## FRAME RELAY DIGITAL SERVICE

NOV 05 1993

## 9.1 DESCRIPTION AND APPLICATION OF SERVICES

**MISSOURI****Public Service Commission**

9.1.1 Frame Relay is a transport service that facilitates the exchange of variable length information units (frames) between end user connections by way of assigned virtual connections. Based on ANSI (American National Standards Institute) and CCITT (Committee Consultate de International Telegraphique et Telephonique) standards for Frame Relay, each frame is passed to the Frame Relay network with an address that specifies the virtual connection.

9.1.2 Variable frame length capability is useful in communications between asynchronous Local Area Networks (LAN) and for transport of synchronous data traffic. Frame Relay is capable of handling the requirements of bursty data sources because of the ability of the service to allocate additional bandwidth when not in use by other sources.

9.1.3 This service is available to customers in Local Access and Transport Areas (LATAs) served by Southwestern Bell Telephone Company, herein referred to as SWBT.

9.1.4 Frame Relay is provided to the customer in the form of the Site Link and the Logical Link. The Site Link forms the local access component which provides the customer access to the customer's Serving Central Office, the interoffice transport within the PMA from the customer's Serving Central Office to the Frame Relay Office, and the termination of those facilities at the Frame Relay Office. The Logical Link consists of the primary addressing associated with the permanent virtual connection between any two Site Links.

(CT)

(CT)

9.1.5 SWBT does not undertake to originate data, but offers the use of its service components, where available, to customers for the purpose of transporting customer-originated data.

9.2 REGULATIONS

9.2.1 The following rules and regulations are in addition to other rules and regulations as stated in this or other Telephone Company Tariffs Commission

- A. Provision of this service (or provision of any specific element associated with this tariff) is subject to the availability and operational limitations of the equipment and associated facilities.
- B. A variety of equipment and facilities may be used to provide this service. SWBT reserves the right to determine which shall be used and the right to modify and change such equipment at its option.
- C. No credit allowance will be made for interruptions due to the negligence and/or failure of equipment provided by customer or user. Furthermore, interruptions of service during any period in which SWBT is not afforded access to the premises at which this service is terminated will not receive a credit allowance.
- D. The minimum billing period for this service is one month. If service is discontinued after the first month, during a fractional part of a month, all appropriate charges will be based on the actual number of days the service is furnished. For the purpose of administering this regulation with respect to the determination of charges for a fractional part of a month, every month is considered to have 30 days.
- E. This service requires the use of customer-provided equipment which must be compatible with SWBT's equipment and facilities and must conform to industry standards for Frame Relay and specifications provided in Southwestern Bell Telephone Company Technical Publication TP 76642.
- F. Frame Relay Service, when furnished at the same premises in combination with other Local Exchange Service, shall not be considered to be in conflict with rules of Paralleling Service contained in the Rules and Regulations of the General Exchange Tariff.
- G. Service furnished to one customer may be assumed by a new customer upon due notice of cancellation or abandonment, provided there is no lapse in service and the service is assumed exactly as provided to the previous customer. The new customer must assume all the obligations of the previous customer.

## FRAME RELAY DIGITAL SERVICE

RECEIVED

JUL 17 1992

## 9.2 REGULATIONS-(continued)

## 9.2.1 (Continued)

MISSOURI  
Public Service Commission

- H. SWBT shall be authorized to discontinue service upon notice from any official charged with the enforcement of the law stating that such service is being used as an instrumentality to violate the law. The customer will be notified immediately by SWBT, but such discontinuance of service will not be considered a service interruption for the purpose of credit allowance. Applicable charges will continue to accrue until service is disconnected at the customer's request.

## 9.3 SERVICE AVAILABILITY

- 9.3.1 Frame Relay is available within a Primary Market Area (PMA). The PMA will be defined as an exchange area suitably equipped to provide Frame Relay Service. Service outside the PMA (but within the same LATA) is made possible by the distance-sensitive Link Extension. One or more PMAs may be located within a LATA. Extended Area Service (EAS) does not apply nor is an Optional EAS arrangement available for this service.
- 9.3.2 A customer's premises or Serving Central Office need not be in the PMA to subscribe to Frame Relay Service. If the customer is served by an office outside the PMA (but within the same LATA), the customer will be required to subscribe to a Link Extension which will include distance-sensitive charges based on the airline mileage (V-H) from the customer's Serving Central Office to the closest Central Office that is within the PMA.
- 9.3.3 When the customer requires the modification of standard service components not otherwise provided in this tariff, the modification can be furnished by SWBT subject to additional regulations, rates and charges as specified for Special Service Arrangements in the Rules and Regulations Applying To All Customer's Contracts section of the General Exchange Tariff.
- 9.3.4 Special Construction will be provided under the regulations, rates and charges as set forth in Section 5 of the General Exchange Tariff. Special Construction is construction undertaken by SWBT where facilities are not available and there is no other requirement for the facilities constructed; of a type facility other than that normally used for this service; of a type facility other than that normally used for this service; over a route other than that which would normally be used; in a quantity greater than what SWBT would normally construct for the needs of this service; on a temporary basis until permanent facilities are completed; involving abnormal costs or in advance of normal construction on an expedited basis.

## 9.3 SERVICE AVAILABILITY--(Continued)

- 9.3.5 This service is guaranteed under the terms of this subsection to provide an average performance of at least 99.0 percent error-free seconds up to the demarcation point (network interface) of the channel for operation at all transmission speeds offered by this tariff. When Frame Relay Service is operating at an error performance level that is unsatisfactory to the customer, and SWBT determines that the error performance level is below that specified above, the period of substandard performance will be considered as an interruption. Any credit allowance shall be based on the time of notice by the customer or user to SWBT that an unsatisfactory performance level has occurred, provided that the customer promptly releases the service as requested by SWBT to perform testing and maintenance.

