company will require each customer to sign an agreement for the furnishing of such service components as a condition precedent to the furnishing of such service components.

D. The Telephone Company is not liable for any defacement of or damage to the premises of a customer (or user) resulting from the furnishing of channel service components or the attachment of the associated wiring furnished by the Telephone Company on such premises or by the installation or removal thereof, when such defacement or damage is not the result of negligence of the agents or employees of the Telephone Company.

E. The Telephone Company shall in no way be liable for any harm or any damages arising in connection with any failure to properly ground or bond the service, the premises, any structure in which the service is to be provided or used, or any service components, equipment, or associated wiring.

2nd Revised Sheet 3
Replacing 1st Revised Sheet 3

(AT) MEGALINK II® - PREMIUM DIGITAL SERVICE(1)

3.1 UNDERTAKING OF THE TELEPHONE COMPANY-(Continued)

3.1.4 Provision of Service Components

- A. The Telephone Company will provide all service components necessary for MEGALINK II - Premium Digital Service up to the demarcation point of the channel. The customer will be responsible for providing his own terminal equipment, customer-provided derivation equipment or communications system for use with such service as specified in this Tariff.
- B. MEGALINK II - Premium Digital Service furnished by the Telephone Company will be provided at the rates contained in this Tariff where service components and operating conditions permit. Where service components are not available and unusual expenditures are involved in making them available, the customer may be required to pay additional charges to cover the unusual expenditure in accordance with Paragraph 3.4.4 of this Tariff, or contract beyond the initial period, or both.
- C. The charges specified in the Tariff do not contemplate installation, maintenance or repair work being performed by the Telephone Company employees involved at a time when overtime wages apply as a result of customer requests, not do they contemplate work once begun being interrupted by the customer.

If the customer requests that labor be performed at hours of the day or days of the week other than normal work hours or days, or on holidays, or interrupts work once begun, an additional charge based on the additional costs involved applies. Such charges do not apply if sufficient advance notice is given so that employees' work schedules can be changed. The additional charge does not apply to overtime or premium time worked at the Telephone Company's convenience.

In situations where the customer requests that "standby" Telephone company personnel be provided for installation or maintenance irrespective of when such "standby" workmen are provided, the additional estimated cost of providing such "standby" personnel will be billed to the customer.

- D. When serving office boundary realignments are necessary at the discretion of the Telephone Company, those MEGALINK II - Premium Digital Services affected by the change will be reconfigured, and this may result in increases or decreases in charges. Any change in charges billed to a MEGALINK II - Premium Digital Service customer will become effective when the serving office area transfer is made.

E. When the customer requires the modification of standard services not otherwise provided in this tariff, the modification can be furnished by the Telephone Company at additional rates and charges, provided the modification is in connection with and not detrimental to any of the services furnished in this tariff.

Public Service Commission

(AT) F. The placement of the network interface shall be located in a manner consistent with federal and state regulatory requirements. This location will be at each customer's premises, unless specified otherwise by the customer or building/land owner and agreed to by the Telephone Company.

G. The network interface may be placed on each floor of the customer's premises at a mutually agreed upon location, which is accessible to both the customer and the Telephone Company. This location, which will be common to all services, will take into account technical service parameters and typically will be within twenty-five feet of the PBX, key or multifunction customer premises equipment.

H. The Telephone Company may also provide a secondary network interface location at the same customer's premises for high density concentrations of twenty-four or more circuit equivalents (e.g., one 1.544 Mbps or twenty-five or more pairs, or multiplexed services) at locations such as computer centers, command posts, etc.

MEGALINK IISM - PREMIUM DIGITAL SERVICE

3.1 UNDERTAKING OF THE TELEPHONE COMPANY-(Continued)

3.1.4 Provision of Service Components-(Continued)

- E. When the customer requires the modification of standard service components not otherwise provided in this Tariff, the modification can be furnished by the Telephone Company at additional rates and charges, provided the modification is in connection with and not detrimental to any of the services furnished in this Tariff.

3.1.5 Service Guarantee

This service is guaranteed to provide an average performance of at least 99.5 percent error-free seconds up to the demarcation point (interface) of the channel for operation at all transmission speeds offered in this Tariff. When MEGALINK II - Premium Digital Service is operating at an error performance level that is unsatisfactory to the customer, and the Telephone Company determines that the error performance level is below that specified above, the period of substandard performance will be considered as an interruption, and a credit allowance will be made in accordance with provisions in Paragraph 3.4.8, C., of this Tariff. All such credit allowances shall begin from the time of notice by the customer or user to the Telephone Company that an unsatisfactory performance level has occurred, provided that the customer promptly releases the service as requested by the Telephone Company to perform testing and maintenance.

3.2 USE

MEGALINK II - Premium Digital Service may be used for the purposes specified in Paragraph 3.2.1, following.

3.2.1 Authorized Use

- A. MEGALINK II - Premium Digital Service may be used for transmission of communications to or from the customer's service points relating to the customer's business.
- B. MEGALINK II - Premium Digital Service may be used for transmission of communications relating directly to the business of the subsidiary corporations over which the customer exercises control through the ownership of more than 50 percent of the voting stock.

(AT) MEGALINK II® - PREMIUM DIGITAL SERVICE(1)

3.1 UNDERTAKING OF THE TELEPHONE COMPANY-(Continued)

3.1.5 Service Guarantee

This service is guaranteed to provide an average performance of at least 99.5 percent error-free seconds up to the demarcation point of the channel for operation at all transmission speeds offered in this tariff. When MEGALINK II - Premium Digital Service is operating at an error performance level that is unsatisfactory to the customer, and the Telephone Company determines that the error performance level is below that specified above, the period of substandard performance will be considered as an interruption, and a credit allowance will be made in accordance with provisions in Paragraph 3.4.8, C., of this tariff. All such credit allowance shall begin from the time of notice by the customer or user to the Telephone Company that an unsatisfactory performance level has occurred, provided that the customer promptly releases the service as requested by the Telephone Company to perform testing and maintenance.

