Case No. EA-2024-0302

**APPLICATION TO INTERVENE**

**COMES NOW** David Gregory and pursuant to 20 CSR 4240-2.075, applies to intervene in the above-captioned case. For its *Application to Intervene*, David Gregory states as follows:

1. David Gregory (hereinafter “Landowner”) owns property at 5340 315<sup>th</sup> St. Albany, MO, and surrounding area. Therefore, Ameren Transmission Company of Illinois’s request to build a transmission line on property directly affects Landowner and his interests.
2. As a Landowner, my interests in this case are different than those of the general public because we plan to build a home where the project is currently mapped.
3. If the Public Service Commission (“Commission”) does not allow me to intervene in this case, I am concerned that the final order may adversely affect me because as a landowner, I have the right to utilize the land as personally planned.
4. However, permitting my intervention does benefit the public because we are aware that there are other landowners involved that will also be negatively impacted, especially in proximity to homes.

5. Regarding the issues that other parties have highlighted in the case so far we recognize that these projects contribute to larger cause; however, generational land that has been intended to be used for home building and other personal needs is not right.

6. Therefore, I am requesting that the Commission grant my application to intervene in this case.

WHEREFORE, I, David Gregory respectfully request the Commission grant this *Application to Intervene*, along with any further relief the Commission deems proper.

Respectfully,

/s/ David Gregory  
5340 315th St  
Albany, MO 64402
