

AFFIDAVIT AND VERIFICATION OF BRIAN JACOBI

STATE OF MISSOURI)
) ss
COUNTY OF PETTIS)

Brian Jacobi, being first duly sworn on his oath, states:

1. My name is Brian Jacobi. I work in the County of Pettis, Missouri, and I am employed by Central Missouri Electric Cooperative, Inc. ("Central MO") as the General Manager.

2. Neither Central MO nor any person on its behalf has had any communications with the office of the Commission regarding any substantive issue likely to be an issue in the case initiated by this filing during the preceding one-hundred and fifty (150) days.

3. Circumstances prevented filing the required notice and delaying the filing for sixty (60) days would cause harm. Specifically, Central MO was unaware of whether this filing would be necessary until a few days prior to the filing as Section 386.800.3 RSMo. requires good faith negotiations towards a territorial agreement with Evergy Missouri West for a contemplated forty-five (45) day period before any such filing can occur. If a territorial agreement had been negotiated with Evergy Missouri West, the required filing would have been an Application for Approval of a Territorial Agreement. Central MO received the landowner's request for service to the subject property on August 5, 2025. While Central MO had exchanged information relating to potential service of the subject property with the landowner prior to that date, the landowner's choice of supplier was not made certain to Central MO until its receipt of the notice letter on August 5, 2025. Further, the landowner has expressed to Central MO that time is of the essence in obtaining an electric supplier for the subject property.

4. I have read the Application, and I declare under penalty of perjury that the

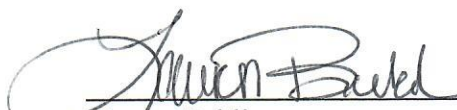

information and allegations contained therein are true and correct to the best of my knowledge and belief and that Andrew Sporleder, of Johnson & Sporleder, LLC is authorized by Central Missouri Electric Cooperative, Inc. to make this filing and represent it in this matter.

Brian Jacobi
