PUBLIC SERVICE COMMISSION**

At a session of the Public Service
Commission held by telephone
and internet audio conference
on the 13th of January, 2021.

In the Matter of Union Electric Company d/b/a)
Ameren Missouri's Electric Service Tariffs) **File No. ER-2021-0158**
Adjustment Relating to MEEIA Rider EEIC) Tracking No. YE-2021-0131

ORDER APPROVING RIDER EEIC TARIFF SHEET

Issue Date: January 13, 2021

Effective Date: February 1, 2021

On December 3, 2020, Union Electric Company d/b/a Ameren Missouri (Ameren Missouri) filed a tariff sheet to adjust the rate of its Missouri Energy Efficiency Investment Act (MEEIA) Rider, Energy Efficiency Investment Charge (Rider EEIC). On December 29, 2020, Ameren Missouri filed a substitute tariff sheet. The terms of Rider EEIC require a filing at least once per calendar year to be effective with the subsequent calendar year's February billing month. Ameren Missouri's annual filing to adjust its Rider EEIC bears a February 1, 2021 effective date.

Ameren Missouri's proposed Rider EEIC adjustment increases the MEEIA revenue requirement from \$106,894,253 to \$145,307,100, with specific rate classes being impacted differently. An average residential customer using 1,000 kilowatt hours (kWh) per month will experience an increase of approximately \$1.37 per month. Under the proposed adjustment, Rider EEIC business rates per class vary due to projected costs, incentives, and customer opt outs per class of customer. The projected changes are: the Small General Service rate will increase by approximately \$2.07 per month per 1,000 kWh; the Large General Service rate will increase by approximately \$1.75 per month per

1,000 kWh; the Small Primary Service rate will increase by approximately \$1.68 per month per 1,000 kWh; and the Large Primary Service rate will increase by approximately \$1.75 per month per 1,000 kWh.

The Commission issued notice of the filing and directed the Commission's Staff to submit a recommendation. Staff's Tariff/Rate Design Unit reviewed the tariff sheet, supporting work papers, and worksheets. Staff noted that the proposed EEIC rates reflect the sum of Ameren Missouri's remaining MEEIA 2016-2018 Energy Efficiency Investment Rate (EEIR) components and the currently effective MEEIA 2019-2021 components, along with a small portion of forecasted program costs and throughput disincentive from the extended MEEIA Cycle 3 programs approved in File No. EO-2018-0211. Staff also verified that Ameren Missouri is not delinquent with any required filings, including its Quarterly Surveillance Monitoring reports. Staff recommended the Commission approve Ameren Missouri's Rider EEIC tariff sheet as amended. No other responses were filed.

Having reviewed Ameren Missouri's filing and Staff's recommendation, the Commission will approve the proposed tariff sheet. Since Rider EEIC is unopposed and Ameren Missouri seeks to have the revised tariff sheet go into effect at the start of the February billing month, the Commission will make this order effective in less than thirty days.

THE COMMISSION ORDERS THAT:

1. The following tariff sheet, assigned Tracking No. YE-2021-0131, is approved to become effective on February 1, 2021:

MO.P.S.C. Schedule No. 6
1st Revised Sheet No. 91.23, Cancelling Original Sheet No. 91.23

2. This order shall become effective on February 1, 2021.

3. This file shall close on February 2, 2021.
