The Analog needs a second opinion on Repair as there was never an attempt or admission to Repair it. As it is functional they need to simply repair it. Otherwise it will only consent or authorize Removal for the same Exact Model of Analog.

8. The Complainant has taken the following steps to present this matter to the Respondent:

(Please describe in detail what steps you have already taken to resolve this complaint.)

Numerous calls texts and e-mails to Liberty Engineering Manager Jason Osick as well as calls and texts with the Meter Department head Adam Brockmiller. Initially when Liberty linemen older gentlemen showed up to inform me they were here imponly to take my Analog as they believed somehow they had the jurisdiction to phase the Analogs out I spent time & was late to work as I tried to cooperate with the insistence that since I was trying to keep my Analog then they wanted to Inspect it. The man just happened to have his Calibration equipment handy in a huge bag so he proceeded in my witnessing to quote do some minor calibrating. At which point he assured me verbally that it was fine and passed inspection. About a week and a half later a lady & a younger linemen showed up to say because I had told my Senator about the prior visit they had known all along that the Calibration was "NOT" passed inspection. Yet, they did not disclose this and were going to let it go. Yet, because I called my Senator now the undisclosed Calibration was off so they must forcibly NOT Repair the Analog. . . . The Rest is in an e-mail Sent to PSC & Liberty

(Explain what you want the Commission to do: the specific results you are seeking in this complaint.)

This household has myself as Elderly as well as a Federally Disabled member. The ADA accommodations is applicable to the Vendors requirement to provide any specialized or specified type of medical pertinent specificity of equipment relevant to the patient's conditions in regards to environment emissions or relative excess toxicity from unwarranted advanced meter equipment. The disabled person as well must be given a concession and vendor must adhere to medically decisions are made by myself for the disabled person. As I hold Power of Attorney and also power of all Medical decisions. I know that the Analog Meter is environmentally the exclusive SAFE METER. Therefore any other meter is clinically inappropriate. The Supreme of Health is in prevention - therefore any environmental unnecessary toxic emission should be avoided.

7. The relief requested is appropriate because Respondent has violated a statute, tariff, or Commission regulation or order, as follows:

(Explain why the Commission should grant the relief you seek: the facts that constitute a violation of a statute, tariff, or Commission regulation or order.)

ADA Compliance Federal Guidelines
 ALSO applicable Statute 20 CRS 4240 - 10.035
 which is in regards to opting out of any Advanced meters
 and upholds for Traditional "mechanical" meter; I.E. Analog
 also citing the Final Rule making hearing whereby Expert
 Building Biologist and EMF Expert testified to the comparative
 abilities of the NON RF Advanced meter via D.E. communication
 and also D.E. is putting out unwarranted toxicity up to 5 feet in all weights.

ATTN: [REDACTED] I will also be faxing all of these pages to your FAX today so that Tribunal can be executed

Dear Liberty Electric Investigator: [REDACTED]

Hello thank you for your prior correspondence in texting that you are willingly taking the required steps to provide to your legal about my "Matter" which is actually no longer up in the air as I just flipped to next order of operations per MO PSC process steps that required they finalize the informal steps in order to grant the Tribunal hearing so now we are movant into **pending litigation** of their Tribunal Hearing. I really need to number my paragraphs in order to have your staff follow up accordingly if we are going to settle without need for Litigation let me know and use this e-mail to begin moving forward.

#1 Liberty resolution upon the concluded investigation that you made on the informal complaint as finalized was unfortunately as we last texted about Nate that was- an unsatisfactory outcome for my side as the Consumer. The household is disabled and elderly persons. The disabled is not clinically appropriate to being placed in harms way of Advanced meters in particular the one that I had already told your numerous staff in their impromtu visits as well as phone calls would cause health harm injury and so the only acceptable meter I will as the patients POA and Clinical Medical POA making the medical decisions with his PCP have explained the suggested conclusions your making are Clinically inappropriate due to the patient's conditions. I will also add that myself as elderly do not want the infractions of encroachment that comes with the emmission of that radiating D.E. meter even though it is called non RF it is not the safe for our environmentally protection needs and that we are discussing. I have more than explained that to numerous of your non medical experts who are not able to grasp these consequences. But, lets be clear I am not accusing your company yet of intent to harm. In fact Jason Oseik explained that he did not want to harm anyone and I quoted him whilst his name remained anonymous in my testimony at the recent hearing or the new statute regards to all Advanced meters which unfortunately is what your resolution is suggesting as esolve?

#2 Illegitimate findings unfounded for submission Subcontract Tariffs external matter the informal outcome is suggesting that a non RF Advanced meter that is an emergency concern on the part of Liberty and that your legal went so far that it was one of the longest informal explanations on record to date? It went into virtues of some kind of exemplification of compliance matter that was in a sort of clause metaphoric of the existing sub contract called a Tariff sub contract between Liberty as the Vendor and MO PSC. That Tariff sub contract is first and foremost between mostly just you and PSC. So in my household honoring that as applicable to our Tribunal pending hearing, I see it as the Vendor's responsibility to provide first and foremost your obligation to

maintain the original Analog agreement. So by your presenting the Tariff as a piece in your resolution outcome I see this as a form of external and non relevant

5 of 14

#3 Original Contract of service agreement services were authorized and consented to by the Disabled person many years ago prior to all this quote equipment upgrading and so forth. You as the Vendor have on file that the household is disabled and that is because otherwise you will charge a late fee. There is no secret this is an Disabled household and so in knowing the individual became disabled in the midst of the current ANALOG service line contract I must procure that is why under ADA accommodations you are not allowed to charge for your Tariff and that is why the Tariff is actually for those who are not disabled and simply choose as prevention for their health to opt out. I have spoken to numerous individuals whomsoever wanted to opt out not as a medical disabled status household would need to incur the FEE which was then applicable to commence a new contractual for those paying the FEE as reinitializing them into your opt out contractual for those paying the FEE. Our household is exempt from that program due to the household is already a disabled household. No written formula on the Tariff subcontract required that those exempt be required to submit any kind of documentation and that is what Senator White and your Program Director discussed. It has been so long ago now but it was Director at the time Patsy Mulvaney who after my Senator White's chief of Staff Mike Kelley worked all weekend on my records and etc.... same Sunday on her day off, just to reassure me that in fact there was not any obligation no formulary of protocols for my household as a disabled ADA and we chatted about what the opt out applicability was for our household. She was reassuring she marked us as exempt from that program and it's contractual just by the fact of a disabled individual living here disabled since 2015. So it is still my position that the sub contract Tariff did not include any formulary form etc. that would need filled out and that the ANALOG service was uninterrupted as a continuum of the original contract with my household. That original terms was not required to adhere to this Tariff or anything that was written in fine print to require participation of that programs sub contract with Vendors as their go to for their general non ADA customers who are construed as opt out Tariff Sub contract customers per as it was by the delineation that those who were paying the Tariff were participating in the program and they would be given that contract to ensure they knew they were obliged a new set of terms now according to their desire to simply opt out as those ones were not eligible to be construed as exempt from the opt out fee. During the Covid May 2020 deployment whilst Senator White was my Senator you all went about upgrading those houses who did not opt out. But, when it came to our contract the individual was already Disabled in 2015 and therefore according to my understanding under my Representation with my Legislators at the time Senator White and his Chief of Staff informed your top Liberty program Manager like I said Patsy knew the disability was already on file with liberty in order to avoid the late fees. She said she just needed to note this house was already disabled and therefore would not need or be required to opt out program participation. The opt out again is for those who arbitrate that they would like to sign up for that program and compliances in regards to the Tariff arrangements with Vendors and PSC. So I ask you why would someone disabled participate in opt out? That particular Tariff from #2 item paragraph.

