**Subject:** Ameren rate increase

To Whom it May Concern:

Another rate increase? - this is legalized embezzlement. People are in foreclosure, gas prices are going up even as we speak, water/sewer rates have skyrocketed etc.... so what does the commission do? Allow AmerenUE to keep face with their stockholders, pay for the Taumsauk debacle and pay Voss 4 million plus a million dollar bonus.

The average consumer, and that includes me, does not understand how this increase could have been approved much less a unanimous approval, no argument from the commission? no asking for fiscal responsibility? Have you actually looked at the reasons for this increase or do you just rubberstamp approval of any utility seeking to rape their customers? Aren't you supposed to be helping? How much do you make?

WHEN WILL IT STOP?

PSC

You are bleeding us dry! Seriously, have you ever seen a rate increase you didn't like? Four huge rate increases in four years! How do you expect us citizens to continue to pay ever-increasing rates? Our economy is in shambles, we haven't been given raises in at least four years, yet you still consistently side with the utilities. Let me know if I'm wrong, but the PSC was created to regulate the utilities in order to ensure us citizens receive reliable and reasonably priced utility services. We all know that Ameren's service isn't reliable in the least and the rates haven't been reasonable in years! I have yet to witness the PSC actually safeguard us citizens against unreasonable and perpetual rate increases. It might be barely understandable if the rate increases were at least small, but every time, the rate increases are monumental. Us citizens deserve better and you have neglected your duties.