## FRAME RELAY DIGITAL SERVICE

## 9.4 LIMITATIONS

MISSOURI  
Public Service Commission

- 9.4.1 Logical Links must be associated with at least one Site Link. A customer must subscribe to at least one Site Link to subscribe to a Logical Link.
- 9.4.2 A Site Link can be associated with any number of Logical Links. Since all Logical Links need not be in use at the same time, it is possible for the total bandwidth of all Logical Links associated with one Site Link to exceed the bandwidth of that Site Link. Such a relationship is referred to as over-subscription and when this occurs, there can be no guarantee that the bandwidth defined for that Logical Link will be available at any point in time.
- (AT) 9.4.3 The Logical Link must be ordered at the bit rate equal to the lowest bit rate of the two associated Site Links. The bit rate of the Inter-PMA Additive must be the same as its associated Logical Link.
- (AT) 9.4.4 A customer subscribing to a Site Link will be referred to as the Controller of the Site Link. A customer subscribing to a Logical Link need not be the Controller of either Site Link but must have the permission of both Controllers in order to establish a Logical Link between two Site Links.
- 9.4.5 Site Links and Logical Links are ordered and billed independently and can have different customers as Controllers. A request by one customer to disconnect one component does not result in the disconnection of associated components. Only the Controller of a Site Link may authorize a disconnect of that Site Link.
- (AT) 9.4.6 Logical Links will be provisioned with customer selected Committed Information Rates (CIR). The CIR is the bit rate at which the network commits to transfer data under normal conditions. The customer will indicate a CIR preference at the time the Logical Link is ordered. The CIR cannot exceed the bit rate of the Logical Link. Logical Links purchased prior to the effective date of this tariff sheet will have the CIR set equal to the bit rate of the Logical Link. The customer will be allowed to change the CIR of these Logical Links without incurring a charge.
- (AT) 9.4.7 When multiple Logical Links are associated with one Site Link, the sum of the CIRs on those Logical Links cannot exceed three times the bit rate of the Site Link. This condition is referred to as oversubscription and when oversubscription occurs, there can be no guarantee that the bandwidth defined for any of those Logical Links will be available.

FRAME RELAY DIGITAL SERVICE

9.5 RESPONSIBILITY OF THE CUSTOMER

- 9.5.1 Where Frame Relay Service is available for use in connection with communications systems or equipment provided by a customer or user, the operating characteristics of such systems or equipment shall be such as not to interfere with any services offered by SWBT. Such use is subject to the further provisions that the equipment provided by the customer or user does not endanger the safety of SWBT employees or the public; damage, harm, require change in or alteration of the equipment or other services of SWBT; interfere with the proper operation of SWBT's equipment or otherwise injure the public in its use of SWBT services. Upon notice from SWBT that the equipment provided by customer or user in causing, or is likely to cause, such hazard or interference, the customer shall take such steps as shall be necessary to remove or prevent such hazard or interference.
- 9.5.2 The customer, upon request, shall furnish such information as may be required to permit SWBT to design and maintain the Frame Relay service it offers and to assure that the service arrangement is in compliance with the regulations contained herein.
- 9.5.3 It shall be the responsibility of the customer to ensure the continuing compatibility of the customer-provided equipment that is used in conjunction with the Frame Relay Service.
- 9.5.4 Registration Program - Effective June 30, 1987, the Federal Communications Commission's Part 68 Rules and Regulations were amended to require registration of customer-provided equipment that directly connected to subrate and 1.544 Mbps digital services after that date. The equipment or system must also comply with the requirements of the Technical Reference Publication 62411.
- 9.5.5 The customer shall be responsible for obtaining permission for Telephone Company agents or employees to enter the premises of the customer at any reasonable hour for the purpose of installing, inspecting, repairing or, upon termination of the service, removing the service components of SWBT.
- 9.5.6 The customer shall be responsible for the payment of a nonrecurring Customer Owned Equipment Trouble Isolation Charge as found in the Restoration of Service section of the General Exchange Tariff for each repair visit to a premises of the customer or the premises of any other customer where the service difficulty or trouble results from the use of equipment or service components provided by the customer.

## 9.6 RESPONSIBILITY OF SWBT

**MISSOURI****Public Service Commission**

9.6.1 The responsibility of SWBT shall be limited to furnish equipment suitable for Frame Relay service and to the maintenance and operation of such equipment in a manner proper for such service. Subject to this responsibility, SWBT shall not be responsible for the through transmission of signals generated by the customer-provided equipment or system, or for the quality of, or defects in, such transmission or the reception of signals by such equipment or systems.

9.6.2 SWBT shall not be responsible for installation, operation or maintenance of any terminal equipment, data unit or communications system provided by a customer or user. SWBT is not responsible for adapting Frame Relay service to the technological requirements of any specific customer equipment.

(RT) 9.6.3 When a customer orders a Logical Link which is relayed to other Local Exchange Carriers or other Frame Relay networks, SWBT will provide advisory assistance as a part of the establishment of this Logical Link.

9.6.4 SWBT shall not be responsible to the customer or user if changes in any of the equipment, operations or procedures of SWBT used in the provision of Frame Relay Service render any facilities provided by the customer or user obsolete or require modification or alteration of such equipment or system or otherwise affect its use or performance, provided SWBT has met any applicable information disclosure requirements otherwise required by law.

9.6.5 SWBT undertakes the responsibility to maintain and repair the service which it furnishes. Network equipment installed by SWBT on the customer's premises shall be and remain the property of SWBT. The customer or user may not rearrange, disconnect, remove, attempt to repair, remote test or interface with any network equipment installed by SWBT without prior written consent by SWBT.

9.6.6 SWBT, by written notice to the customer, may immediately discontinue the furnishing of Frame Relay service without incurring liability upon nonpayment of any sum due to SWBT or a violation of any condition governing the furnishing of service.

FRAME RELAY DIGITAL SERVICE

MAR 23 1995

9.7 APPLICATION OF CHARGES

9.7.1 Rates and charges for the Site Link will include a recurring monthly charge and a nonrecurring service charge and are based on the available transmission speeds (bit rates). The Site Link is available in three bit rates, 56 Kbps, 384 Kbps and 1.536 Mbps.

9.7.2 The Rates and Charges for the Logical Link will include a recurring monthly charge and a nonrecurring service charge and are also based on transmission speeds and will be available in a variety of bit rates.

9.7.3 A Link Extension will consist of a flat rate monthly charge and a monthly distance-sensitive charge. These charges are in addition to the monthly charge for the associated Site Link.

(AT) 9.7.4 A Nonrecurring Service Charge will be assessed with each customer-requested change in the transmission speed of the Site Link or Logical Link; or for a new Site Link or Logical Link at the new speed; or for a change in the Committed Information Rate (CIR) of a Logical Link.