#4 The pending action the Vendor Manager Jay Eastlick on Nov. 12th when he would not allow me to move to Tribunal and had stated that he did not know why the FAX did not work on that Nov. 12th. He and I realized that it was good that it was needing REPAIR... a that he was going to give him the ability to recite the terms of MO PSC complaints processes so in STEP 1 the informal phase you receive 30 days for outcome and then actually Jay commented what is the need to do a Tribunal as he filed the informal complaint with confidence he said "I will simply put down that you want an ANALOG" and he was seriously not expecting any trouble from Liberty as the vendor to fulfill this request. So Jay was great and he really assured me that this was going to take care of things.

But, if not, no worries because there would be an additional 30 days from the time of the Tribunal as the second layer of remedy those are fairly fast track. Exhibit enclosed the e-mail from Jay is enclosed and describes as well that he finally did check on the FAX and as he had just told I.T. Yesterday to check on that now the FAX is "REPAIRED" and that we are proceeding to a Formal complaint.

6 of 14

#5 my meter that was reportedly out of compliance? Jay Eastlick explained that by standards of responses this according to the investigator told me actually the longest most detailed they had ever seen. So, as this excessively lengthy response from Liberty was insisting to place relevance upon their Tariff contract with PSC that in this drawn out scenario Liberty had somehow brought in an "external" contract agreement to illicitly impose upon my contract with Liberty as leverage? Hmm and that Liberty was trying to arbitrarily imply that in the Tariff they had a concerns about compliance of the Tariff that PSC must uphold or something rather... that it was due to something in the Tariff that somehow effectively they had an "emerging compliance reference they scaped to paste into the Liberty hypothesis that at some level of binding contract my household was to be subjected inadvertently with regards to something within that sub contract Tariff contract that would subject my household to not have my current Analog meter due to a level or something that mysteriously had cropped up but that fortunately even though Liberty had told me nothing was wrong with my Analog after inspecting it that indeed they had back dated on that matter and effectively raised up an issue that was never diagnosed in my one and only witnessing of their lineman testing my ANALOG?? This all sounds very suspect to me and anyway that is my point right now Liberty you are just one party in a myriad of parties involved who have inspection rights including my own Master Electrician who I already told you would be happy to have the city of Joplin inspector as Referee standing by whilst your lineman can witness to allow my Master Electrician to perhaps repair the Analog for us. But, for you Liberty as the just "one party" and just by your testing results that are now appearing out of thin air etc I well cannot without a JUDGE involved permit you to police your own inspections that is why the City of Joplin provides inspectors for FREE and that is also why I offered since your Engineering manager and I have spoken at length about this to arrange for a fair repair with a referee and your lineman there to make sure my 3rd party master electrician isn't cheating if he passes my Analog for the 2nd opinion that I am informing you I require regardless if you own the equipment it is permanent in the easement structure on my house and it will take a permit to remove it right. So, lets back track to get that permit to remove it as your guy Adam a has been anxious to come and do lets first and foremost get a FAIR analysis that even if it is not calibrating properly, that in fact there is not a way to repair it. If there is after all these parties witness that it is hopeless and that it is broken? Because right now it's functional and it is not broken. But lets just say if there is an actual emergency and it's broken in that case I will only authorize another ANALOG and this is under the terms of our original contract as an ANALOG line. If you have not any that you able to locate then I will find one that is suitable to the courts discretionary as appropriate and fully functional o the likings of your little calibration's tools etc. ANALOG is the only permanent contract with this disabled household and the individual has had service with you under these ANALOG lines that is not your prerogative to substitute or alter as the original contract holds to ANALOG on it's face. Is stating the equipment is in need of repair? even though the ANALOG meter is perfectly functional and operational and its not causing type of hazard. The fact is I explained that by removing the ANALOG it would subsequently create an actual liability of ADA violation and through environmental association as causation create for the disabled person being already accommodated in the household to instead be subjected to a D.E. Toxicity in breaking of the current accommodation mode of equipment as the item qualified as eligible with the PCP. So, as to force a non RF Advanced meter emitting D.E. Is to with intent break Federal ADA law and with forethought present dangerous toxicity causing the disabled person to have infliction of health harm. I'm not sure but I think we are moving in the wrong direction and if Liberty revokes this ADA infraction which is actually illegal to inflict harm and that is classified with MO and most states what is called torture or something of a calibration of negligence on my part as the caregiver if I allow this type

of non RF Advanced meter to be put on the house and therefore by my not intervening with placing the patient into harms way. I would actually become in a hotline case due to the circumstances questioned as to why I did not intervene or call them for an investigation by now? As these types of incidences with nursing home neglect cases and etc as it goes anyone who gets implicated in colution that is considered criminal negligence, So that motivation is always going to be on the back end of the charges filed by DHSS investigators If I need to call them in the event that somehow Liberty actually decides to without my authorization remove the ANALOG? Well that will involve another state agency and waste their precious funding on my pleas to that state entity that Liberty just forced this other toxic meter after I told them I did not give my consent or authorization and from there the next Agency will be drawn into the investigatory that will be plausibly per the Health and Human Services for reports to be made to rectify that Liberty not I is the one who is neglecting the health of this disabled person and causing harm injury impact due to that concern I must take it upon this statement to you Liberty to address what I meant by liability. I must and do assume health care responsibility of this individual and if you harm injury him I must in fact make sure I do not get into the line of fire that is done with the original DHSS intake make sure that as POA I was using my Administrative procedures and notifying my proper authorities at all times to the conduct of what Liberty is attempting to conclude as acceptable resolutions which are actually tottering on abuse of a disabled person as well as discrimination.

#6 So, anyway and how that there would not be any unauthorized removal or changes in our existing type of meter that is by my consent that we would remain ANALOG. The formulary is simple ANALOG customer cannot be phased out? The Liberty Vendor has no authorization or Jurisdiction to proclaim phasing out ANALOGS. So, again as this household of disabled individual who has long term binding contract as an ADA accommodation is already by standards of assumptive actively enforced. So why would a ADA disabled accommodated person opt in to an OPT OUT so that they could be in an opt out Tariff agreement? These households are exempt from opt out Tariffs or Tariff agreements the household never entered into an opt out contact as the household was excluded from any obligation to that sub contract between the Vendor and MO PSC so any Tariff arrangement Consumers currently paying Fee's are yes in that program as a sub contract between Liberty as the Vendor and MO PSC. This rationale is not applicable and so I'm not sure what they are trying to dissuade the Manager at Consumer's side that they are substantiating, but that is why this will need to go into Tribunal.

#7 The current rebuttals of a long winded retort by Liberty to MO PSC seem like distraction and the fact is Liberty is trying to secure some kind of illegitimate urgency about phasing out ANALOGs and my household is proving to be a stumbling block.. So, until the ANALOG in question has an outside party second opinion of what is wrong and that fact is established beyond the current papers turned in by Liberty who is now stating they found a weak spot in the calibrations. Until that evidence is even admissible it must be proved as not unfounded and as the party in objection to the findings I will not entrust that Liberty is not in need of immediate oversight of a 3rd party Joplin City meter Inspector as well as my own official party of inspections person as a Master Electrician I can acquire to establish the findings of Liberty as valid. This comes from my easement rights the Analog is was and will be the considered line of service and so therefore is part of my rights to proper diagnostic rather than suppositions of the the party who is bent on phasing out their ANALOGS as their agenda. I shall be granted if necessary, by request of the Judge to acquire a 3rd party there. This concession is mandatory as the position Liberty is placed me in as protecting the disabled person from harm impact. To give me this right does not conflict with the quote "ownership" that Liberty is trying to claim over the equipment but rather gives me the environmentally backed right to qualify and keep running a piece of equipment that is already currently working as such and since this is on an easement of my property and a permanent fixture in my home dwelling wall right next to my sink it is perfectly appropriate just to keep everybody involved honest

that we in this terms and conditions of an original contract with this type of equipment as ADA compliant etc that under these current and established contractual arrangement with Liberty. If it needs repaired or replaced with the exact same ANALOG as I have told Liberty numerous times, that is the only authorization of consent that I will make. The rest of these excuses that are being observed by Liberty are superseded of this matter of HEALTH concerns to harm injury impact liability and that is the higher presidency of this entirety of this MATTER... which is now becoming a threat of health harm as an infraction and that it was imperative that the ANALOG remain intact. At that time of initial intake with Jay Eastlick I did not go into ADA accommodation request because Jay Eastlick advised as long as we did the proper protocols to pending litigation thereby until the formal litigation was over the ANALOG was considered not to be disturbed by Vendor.

