In the Matter of the Application of Spire Missouri)
Inc. to Change its Infrastructure System) Case No. GO-2019-0116
Replacement Surcharge in its Spire Missouri West)
Service Territory)

**VERIFIED APPLICATION AND PETITION OF SPIRE MISSOURI INC. TO
CHANGE ITS INFRASTRUCTURE SYSTEM REPLACEMENT SURCHARGE
FOR IT'S SPIRE MISSOURI WEST SERVICE TERRITORY**

COMES NOW Spire Missouri Inc., pursuant to Sections 393.1009, 393.1012 and 393.1015 of the Revised Statutes of Missouri and 4 CSR 240-2.060, 2.080 and 3.265 of the Rules of Practice and Procedure of the Missouri Public Service Commission ("Commission") and, for its Verified Application and Petition to Change its Infrastructure System Replacement Surcharge for its Spire Missouri West ("Spire West" or "the Company") Service Territory respectfully states as follows:

BACKGROUND

1. On August 28, 2003, Sections 393.1009, 393.1012 and 393.1015 of the Revised Statutes of Missouri became effective. These statutory provisions authorize eligible gas corporations to recover certain infrastructure replacement costs through the implementation of an infrastructure system replacement surcharge ("ISRS"). Prior to implementing an ISRS or changing an ISRS, the gas corporation must file a petition with the Commission for review and approval before its rates and charges can be adjusted to provide for the recovery of the

ISRS costs. To that end, the Company submits this Verified Application and Petition.

THE APPLICANT

2. Spire Missouri Inc. is a public utility and gas corporation incorporated under the laws of the State of Missouri, with its principal office located at 700 Market Street, St. Louis, Missouri 63101. A Certificate of Good Standing evidencing Spire West's standing to do business in Missouri was submitted in Case No. GM-2013-0254 and is incorporated by reference herein for all purposes. The information in such Certificate is current and correct.

3. Spire Missouri Inc. is engaged in the business of distributing and transporting natural gas to customers in Missouri as a gas corporation subject to the jurisdiction of the Commission. It's operating unit, Spire West provides gas service in western Missouri to customers in the counties of Barry, Barton, Bates, Buchanan, Carroll, Cass, Cedar, Christian, Clay, Clinton, Cooper, Dade, Dekalb, Greene, Henry, Howard, Jackson, Jasper, Johnson, Lafayette, Lawrence, McDonald, Moniteau, Newton, Pettis, Platte, Ray, Saline, Stone, and Vernon.

5. Other than cases that have been docketed at the Commission, Spire West has no pending actions or final unsatisfied judgments or decisions against it from any state or federal agency or court which involve customer service or rates.

6. Spire West is current on its annual report and assessment fee obligations to the Commission, and no such report or assessment fee is overdue.

THE ISRS REQUEST

7. With this application, Spire West requests an adjustment to its rates and charges through the implementation of an ISRS rate schedule that provides for the recovery of costs incurred in connection with ISRS-eligible infrastructure system replacements made during the period beginning July 1, 2018 through November 30, 2018. Spire West also seeks recovery of costs incurred in connection with ISRS-eligible infrastructure system replacements made during the period October 1, 2017 to June 30, 2018, to the extent such costs were not recovered in the Company's immediately preceding ISRS proceedings, Case No. GO-2018-0310, because of what the Commission deemed to be insufficient evidence demonstrating their eligibility. As discussed in the

attached affidavit of Wesley E. Selinger, the Company has now corrected this deficiency using the roadmap for demonstrating eligibility provided by the Commission in the Report and Order in Case No. GO-2018-0310.

8. Consistent with filings approved in Spire West ISRS cases dating back to 2009, this application also includes pro forma ISRS costs updated through January 31, 2019. In accordance with the provisions of Sections 393.1009-1015 and 4 CSR 240-3.265, the proposed ISRS rate schedule should reflect the appropriate pre-tax ISRS revenues necessary to produce net operating income equal to Spire West's weighted cost of capital multiplied by the net original cost of the requested infrastructure replacements during this period that are eligible for the ISRS, including recognition of accumulated deferred income taxes and accumulated depreciation associated with the aforesaid infrastructure system replacements. Spire West also seeks to recover all federal, state and local income or excise taxes applicable to such ISRS income and to recover all other ISRS costs such as depreciation expense and property taxes due within 12 months of this filing.