9.7.5 The application of Nonrecurring Service Charges as found in Section 9, Paragraph 9.8 of this tariff are as follows:

First Unit - Applies to the first unit per customer request, per due date, per customer premises, per PMA.

Additional Unit - Applies to the additional unit(s) on the same customer request as the initial unit, same due date, same customer premises and same PMA.

9.7.6 Rate Application for the 816 LATA:

The Kansas City PMA consists of two state jurisdictions, Kansas and Missouri. In the event of a customer connecting sites from both jurisdictions, special rules apply.

The Site Link will be ordered from the tariff of the state in which the Serving Central Office associated with the Site link is located.

Link Extensions cannot cross state jurisdictional boundaries (i.e., the Serving Central Office of the Site Link and the nearest Central office inside the PMA must both be in the same state jurisdiction).

A Logical link which is defined for Site Links in two jurisdictions will be assessed one-half of the Kansas Logical Link rate and one-half of the Missouri Logical link rate (USOC Codes LCN58, LCN68 and LCN88 to be used for this application). This applies to nonrecurring charges as well as monthly rates.

- (1) A Network Link is assessed both the Monthly Base Rate and the Monthly Charge per Mile which is calculated using the distance from the two closest offices in the two PMAs being connected. A Network Link must be associated with and ordered at the same time as one or more Logical Links.
- (2) Network capabilities in some locations may be initially limited to providing a maximum of 1.344 Mbps.
- (AT) (3) The Inter-PMA Additive is applied to each Logical Link that defines a path between two PMAs within a LATA but is not associated with a Network Link.
- (AT) This additive is an alternative to purchasing a Network Link.

## 9.9 TERM PRICING PLAN

## 9.9.1 General

MISSOURI  
Public Service Commission

- A. Frame Relay Service Term Pricing Plan (FRS-TPP) provides the customer with rate stabilization and discounted tariff rates. The FRS-TPP provides for either a three year or five year service period (Initial Service Period) for rate stabilization.
- B. FRS-TPP monthly rates will be exempt from Telephone Company initiated rate increases throughout the selected service period. Should the Telephone Company increase its rates during the FRS-TPP period, the customer would continue to pay the rates in effect at the time the customer elected to establish service under FRS-TPP.
- C. Decreases in FRS-TPP monthly recurring tariff rates will be passed on to customers who participate in a FRS-TPP.

## 9.9.2 Services Available Under FRS-TPP

- A. A customer may elect to participate in FRS-TPP for the following rate elements :

- Site Link
- Logical Link
- Link Extension (Fixed and Per Mile)
- Network Link (Fixed and Per Mile)
- Inter-PMA Additive

CANCELLED

MAR 08 2000

By 151 RS 12  
Public Service Commission  
MISSOURI

## 9.9.3 Terms and Conditions

- A. The customer must specify the length of the Initial Service Period at the time the service is ordered.
- B. Link Extensions must have the same FRS-TPP service period as the associated Site Link.
- C. Inter-PMA Additive charges must have the same FRS-TPP service period as the associated Logical Link.
- D. FRS rate elements may be ordered under monthly or any FRS-TPP service period rates. For example, the customer may select a Site Link at the three year service rate plan and the Logical Links under the monthly rate.

9.9 TERM PRICING PLAN-(Continued)

9.9.4 Changes to Pricing Plans

MISSOURI  
Public Service Commission

- A. At any time, the customer may request existing FRS provided on a monthly rate basis to be converted to a FRS-TPP.
- B. Prior to the expiration of the Initial Service Period or Extended Service Period, as described in 9.9.5 (Renewal), the customer may convert existing FRS-TPP services to a new FRS-TPP Initial Service Period without incurring termination charges provided the new Initial Service Period is equal to or greater than the original Initial Service Period.

Example: A customer with an existing 56 Kbps three year FRS-TPP could convert to a new 56 Kbps three year or five year FRS-TPP at any time without incurring termination charges.

Example: A customer with an existing 56 Kbps five year FRS-TPP requests to convert to a 56 Kbps three year FRS-TPP. This request would be treated as a discontinuance of the existing five year FRS-TPP and termination charges would apply.

- C. If a customer requests existing FRS-TPP service to be converted to a monthly rate basis at any time prior to the expiration of the Initial Service Period or Extended Service Period, the request will be treated as a discontinuance of service and termination charges will apply.

9.9.5 Renewal

- A. The customer may elect to renew the FRS-TPP Initial Service Period for one additional 12 month service period (Extended Service Period) at the rates under the original FRS-TPP Initial Service Period.
- B. The customer must provide the Telephone Company with a written notice of intent to renew an existing FRS-TPP Initial Period no later than 90 days prior to the expiration of the Initial Service Period.
- C. If the customer elects not to renew the FRS-TPP or does not notify the Telephone Company of its intent to renew, the customer's service will automatically be billed under the tariffed monthly rates in effect at the time the FRS-TPP Initial Service Period expires.

9.9.5 Renewal-(Continued)

MISSOURI  
Public Service Commission

- D. At the end of an Extended Service Period, the customer's service will automatically be billed under the tariffed monthly rates in effect at the time the Extended Service Period expires unless the customer negotiates a new FRS-TPP Initial Service Period or terminates service.

9.9.6 Upgrade in Service

- A. A customer may upgrade FRS-TPP service to a higher FRS transmission speed (e.g. 56 Kbps FRS to 384 Kbps or 1.536 Mbps FRS; or 384 Kbps FRS to 1.536 Mbps FRS); or other Telephone Company services of equal or greater transmission speed (e.g. 56 Kbps FRS to 56 Kbps MegaLink II Service or 384 Kbps/1.536 Mbps FRS to 1.544 Mbps MegaLink III Service) without incurring termination charges provided all of the following conditions are met:
- the new service is provided solely by the Telephone Company,
  - the new service is provided to the same customer location as the discontinued service. For Logical Links, the service must be provided between the same two locations,
  - the customer's request for disconnection of the existing service and the request for new service are received at the same time,
  - for FRS at a greater transmission speed, the new service must establish a new FRS-TPP Initial Service Period effective on the service date, and
  - for other Telephone Company services at equal or greater transmission speed, the total monthly rate of the new service is equal to or greater than the total monthly rate of the existing service being discontinued.
- B. In the event an order to upgrade service does not meet one or more of the conditions above, it will be treated as a discontinuance of the existing service and the establishment of a new service. All termination charges will apply.
- C. The monthly rates for the new services will be those in effect at the time the service is changed. All nonrecurring charges associated with service installation will apply to the new service.