#7 The minute I got the Paper in the mail from MO PSC for the informal complaint it was at that point I put it on file with the City of Joplin in the division called Permit. The City Manager and I had a long conversation about my concern that they please place a block in that division as soon as I was able to obtain the "STATUS OF STAY" occurring with Liberty under the protection of MO PSC order of operations we were not yet in need to obtain a hearing until the proper protocols of first doing the informal complaint were administered. The way I understand it with the Vendors is they have a quick form of there own that they can pull with the Cities. So, it was confirmed with that Division at Joplin City by the main building biologist that the City was cooperating with the State level authority in this matter MO PSC who had protocols prior to actual litigation. So, the City of Joplin did place a block on the permit not to be granted with Liberty until this matter receives due process litigation if that was provend to be required. Therefore, I have done my due diligence to notify the local authorities to cooperate with the State entity process of acquiring a formal hearing Tribunal as litigation has to be granted pending informal outcomes.

#8 The state PSC has to provide the avenue of litigation in these matters. Moreover, both the state and the local and the Vendor have to be in Federal compliance as far as ADA accommodation requests. However, since the PSC is in the midst of final rule making voting on the new rule for Traditional meters I.E. Analog I did not foresee that there would be a gap between this old tariff agreement as current for Liberty with PSC whereby the outcome of the informal complaint is attempting to be exercised by Liberty for just cause to force upon a Disabled person a toxic environment as health harm injury is now pending and liability thereof it again my position and approach that the Federal supersede of ADA accommodations to ensure safe equipment according to the need for the patient as a Disabled person the Analog meter must be requested as a STAY in this ask pending the outcome of litigation that is now apparently going to need to transpire as the Liberty has made given an outcome of their initial decision not to provide the requested informal specificity of the ANALOG meter. The failure of the Liberty to address the toxicity of the non RF meter is disappointing as I had e-mailed the Engineering Director and personally spoken at length to him about the health harm of D.E.; Dirty Electricity which is why the non RF Advanced meter is unacceptable as under ADA protocols the specificity is ANALOG and that is Federally recognized as the only SAFE non toxicity for such a class of persons known as protected persons. Protected persons have invisible disease or condition and unfortunately the non RF Advanced meter emissions of D.E.; Dirty Electricity are known to be toxic. The burden of proof that the non RF Advanced meter in this matter with Liberty would first require that Liberty provide that burden of proof and that takes years of scientific medical studies. I would however, still insist that the Consumer has choice in this matter already provided to in MO and that the opt out meter is indicative of CHOICE of the Consumer accordingly the Consumer and the new legislative piece is actually already in existence as A LAW it is merely going through the proper stages of protocols so that the Vendors have time to prepare with their Traditional ANALOG meters to be supplied according to consumer choice.

#9 The rationale to be in more completeness of what PHASE or step that this case matter is at as far as a

litigation ACTION I assure you I already once attempted to fax the Formal form for the Tribunal so anything hindering how far this case matter has gotten is because I have followed the order of operations of protocol required before the Tribunal could be granted. Now, since we are moving into the Tribunal phase all parties involved need to cease and desist from any further attempts to override that this litigation as pending is substantial enough under Federal jurisdiction to require that under ADA accommodation if there is indeed in the meantime during this due process for litigation a need to retrieve the ANALOG the only Judge at MO PSC that has heard the side of the plaintiff as far as EMR expert testimony that the non RF advanced meter is harmful needs to respect that experts opinion as Liberty has not brought anything to oppose or retract from that testimony which is already a matter of public record on that pending piece of final rule making on a law that would offer Traditional ANALOG meters here in MO by choice without need for an ADA accommodation request. 9/14

#9 The only reason why people need to use ADA accommodation requests in general is in STATES where the STATE themselves does not offer an opt out choice from Advanced meters. So, let me bring in the most poignant fact that one of these STATES Pennsylvania is currently forced the Consumer to work outside the box and use Civil court process instead of Public Service Tribunal. This particular case is now on it's way to the Supreme Court it was done in U.S. court and there is much to glean as a quote Citation Case matter that will actually set the new presidency for ALL STATES including MO.

#14 This young lady is a law student and she has gotten her Judge to give her assurances that if her ANALOG breaks during the proceedings and the trail etc. that if the Vendor will not adhere to her request to replace ANALOG WITH ANALOG then the Judge will remedy that matter by informing the Vendor that they must whilst case is in process of trail etc. provide the only replacement as ANALOG. This Judge is very clear and this is a Federal level Judge.

So, it is with this case citation in hand and with no real assurances from Liberty as to whether they are going to try and attempt in the pending litigation to interfere with my ANALOG and call it as an EMERGENCY then if that is going to happen I need for the Tribunal Judge now to defend that will not be permissible as I have from the onset followed all the protocols of the due process of the Tribunal and I find this first outcome from the informal as very disturbing. The person who is disabled deserves to be left alone without harm impact from these ridiculous advanced meters that cause illness and aggravate and worsen persons with disabilities including heat palpitations increased from the D.E.; Dirty Electricity. But, I don't need to prove that I just know that Liberty cannot prove that these non RF Advanced meters won't cause harm. The expert at the hearing on Nov. 13 testified in brief he had 6 more things he could have provided but he did not want to get cut short. But, his first words were important, he said the burden of proof is on the Vendors as there is no evidence that these NON RF Advanced meters are safe no medical HIA Harm impact assessments not one medical studies proving these are safe. In fact if you test the equipment with a long duration you will actually find it peaks and actually often it peaks and when it does it emits RF. So, they are far from full proof and the UL industry does not do medical studies so why would they people who accept these non RF meters are not even informed about the dirty electricity they emit and that they actually do communicate with your interior appliances and yes that get registered by the little smart chip inside and yes that is invasion of privacy. So, many factors that I could go on and on about but if you need all them a please just watch the recent hearing and take notes from the Expert. There is more that the expert never got to due to time concerns with the hearing. So, many that I cannot count, but if they are needed for the Tribunal additionally I will find them. However, since the other Rule making hearing is still out and it would plausibility that Bill will settle this matter or require that no one regardless of ADA exception or not has to accept from Vendors these non RF Advanced meters well then that in fact MO PSC is going to uphold the intention of the Bill. Which the intention was to

#15 Many findings make manufacturers requirements restorative to safe devices Just like Trump in an emergency for patient needs had to get manufacturers to start making rapidly the ventilator machines during covid. The lates gambit of dangerous serious health consequences as well as cause of death is the led headlights on cars. Do you understand that the manufacturers under new regulatory are going to be required to stop putting these dangerous headlights on the new vehicles in production. My point is regulatory moves the arm of production. When the new regulatory for the Advanced meters fulfills it will put the presidency for the manufacturers to start putting the ANALOGS back into production, It is the cost of doing business Liberty you just need to tell Canada that in the U.S.A. here in MO there is a requirement for ANALOG meters to be supplied in order to stay in compliance with the Consumers who want safe technology only and do not wish to be harm injured. The regulatory drives the manufacturers and they should comply so that you Liberty can also stay in compliance with ANALOG distribution as the restoration of the health of Americans is at stake we do not want smart meters and we do not want non RF Advanced meters that are digital with D.E. Etc. etc. etc. It is not an excuse to say you do not have any ANALOGS it is your job as a business to get your manufacturers put on notice that is what you need to be supplied and in fact they need to feel the same pinch that the car manufacturers are feeling what will they do with all their precious LED headlights? I do not care as they will not kill one more person and the same is true with all this ADVANCED meter technology that is so unsafe and yes it does kill persons some who have EHS as teenagers commit suicide but no I'm not going to go there today.

