

EC-2026-0004

This exhibit is probably why Ameren doesn't want to give me a treasury statement that I asked for during the informal complaint and during the complaint. Ameren Missouri actually owes me [REDACTED] back.

That's all I'm going to say. I'll let Ameren continue to implode. The facts and stats are in. [REDACTED]  
[REDACTED]

[REDACTED] Like the over \$61 million in legal fines from the United States vs Ameren Missouri over EPA fines from Rush Island. But ratepayers should be responsible for Ameren's fines? I don't remember seeing an R&O ordering ratepayers to pay Ameren Missouri's legal fines and Rush Island decommissioning fee? Maybe Ameren can find that somewhere in Judge Sippel's order, because I'm not seeing it.

Where's my [REDACTED] that you owe me, just like the tracking cookies I've asked for? [REDACTED]
