ORDER DIRECTING RESPONSE

Issue Date: October 20, 2020

Effective Date: October 20, 2020

A provision in the Commission's electric utility resource planning rule, 20 CSR 4240-22.080(4), requires Missouri's electric utilities to consider and analyze special contemporary issues in their triennial compliance filings or in their annual update reports. The regulation requires the Commission to specify the list of special contemporary issues each electric utility is to address.

In considering these matters, the Commission is interested in a possible special contemporary issue that has not been raised by any stakeholder. The issue is: evaluate the options of potential upgrades to the utility's distribution system needed in light of FERC Order 2222. Before unilaterally directing the utilities to address this issue, the Commission will offer an opportunity to respond.

THE COMMISSION ORDERS THAT:

1. Union Electric Company d/b/a Ameren Missouri shall respond to the suggested special contemporary issue by October 26, 2020.
2. Any other person or entity wishing to respond to the suggested special contemporary issue may do so by October 26, 2020.

3. This order shall be effective when issued.