#16 I have attach the Formal complaint so that everyone can see it has been filed by this e-mail so that we are all clear that there is pending litigation which I was granted after I fulfilled the prerequisite of the informal complaint under the required steps to acquire litigation with MO PSC. By my following due process any parties involved also need to respect that there is outlying ruling matters in addition to this formal complaint and that now everyone including my City have the understanding that even if Liberty needs to hold to some concern they have about repairing the ANALOG or ordering another ANALOG from a supplier that will be the only acceptable advances as I have litigation in place now with MO PSC and that requires to follow the ADA compliance and that is supersede Federal Compliance which again is higher than some concerns that Liberty is addressing with a state tariff matter of contract with PSC. Furthermore, I am requesting a STAY on this matter in that there is pending litigation and so anything done on my premises in the meantime needs to go through all the proper channels and be granted by the upcoming Judge assigned to this action. To watch dog my State action I have requested MO's J.S. DOJ in K.C. Environmental Attorney there [REDACTED] to also invoke if necessary that MO PSC Judge be aware that there is Federal Level supremacy law that requires a protected class of persons with Disability to be given special equipment and in this instance that special equipment is called an ANALOG meter.

Since, everything was left up in the air it is pertinent now that I make sure ALL parties understand that no permit would be granted to Liberty by my City for exchanging my meter unless it is first arranged that it would be for an ANALOG meter. The need for this ask to be confirmed by Liberty is vital otherwise MO PSC Judge will need to be expedited and look over the request I have to ask of Liberty to refrain from health harm injury liability per there informal answer is to promote improper equipment upon a Disabled person.

Health Risks Associated with Smart Meter Wireless Emissions

Posted on October 2, 2016 by SkyVision Solutions

by K.T. Weaver, SkyVision Solutions

Article Key Points

- There is a “reasonable basis” for concern regarding health risks associated with smart meter wireless emissions.
- It is “unreasonable” to involuntarily and chronically expose consumers to the electromagnetic energy emitted by smart meters.

Unfortunately, smart meter deployments continue throughout the world and in some locations consumer refusals are not allowed. Such is the case in the state of Pennsylvania where consumers are not permitted by the Public Utility Commission (PUC) to retain safer analog meters.

Based upon my review of peer-reviewed literature over the past few years, one of the studies that helped convince me that exposure to low-level electromagnetic fields (EMFs) could indeed be harmful included “Electromagnetic Hypersensitivity: Evidence for a Novel Neurological Syndrome.” One of the authors of that study was Andrew A. Marino, Ph.D. [1]

Recently, it is my understanding that Dr. Marino submitted an “expert report” as part of a case before the Pennsylvania PUC. In this proceeding several consumers have alleged that their health is being negatively affected by smart meters installed by PECO Energy Company [2].

The conclusions reached by Dr. Andrew Marino and presented in his expert report are as follows:

“First, [there] is a reasonable basis in established science for the Complainants’ concern regarding risks to human health caused by man-made electromagnetic energy in the environment, including the type of electromagnetic energy emitted by smart meters. These health risks are heightened in the very young, the very old, and in those with preexisting diseases or disorders.

Second, electromagnetic hypersensitivity is a documented neurological condition in which the affected person experiences musculoskeletal, immunological, and/or neurological symptoms that noticeably flare or intensify upon exposure to man-made electromagnetic energy in the environment. About 5-10% of the general public are self-reported to suffer from this disorder.

PUBLIC

One of the things I sued for was a restraining order. This was to restrain FirstEnergy from putting the "smart" meter on my house or from shutting off my electricity for refusing the "smart" meter.

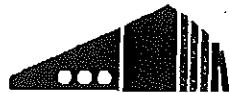

Yesterday, I had a deliberation (discussion) with Defendant FirstEnergy in the courtroom. The outcome is that FirstEnergy reluctantly agreed to give me my ask during the pendency of the litigation. Judge Wilson then wrote it up as an order (attached to this email). In addition, if the mechanical meter breaks for any reason, then Judge Wilson ordered that it would be replaced with another mechanical meter, not a "smart" one.

The outcome was the same as if I had indeed been given the restraining order against FirstEnergy. I also feel that had FirstEnergy not agreed to this, that Judge Wilson would have indeed given the restraining order to protect me. Judge Wilson stated that she did not want to leave me in a state of emergency. She said that if FirstEnergy and I could not reach an amicable resolution for the (pendency of the litigation), then she would make a decision on what would happen in the meantime to protect me. I feel that her decision was going to be in my favor. I expect that Judge Wilson's strong actions persuaded FirstEnergy to do the right thing, in this instance. What happens next is that if I win the litigation, then the mechanical meter on my house becomes permanent.

This is my first win in court! I expect to have more wins in the near future. Overall, I got one of the main things that I was asking for! The rest will be decided later, after discovery, more litigation, and a trial. This is a big federal case, and it will set a nationwide precedent. I researched this, and I have not seen any other cases like this anywhere in the country. It's a landmark case. Therefore, I expect the final judicial opinion to be published as a binding precedent.

was proud that I, as a student member of the PA Bar, symbolically walked past the actual "bar" a federal court that separates those who are bar members and those who are not. Actually walking past the "bar" in the courtroom is symbolically a meaningful endeavor. My recognition of this symbolic meaning at that moment in time made it all the more important. Everything on this day came together like a beautiful symphony or a hymn. This was because of our prayers and God's glory!

State ex rel. Kansas City Transit, Inc. v. Public Service Commission, 406 S.W.2d 5 (Mo. banc 1966). 20 CSR 4240-2.065 Tariff Filings Which Create Cases

PURPOSE: This rule establishes when a case shall be opened for a tariff.

(1) A general rate increase request is one where the company or utility files for an overall increase in revenues through a company-wide increase in rates for the utility service it provides, but shall not include requests for changes in rates made pursuant to an adjustment clause or other similar provisions contained in a utility's tariffs. When a public utility submits a tariff which constitutes a general rate increase request, the commission shall establish a case file for the tariff. The tariff and all pleadings, orders, briefs, and correspondence regarding the tariff shall be filed in the case file established for the tariff. The tariff submitted shall be in compliance with the provisions of the rules relating to the separate utilities. A tariff filed which proposes a general rate increase request shall also comply with the minimum filing requirements of these rules for general rate increase requests. Any public utility which submits a general rate increase request shall simultaneously submit its direct testimony with the tariff.

(2) Except when the Commission orders the filing of a tariff, when a public utility submits a tariff for commission approval but requests the tariff become effective in fewer than thirty (30) days, the commission shall establish a case file for the tariff. In addition, the public

utility shall file a Motion for Expedited Treatment and comply with the expedited treatment portion of these rules. The tariff and all pleadings, orders, briefs, and correspondence shall be filed in the case file established for the tariff.

(3) When a pleading, which objects to a tariff or requests the suspension of a tariff, is filed, the commission shall establish a case file for the tariff and shall file the tariff and pleading in that case file. All subsequent pleadings, orders, briefs, and correspondence concerning the tariff shall be filed in the case file established for the tariff. Any pleading to suspend a tariff shall attach a copy of the tariff and include a certificate of service to confirm that the party who submitted the tariff has been served with the pleading.

(4) A case file shall be established for a tariff filing in which the commission is required by law or requested by the party filing the tariff to specifically approve the tariff.

(5) A case file will not be established to consider tariff sheets submitted by a regulated utility which do not meet the circumstances of sections (1)–(4) of this rule, except that a case file shall be established when tariff sheets are suspended by the commission on its own motion or when suspended upon the recommendation of staff.

(6) When a public utility extends the effective date of a tariff, it shall file a letter extending the tariff effective date in the official case file. Notwithstanding any other provision of these rules, this letter may be filed by a nonattorney.

20 CSR 4240-2.070 Complaints

PURPOSE: This rule establishes the procedures for filing formal and informal complaints with the commission.

(1) Any person or public utility who feels aggrieved by an alleged violation of any tariff, statute, rule, order, or decision within the

commission's jurisdiction may file a complaint. A complaint may also be filed by the commission on its own motion, the commission staff through the staff counsel, or the Office of the Public Counsel.