## 9.9.7 Moves to New Location

MISSOURI  
Public Service Commission

- A. A customer with an existing FRS-TPP service may move the existing service to a new location, or move and upgrade to a greater transmission speed FRS, or move and change the FRS to another Telephone Company service of equal or greater transmission speed without incurring termination charges provided all of the following conditions are met:
- the new service is provided solely by the Telephone Company,
  - the new location is within the same LATA and served by the same FRS Primary Market Area (PMA),
  - the customer's request for disconnection of the existing and the request for new service are received at the same time,
  - the due date of the new connect order must be within 30 days of the due date of the disconnect order,
  - the new service has a transmission speed equal to or greater than the transmission speed of the service being disconnected,
  - for Logical Links, the move must be associated with the move of one or more associated Site Links.
  - for FRS at the same transmission speed, the new service maintains the existing Initial Service Period at the new location or establishes a new Initial Service Period equal to or greater than the original Initial Service Period at the old location,
  - for FRS at a greater transmission speed, the new service establishes a new FRS Term Pricing Plan Initial Service Period effective on the service date.
  - for other Telephone Company services of equal or greater transmission speed, the total monthly rate of the new service is equal to or greater than the total monthly rate of the existing service being discontinued.

9.9 TERM PRICING PLAN-(Continued)

9.9.7 Moves to New Location-(Continued)

MISSOURI  
Public Service Commission

- B. In the event an order to move service provided under FRS-TPP does not meet one or more of the conditions above, it will be treated as a discontinuance of the existing service and the establishment of a new service. All termination charges will apply.
- C. Except as noted above, the monthly rates for the new service will be those in effect at the time the service is changed. All nonrecurring charges associated with the establishment of the new service will apply.

9.10 TERM PRICING PLAN - RATE APPLICATIONS

9.10.1 Nonrecurring Charges

- A. The nonrecurring charges as described in 9.7.4 and 9.7.5 will apply for new services ordered under FRS-TPP.
- B. If the customer chooses to convert existing Frame Relay Service provided on a monthly rate basis to a FRS-TPP, no nonrecurring charges will apply.
- C. If the customer chooses to convert an existing service provided on a FRS-TPP to a monthly rate basis or another FRS-TPP, no nonrecurring charges will apply. However, FRS-TPP termination charges may also apply.

9.10.2 Termination Charges

- A. Customers requesting to discontinue services provided under a FRS-TPP, prior to the expiration of the Initial Service Period, will incur termination charges as follows:

| <u>FRS-TPP Initial<br/>Service Period</u> | <u>Termination<br/>Percentage</u> |
|---|-----------------------------------|
| 3 Years                                   | 50%                               |
| 5 Years                                   | 50%                               |

9.10 TERM PRICING PLAN - RATE APPLICATIONS-(Continued)

9.10.2 Termination Charges-(Continued)

MISSOURI  
Public Service Commission

- B. The termination charge for an Initial Service Period will be calculated as follows:

|          |   |                 |   |   |             |
|----------|---|-----------------|---|---|-------------|
| (Billed  |   | Months          | ) |   | Termination |
| (monthly | x | remaining in    | ) | x | percentage  |
| (rate    |   | service period) |   |   |             |

Example: A customer with a \$1,000 FRS-TPP monthly rate terminates service with 5 months remaining in a 3-year service period. The termination charge would be calculated as follows:

$$(\$1,000 \times 5) \times .50 = \$2,500$$

In the event service is discontinued prior to the expiration of an Extended Service Period, termination charges will apply.

- C. The termination charge for an Extended Service Period will be calculated as follows:

|                  |   |          |   |          |
|------------------|---|----------|---|----------|
| Number of months |   | (Current |   | FRS-TPP) |
| used of Extended | x | (Monthly | - | Monthly) |
| Service Period   |   | (Rate    |   | Rate)    |

Example: A customer with a \$1,000 FRS-TPP monthly rate extends the FRS-TPP for an additional 12 months, then terminates service at the end of the 4th month of the Extended Service Period. The current monthly tariffed rate is \$1,200. The termination charge will be calculated as follows:

$$4 \times (\$1,200 - \$1,000) = \$800$$

- D. No Termination Charges will apply after the Initial Service Period or Extended Service Period has elapsed.
- E. If Special Construction was applied to the service being terminated, any Termination Charges associated with the Special Construction will also apply.

- (1) Network capabilities in some locations may be initially limited to providing a maximum of 1.344 Mbps.
- (2) A Link Extension is assessed both the Monthly Base Rate and the Monthly Charge per mile which is calculated using the distance from the Customer's Serving Central Office to the nearest Central Office that is located within the PMA. These charges are in addition to the monthly charge for the associated Site Link. The Link Extension must be associated with and ordered at the same time as the Site Link.
- (3) The 1.536 Mbps Site Link is the same facility regardless of whether NNI or UNI protocols are selected. The protocols differ only in the way the customer's equipment interconnects to the network.
- (4) A Network Link is assessed both the Monthly Base Rate and the Monthly Charge per Mile which is calculated using the distance from the two closest offices in the two PMAs being connected. A Network Link must be associated with and ordered at the same time as one or more Logical Links.
- (5) The Inter-PMA Additive is applied to each Logical Link that defines a path between two PMAs within a LATA but is not associated with a Network Link. This additive is an alternative to purchasing a Network Link.

Digital Link Services Tariff  
Section 10  
Original Sheet 1

## DOVLink

### 10.1 DESCRIPTION AND APPLICATION OF SERVICE

#### 10.1.1

- A. DovLink allows simultaneous transport of digital data and analog voice services on a point-to-point basis, and provides a common method of access to dedicated, multiplexed, or packet switched service offerings. This is accomplished via a transparent digital transmission path operating at up to 2.4, 4.8 or 9.6 kbps on a customer's local exchange two-wire loop. DovLink is provided only between the customer premises and the local serving central office. The voice channel will normally be connected to the subscriber line side of the central office switch while the derived data channel may be connected to a variety of tariffed digital data service offerings including other DovLink data channels.
- B. This service is available to customers in those LATAs served by and within the service territories of Southwestern Bell Telephone Company only, herein referred to as the Telephone Company. DovLink is available to interexchange carriers only for their administrative use. DovLink is not offered for resale.