3.2 USE

MEGALINK II - Premium Digital Service may be used for the purposes specified in Paragraph 3.2.1, following.

3.2.1 Authorized Use

- A. MEGALINK II - Premium Digital Service may be used for transmission of communications to or from the customer's service points and relating to the customer's business.
- B. MEGALINK II - Premium Digital Service may be used for transmission of communications relating directly to the business of the subsidiary corporations over which the customer exercises control through the ownership of more than 50 percent of the voting stock.

(AT) MEGALINK II® - PREMIUM DIGITAL SERVICE(1)

3.2 USE-(Continued)

3.2.2 Unlawful Purposes

The service is furnished subject to the condition that it will not be used for any unlawful purpose. Service will be discontinued forthwith if any law enforcement agency, acting within its apparent jurisdiction, advises in writing that such service or channels are being used in violation of law. The Telephone company will refuse to furnish service when it has reasonable grounds to believe that such service will be used in violation of the law.

3.2.3 Resale of Use to Others

MEGALINK II - Premium Digital Service shall not be used for any purpose for which payment or other consideration, direct or indirect, shall be received by the customer. The foregoing does not apply to a Composite Data Service Vendor's premises where one type of service may be provided for the exclusive use of the Composite Data Service Vendor's management or employees and another type of service may be provided for the use of the Composite Data Service Vendor as defined in the Federal Communications Commission's Rules and Regulations.

3.2.4 Shared Use

- A. A user must have a service point on the service, and the service point must be located on the premises of the user and connected to the service by means of a separate access channel, except that these requirements do not apply to a user of a service with respect to his use of digital bit streams created by customer- (or user-) provided derivation equipment, provided the customer or user has a service point on the line connected to such equipment in accordance with Paragraph 3.6.2, following.
- B. The Telephone Company shall not be responsible for the manner in which the use of service will be allocated. Orders which involve the start, rearrangement, release or discontinuance of service will be accepted by the Telephone Company only from the customer.

MEGALINK II® - PREMIUM DIGITAL SERVICE(1)

3.3 OBLIGATIONS OF THE CUSTOMER-(Continued)

3.3.1 Customer Responsibilities-(Continued)

- F. Furnishing and maintaining poles and/or underground service components on private property. The Telephone Company will not provide on-premises service components for the provision of MEGALINK II - Premium Digital Service.
- G. Grounding and/or bonding the premises and any structure in which service is to be provided or used, as well as any equipment and associated wiring.

3.3.2 Rearrangements and Repairs

A customer may not rearrange, disconnect, remove or attempt to repair or permit others to rearrange, disconnect, remove or attempt to repair any service components or wiring on the Telephone Company side of the Demarcation Point, except upon the written consent of the Telephone Company.

3.3.3 Transfer of Service

Service furnished to one customer may be assumed by a new customer upon due notice of cancellation or abandonment, provided there is no lapse in service. The new customer must assume all the obligations of the previous customer. Such transfers are not subject to service charges if the service is assumed exactly as provided to the previous customer.

3.4 PAYMENT ARRANGEMENTS AND CREDIT ALLOWANCES

3.4.1 Payment of Charges and Deposits

A. Advance Payments

Applicants for service who have no account with the Telephone Company or whose financial responsibility is not a matter of general knowledge, may be required to make an advance payment at the time an application for service is placed with the Telephone Company, equal to the service charges, if applicable, and at least one month's charges for the service provided. The amount of the advance payment is credited to the customer's account as applying to any indebtedness of the customer for the service furnished.

B. Payment for Service

The customer is responsible for payment of all charges as specified in this Tariff for services furnished the customer. Service charges are payable upon request.

(AT)

MEGALINK II® - PREMIUM DIGITAL SERVICE(1)

3.4 PAYMENT ARRANGEMENTS AND CREDIT ALLOWANCES-(Continued)

3.4.1 Payment of Charges and Deposits-(Continued)

C. Deposits

The Telephone Company may require an applicant or a present customer to post a deposit in accordance with the provisions of the Rules and Regulations Applying to all Customers" Contracts Section of the General Exchange Tariff.

3.4.2 Cancellation for Cause

The Telephone Company shall be authorized to discontinue service upon notice from any official charged with the enforcement of the law stating that such service is being used as an instrumentality to violate the law.

3.4.3 Minimum and Fractional Rates and Charges

- A. The minimum service period is one month, except when the cost of special construction is such as to necessitate a longer contract period.
- B. If the period of use exceeds one month, the charges for the fractional part of a month following and consecutive with a full month will be a proportionate part of the monthly charges based on the actual number of days the service components are furnished. For the purpose of administering this regulation with respect to the determination of charges for a fractional part of a month, every month is considered to have 30 days.

The applicable charges for a MEGALINK II - Premium Digital Service, or any component thereof, including additions to an existing service, shall commence on the day after service is furnished and will continue to accrue through and include the day on which such service is discontinued.

When an existing MEGALINK II - Premium Digital Service, or any component thereof, is changed or rearranged at the request of the customer without the addition of service components, access lines or channels, any revision in charges necessitated thereby shall commence on the same day that the change or rearrangement is completed.

- C. In applying a rate involving a fraction of a cent, the fraction is carried through the entire computation of the charge for the service. When the charge so computed includes a fraction of a cent, a fraction of less than one-half cent is disregarded and a fraction of one-half cent or more is treated as one cent.

3.4 PAYMENT ARRANGEMENTS AND CREDIT ALLOWANCES-(Continued)

3.4.5 Change in Service Arrangement

The service charge for the applicable operating speed applies when the customer requests a change in service arrangement that results in a change in operation of the service components provided by the Telephone Company.