(2) A person who feels aggrieved by an alleged violation of any tariff, statute, rule, order, or decision within the commission's jurisdiction may file an informal complaint with the commission's consumer services department or file either a formal complaint or small formal complaint with the commission. Filing an informal complaint is not a prerequisite to filing a formal or small formal complaint; however, the presiding officer may direct that a *pro se* complainant be required to go through the informal complaint procedure before the formal complaint will be heard by the commission. If an allegedly aggrieved person initially files an informal complaint and is not satisfied with the outcome, such person may also file a formal or small formal complaint.

(3) **Informal Complaints.** The protections and processes of an informal complaint regarding service or billing practices are set out in 4 CSR 240-13. To file an informal complaint, the complainant shall state, either in writing, by telephone (consumer services hotline 1-800-392-4211 or Relay Missouri at 711), or in person at the commission's offices—

(A) The name, street address, and telephone number of each complainant and, if one (1) person asserts authority to act on behalf of the others, the source of that authority;

(B) The address where the utility service was rendered;

(C) The name and address of the party against whom the complaint is filed;

(D) The nature of the complaint and the complainant's interest therein;

(E) The relief requested; and

(F) The measures taken by the complainant to resolve the complaint.

(4) **Formal Complaints.** A formal complaint may be made by petition or complaint in writing, setting forth any act or thing done or omitted to be done by any person, corporation, or public utility, including any rule or charge established or fixed by or for any person, corporation, or public utility, in violation or claimed to be in violation of any provision of law or of any rule or order or decision of the commission. The formal complaint shall contain the following information:

(A) The name and street address of each complainant and, if different, the address

where the subject utility service was rendered;

(B) The signature, telephone number, facsimile number, and email address of each complainant or their legal representative, where applicable;

(C) The name and address of the person, corporation, or public utility against whom the complaint is being filed;

(D) The nature of the complaint and the complainant's interest in the complaint, in a clear and concise manner;

(E) The relief requested;

(F) A statement as to whether the complainant has directly contacted the person, corporation, or public utility about which complaint is being made;

(G) The jurisdiction of the commission over the subject matter of the complaint; and

(H) If the complainant is an association, other than an incorporated association or other entity created by statute, a list of all its members.

(5) No complaint shall be entertained by the commission, except upon its own motion, as to the reasonableness of any rates or charges of any public utility unless the complaint is signed by the public counsel, the mayor or the president or chairman of the board of aldermen or a majority of the council or other legislative body of any town, village, county, or other political subdivision, within which the alleged violation occurred, or not fewer than twenty-five (25) consumers or purchasers or prospective consumers or purchasers of public utility gas, electricity, water, sewer, or telephone service as provided by law. Any public utility has the right to file a formal complaint on any of the grounds upon which complaints are allowed to be filed by other persons and the same procedure shall be followed as in other cases.

(6) The commission shall not be required to dismiss any complaint because of the absence of direct damage to the complainant.

(7) The commission, on its own motion or on the motion of a party, may after notice dismiss a complaint for failure to state a claim on which relief may be granted or failure to comply with any provision of these rules or an order of the commission, or may strike irrelevant allegations.

(8) Upon the filing of a complaint in compliance with these rules, the secretary of the commission shall serve by certified mail, postage prepaid, a copy of the complaint upon the person, corporation, or public utility against whom the complaint has been filed, which shall be accompanied by a notice

that the matter complained of be satisfied or that the complaint be answered by the respondent, unless otherwise ordered, within thirty (30) days of the date of the notice. Additionally, the complainant may accomplish service of the complaint upon the respondent(s) by any method authorized by Supreme Court Rule 54, having first obtained authorization from the commission for use of a special process server. Any person eligible to serve process under Supreme Court Rule 54 may be nominated as a special process server. A return of service shall be promptly filed with the commission as in the circuit courts of this state.

(9) The respondent shall file an answer to the complaint within the time provided. All grounds of defense, both of law and of fact, shall be raised in the answer. If the respondent has no information or belief upon the subject sufficient to enable the respondent to answer an allegation of the complaint, the respondent may so state in the answer and assert a denial upon that ground.

(10) If the respondent in a complaint case fails to file a timely answer, the complainant's averments may be deemed admitted and an order granting default entered. The respondent has seven (7) days from the issue date of the order granting default to file a motion to set aside the order of default and extend the filing date of the answer. The commission may grant the motion to set aside the order of default and grant the respondent additional time to answer if it finds good cause.

(11) The commission may order, at any time after the filing of a complaint, an investigation by its staff as to the cause of the complaint. The staff shall file a report of its findings with the commission and all parties to the complaint case. The investigative report shall not be made public unless released in accordance with section 386.480, 392.210(2), or 393.140(3), RSMo, or during the course of the hearing involving the complaint.

(12) When the commission determines that a hearing should be held, the commission shall fix the time and place of the hearing. The commission shall serve notice upon the affected person, corporation, or public utility not fewer than ten (10) days before the time set for the hearing, unless the commission finds the public necessity requires that the hearing be held at an earlier date.

(13) All matters upon which a complaint may be founded may be joined in one (1) hearing and no motion for dismissal shall be entertained against a complainant for misjoinder of causes of action or grievances or misjoinder or nonjoinder of parties.

(14) When an order is rendered disposing of a case, the regulatory law judge shall cause the parties to be notified that the order will be final unless an application for rehearing is filed within the allotted number of days and provide information regarding the rehearing and appeal process.

(15) Small Formal Complaint Case. If a customer of a utility files a formal complaint regarding any dispute involving less than three thousand dollars (\$3,000), the process set forth in this section shall be followed for such complaints. The provisions of sections (1)–(14) of this rule shall also apply to small formal complaints.

(A) When a complaint is filed that qualifies for handling as a small formal complaint, the assigned regulatory law judge shall direct the secretary of the commission to serve, by certified mail, postage prepaid, a copy of the complaint upon the person, corporation, or public utility against whom the complaint has been filed. At the same time, the regulatory law judge shall notify all parties that the complaint will proceed under the small formal complaint process. The person, corporation, or public utility against whom the complaint has been filed is allowed thirty (30) days after the date of notice to satisfy the complaint or file an answer. If the person, corporation, or public utility does not satisfy the complaint or file an answer within thirty (30) days, the regulatory law judge may issue an order granting default and deeming the allegations of the complaint to have been admitted by the respondent. A party in default has seven (7) days from the issue date of the order granting default to file a motion to set aside the order of default. The regulatory law judge may grant the motion to set aside the order of default and allow the respondent additional time to answer upon a showing of good cause.

(B) If any party believes that a complaint should or should not be handled as a small formal complaint, that party may file a motion with the commission requesting that the status of the complaint be changed. In response to such motion, or acting on its own motion, the commission shall, at its discretion, decide how the complaint shall be handled.

(C) Upon the filing of a complaint that

qualifies under this section, the chief regulatory law judge shall assign the case to a regulatory law judge. To process small complaint cases in the timeliest manner and in the most convenient location for the customers, the commission hereby delegates the commission's authority to hear the case, make rulings, and issue a recommended report and order or other appropriate order disposing of the case to such regulatory law judge.

(D) The commission's staff shall, within forty-five (45) days after the complaint is filed, investigate the complaint and file a report detailing staff's findings and recommendations. The regulatory law judge may allow staff additional time to complete its investigation for good cause shown. The member or members of the commission's staff who investigate the complaint shall be available as a witness at the hearing if the regulatory law judge or any party wishes to call them to testify.

(E) Any hearing, unless otherwise agreed to by the parties, shall be held in the county, or a city not within a county, where the subject utility service was rendered or within thirty (30) miles of where the service was rendered. The regulatory law judge may allow any party, witness, or attorney to participate in the hearing by telephone.

(F) Small formal complaint case hearings shall be conducted in an informal summary manner whenever possible, without affecting the rights of the parties—

1. The technical rules of evidence shall not apply;

2. The regulatory law judge shall have the authority to dispense with pre-filed written testimony; and

3. The regulatory law judge shall assume an affirmative duty to determine the merits of the claims and defenses of the parties and may question parties and witnesses.

