

**BEFORE THE PUBLIC SERVICE COMMISSION
OF THE STATE OF MISSOURI**

In the Matter of the Application of Spire Missouri)
Inc. d/b/a Spire to Extend Existing Waiver) **Case No. GE-2026-0087**
Related to Large Commercial and Industrial)
Customer Yard Lines)

ORDER APPROVING EXTENSION OF WAIVER

Issue Date: December 2, 2025

Effective Date: January 1, 2026

Spire Missouri Inc. d/b/a Spire filed an application on September 30, 2025, requesting an extension of its existing waiver for replacing unprotected steel yard lines owned by large commercial and industrial customers. Spire requests an extension of its existing waiver to extend the deadline for completing replacement to December 31, 2026, due to one remaining yard line located in Spire West territory that will not be completed by the end of 2025. Spire also requests waiver of the 60-day notice requirement under 20 CSR 4240-4.017.

On November 13, 2025, Staff recommended the Commission grant Spire’s waiver extension request with conditions. No party responded to Staff’s Recommendation. The Commission may waive compliance with any of the requirements of Commission Rule 20 CSR 4240-40.030 upon a showing that gas safety is not compromised, pursuant to 20 CSR 4240-40.030(18).

The Commission has reviewed and considered Spire’s application and Staff’s recommendation. The Commission finds granting a waiver to extend Spire’s deadline through December 31, 2026, will not compromise gas safety and will grant the extension subject to the conditions recommended by Staff.

The Commission will also grant Spire's request for waiver of the 60-day notice requirement under 20 CSR 4240-4.017. The Commission finds good cause exists for waiver, based on Spire's verified declaration that it had no communication with the Office of the Commission regarding substantive issues in the application within 150 days before Spire filed its application.

THE COMMISSION ORDERS THAT:

1. Spire's application for waiver extension is granted through December 31, 2026, subject to the following conditions:

- a. The effective date of this waiver will end December 31, 2026;
- b. The waiver granting an extension to December 31, 2026, applies only to the replacement of the single remaining customer-owned unprotected steel yard line in Spire West territory;
- c. Spire shall conduct additional public awareness efforts to the customer where replacement of the industrial yard line will be delayed in accordance with this waiver;
- d. Spire shall continue conducting weekly odorant intensity tests in accordance with test requirements in 20 CSR 4240-40.030(12)(P)6, in areas where replacement of unprotected steel yard lines will be delayed in accordance with this waiver;
- e. Spire shall continue conducting quarterly leak surveys of the remaining unprotected steel yard line until it is replaced in accordance with this waiver;

f. If the yard line is replaced on or before July 31, 2026, Spire shall file a status report in this case within 30 days of completion of the yard line replacement that provides the date that replacement was completed; and

g. If the yard line is not replaced by July 31, 2026, Spire shall file a status report in this case by August 14, 2026, describing its progress towards completion, actions remaining, and plan to complete by December 31, 2026.

2. The 60-day notice requirement of Rule 20 CSR 4240-4.017(1) is waived for good cause.

3. This order shall be effective on January 1, 2026.

BY THE COMMISSION