#### 10.1.2 Regulations

The regulations and rates specified herein are in addition to the applicable regulations found in other sections of this Tariff.

#### 10.1.3 Provision of Service

- A. DovLink is available on a point-to-point intraLATA basis. DovLink is capable of transporting data rates of 2.4, 4.8 or 9.6 kbps.
- B. DovLink is furnished on a full-time basis (24 hours a day, 7 days a week).
- C. DovLink will be provided when technically feasible utilizing the customer's existing local exchange service two-wire loop. The existing loop must meet certain technical requirements in order to be utilized. The interface specification for Data Over Voice (DOV) is contained in Technical Publication (TP) 76620, entitled Digital Data Over Voice (DDOV) Network Interface Specification, Issue A, issued December 1989.

Original Sheet 2

## DOVLINK

### 10.1 DESCRIPTION AND APPLICATION OF SERVICE-(Continued)

#### 10.1.3 Provision of Service-(Continued)

- E. The DovLink voice channel supports Custom Calling features and CLASS features.
- F. A remote data voice multiplexer (DVM) must be provided by the customer on his premises. Digital equipment provided by the customer is subject to the regulations set forth in Section 3 of this Tariff, Paragraphs 3.6.5 and 3.6.10.

#### 10.1.4 Limitations

- A. The distance limitation for DovLink is nominally 15 Kft of 26 gauge or equivalent (36 dB @ 28 kHz) on a single, non-loaded 2-wire copper pair. The 15 Kft or 26 gauge or equivalent (36 dB loss @ 28 kHz) distance limitation must include the distance from the DVM at the central office to the remote DVM at the customer's premises, including the central office wiring and any appropriate customer premises wiring.

### 10.2 METHOD OF APPLYING RATES

#### 10.2.1 Data Voice Multiplexer (DVM)

A charge for a DVM, both recurring and nonrecurring, applies per local exchange line equipped. In addition, Service Loop Facility Modification charges apply as described in Section 13 of the General Exchange Tariff.

#### 10.2.2 Interoffice Channel

Derived digital data channels from DovLink service may be connected between serving offices through the use of interoffice mileage at the rates found in Section 3, Paragraph 3.11.1.

## 10.3.2 Interoffice Channels

Rates and charges for interoffice channels for 2.4, 4.8 and 9.6 kbps are found in Section 3 of this Tariff, Paragraph 3.11.1.

## 10.3.3 Packet Switch Interface

Derived digital data channels of DovLink may be arranged for connection with MicroLink II service as described in Section 6 of this Tariff.

- (1) In addition, Service Loop Facility Modification charges as described in Section 13 of the General Exchange Tariff apply.

(AT)

BUSINESS VIDEO SERVICE(1)

11.1 DESCRIPTION AND APPLICATION OF SERVICE

JAN 10 1997

11.1.1 General

- A. Business Video Service provides a video channel with two-way transmission capability for standard 525-line/60-field monochrome, or National Television Systems Committee (NTSC) color, System M video signal. This service includes one associated audio signal in the 7 kHz frequency range. Business Video Service is available for local distribution channels and associated interoffice channels.
- B. Business Video Service may consist of one Business Video local distribution channel at each end of a two-point circuit or one Business Video local distribution channel at one end of a two-point circuit and a MegaLink III local distribution channel (as set forth in Section 4 of this Tariff) at the other end of the two-point circuit. This service may include the ancillary sale of one 4.8 kbps and one 9.6 kbps MegaLink II channel.
- C. Business Video Service provides for two-way compressed video/audio service on a two-point basis. Business Video is suitable for teleconferencing which connects two groups at different locations.
- D. Business Video Service may be provided between two customer designated premises. Two types of service are offered, Business Video I and Business Video II.

Business Video I

Business Video I is a digital channel capable of two-way, two-point video/audio transmission. This video service is visually comparable to broadcast quality video, but has less stringent technical parameters and some noticeable motion impairment. The bandwidth for Business Video I digital video compression is 384 kbps.

Business Video II

Business Video II is a digital channel capable of two-way, two-point video/audio transmission. This video service is visually comparable to broadcast quality video, but has less stringent technical parameters. The bandwidth for Business video II digital video compression is 1.544 Mbps.

## BUSINESS VIDEO SERVICE

RECEIVED

FEB 9 1993

## 11.1 DESCRIPTION AND APPLICATION OF SERVICE

## 11.1.1 General

MISSOURI  
Public Service Commission

- A. Business Video Service provides a video channel with two-way transmission capability for a standard 525-line/60-field monochrome, or National Television Systems Committee (NTSC) color, System M video signal. This service includes one associated audio signal in the 7 kHz frequency range. Business Video Service is available for local distribution channels and associated interoffice channels.
- B. Business Video Service may consist of one Business Video local distribution channel at each end of a two-point circuit or one Business Video local distribution channel at one end of a two-point circuit and a MegaLink III local distribution channel (as set forth in Section 4 of this Tariff) at the other end of the two-point circuit. This service may include the ancillary sale of one 4.8 kbps and one 9.6 kbps MegaLink II channel.
- C. Business Video Service provides for two-way compressed video/audio service on a two-point basis. Business Video is suitable for teleconferencing which connects two groups at different locations.
- D. Business Video Service may be provided between two customer designated premises. Two types of service are offered, Business Video I and Business Video II.

Business Video I

Business Video I is a digital channel capable of two-way, two-point video/audio transmission. This video service is visually comparable to broadcast quality video, but has less stringent technical parameters and some noticeable motion impairment. The bandwidth for Business Video I digital video compression is 384 kbps.

Business Video II

Business Video II is a digital channel capable of two-way, two-point video/audio transmission. This video service is visually comparable to broadcast quality video, but has less stringent technical parameters. The bandwidth for Business video II digital video compression is 1.544 Mbps.