(G) The regulatory law judge, after affording the parties reasonable opportunity for discovery and a fair hearing, shall issue a recommended report and order within one hundred (100) days following the filing of the complaint, unless the regulatory law judge finds good cause to extend that time or the extension is otherwise agreed to by the parties.

(H) Any party subject to a recommended order disposing of the case or a recommended report and order issued by a regulatory law judge under this section may file with the commission, within ten (10) days of the issuance of the recommended order, comments supporting or opposing the recommended order. Any comments opposing the

recommended order shall contain specific detailed grounds upon which it claims the order is unlawful, unjust, or unreasonable. The commission may approve or reject the recommended order based on the existing record without further hearing. If the commission rejects the recommended order, the commission shall issue its own order based on the evidence previously submitted, or upon such additional evidence, as the commission shall choose to receive.

20 CSR 4240-2.075 Intervention

PURPOSE: This rule prescribes the procedures by which an individual or entity may intervene in a case and allows for the filing of briefs by amicus curiae.

(1) A motion to intervene or add new member(s) shall be filed within thirty (30) days after the commission issues its order giving notice of the case, unless otherwise ordered by the commission.

(2) A motion to intervene or add new member(s) shall include:

(A) The legal name of each association, person, or entity seeking intervention or to be added;

(B) The street and mailing address of the principal office or place of business of each association, person, or entity seeking intervention or to be added, or of their attorney;

(C) The email address, fax number, and telephone number, if any, of each association, person, or entity seeking intervention or to be added, or their attorney;

(D) If any applicant is an association, other than an incorporated association or other entity created by statute, a list of all of its members;

(E) A statement of the proposed intervenor's or new member's interest in the case and reasons for seeking intervention or to be added; and

(F) A statement as to whether the proposed intervenor or new member supports or opposes the relief sought or that the proposed intervenor or new member is unsure of the position it will take.

(3) The commission may grant a motion to intervene or add new member(s) if—

(A) The proposed intervenor or new member(s) has an interest which is different from that of the general public and which may be adversely affected by a final order arising from the case; or

(B) Granting the proposed intervention would serve the public interest.

(4) If the commission grants intervention to an association, other than an incorporated association or other entity created by statute, the commission is not granting intervention to the "association," but is granting intervention to the individual members of the association.

(5) For purposes of 4 CSR 240-2.080(16), service upon counsel for an association satisfies the requirement for service upon the individual members of the association.

(6) If any member(s) of an association, other than an incorporated association or other entity created by statute, that is a party to any case before the commission withdraws from the association during the pendency of a case, the association must file a notice of the member's(s') withdrawal in the official case file within five (5) days of the member's(s') withdrawal.

(7) If an association, other than an incorporated association or other entity created by statute, that is a party to any case before the commission wants to add an additional member(s) during the pendency of that case, the association must file a motion to add new member(s).

(8) If the commission finds that the name of any association, other than an incorporated association or other entity created by statute, seeking intervention in a case before the commission could lead to confusion or misidentification of that association or its members, the commission may order that the association be identified by an alternate name in that case.

(9) The commission may limit an intervention to particular issues or interests in a case.

(10) Motions to intervene or add new member(s) filed after the intervention date may be granted upon a showing of good cause. Any motion so filed must include a definitive statement whether or not the entity seeking intervention or to be added as a new member accepts the record established in that case, including the requirements of any orders of the commission, as of the date the motion is filed.

(11) Any person not a party to a case may petition the commission for leave to file a brief as an *amicus curiae*. The petition for leave must state the petitioner's interest in the matter and explain why an *amicus* brief is desirable and how the matters asserted are relevant to the determination of the case. The brief may be submitted simultaneously with the petition. Unless otherwise ordered by the commission, the brief must be filed no later than the initial briefs of the parties and comply with all applicable briefing requirements. If leave to file a brief as an *amicus curiae* is granted, the brief shall be deemed filed on the date submitted. An *amicus curiae* may not file a reply brief.

20 CSR 4240-2.080 Pleadings, Filing, and Service

PURPOSE: This rule prescribes the content and procedure for filing pleadings before the commission and for service thereof.

(1) Every pleading or brief shall be signed by an attorney of record with the attorney's individual name or, if a natural person is not represented by an attorney, shall be signed by the natural person.

(2) By signing a pleading, the signer represents that he or she is authorized to so act.

(3) Pleadings or briefs shall include the signer's address, state bar number(s), email address, fax number, and telephone number, if any.

(4) Each pleading shall include a clear and concise statement of the relief requested, a specific reference to the statutory provision or other authority under which relief is requested, and a concise statement of the facts entitling the party to relief.

(5) An unsigned pleading or brief may be rejected.

(6) By presenting or maintaining a claim, defense, request, demand, objection, contention, or argument in a pleading, motion, brief, or other document filed with or submitted to the commission, an attorney or party is certifying to the best of the signer's knowledge, information, and belief, formed after an inquiry reasonable under the circumstances, that—

(A) The claim, defense, request, demand, objection, contention, or argument is not presented or maintained for any improper purpose, such as to harass or to cause unnecessary delay or needless increase in the cost of litigation;

(B) The claims, defenses, and other legal contentions therein are warranted by existing law or by a nonfrivolous argument for the extension, modification, or reversal of existing law or the establishment of new law;

(C) The allegations and other factual contentions have evidentiary support or, if specifically so identified, are likely to have evidentiary support after a reasonable opportunity for further investigation or discovery; and

(D) The denials of factual contentions are warranted on the evidence or, if specifically so identified, are reasonably based on a lack of information or belief.

(7) Any person filing a pleading or a brief shall file with the secretary of the commission either—

(A) The original; or
(B) An electronic copy.

(8) Each pleading may be accompanied by a cover letter which states the subject matter. This cover letter shall contain no matter for commission decision.

(9) Any document's filing date shall be the date and time the document is physically or electronically stamped as filed by the secretary of the commission. Documents physically received in the commission's data center during regular business hours shall be stamped on the date received. Documents physically received in the commission's data center after regular business hours shall be stamped the next day that the commission has

(10) Pleadings and briefs in every instance shall display on the cover or first page the case number and the title of the case. In the event the title of a case contains more than one (1) name as applicants, complainants, or respondents, it shall be sufficient to show only the first of these names as it appears in the first document commencing the case, followed by an appropriate abbreviation (et al.) indicating the existence of other parties.

(11) Pleadings and briefs that are not electronically filed shall be bound at the top or at an edge, shall be typewritten or printed upon white, eight and one-half by eleven-inch (8 1/2" x 11") paper. Electronically filed pleadings or briefs shall be formatted in the same manner as paper filings.

(12) Pleadings and briefs which are not in substantial compliance with this rule, applicable statutes, or commission orders may not be accepted for filing. In addition, filings will be scanned for computer viruses before being uploaded into the commission's electronic system and may not be accepted if the filing is infected. The secretary of the commission may return these pleadings or briefs with a concise explanation of the deficiencies and the reasons for not accepting them for filing. Tendered filings which have been rejected may not be entered on the commission's docket. The mere fact of filing shall not constitute a waiver of any noncompliance with these rules, and the commission may require amendment of a pleading or entertain appropriate motions in connection with the pleading.

(13) Parties shall be allowed ten (10) days from the date of filing in which to respond to any pleading unless otherwise ordered by the commission.

(14) Any request for expedited treatment shall include the words "Motion for Expedited Treatment" in the title of the pleading. The pleading shall also set out with particularity the following:

(A) The date by which the party desires the commission to act;

(B) The harm that will be avoided, or the benefit that will accrue, including a statement of the negative effect, or that there will be no negative effect, on the party's customers or the general public, if the commission acts by the date desired by the party; and

(C) That the pleading was filed as soon as it could have been or an explanation why it was not.

(15) Unless otherwise provided by these rules or by other law, the party filing a pleading or brief shall serve every other party, including the staff counsel and the public counsel, a copy of the pleading or brief and cover letter. Any party may contact the secretary of the commission for the names and addresses of the parties in a case.