3.4.6 Suspension of Service

Upon request of the customer, service will be suspended without cancellation at any time after the minimum period of service. Service will be suspended for a period of not less than two weeks and billing shall continue at the full rate. For the purposes of this paragraph, the minimum service period shall be computed from the initial establishment of service or from the date the service was last restored from suspension.

3.4.7 Temporary Surrender of a Service

When, at the request of the Telephone Company, a service is temporarily surrendered by the customer for other than maintenance purposes, credit will be allowed, the amount of which will be determined in the same manner as for an allowance for interruptions.

3.4.8 Allowance for Interruptions

If the service is interrupted other than by the negligence or willful act of the customer, an allowance, as provided following, at the rate for that portion of the customer's service affected by the interruption, shall be made for the time such interruption continues after the fact is reported by the customer or detected by the Telephone company.

Digital Link Services Tariff
Section 3
Original Sheet 10

MEGALINK IISM - PREMIUM DIGITAL SERVICE

3.4 PAYMENT ARRANGEMENTS AND CREDIT ALLOWANCES-(Continued)

JUL 11 1986

3.4.5 Change in Service Arrangement

The service charge for the applicable operating speed applies when the customer requests a change in service arrangement that results in a change in operation of the service components provided by the Telephone Company.

3.4.6 Suspension of Service

Upon request of the customer, service will be suspended without cancellation at any time after the minimum period of service. Service will be suspended for a period of not less than two weeks and billing shall continue at the full rate. For the purposes of this paragraph, the minimum service period shall be computed from the initial establishment of service or from the date the service was last restored from suspension.

3.4.7 Temporary Surrender of a Service

When, at the request of the Telephone Company, a service is temporarily surrendered by the customer for other than maintenance purposes, credit will be allowed, the amount of which will be determined in the same manner as for an allowance for interruptions.

3.4.8 Allowance for Interruptions

If the service is interrupted other than by the negligence or willful act of the customer, an allowance, as provided following, at the rate for that portion of the customer's service affected by the interruption, shall be made for the time such interruption continues after the fact is reported by the customer or detected by the Telephone Company.

1st Revised Sheet 11
Replacing Original Sheet 11

(AT) MEGALINK II® - PREMIUM DIGITAL SERVICE(1)

3.4 PAYMENT ARRANGEMENTS AND CREDIT ALLOWANCES-(Continued)

3.4.8 Allowances for Interruptions-(Continued)

- A. No credit is allowed for interruption of less than 24 hours (except for interruptions pursuant to Temporary Surrender of Service). Credit is allowed for the proportionate part of the monthly charge in multiples of one day for each 24 hours of interruption for the portion of the service rendered inoperative.
- B. For purposes of administering this regulation with respect to the determination of allowances for a fractional part of a month, every month is considered to have 30 days.
- C. For periods of substandard performance as specified in Paragraph 3.1.5 of this Tariff, credit allowance from the time of notice by the customer shall be provided as follows:

<u>Length of Interruptions</u>	<u>Credit</u>
Less than 30 minutes	None
30 minutes up to 3 hours	1/10 day
3 hours up to 6 hours	1/5 day
6 hours up to 9 hours	2/5 day
9 hours up to 12 hours	3/5 day
Over 12 hours	One day

3.4.9 Cancellation of Application for Service

Where installation of service components, other than those provided by special construction, has been started prior to the cancellation, the charge specified in Paragraphs A. or B., following, whichever is lower, applies.

- A. A charge equal to the estimated costs incurred in such installation, less estimated net salvage.
- B. The charge for the minimum period of service ordered by the customer is provided in this Tariff plus the full amount of any termination charges applicable.
- C. Installation of service components for a customer is considered to have started when the Telephone Company incurs any expense, including engineering, in connection therewith, or in preparation therefore, which would not otherwise have been incurred, provided the customer has placed an order with the Telephone Company for provision of service.

A channel is comprised of local distribution and interoffice sections as required. A channel may be furnished in such manner as the Telephone Company may elect, whether by wire, radio or a combination thereof and whether or not by means of a single physical facility or route.

Channel Service Unit - A Channel Service Unit (CSU) for MEGALINK II - Premium Digital Service, or its functional equivalent is required at each customer's terminal location on a MEGALINK II-Premium Digital Service facility. The CSU may perform such functions as: proper termination of the facility, amplification, signal shaping and remote loop back. CSU's installed, owned or on order by the Telephone Company prior to November 18, 1983, can be provided by Southwestern Bell Telephone Company. These embedded CSU's may be moved, rearranged or reconnected for the life of the equipment. The CSU or its functional equivalent, other than the embedded CSU's discussed herein, will be provided by the customer. CSU's or their functional equivalents must be connected in accordance with the regulations as set forth in this Tariff.

Composite Data Service - The combined use of terminal and data switching equipment provided by a Composite Data Service Vendor with the use of telecommunications services of the Telephone Company to perform data switching for others.

Composite Data Service Vendor - A customer that has been certified by the proper state or municipal regulatory body, and/or the Federal Communications Commission pursuant to Section 214 of the Communications Act of 1934, as amended, to acquire and operate service components to perform data switching for others. Concurring Carrier - Any carrier (other than a Connecting Carrier) is fully subject to the Communications Act of 1934, as amended which, instead of filing its own tariffs, concurs in and assents to schedules of charges and regulations filed in its behalf by an Issuing Carrier. (An Issuing Carrier is a carrier, subject to the Communications Act of 1934, as amended, which publishes and files tariffs with the Federal Communications Commission.)

Connecting Company - A corporation, association, firm or individual owning and operating one or more exchanges and with whom traffic is interchanged.

