Bill,

First my apologies re Unit 1 discussion yesterday. We were not as prepared as I had hoped. I intentionally stayed out of the mgmt of Unit 1 for 30 days to see if my challenge to a couple of my guys would be met. It was not. They did not pass the test.

I will now be getting personally involved in the U1 Management Plan starting with a meeting today. Lora cleared the decks for me last night at my request re the U1 plant buyers and they will now report to Steve on the U1 CEP Projects. Now we will control it and make it happen.

More to follow I am sure

Regards,

Dave