Sanctions for abuse of the discovery process or failure to comply with commission orders regarding discovery shall be the same as those provided for in the rules of civil procedure.

(2) Parties may use data requests as a means for discovery.

(C) The party to whom data requests are presented shall answer the requests within twenty (20) days after receipt unless otherwise agreed to by the parties to the data requests, or otherwise ordered by the commission.

(D) If the recipient objects to data requests or is unable to answer within twenty (20) days, the recipient shall serve all of the objections or reasons for its inability to answer in writing upon the requesting party within ten (10) days after receipt of the data requests, unless otherwise ordered by the commission.

(E) If the recipient asserts an inability to answer the data requests within the twenty (20)-day time limit, the recipient shall include the date it will be able to answer the data requests simultaneously with its reasons for its inability to answer.

(F) The responding party shall promptly notify the requesting party of any changes to the answers previously given to a data request.

(G) Upon agreement by the parties or as ordered by the commission for good cause shown, the time limits for serving or answering data requests may be modified.

(H) Any data request issued to or by the staff of the commission shall be submitted and responded to in the commission's Electronic Filing and Information System (EFIS). However, if the technical limitations of EFIS make such submission or response difficult, the parties to the data requests may agree upon an alternative method of submission and response, or an alternative method of submission and response may be ordered by the commission.

(I) Sanctions for failure to answer data requests may include any of those provided for abuse of the discovery process in section (1) of this rule.

(3) All prehearing conferences shall be held as directed by the commission or presiding officer, and reasonable notice of the prehearing conference time shall be given to the parties involved.

(4) Any party may petition the commission to hold a prehearing conference at any time prior to the hearing.

(5) Failure to appear at a prehearing conference without previously having secured a continuance shall constitute grounds for dismissal of the party or the party's complaint, application or other action unless good cause for the failure to appear is shown.

(6) Parties may consider procedural and substantive matters at the prehearing conference which may aid in the disposition of the issues.

Matters which require a decision may be presented to the presiding officer during the conference.

(7) Facts disclosed in the course of a prehearing conference and settlement offers are privileged and, except by agreement, shall not be used against participating parties unless fully substantiated by other evidence.

(8) Except when authorized by an order of the commission, the commission will not entertain any discovery motions, until the following requirements have been satisfied:

(A) Counsel for the moving party has in good faith conferred or attempted to confer by telephone or in person with opposing counsel concerning the matter prior to the filing of the motion. Merely writing a demand letter is not sufficient. Counsel for the moving party shall certify compliance with this rule in any discovery motion; and

(B) If the issues remain unresolved after the attorneys have conferred in person or by telephone, counsel shall arrange with the commission for an immediate telephone conference with the presiding officer and opposing counsel. No written discovery motion shall be filed until this telephone conference has been held.

(1) A request for a subpoena or a subpoena *duces tecum* requiring a person to appear and testify at the taking of a deposition or at a hearing, or for production of documents or records shall be filed on the form provided by the commission and shall be directed to the secretary of the commission. A request for a subpoena *duces tecum* shall specify the par-

ticular document or record to be produced, and shall state the reasons why the production is believed to be material and relevant.

(2) Except for a showing of good cause, a subpoena or subpoena *duces tecum* shall not be issued fewer than twenty (20) days before a hearing.

(3) Objections to a subpoena or subpoena *duces tecum* or motions to quash a subpoena or subpoena *duces tecum* shall be made within ten (10) days from the date the subpoena or subpoena *duces tecum* is served.

(4) Subpoenas or subpoenas *duces tecum* shall be signed and issued by the secretary of the commission, a commissioner or by a law judge pursuant to statutory delegation authority. The name and address of the witness shall be inserted in the original subpoena or subpoena *duces tecum* and a copy of the return shall be filed with the secretary of the commission. Subpoenas or subpoenas *duces tecum* shall show at whose instance the subpoena or subpoena *duces tecum* is issued. Blank subpoenas shall not be issued.

(5) If there is a failure to comply with a subpoena or a subpoena *duces tecum* after objections or a motion to quash have been determined by the commission, the commission by its counsel or the party seeking enforcement may apply to a judge of the circuit court of the county in which—the hearing has been held, is being held, or is scheduled to be held, or where the witness resides or may be found—for an order enforcing the subpoena or subpoena *duces tecum*.

20 CSR 4240-2.110 Hearings

PURPOSE: *This rule prescribes the procedures for the setting, notices, and conduct of hearings.*

(1) The commission shall set the time and place for all hearings and serve notice as

required by law. Additional notice may be served when the commission deems it to be appropriate.

(2) The presiding officer may order continuance of a hearing date for good cause.

(A) When a continuance has been granted at the request of the applicant or complainant, the commission may dismiss the case for failure to prosecute if it has not received a request from the applicant or complainant that the matter be again continued or set for hearing within ninety (90) days from the date of the order granting the continuance.

(B) Failure to appear at a hearing without previously having secured a continuance shall constitute grounds for dismissal of the party or the party's complaint, application or other action unless good cause for the failure to appear is shown.

(3) When pending actions involve related questions of law or fact, the commission may order a joint hearing of any or all the matters at issue, and may make other orders concerning cases before it to avoid unnecessary costs or delay.

(4) The presiding officer shall establish a procedural schedule through one (1) or more procedural orders in which the hearing and conference dates are set, date for filing testimony and pleadings are set, and any other applicable procedural parameters are established as determined necessary by the presiding officer or agreed to by the parties.

(5) The order of procedure in hearings shall be as follows, unless otherwise agreed to by the parties or ordered by the presiding officer:

(A) In all cases except investigation cases, the applicant or complainant shall open and close, with intervenors following the staff counsel, or his designee, and the public counsel in introducing evidence; and

(B) In investigation cases, the staff counsel, or his designee, shall open and close.

(6) A reporter appointed by the commission shall make a full and complete record of the entire proceeding in any formal hearing, or of any other hearing or proceeding at which the commission determines reporting is appropriate.

(7) Suggested corrections to the transcript of record shall be offered within ten (10) days after the transcript is filed, except for good cause shown. The suggestions shall be in writing and shall be filed in the official commission file. Objections to proposed corrections shall be made in writing within ten (10) days after the filing of the suggestions. The

commission shall determine what changes, if any, shall be made in the record after a review of the suggested corrections and any objections.

(8) A party may request that the commission reopen the record for the taking of additional evidence if the request is made after the hearing has been concluded, but before briefs have been filed or oral argument presented, or before a decision has been issued in the absence of briefs or argument. Such a request shall be made by filing a motion to reopen the record for the taking of additional evidence. The motion shall assert the justification for taking additional evidence including material changes of fact or of law alleged to have occurred since the conclusion of the hearing. The petition shall also contain a brief statement of the proposed additional evidence, and an explanation as to why this evidence was not offered during the hearing.

20 CSR 4240-2.115 Stipulations and Agreements

PURPOSE: This rule prescribes the procedure when a nonunanimous stipulation and agreement is presented to the commission.

(1) Stipulations and Agreements.

(A) The parties may at any time file a stipulation and agreement as a proposed resolution of all or any part of a contested case. A stipulation and agreement shall be filed as a pleading.

(B) The commission may resolve all or any part of a contested case on the basis of a stipulation and agreement.

(2) Nonunanimous Stipulations and Agreements.

(A) A nonunanimous stipulation and agreement is any stipulation and agreement which is entered into by fewer than all of the parties.

(B) Each party shall have seven (7) days from the filing of a nonunanimous stipulation

and agreement to file an objection to the nonunanimous stipulation and agreement. Failure to file a timely objection shall constitute a full waiver of that party's right to a hearing.

(C) If no party timely objects to a nonunanimous stipulation and agreement, the commission may treat the nonunanimous stipulation and agreement as a unanimous stipulation and agreement.