Customer - The person, firm or corporation which orders service and is responsible for the payment of charges and compliance with Telephone Company regulations. A customer for MEGALINK II - Premium Digital Service must have a communication requirement of his own for its use, except where:

- The customer is a Composite Data Service Vendor; or
- The service is provided for the transmission of communications relating directly to the business of a subsidiary corporation over which the customer exercises control through ownership of more than 50 percent of the voting stock; or
- The customer for MEGALINK II - Premium Digital Service orders the addition of service points to meet the communications requirements of a user of such service and such additional service points are required.

Customer-Provided Communications System - Denotes service components provided by a customer or user which are capable, when not connected to MEGALINK II - Premium Digital Service, of communications between customer-provided terminal equipment.

Customer Premises Equipment - Communications devices, apparatus and their associated wiring provided by a customer or user, which do not constitute a communications system.

3.6.5 Connections of Customer Premises Equipment and Communications Systems
(Continued)

- B. Unless a specific waiver has been granted by the Federal Communications Commission, or except as otherwise provided in C., following, all connections of registered equipment to services furnished by the Telephone Company will be made through a point of demarcation. In most cases, this will be through a Telephone Company-provided standard jack. For simple wiring where there is no Telephone Company provided standard jack at the Demarcation Point, customers may make connections by direct attachment to Company-installed wiring at points on the customer's side up to and including at the Demarcation Point. In the case of registered communications systems utilizing complex wiring, a method of connection, jacks, terminal strips, etc., will be provided by the Telephone Company.
- C. The requirement for the use of standard jacks as described in B., preceding, is waived for registered equipment which is located in hazardous or inaccessible locations.

(AT) MEGALINK II® - PREMIUM DIGITAL SERVICE(1)

3.6 CONNECTIONS-(Continued)

3.6.6 Accessories

Accessories provided by customers may be used with MEGALINK II - Premium Digital Service provided that such accessories comply with the provisions of Paragraph 3.6.2., preceding.

3.6.7 Channel Derivation Devices

- A. Customer-provided channel derivation devices that are used to create additional channels in accordance with Paragraphs 3.6.7, B. and C., following, may be connected to MEGALINK II - Premium Digital Service subject to Paragraph 3.6.2., preceding.
- B. Subject to the normal transmission characteristics of the MEGALINK II - Premium Digital Service ordered, the customer may create additional channels; digital bit streams, from the service ordered through the use of channel derivation equipment located at the customer's premises.
- C. The Telephone Company makes no representation as to: (1) the suitability of the channels provided by it for such subdivision into additional channels by derivation equipment or (2) the suitability of the resultant-derived channels for any communications purpose.
- D. Additional channels derived by this equipment may be connected at the customer's premises to Local Exchange Telephone Service, Private Line Service, Long Distance Message Telecommunications Service and Wide Area Telecommunications Service in accordance with provisions for such connections in Telephone Company tariffs for these other services.

3.6.8 Connection to Other Services Furnished by the Telephone Company to the Same Customer or Different Customers

MEGALINK II - Premium Digital Service provided by the Telephone Company may be connected to another MEGALINK II - Premium Digital Service or the following other services provided by the Telephone Company at the Customer's premises:

- Local Exchange Telephone Service
- Private Line Service
- Long Distance Message Telecommunications Service
- Wide Area Telecommunications Service

2. When the manufacturer of the CSU submits a notarized affidavit to the Federal Communications Commission, Chief, Domestic Services Branch, Room BB300, Washington, D.C. 20554, attesting the following:

- a. The equipment meets the proposed technical requirements for connections to a Telephone Company-provided MEGALINK II - Premium Digital Service or digital service component. The technical requirements are those that have been proposed by the Telephone Company to the Federal Communications Commission for inclusion in its Rules. (Copy available from the Federal Communications Commission, Room BB300, Washington, D.C. 20554.)

- b. The equipment complies with the requirements of the Bell System Technical Reference Publication 62310. This publication will be available from Publishers' Data Center, Inc., P.O. Box C738, Pratt Street Station, Brooklyn, New York 11205.

- B. Until expiration of the Program, CSU's that are listed on the Program Summary may be connected to a MEGALINK II - Premium Digital Service.

- C. Any CSU connected pursuant to this Program may require modification in response to the Rules adopted by the Federal Communications Commission.

- D. CSU's that are connected under the Program may remain connected and be moved and reconnected for the life of the equipment, except as may be required in response to the Rules adopted by the Federal Communications Commission.

- E. The Telephone Company may invoke extraordinary procedures to protect a MEGALINK II - Premium Digital Service. Extraordinary procedures may be applied when one or more of the following conditions are present:

1. Information provided in the affidavit gives reason to believe that a violation of the Program is likely.
2. Harm has occurred, and there is reason to believe this harm was caused by the CSU.

MEGALINK II® - PREMIUM DIGITAL SERVICE(1)

3.7 METHOD OF APPLYING RATES

3.7.1 General

The method of applying rates for MEGALINK II - Premium Digital Service channels and Additional Service Features is provided in Paragraphs 3.7.2 and 3.7.3, following.

3.7.2 Channels

A. Local Distribution Channel

A Local Distribution Channel charge for the requested transmission speed shall apply for each termination on the premises of a customer.

B. Interoffice Channel

Interoffice Channel mileage charges for the requested transmission speed shall apply for each interoffice channel required to connect Local Distribution Channels served from different Serving Offices or to connect a Serving Office to a Digital or NRS Hub.

Interoffice Channel mileage charges will also apply for each channel used to connect two Digital Hub locations or to connect a Digital Hub to an NRS Hub location.

Charges are based on the Vertical and Horizontal (V-H) distance between Serving Offices, the Serving Office and the Digital or NRS Hub, Digital and NRS Hubs, or Digital Hubs within the same LATA for the customer. The appropriate rate schedule for the mileage band corresponding to the V-H distance should be used. Charges will consist of a fixed charge and a per mile charge for each Interoffice Channel. Refer to the National Exchange Carrier Association, Inc.'s Wire Center Information Tariff for the V-H coordinates of the Serving Office and the Digital or NRS Hubs.