JAN 10 1997

11.1.1 General-(Continued)

- E. The bandwidth for Business Video I and II digital audio compression is included within the transmission and is at the rate of 64 kbps. This transmission is considered to be compliant with the Px64 standards set forth by the Consultative Committee on International Telephony and Telegraphy (CCITT).

MISSOURI  
Public Service Commission

11.1.2 Regulations

- A. The regulations and rates specified herein are in addition to the applicable regulations found in other sections of this Tariff.
- B. The customer must provide the customer premises equipment at each end of the two-point network, such as room cameras, monitors, audio systems, graphics camera equipment and system control console (when required).
- C. Business Video Service is provided as a point-to-point two-point service only.
- D. The technical specifications are set forth in Technical Reference TP-76644.

11.1.3 Provision of Service

- A. Business Video Service is offered with a 3-year minimum service period. The customer's rates will not change during the minimum service period, unless the customer modifies service, e.g., requesting new rates because of a general tariff rate change. In this situation, a new minimum service period will be established and modification charges, as set forth in Paragraph 11.1.3, C., following, will apply.

One month prior to the expiration of the minimum service period, the customer must select one of the following options:

1. The customer may renew the service for another 3-year minimum period at the tariff regulations, rates and charges in effect at the time of renewal. Termination charges will be associated with the new minimum service period.

BUSINESS VIDEO SERVICE(1)

11.1 DESCRIPTION AND APPLICATION OF SERVICE-(Continued)

JAN 10 1997

11.1.3 Provision of Service-(Continued)

MISSOURI  
Public Service Commission

A. (Continued)

2. The customer may elect to renew the service on a monthly basis at the tariff regulations, rates and charges in effect at the time of renewal. Termination charges do not apply.
3. The customer may elect to disconnect the service upon expiration of the existing minimum service period.

B. In the event service is terminated prior to the expiration of the minimum 3-year service period, termination charges, as specified below, will apply.

| <u>Service Period</u> | <u>Termination<br/>Percentage</u> |
|-----------------------|-----------------------------------|
|-----------------------|-----------------------------------|

|                     |     |
|---------------------|-----|
| 3 years (36 months) | 60% |
|---------------------|-----|

The termination charge is calculated as follows:

|                 | <u>Months remaining<br/>in service period</u> | <u>Termination<br/>percentage</u> |
|-----------------|---|-----------------------------------|
| Monthly rates x | x   |                                   |

Example: A customer with a \$2,000 monthly rate terminates service with 5 months remaining in a 3-year service period. The termination charge would be calculated as follows:

$$\$2,000 \times 5 \times .60 = \$6,000$$

The termination charge would be \$6,000.

In the event service is terminated after a 3-year minimum service period has elapsed and the customer has elected to continue service on a monthly basis, no termination charges apply.

If Special Construction charges were applied for the service being terminated, an associated termination charge, as set forth in Section 14 of the Access Services Tariff, may apply.

11.1 DESCRIPTION AND APPLICATION OF SERVICE-(Continued)

JAN 10 1997

11.1.3 Provision of Service-(Continued)

MISSOURI  
Public Service Commission

- C. The customer may request to modify service provided the service end points remain the same.

It is considered a modification of service when the customer upgrades from Business Video I Service to Business Video II Service. The original minimum service period for Business Video I Service remains intact. All rates and charges in effect for Business Video II Service at the time of the modification are applicable.

It is considered a modification of service when the customer, prior to the expiration of the minimum service period, requests a change in rates, i.e., the customer requests the current effective rates which are different from those he is now paying. In this situation, a new minimum service period is established, and all applicable nonrecurring charges apply.

11.1.4 Options

- A. Split Screen Capability

This allows three separate areas of the room to be viewed simultaneously, or two areas and one graphics camera view. The bandwidth is split between the two monitors providing less than a full screen view on one of the monitors. If a single monitor or system is used, then this option allows two separate areas of the room to be viewed simultaneously, or one area and one graphics camera view. Note: This option varies from the Px64 standards compliance and requires specific manufacturer equipment compatibility at the receiving (viewing) end of the point-to-point video service.

11.1.5 Allowances for Interruptions

No credit shall be allowed for an interruption of less than 24 hours. The customer shall be credited for an interruption of 24 hours or more at the rate of 1/30th of the applicable monthly rates for each period of 24 hours or fraction thereof that the interruption continues.

SELECT VIDEO PLUS

Missouri Public

13.1 GENERAL

REC'D FEB 20 2002

13.1.1 SERVICE DESCRIPTION

SelectVideo Plus is an intraLATA dial-up multi-rate switched digital data service. SelectVideo Plus will provide digital connections ranging from 64 Kbps to 1536 Kbps (synchronous) in 64 Kbps increments of bandwidth via the public switched network. The specific rate is user-selectable on an per call basis. Network access to SelectVideo Plus is via fully configured ISDN primary rate interfaces (PRI). A minimum of two PRIs (one configured for 23B+D and one configured for 24B) is required for 1536 Kbps calls.

Service Commission

This service is competitively classified in the following exchanges

Business:  
St. Louis  
Kansas City

(AT)

(AT)

13.2 SERVICE COMPONENTS

13.2.1 SelectVideo Plus Arrangement: provides the communication path capable of bandwidth aggregation from the customer's premises to the SelectVideo Plus serving office. A SelectVideo Plus Arrangement may consist of Control Links and Communication Links. A minimum of one Control Link is required per SelectVideo Arrangement. This minimum configuration will provide digital connections from 64 Kbps to 1472 Kbps in increments of 64 Kbps. In order to transmit at 1536 Kbps, the SelectVideo Plus Arrangement must include at least one Control Link and one Communication Link.

13.2.1.1 Control Link: a PRI configured with one D Channel or a back-up D Channel and 23 B Channels to provide up to 1472 Kbps of bandwidth.

13.2.1.2 Communication Link: a PRI configured with 24 B Channels to provide up to 1536 Kbps of bandwidth.

13.2.2 SelectVideo Plus Usage: provides for usage of the Public Switched Telephone Network (PSTN).

13.2.2.1 Payment Option 1 usage is billed on a per minute basis as described in paragraph 13.7, following.

13.2.2.2 Payment Option 2 provides a choice of three Usage Packages, each of which include a monthly usage allowance. All usage in excess of the allowance is billed on a per minute basis. Usage Packages are further described in paragraph 13.7.9, following.