Eligibility of Costs

9. The infrastructure system replacements for which Spire West seeks ISRS recognition are set forth on Appendix A and Appendix B, which are attached hereto and made a part hereof for all purposes. Appendix A includes those eligible infrastructure investments placed into service or to be placed into service on or after July 1, 2018 and Appendix B includes those eligible infrastructure investments placed into service between October 1, 2017 and June 30, 2018 to the extent not previously recovered in Case No. GO-2018-0310. The infrastructure system replacements listed on Appendix A

and Appendix B are eligible gas utility plant projects in that they are all either: a) mains, valves, service lines, regulator stations, vaults, and other pipeline system components installed to comply with state or federal safety requirements as replacements for existing facilities that have worn out or are in deteriorated condition; or b) main relining projects, service line insertion projects, joint encapsulation projects, and other similar projects extending the useful life, or enhancing the integrity of pipeline system components undertaken to comply with state or federal safety requirements; or c) unreimbursed infrastructure facility relocations due to the construction or improvement of a highway, road, street, public way or other public work required by or on behalf of the United States, the State of Missouri, a political subdivision of the State of Missouri, or another entity having the power of eminent domain.

10. In addition to meeting the foregoing criteria, the infrastructure system replacements listed on Appendix A and Appendix B are also eligible for ISRS treatment because they: a) did not increase revenues by directly connecting to new customers; b) are currently in service and used and useful; c) were not included in Spire West's rate base in its most recently completed general rate case, Case No. GR-2017-0216 (the "Rate Case"), and d) replaced and/or extended the useful life of existing infrastructure.

11. Finally, the infrastructure system replacements listed on Appendix A and Appendix B are eligible for ISRS treatment because Spire West's last Rate Case was decided by Commission Order issued on March 7, 2018 and effective on April 19, 2018 and included rate base investments made through September 30, 2017.

B. Rate Schedules, Calculations and Supporting Documentation

12. Attached hereto as Appendix A, Schedule 19 is the rate schedule, with supporting documents, proposed by Spire West in order to change its ISRS and to provide for the adjustment of its rates and charges to reflect recovery of eligible infrastructure costs. This proposed rate schedule, on an annualized basis, will produce ISRS revenues of at least one million dollars, but not in excess of ten percent of Spire West's base revenue level as approved by the Commission in its most recently completed general rate proceeding.

13. In determining the appropriate pre-tax ISRS revenues, the proposed rate schedule utilizes current local, state, and federal income tax rates through a combined income tax rate conversion factor of 1.34135.

14. In determining the appropriate pre-tax ISRS revenues, the proposed rate schedule utilizes the capital structure that was approved in the Rate Case and reflects an overall rate of return of 7.20%.

15. In determining the appropriate pre-tax ISRS revenues, the proposed rate schedule utilizes a weighted average cost of debt of 1.890% consistent with the cost of debt approved in the Rate Case.

16. In determining the appropriate pre-tax ISRS revenues, the proposed rate schedule utilizes a cost of common equity of 9.80% consistent with the cost of equity approved in the Rate Case.

17. In determining the appropriate pre-tax ISRS revenues, the proposed rate schedule utilizes a current composite property tax rate of 2.67%.

18. In determining the appropriate pre-tax ISRS revenues, the proposed rate schedule utilizes depreciation rates currently applicable to the eligible infrastructure system replacements, as approved by the Commission for Spire West in the Rate Case.