C. Service Charges

A charge applies per each termination of a Local Distribution Channel installed or moved on the premises of a customer.

D. Exceptions

In those cases where one customer premises involved in an intraLATA interexchange MEGALINK II - Premium Digital Service is located in a different Local Exchange Telephone Company's operating territory than the other premises location(s) associated with the service, the method of applying rates will be as follows:

3.7.2 Channels-(Continued)

D. Exceptions-(Continued)

1. The service components for that portion of the intraLATA interexchange MEGALINK II - Premium Digital Service located wholly within each exchange will be rated pursuant to that Local Exchange Telephone Company's Tariff.
2. The rate for the applicable intraLATA interoffice per mile mileage will be the rate in each Local Exchange Telephone Company's tariff. Each Local Exchange Telephone Company's charge for the per mile mileage element is based on the route mile ownership ratio multiplied by the Local Exchange Telephone Company's rate for the airline (V-H) mileage between the customer's Serving Offices, the Serving Office and a Digital Hub or between Digital Hubs.
3. The rate for the applicable intraLATA interoffice fixed mileage will be one-half (50 percent) of the rate in each Local Exchange Telephone Company's tariff.

3.7.3 Additional Service Features

Rate elements for Additional Service Features should be applied when these features are used in conjunction with MEGALINK II channels. See 3.10.2 following for the description and application of these Additional Service Features.

- Multistation Arrangement

A multistation arrangement charge applies when three or more channels are interconnected at a Digital Hub on the same service. A charge applies for each Local Distribution channel or Interoffice Channel terminating at the Digital Hub.

- Secondary Channel Capability

A charge applies for each Local Distribution Channel connected on the service.

- Transfer Arrangement

A charge applies for each arrangement installed.

(AT) (1) Obsolete to existing customers.

(AT) MEGALINK II® - PREMIUM DIGITAL SERVICE(1)

3.7 METHOD OF APPLYING RATES-(CONTINUED)

3.7.4 Determination of V-H Mileages

The rate distances for MEGALINK II - Premium Digital Service channels should be determined as follows:

A. Determination of V-H Coordinates

- Interoffice Channels

The rate distance is measured between Serving Offices or the Serving Office and a Digital or NRS Hub or between Digital or NRS Hubs, within the same LATA for the Interoffice Channel. The V-H coordinates for the Serving Offices, Digital Hubs and NRS Hubs are listed in the National Exchange Carrier Association, Inc.'s Wire Center Information Tariff.

B. Calculation of V-H Mileage

1. Determine the difference between the "V" coordinates for the Serving Offices, or the Digital or NRS Hub and the Serving Office within the same LATA. Similarly, determine the difference between the respective "H" coordinates. The difference is always determined by subtracting the smaller coordinate from the larger.
2. Square each difference obtained in Paragraph 1., above.
3. Add the squares of the "V" difference and the "H" difference obtained in Paragraph 2., above.
4. Divide the sum of the squares obtained in Paragraph 3., above, by ten.
5. Obtain the square root of the result obtained in Paragraph 4., above. This distance is the rate distance in V-H miles. Fractional mileage distances should be rounded to the next higher full mile.

(AT) MEGALINK II® - PREMIUM DIGITAL SERVICE(1)

3.9 SERVICES AND RATES

3.9.1 Service Description

MEGALINK II - Premium Digital Service provides channels suitable for duplex transmission of synchronous digital signals at transmission speeds of 2.4, 4.8, 9.6 or 56 kilobits per second (kbps) between two customer premises within the same LATA. This service is guaranteed to provide an average performance of at least 99.5 percent error-free seconds for operation at all transmission speeds offered in this Tariff.

Additional Service Features provided at Digital Hubs are available to improve the utility of MEGALINK II - Premium Digital Service channels.

The service is furnished for duplex operations on a 24-hours-per-day, seven-days-per-week basis for a minimum period of one month.

3.9.2 Service Responsibility

The Telephone Company has overall responsibility for provision and maintenance of MEGALINK II - Premium Digital Service up to and including the Demarcation Point of the channel on the customer's premises. The service guarantee specified in Paragraph 3.1.5 of this tariff is provided up to and including the Demarcation Point of the channel.

3.10 DESCRIPTION AND APPLICATION OF SERVICES

MEGALINK II - Premium Digital Service channels provide the transmission paths for digital signals between customer locations within the same LATA. Provision of the service between customer locations or between a customer location and a Digital Hub, may require the application of the Local Distribution Channel and Interoffice Channel rate elements. In cases where customer locations access different Digital Hubs within the same LATA, channels between those Digital Hubs require the application of the Interoffice Channel rate element.

Rate elements for Additional Service Features should be applied when these features are used in conjunction with MEGALINK II - Premium Digital Service Channels. Certain Additional Service Features can only be provided at a Digital Hub location.

3.10 DESCRIPTION AND APPLICATION OF SERVICES-(Continued)

3.10.1 Channels

Digital Service Channel

- Local Distribution Section

This rate element represents a two-point transmission path between a customer's premises and that premises' serving office. Local Distribution Sections suitable for synchronous data rates of 2.4, 4.8, 9.6 and 56 kbps, respectively, are provided.

- Interoffice Channel

This rate element represents a two-point transmission path between Serving offices, a Serving Office and a Digital Hub or between Digital Hubs within the same LATA where MEGALINK II - Premium digital Service is available. Interoffice Channels suitable for synchronous data rates of 2.4, 4.8, 9.6 and 56 kbps, respectively, are provided.

