OF THE STATE OF MISSOURI**

In the Matter of Union Electric Company d/b/a)
Ameren Missouri’s 2nd Filing to Implement)
Regulatory Changes in Furtherance of) **File No. EO-2015-0055**
Energy Efficiency as Allowed by MEEIA.)

**LIST OF ISSUES, ORDER OF OPENING STATEMENTS, ORDER OF WITNESSES,
AND ORDER OF CROSS EXAMINATION**

COMES NOW the Staff of the Missouri Public Service Commission, and on its behalf, and that of Ameren Missouri, the Office of the Public Counsel (OPC), Missouri Division of Energy (DE), the National Resources Defense Council (NRDC), Earth Island Institute d/b/a Renew Missouri (Renew Missouri), United for Missouri, Sierra Club, Tower Grove Neighborhood Community Development Corporation (Tower Grove), Midwest Energy Consumers Group (MECG), Missouri Industrial Energy Consumers (MIEC), National Housing Trust, Brightergy, LLC, Kansas City Power & Light Company (KCP&L) and KCP&L Greater Missouri Operations Company (GMO), known collectively herein as “the Parties”, files this *List of Issues, Order of Opening Statements, Order of Witnesses, and Order of Cross Examination* with the Missouri Public Service Commission stating the following:

LIST OF ISSUES

1. Should the Commission approve, reject or modify Ameren Missouri’s MEEIA Cycle 2 Plan¹ (hereafter the “Plan”)?

¹ The proposed Plan includes the 2016-2018 demand-side management (DSM) programs, a technical resource manual (TRM), evaluation, measurement and verification (EM&V), and a demand-side investment mechanism (DSIM).

2. Do the programs in the Plan, and associated incremental energy and demand savings, demonstrate progress toward achieving all cost-effective demand-side savings consistent with state policy (as established by MEEIA)?
3. If the Commission approves a Plan, what are the components of the demand-side programs investment mechanism and how will each of the components be administered?
4. If the Commission approves a Plan, what variances from Commission rules based on a showing of good cause are necessary?

Office of the Public Counsel's Issues:

1. If the Commission approves a plan, should the total resource cost test be applied uniformly when calculating net shared benefits?
2. If the Commission approves a demand-side programs investment mechanism that includes a performance incentive, should the performance incentive be included as a cost when calculating the net shared benefits?

Sierra Club's Issue:

In assessing the cost-effectiveness of demand-side programs, should Ameren Missouri consider the results of the utility cost test?

Missouri Division of Energy's Issue:

If the Commission modifies Ameren Missouri's MEEIA Cycle 2 Plan what modifications should the Commission adopt?