13.2.2.3 Payment Option 3 monthly rates for Control Links and Communication Links include unlimited intraLATA usage. See section 13.8.1.1.

13.2.3 Link Extension: provides connection for customers located outside of a Primary Market Area equipped with SelectVideo Plus (but within the same LATA). One Link Extension is required for each Control Link and Communication Link.

13.1.1

SERVICE DESCRIPTION

**MO. PUBLIC SERVICE COMM.**

SelectVideo Plus is an intraLATA dial-up multi-rate switched digital data service. SelectVideo Plus will provide digital connections ranging from 64 Kbps to 1536 Kbps (synchronous) in 64 Kbps increments of bandwidth via the public switched network. The specific rate is user-selectable on a per call basis. Network access to SelectVideo Plus is via fully configured ISDN primary rate interfaces (PRI). A minimum of two PRIs (one configured for 23B+D and one configured for 24B) is required for 1536 Kbps calls.

13.2

SERVICE COMPONENTS

13.2.1

SelectVideo Plus Arrangement: provides the communication path capable of bandwidth aggregation from the customer's premises to the SelectVideo Plus serving office. A SelectVideo Plus Arrangement may consist of Control Links and Communication Links. A minimum of one Control Link is required per SelectVideo Arrangement. This minimum configuration will provide digital connections from 64 Kbps to 1472 Kbps in increments of 64 Kbps. In order to transmit at 1536 Kbps, the SelectVideo Plus Arrangement must include at least one Control Link and one Communication Link.

13.2.1.1

Control Link: a PRI configured with one D Channel or a back-up D Channel and 23 B Channels to provide up to 1472 Kbps of bandwidth.

13.2.1.2

Communication Link: a PRI configured with 24 B Channels to provide up to 1536 Kbps of bandwidth.

(RT)

13.2.2

SelectVideo Plus Usage: provides for usage of the Public Switched Telephone Network (PSTN).

(AT)

13.2.2.1

Payment Option 1 usage is billed on a per minute basis as described in paragraph 13.7, following.

13.2.2.2

Payment Option 2 provides a choice of three Usage Packages, each of which include a monthly usage allowance. All usage in excess of the allowance is billed on a per minute basis. Usage Packages are further described in paragraph 13.7.9, following.

(AT)

13.2.2.3

Payment Option 3 monthly rates for Control Links and Communication Links include unlimited intraLATA usage. See section 13.8.1.1.

13.2.3

Link Extension: provides connection for customers located outside of a Primary Market Area equipped with SelectVideo Plus (but within the same LATA). One Link Extension is required for each Control Link and Communication Link.

- 13.3.12 Customers may transfer SelectVideo Plus Service to a new customer at the same premises upon written concurrence of SWBT. In addition, the new customer shall assume all the previous customer's SelectVideo Plus Service indebtedness.

## 13.4 RESPONSIBILITY OF THE CUSTOMER

- 13.4.1 Where SelectVideo Plus service is available for use in connection with terminal equipment or communication systems provided by a customer or user, the operating characteristics of such equipment or systems shall be such as not to interfere with any of the services offered by SWBT. Such use is subject to the further provisions that the equipment provided by a customer or user does not endanger the safety of SWBT employees or the public; damage or require alteration of the equipment or other services of SWBT; interfere with the proper functioning of such equipment or services; impair the operation of SWBT's equipment; or otherwise injure the public in its use of SWBT services. Upon notice from SWBT that the equipment provided by the customer or user is causing, or is likely to cause, such hazard or interference, the customer shall immediately take such steps as shall be necessary to remove or prevent such hazard or interference. All customer equipment must comply with FCC Rules and Regulations Part 68.

- 13.4.2 The customer, upon request, shall furnish such information as may be required to permit SWBT to design and maintain the SelectVideo Plus service it offers and to assure that the service arrangement is in accordance with the regulations contained herein.

- 13.4.3 The customer shall insure the continuing compatibility of the customer provided terminal and data unit equipment that is used in conjunction with the SelectVideo Plus service.

FEB 24 1995

## 13.5 RESPONSIBILITY OF SWBT

- 13.5.1 The responsibility of SWBT shall be limited to the furnishing of network equipment suitable for SelectVideo Plus service and the maintenance and operation of such equipment in a manner proper for such service. Subject to this responsibility SWBT shall not be responsible for the through-transmission of signals generated by customer-provided equipment or systems or for the quality of, or defects in, such transmission or the reception of signals by such equipment or systems. SWBT shall not be responsible for installation, operation or maintenance of any terminal equipment, data unit or communications systems provided by a customer or user. SWBT is not responsible for adapting SelectVideo Plus service to the technological requirements of any specific customer equipment.

13.5.2 SWBT shall not be responsible to the customer or user for changes in any of the equipment, operations, or procedures of SWBT used in the provision of SelectVideo Plus service render any facilities provided by a customer or user obsolete or require modifications or alteration of such equipment or system or otherwise affect its use or performance, provided SWBT has met any applicable information disclosure requirements.

13.5.3 SWBT shall maintain and repair the service which it furnishes. The customer or user may not rearrange, disconnect, remove, repair, remote test or interfere with any network equipment installed by SWBT without prior written consent of SWBT.

**13.6 SERVICE AVAILABILITY**

13.6.1 SelectVideo Plus service is available within a suitable primary market area (PMA). A primary market area (as defined in Section 1 Parts 3 and 6 of the Local Exchange Tariff).

13.6.2 SelectVideo Plus is available within the following PMAs: St. Louis and Kansas City.

13.6.3 SelectVideo Plus service does not have available the local calling scopes of optional Extended Area Calling Service, Community Optional Service, Optional Metropolitan Calling Area Service (or any other optional extended area calling service like calling plan).

13.6.4 SelectVideo Plus is offered to customers outside of the PMA (but within the same LATA) where existing facilities and operating conditions permit. In such cases, the customer will be required to subscribe to a Link Extension for each Control Link and Communication Link included in their SelectVideo Plus Arrangement.

13.6.5 All rates, charges, terms and conditions set forth herein provide for the furnishing of service where suitable facilities and equipment are available in the customer's PMA and do not create an obligation for the Company to construct such facilities or equipment especially for the provision of this service.