3.10.2 Additional Service Features

A. Multistation Arrangement

This arrangement provides the capability to connect multiple MEGALINK II - Premium Digital Service channels at a Digital Hub. A Multistation Arrangement is provided for each channel when three or more channels are connected at a Digital Hub. All channels connected by a Multistation Arrangement must operate at the same transmission speed. This arrangement allows customers to simultaneously transmit communication from a master (control) service point to many other service points or individually receive communications at a master (control) service point from another service point. All such communications are under the control of a customer-specified master (control) service point.

B. Secondary Channel Capability

This arrangement provides for a secondary channel which operates at a speed equivalent to one third of the primary channel speed. This secondary channel operates independently from, but over the same physical facility as the primary channel, and is normally used by the customer for performing network management Operations such as on-line diagnostics, data monitoring, traffic measurements and network configuration management.

3.13 PRICING FLEXIBILITY

The Telephone Company provides for pricing flexibility in the form of rate banding for MegaLink II Service in the State of Missouri. The Telephone Company may charge a different monthly rate from the current monthly rate, but between the minimum and maximum rates, upon notice to the Missouri Public Service Commission.

Rate banding is available for two rate elements, the local distribution section and the interoffice channel both fixed and per mile. Current rates and charges are set forth in 3.11.1, preceding. Rate bands are set forth as follows:

- Local Distribution Section

Per termination of a Local Distribution Section on a customer's premises.

For Transmission <u>Speed of</u>	<u>Monthly Rate</u>	
	<u>Minimum</u>	<u>Maximum</u>
2.4 kbps (1L7AJ)	\$ 60.35	\$ 92.85

MEGALINK ® DIGITAL SERVICE

3.14 GENERAL

MEGALINK Digital Service provides for the simultaneous two-way transmission of synchronous digital signals at speeds of 2.4, 4.8, 9.6, 19.2, 56, or 64 Kbps. The service is available in either two-point or multi-point configurations, with the exception of 64 Kbps service which is available in only two-point configurations. The service is available between:

- Customer-designated premises
- Customer-designated premises and a SWBT serving office for the purpose of:
 - Multiplexing the circuit onto a higher speed circuit,
 - Bridging the circuit in a multi-point configuration,
- Connection to a SWBT Network Reconfiguration Service (NRS) hub.

(CT)

This service is competitively classified.

3.15 REGULATIONS

The regulations and rates specified herein are in addition to the applicable regulations found in other sections of this tariff.

3.15.1 Availability of Service

MEGALINK Digital Service can only be provided where digital facilities exist. Serving offices where MEGALINK Digital Service is available are determined by SWBT.

3.15.2 Provision of Service

- A. The minimum period of which MEGALINK Digital Service is provided and for which rates and charges are applicable is one month, unless a different minimum period is established with Special Construction as provided in Section 1 of this tariff. When a service is discontinued prior to the expiration of the minimum period, charges are applicable for the remaining portion of the minimum period, whether the service is used or not, and will be based on the rates in effect for the service at the time of discontinuance.
- B. MEGALINK Digital Service is furnished on a full-time basis (24 hours a day, seven days per week).
- C. Customer requests for special routing of MEGALINK Digital Service channels are provided in accordance with Section 1 of this tariff.
- D. In the event suitable facilities are not available, or modifications to existing facilities are required, special construction charges will be applicable as provided in Section 1 of this tariff. Service availability will be negotiated locally.

MEGALINK® DIGITAL SERVICE

REC'D AUG 19 1999

3.14 GENERAL

MEGALINK Digital Service is a service which supports synchronous, full-duplex transmission at bit rates of 2.4, 4.8, 9.6, 19.2, 56, and 64 kilobits per second (kbps). This service is offered between specified locations on an intraLATA basis, when suitable facilities are available.

This service was classified as transitionally competitive effective January 10, 1993.

3.15 REGULATIONS

The regulations and rates specified herein are in addition to the applicable regulations found in other sections of this tariff.

3.15.1 Availability of Service

MEGALINK Digital Service can only be provided where digital facilities exist. Serving offices where MEGALINK Digital Service is available are determined by SWBT.

MEGALINK® DIGITAL SERVICE

3.15 REGULATIONS – (Continued)

3.15.2 Provision of Service – (Continued)

- E. SWBT has the service responsibility up to the demarcation point. The demarcation point will be provided by SWBT as set forth in Technical Reference - PUB 62310. Section 10 of this publication describes the four-wire physical interface specifications.
- F. The customer shall be responsible for ordering MEGALINK Digital Service and specifying the transmission speed required for operation with terminal equipment or communications systems provided by the customer.
- G. This service is guaranteed to provide a performance level of at least 99.875% error-free seconds up to the demarcation point of the channel for operation at all transmission speeds offered in this tariff. When MEGALINK Digital Service is operating at an error performance level that is unsatisfactory to the customer, and SWBT determines that the error performance level is below that specified above, the period of substandard performance will be considered as an interruption, and a credit allowance will be made as provided in 1.4 preceding. The credit allowance shall begin from the time of notice by the customer to SWBT that an unsatisfactory performance level has occurred, provided that the customer promptly releases the service as requested by SWBT to perform testing and maintenance.
- H. Digital equipment provided by the customer is subject to the regulations set forth in Section 1.5 preceding.
- I. MEGALINK Digital Service may be used as a derived channel of a MEGALINK III Service through the use of the central office multiplexing additional service feature found in Section 4 of this tariff. It is the customer's responsibility to determine channel assignments for the derived channels of the MEGALINK 1.5 Service. Additional interoffice channel mileage may be required in order to route the MEGALINK service to a central office multiplexing hub location for termination in the central office multiplexing arrangement.
- J. MEGALINK Digital Service may be terminated in a channel port of a Network Reconfiguration Service (NRS) found in Section 8 of this tariff. Additional interoffice channel mileage may be required to route the MEGALINK service to an NRS hub location. NRS channel port monthly rates will not apply if the customer terminates 20 or more MEGALINK services at a single NRS hub location.