19. In determining the appropriate monthly ISRS charge, the proposed rate schedule is based on a reasonable estimate of billing units in the period in which the charge will be in effect, which is derived by dividing the appropriate pre-tax revenues, as calculated above, by the customer class billing determinants approved in the Rate Case, and then further dividing this quotient by twelve. (*See Appendix A*). Consistent with the methodology used in previous ISRS filings, the monthly ISRS charge is apportioned between customer classes in proportion to the customer charges applicable to those classes.

ADDITIONAL INFORMATION

20. In connection with 4 CSR 240-3.265(22), attached hereto and incorporated herein as Appendix C is a description of the Company's call center instructions pertaining to the ISRS, along with a description of ISRS information posted on the Company's website.

21. Pursuant to 4 CSR 240-3.265(8) and (9), Spire West intends to continue using the annual notices and customer bill language approved by the Commission in Case No. GO-2018-0310, at the time its current ISRS was first established.

WHEREFORE, pursuant to 393.1015.2(3) and Commission Rule 4 CSR 240-3.265(12), Spire Missouri West respectfully requests that the Commission issue an Order, approving the ISRS rate schedules in order to provide for the recovery of the eligible

infrastructure system replacement investments made by Spire West from July 1, 2018, through January 31, 2019, and from October 1, 2017 through June 30, 2018 to the extent not previously recovered in Case No. GO-2018-0310, and granting such other relief as may be necessary and appropriate to accomplish the purposes of Sections 393.1009 through 393.1015.

Respectfully submitted,

Context and talking points for Customer Service Infrastructure System replacement Surcharge (ISRS)

January 2019

What is the ISRS charge for?

The ISRS charge is authorized by a Missouri statute (section 393.1009-1015). It allows us to recover costs for two specific reasons – (1) performing mandated safety work and (2) complying with government requirements to relocate our pipelines.

We're committed to bringing the people we serve reliable energy that's safe. In 2011, we developed a pipeline upgrade program to comply with a safety requirement to replace hundreds of miles of old pipe over time with a safer, more reliable material (plastic). The ISRS charge covers a portion of the upfront cost we pay for these pipeline upgrades. The ISRS charge also covers costs we incur to meet government requirements to relocate our pipelines for the greater good of the communities we serve, such as for road expansions.

How does the charge work?

In April 2018, we began charging new rates as a result of a “rate case” we filed with the Missouri Public Service Commission (MoPSC). Since the new rates covered all of our costs through September 30, 2017, our previous ISRS charge was reset to \$0.

Since September 30, 2017, we have continued to perform mandated pipeline upgrade safety and relocation work. As of October 2018, our customers saw a new ISRS charge for that work for the period from October 1, 2017 through June 30, 2018. On January 14th, the Company filed ISRS petitions for the recovery of costs associated with work for the period July 1, 2018 through January 31, 2019.

As a result of this filing, residential customers will now see a \$1.40 ISRS charge on their bill in Missouri East, and a \$2.26 ISRS charge in Missouri West. Again, this only covers a portion of the cost needed to upgrade our infrastructure.

Throughout the year, we'll continue working with the MoPSC to determine a fair rate for the ISRS charge. This charge can change up to twice a year.

How do customers learn about the charge?

At the time, the ISRS charge was renewed we provided our customers with an initial notice about the change through a bill insert. We'll also send, once a year, a bill message to further educate customers about the charge.

What should I tell a customer who calls?

Appendix C

Here is some helpful information for you to share with customers inquiring about the ISRS charge.

- We care about your safety, so in 2011, we developed a pipeline upgrade program to comply with a safety requirement to replace hundreds of miles of old pipe over time with safer, more reliable plastic pipes. The ISRS charge covers a portion of the costs of those pipeline upgrades, as well as a portion of what we spend on projects for the greater good of the communities we serve (i.e. road improvements).
- We work with MoPSC closely to make sure rates are fair, and we're following Missouri law. And according to those laws, we can work with the MoPSC to adjust the charge up to two times a year.
- Even with this charge, it will take us decades to fully recover our costs.
- We always try to keep this charge as low as possible for customers. This charge has generally been an increase of less than 2 percent of your annual bill. This charge is lower for residential customers than for commercial and industrial customers.
