

**Grain Belt Express, LLC
Data Request**

Data Request No.: CM-8

Case/Tracking No.: EC-2025-0136

Date Requested: 5/30/2025

Requested From: Cheri Meadows

Requested By: Grain Belt Express, LLC

Due Date: 6/10/2025

Description:

On page 5 at paragraph 9 of Cheri Meadows's Reply to Grain Belt Express LLC's Motion for Reconsideration and Request for Rehearing (the "March 21 Reply"), Ms. Meadows states that until June of 2024 she believed that the only role the MPSC played in the Tiger Connector was approval of its construction while Grain Belt Express was the one in charge of dictating where the route would be. As it relates to that assertion, please specify:

A. Whether you have ever attended or participated in an evidentiary hearing at the Missouri Public Service Commission's offices in Jefferson City, Missouri, and if so, what hearing did you attend or participate in and the approximate dates.

B. Whether you have ever attended or participated in a virtual evidentiary hearing held by the Missouri Public Service Commission if so, what hearing did you attend or participate in and the approximate dates.

C. Whether you have virtually viewed or watched live any hearing held by the Missouri Public Service Commission that was live-streamed. If the answer to this question is yes, please specify what hearing you viewed and the approximate dates.

D. Whether you have viewed or watched a recording of an evidentiary hearing held by the Missouri Public Service Commission. If the answer to this question is yes, please specify what hearing you watched and the approximate dates you reviewed the recording.

E. If you watched the June 5-8, 2024 evidentiary hearing in Grain Belt Express' CCN proceeding for the Tiger Connector, File No. EA-2023-0017, specify whether you watched it live (while it was being live-streamed) or if you watched a recording.

F. If you reviewed a recording of the evidentiary hearing in File No. EA-2023-0017, please specify the approximate dates you viewed the recording and the approximate percentage of the hearing you viewed.

OBJECTION:

I object on the grounds of relevance that this information has on my case. I did watch the MPSC/Grain Belt Express CCN Amendment Hearing June 5-8, 2023 from home in real time, while also caring for a very sick cat. I've attached his emergency visit from 6-8-23 invoice as proof. I took him in the evening of 6/7, but due to the waiting time, testing, and vet consult, it was after midnight before we actually checked out, thus the 6/8/23 invoice date.

From my exhaustive blur of a memory of that week, the hearing was mostly witnesses testifying for and against the line being given approval. I did not rewatch it at a later date because I had to take my cat back to the emergency vet a couple of nights later and then bury him.

VERIFICATION OF RESPONSE

The response provided is true and accurate to the best of my knowledge and belief.

/s/ Cheri Meadows