MEGALINK® DIGITAL SERVICE

3.15 REGULATIONS – (Continued)

3.15.3 Availability and Allowance for Interruptions

Availability is a measure of the relative amount of time that a service is usable to the customer. MEGALINK Digital Service is considered unavailable when 10 consecutive severely errored seconds (SESs) are received. The service becomes available again when no SESs are received for 10 consecutive seconds. The objective for MEGALINK service is 99.96% availability when averaged over 12 months. SWBT, in order to ensure the highest performance standards and service availability to the customer, offers the following service guarantee:

If a MEGALINK service fails due to SWBT-provided equipment or facilities and the service is not restored to the customer within 24 hours of the outage report, and the service is made available to SWBT by the customer during those 24 hours, the customer will be credited for 1/30th of the monthly rate for the service on the following month's bill. This guarantee is subject to the following conditions:

- A. The credit will be applied on a per circuit, per occurrence basis and will only be applied once during a 24-hour period. Credits are not accumulative.
- B. The trouble cause must be isolated to SWBT-provided equipment. Trouble determined to be caused by customer-provided equipment or trouble that clears without a positive determination as to cause, will not qualify for the service credit.
- C. The outage must be reported by the customer. SWBT-initiated reports will not qualify for the service credit.
- D. There may be occasions when the service does not meet the required operating parameters, but due to business conditions, the customer is unable to release the circuit for immediate testing. The 24- hour clock does not begin until the service is made available to SWBT for repair.
- E. The service guarantee applies to recurring rates and charges for MEGALINK local distribution channels and interoffice channel mileage.
- F. On MEGALINK service used with NRS, the service credit applies only to the MEGALINK portion of the service, and will not apply to NRS.

MEGALINK[®] DIGITAL SERVICE

3.16 DESCRIPTION OF SERVICE

MEGALINK Digital Service channels provide the transmission paths for digital data signals between two or more customer premises within a LATA.

3.16.1 Access Channels to a Digital Serving Office

A. Local Distribution Channel

A two-point transmission path between a customer's premises and the SWBT serving office or NRS hub. Local distribution channels suitable for synchronous data rates of 2.4, 4.8, 9.6, 19.2, 56 and 64 kbps, respectively, are provided.

B. Interoffice Channel

A two-point transmission path between serving offices, between a serving office and a digital hub or NRS hub, between digital hubs, or between a digital hub and an NRS hub. Charges are based on the vertical and horizontal (V-H) distance between the digital serving office or NRS hub and the serving office of the customer. A fixed charge and rate per mile for the requested transmission speed will apply for each interoffice channel. V-H coordinates for digital serving offices, serving offices, and NRS hubs may be found in the National Exchange Carrier Association, Inc. (NECA) Wire Center Information Tariff.

3.16.2 Service Charge

A service charge applies per point of termination installed or moved as provided in 3.17, following.

MEGALINK[®] DIGITAL SERVICE

3.16 DESCRIPTION OF SERVICE – (Continued)

3.16.3 Multi-Station Arrangement

A multi-station arrangement is required to provide for MEGALINK Digital Service between three or more digital stations on the same and/or different premises located within a LATA.

This offering may consist of standard digital service for intraLATA service between three or more stations at speeds of 2.4, 4.8, 9.6, 19.2 and 56 kbps. Multi-station arrangements will be provided at a digital hub.

The number of two-point channels that may be specified for a given service may be limited by operating and transmission factors.

The rate for a multi-station arrangement is set forth in 3.17, following.

3.16.4 Secondary Channel Capability

This arrangement provides for a secondary channel which operates at a speed equivalent to one-third of the primary channel speed. This secondary channel operates independently from, but over the same physical facility as the primary channel, and is normally used by the customer for performing network management operations such as on-line diagnostics, data monitoring, traffic measurements and network configuration management.

Secondary channel capability is available on point-to-point or multi-point services which use non-repeated local distribution channels. Secondary channel capability can only be provided at digital serving offices for MEGALINK services. Secondary channel capability is not available with 64 kbps service.

Complementary customer-provided terminal equipment must be coupled with this service.

The rate for secondary channel capability is set forth in 3.17, following.

MEGALINK® DIGITAL SERVICE

3.17 RATES AND CHARGES

3.17.1 Pricing Flexibility

The Telephone Company provides for pricing flexibility in the form of rate banding for MEGALINK Service in the state of Missouri. The Telephone Company may charge a different monthly rate from the current monthly rate, but between the minimum and maximum rates, upon notice to the Missouri Public Service Commission.

Rate banding is available for two rate elements, the local distribution channel and the interoffice channel, both fixed and per mile. Current rates and charges are set forth on Supplemental Schedules in 3.17.2 and 3.17.6 following. Rate bands are set forth as follows:

- Local Distribution Channel

Per termination of a Local Distribution Channel on a customer's premises:

For Transmission Speed of:	<u>Monthly Rate</u>	
	<u>Minimum</u>	<u>Maximum</u>
2.4 kbps (SYN24)	\$45.00	\$ 90.00
4.8 kbps (SYN48)	45.00	90.00
9.6 kbps (SYN96)	45.00	90.00
19.2 kbps (SYN19)	45.00	100.00
56 kbps (SYN56)	50.00	105.00
64 kbps (SYN64)	50.00	105.00

- Interoffice Channel

Per V-H mile between Serving Offices, between Digital or NRS Hubs and a Serving Office, or between a Digital or NRS Hubs within the same LATA for the mileage portion plus the fixed charge.