**13.7 APPLICATION OF RATES AND CHARGES**

13.7.1 A minimum of one Control Link is required per SelectVideo Arrangement. This minimum configuration will provide digital connections from 64 Kbps to 1472 Kbps in increments of 64 Kbps. In order to transmit at 1536 Kbps, the SelectVideo Plus Arrangement must include at least one Control Link and one Communication Link. A SelectVideo Plus Arrangement can consist of any combination of Control Links and Communication Links.

**RECEIVED****AUG 21 1995**

## 13.6 SERVICE AVAILABILITY

13.6.1 SelectVideo Plus service is available within a suitably equipped primary market area (PMA). A primary market area is an exchange area (as defined in Section 1, Parts 3 and 6 of the Local Exchange Tariff).

**MO. PUBLIC SERVICE COMM.**

(AT) 13.6.2 SelectVideo Plus is available with the following PMAs: St. Louis, Kansas City and  
(AT) Springfield.

13.6.3 SelectVideo Plus service does not have available the local calling scopes of optional Extended Area Calling Service, Community Optional Service, Optional Metropolitan Calling Area Service (or any other optional extended area calling service like calling plan).

SelectVideo Plus is offered to customers outside of the PMA (but within the same LATA) where existing facilities and operating conditions permit. In such cases, the customer will be required to subscribe to a Link Extension for each Control Link and Communication Link included in their SelectVideo Plus Arrangement.

13.6.5 All rates, charges, terms and conditions set forth herein provide for the furnishing of service where suitable facilities and equipment are available in the customer's PMA and do not create an obligation for the Company to construct such facilities or equipment especially for the provision of this service.

## 13.7 APPLICATION OF RATES AND CHARGES

13.7.1 A minimum of one Control Link is required per SelectVideo Arrangement. This minimum configuration will provide digital connections from 64 kbps to 1472 kbps in increments of 64 Kbps. In order to transmit at 1536 Kbps, the SelectVideo Plus Arrangement must include at least one Control Link and one Communication Link. A SelectVideo Plus Arrangement can consist of any combination of Control Links and Communication Links.

13.7.2 SelectVideo Plus usage rates apply per originating minute of use per call.

13.7.3 Timing of a SelectVideo Plus call shall begin when an answer signal is received from the called party. Completion of a SelectVideo Plus call is signified when a disconnect signal is received from either the calling or called party.

13.7.4 SelectVideo Plus usage charges shall apply per each minute or fraction thereof that each SelectVideo Plus call is connected. The minimum duration for a SelectVideo Plus call shall be one minute.

13.7.5 A Link Extension is charged in addition to the monthly rate for the associated Control Link or Communication Link. The Access Link Extension must be associated with and ordered at the same time as the Control Link or Communication Link.

RECEIVED

## 13.7 APPLICATION OF RATES AND CHARGES (Continued)

JAN 24 1995

(AT)

## 13.7.9 Usage Packages

13.7.9.1 Payment Option 2 Usage Packages include an allowance of channel minutes. (Channel minutes are equivalent to one minute of use on a single B Channel or one minute of use per 64 Kbps.) The usage allowance applies to SelectVideo Plus IntraPMA and IntraLATA outside the PMA aggregate usage per SelectVideo Plus Arrangement, per month.

MO. PUBLIC SERVICE COM.

13.7.9.2 IntraLATA Long Distance Message Telecommunications Service (LD-MTS) charges apply for all IntraLATA outside the PMA calls regardless of whether they are included in the usage package allowance.

13.7.9.3 Each call will be converted to channel minutes per call by multiplying the total minutes per call by the number of B channels required for the call. (The number of B channels required for each call can be determined by dividing the call bandwidth by 64.) Channel minutes per call will be accumulated to determine when the usage package allowance has been exhausted for the current billing cycle. The appropriate SelectVideo Plus bandwidth usage rate per minute of use will apply for each subsequent call completed during that billing cycle.

13.7.9.4 When the usage package allowance of channel minutes is exceeded in the middle of a call, the remaining channel minutes in excess of the allowance will be converted back to minutes of use by dividing the remaining channel minutes by the number of B channels used for the call. The result of this conversion calculation will be rounded to the next whole minute. The appropriate SelectVideo Plus bandwidth usage rate per minute of use will apply for the portion of the call exceeding the usage package allowance.

13.7.10 A billing conversion charge will apply each time a customer changes Payment Options or Usage Packages unless this change is coincident with changing service term pursuant to Paragraphs 13.3.9.3, 13.3.9.4, and 13.3.9.5, preceding. (See paragraph 13.8.2.4)

13.8 RATES AND CHARGES (cont'd)

REC'D AUG 12 2002

13.8.2 Optional Features (cont'd)

(AT) Footnotes

Service Commission

(MT)

- (1) Applies to the first unit ordered per request, per customer premises, per installation date.
- (2) Applies to all other units ordered in addition to the initial unit per request, per premises, per installation date.
- (3) In addition to the rates for intrastate, intraLATA Long Distance Message Telecommunications Service (LD-MTS).
- (4) The installation charge for customer moves within the same SelectVideo Plus serving office, as described in 13.3.11.2 proceeding, will be equal to the installation charge associated with the 36 month service term.
- (5) Payment Option 3 includes unlimited SelectVideo Plus intraLATA usage. Rates for intrastate, intraLATA Long Distance Message Telecommunications Service (LD-MTS) apply in addition to the Payment Option 3 monthly usage rate.
- (6) Applicable when customer changes Payment Option or Usage Package without changing service term.
- (7) For customers initially ordering this service during the period from March 1, 1995 to June 30, 1995, nonrecurring charges will be deferred for 60 days to allow a customer trial period. Such customers who disconnect service within 60 days from service connection, will not be billed these nonrecurring charges. Such customers who continue service beyond 60 days under a month-to-month or 12 month service term will then be billed all applicable nonrecurring charges. Nonrecurring charges will be waived for such customers who continue service beyond 60 days under a 36 or 60 month service term.
- (8) Customers who initially order service under a 36 or 60 month service term during the period from March 1, 1995 to June 30, 1995 will receive a refund of \$75.00. This refund must be redeemed within one year from the issue date.
- (9) For Additional Telephone Number Rates (Direct Inward Dialing Service), please see General Exchange Tariff Section 13, Paragraph 13.7.1 B.