For Transmission Speed of:	<u>Monthly</u>		<u>Rate Per Mile</u>	
	<u>Fixed Charge</u>		<u>Minimum</u>	<u>Maximum</u>
	<u>Minimum</u>	<u>Maximum</u>		
2.4 kbps (1LNOQ)	\$18.00	\$ 62.75	\$.50	\$2.25
4.8 kbps (1LNRQ)	18.00	63.65	.50	1.70
9.6 kbps (1LNSQ)	18.00	87.55	.50	2.65
19.2 kbps (1LNJQ)	18.00	90.00	.50	3.00
56 kbps (1LNTQ)	18.00	134.85	.50	8.10
64 kbps (1LN8Q)	18.00	134.85	.50	8.10

Digital Link Services Tariff
Section 3
1st Revised Sheet 46
Replacing Original Sheet 46

MEGALINK® DIGITAL SERVICE

3.17 RATES AND CHARGES – (Continued)

3.17.6 Term Pricing Plan

- A. The Term Pricing Plan (TPP) provides the customer with rate stabilization and discounted tariff rates. The TPP provides for two, three or five year rate stabilization. Decreases in monthly recurring tariff rates will be passed on to customers who participate in a TPP. SWBT will notify customers participating in a TPP when monthly rates are decreased.

The monthly rates in the TPP will not be subject to rate increases for the duration of the TPP period.

- B. The customer may choose to terminate an existing TPP before the end of the two, three or five year period and negotiate a new two, three or five year TPP as follows:

Upgrades

During a customer's TPP term, conversion may be made to a new TPP term of the same or different length or to a higher speed service, if the expiration date for the new service or TPP term is beyond the end of the original TPP term.(1) The new TPP term becomes effective upon execution. No credit for months under the previous TPP may be transferred to the new TPP. The customer incurs no liability for the remaining months on the original TPP, since the change is not considered a termination of service. The prices applicable for the new term are those currently in effect for new customers.

Moves

During a TPP term a customer may move one Local Distribution Channel (LDC) of a MEGALINK Digital Service to another location in the same LATA and keep the TPP in force, provided no lapse in service occurs. Moves to a different serving office, however, may result in a change in the monthly charges. The customer must have met the minimum in-service period at the old location and be liable for a new minimum in-service period at the new location.

The nonrecurring charge that is currently in effect for month-to-month service will apply.

- C. Renewals

At the end of a TPP term, the customer may elect a new TPP term with the prices in effect at that time. If the customer elects not to renew the TPP, or does not notify SWBT of the customer's intent to establish a new TPP, the service will automatically be billed under the tariffed monthly rates in effect at the time the TPP expires. (2)

- (1) Customers with existing TPP's established prior to May 25, 2001 may convert their TPP to a lower bandwidth as long as the new TPP contract period meets or exceeds the remaining time on the customer's existing contract.

- (2) Customers with existing TPP's established prior to May 25, 2001 may renew their TPP once at previously established rates.

- A. The Term Pricing Plan (TPP) provides the customer with rate stabilization and discounted tariff rates. The TPP provides for two, three or five year rate stabilization. Decreases in monthly recurring tariff rates will be passed on to customers who participate in a TPP. SWBT will notify customers participating in a TPP when monthly rates are decreased.

The monthly rates in the TPP will not be subject to rate increases for the duration of the TPP period.

- B. The customer may choose to terminate an existing TPP before the end of the two, three or five year period and negotiate a new two, three or five year TPP provided the new TPP meets the following requirements:

- (1) the new TPP must be based upon the rates that are currently in effect and available to all customers.
- (2) if moving down in bandwidth (e.g., 56 kbps to 9.6 kbps), the new TPP contract period must exceed the remaining time period on the customer's existing contract. Termination charges do not apply.
- (3) if moving up in bandwidth (e.g., 4.8 kbps to 56 kbps), the new TPP contract period must meet or exceed the remaining time period on the customer's existing contract. Termination charges do not apply.
- (4) if moving to another SWBT service of equal or higher bandwidth (e.g. 56 kbps to 1.544 mbps) at the same location, the new TPP contract period must meet or exceed the remaining time period on the customer's existing contract. Termination charges do not apply.

- C. A TPP may be renewed one time at the same rate when the renewal period is at least as long as the original term.

The customer must provide SWBT with a written notice of intent to renew a TPP no later than 90 days prior to its expiration. If the customer elects not to renew the TPP, or does not notify SWBT of the customer's intent to renew the TPP, the customer's service will automatically be billed under the tariffed monthly rates in effect at the time the TPP expires.

Missouri Public
Service Commission

MEGALINK® DIGITAL SERVICE

REC'D AUG 19 1999

3.17 RATES AND CHARGES - (Continued)

3.17.6 Term Pricing Plan - (Continued)

- D. Any special construction charges incurred for services billed under a TPP will be applicable as provided for in Section 1 of this tariff.
- E. Customers requesting the termination of a TPP prior to the expiration date, excluding TPPs terminated as a result of a re-negotiation, will incur termination charges. Payment of the termination charge does not release the customer from other previous amounts owed to SWBT.

The termination charge shall be the lesser of:

- The difference between the TPP rates and charges for the completed months of the TPP at the time of termination and the rates and charges for the next lower service term(1) actually completed plus interest charges based on the annuity factor discount rate, as stated in Section 17 of the General Exchange Tariff, in effect at the time of termination; or
- The monthly payments left on the term.

Example: If the customer completes 27 months of a 36 month (3 year) service term, the first calculation of a termination charge will equal the difference between 27 months of rates and charges at the 3 year service term and 27 months of rates and charges at the 2 year term (which is the next lower service term actually completed) plus interest at the annuity factor discount rate in effect at the time of termination. The second calculation will be the sum of the 9 remaining monthly payments of the 3 year service term. The termination charge is the lesser of the two calculations.

Customers requesting the termination of a renewed TPP prior to the expiration date will pay the subsequent year termination percentage for the applicable plan.

- F. Customers currently subscribing to MEGALINK service on a month-to-month basis may convert their existing service to either a two, three, or five year TPP. Nonrecurring charges will be waived at the time of conversion.

(1) If the service is terminated within the first 24 months, the calculation is based on month-to-month rates.