(D) A nonunanimous stipulation and agreement to which a timely objection has been filed shall be considered to be merely a position of the signatory parties to the stipulated position, except that no party shall be bound by it. All issues shall remain for determination after hearing.

(E) A party may indicate that it does not oppose all or part of a nonunanimous stipulation and agreement.

20 CSR 4240-2.116 Dismissal

PURPOSE: This rule prescribes the conditions under which the commission or an initiating party may dismiss a case or by which any party may be dismissed.

(1) An applicant or complainant may voluntarily dismiss an application or complaint without an order of the commission at any time before prepared testimony has been filed or oral evidence has been offered by filing a notice of dismissal with the commission. Once evidence has been offered or prepared testimony filed, an applicant or complainant may dismiss an action only by leave of the commission, or by written consent of all the parties.

(2) Cases may be dismissed for lack of prosecution if no action has occurred in the case for ninety (90) days and no party has filed a pleading requesting a continuance beyond that time.

(3) A party may be dismissed from a case for failure to comply with any order issued by the commission, including failure to appear at any scheduled proceeding such as a public hearing, prehearing conference, hearing, or mediation session.

(4) A case may be dismissed for good cause found by the commission after a minimum of ten (10) days notice to all parties involved.

20 CSR 4240-2.117 Summary Disposition

PURPOSE: This rule provides for disposition of a contested case by disposition in the nature of summary judgment or judgment on the pleadings.

(1) Summary Determination.

(A) Except in a case seeking a rate increase or which is subject to an operation of law date, any party may by motion, with or without supporting affidavits, seek disposition of all or any part of a case by summary determination at any time after the filing of a responsive pleading, if there is a respondent, or at any time after the close of the intervention period. However, a motion for summary determination shall not be filed less than sixty (60) days prior to the hearing except by leave of the commission.

(B) Motions for summary determination shall state with particularity in separately numbered paragraphs each material fact as to which the movant claims there is no genuine issue, with specific references to the pleadings, testimony, discovery, or affidavits that demonstrate the lack of a genuine issue as to such facts. Each motion for summary determination shall have attached thereto a separate legal memorandum explaining why summary determination should be granted and testimony, discovery or affidavits not previously filed that are relied on in the motion. The movant shall serve the motion for summary determination upon all other parties not later than the date upon which the motion is filed with the commission.

(C) Not more than thirty (30) days after a motion for summary determination is served, any party may file and serve on all parties a response in opposition to the motion for summary determination. Attached thereto shall be any testimony, discovery or affidavits not previously filed that are relied on in the response. The response shall admit or deny each of movant's factual statements in numbered paragraphs corresponding to the numbered paragraphs in the motion for summary

determination, shall state the reason for each denial, shall set out each additional material fact that remains in dispute, and shall support each factual assertion with specific references to the pleadings, testimony, discovery, or affidavits. The response may also have attached thereto a legal memorandum explaining why summary determination should not be granted.

(D) For good cause shown, the commission may continue the motion for summary determination for a reasonable time to allow an opposing party to conduct such discovery as is necessary to permit a response to the motion for summary determination.

(E) The commission may grant the motion for summary determination if the pleadings, testimony, discovery, affidavits, and memoranda on file show that there is no genuine issue as to any material fact, that any party is entitled to relief as a matter of law as to all or any part of the case, and the commission determines that it is in the public interest. An order granting summary determination shall include findings of fact and conclusions of law.

(F) If the commission grants a motion for summary determination, but does not dispose thereby of the entire case, it shall hold an evidentiary hearing to resolve the remaining issues. Those facts found in the order granting partial summary determination shall be established for purposes of the hearing.

(G) The commission may hear oral argument on a motion for summary determination.

(2) Determination on the Pleadings—Except in a case seeking a rate increase or which is subject to an operation of law date, the commission may, on its own motion or on the motion of any party, dispose of all or any part of a case on the pleadings whenever such disposition is not otherwise contrary to law or contrary to the public interest.

20 CSR 4240-2.120 Presiding Officers

PURPOSE: This rule states the duties of presiding officers and the procedure for disqualifying them.

(1) A presiding officer shall have the duty to conduct full, fair, and impartial hearings, to take appropriate action to avoid unnecessary

delay in the disposition of cases, and to maintain order, and shall possess all powers necessary to that end, including, but not limited to, convening discovery conferences as needed and resolving discovery disputes. The presiding officer may take action as may be necessary and appropriate to the discharge of duties, consistent with the statutory authority or other authorities under which the commission functions, and with the rules and policies of the commission.

(2) Whenever any party shall deem the presiding officer for any reason to be disqualified to preside, or to continue to preside, in a particular case, the party may file with the secretary of the commission a motion to disqualify with affidavits setting forth the grounds alleged for disqualification. A copy of the motion shall be served by the commission on the presiding officer whose removal is sought and the presiding officer shall have seven (7) days from the date of service within which to reply.

AUTHORITY: section 386.410, RSMo 2016. This rule originally filed as 4 CSR 240-2.120. Original rule filed Dec. 19, 1975, effective Dec. 29, 1975. Amended: Filed June 9, 1987, effective Nov. 12, 1987. 20 CSR 4240-2.125 Procedures for Alternative Dispute Resolution

PURPOSE: This rule establishes procedures which will allow parties to utilize alternative dispute resolution methods in order to resolve issues or the entire matter in dispute.

(1) Settlement Negotiations.

(A) When the parties agree that the participation of a presiding officer in the settlement process would be beneficial, those parties shall file a motion for appointment of a settlement officer for that case. The motion shall contain—

1. A statement that all parties agree to the procedure;

2. A list of the issues to be addressed or matters the parties wish the presiding officer to aid them in resolving; and

3. A date by which a settlement will be reached or settlement negotiations under this procedure will end.

(B) If the commission grants the motion for a settlement officer, it shall issue an order scheduling a settlement conference and shall appoint a presiding officer to participate in settlement negotiations.

(C) The negotiations and statements of the parties or attorneys made at the settlement conference shall be off the record and shall not be made a part of the official case.

(D) If a settlement is not reached before the date specified by the parties in their motion, the procedure shall end unless the parties all agree to an extension and the procedure is extended by order of the commission.

(2) **Mediation.**

(A) The commission may order mediation before any further proceeding in a case.

(B) As the commission deems appropriate, or upon a request for mediation, the commission may appoint a presiding officer or other neutral third party other than the presiding officer assigned to the case to mediate the dispute.

(C) All other actions on the case shall cease and all time limitations shall be tolled pending the completion of mediation process, except as otherwise provided by law.

(D) The mediator shall be disqualified from conducting an evidentiary hearing relating to that particular case and shall not make any communication regarding the settlement or mediation discussions in the case to any commissioner or the presiding officer appointed to preside over the case.

(E) Failure to appear and participate in good faith in commission ordered mediation shall be grounds for sanctions including dismissal or default of the noncompliant party.

20 CSR 4240-2.130 Evidence

PURPOSE: *This rule prescribes the rules of evidence in any hearing before the commission.*

(1) In any hearing, these rules supplement section 536.070, RSMo.

(2) If any information contained in a document on file as a public record with the commission is offered in evidence, the document need not be produced as an exhibit unless directed otherwise by the presiding officer, but may be received in evidence by reference, provided that the particular portions of the document shall be specifically identified and are relevant and material. The information may be assigned an exhibit number for identification.

(3) The presiding officer shall rule on the admissibility of all evidence. Evidence to which an objection is sustained, at the request of the party seeking to introduce the same or at the instance of the commission, nevertheless may be heard and preserved in the record, together with any cross-examination with respect to the evidence and any rebuttal of the evidence, unless it is wholly irrelevant, repetitious, privileged or unduly long. When objections are made to the admission or exclusion of evidence, the grounds relied upon shall be stated briefly. Formal exceptions to rulings shall be unnecessary and need not be taken.

(4) In extraordinary circumstances where prompt decision by the commission is necessary to promote substantial justice, the presiding officer may refer a matter to the commission for determination during the progress of the hearing.

(5) The rules of privilege are effective to the same extent that they are in civil actions.

(6) **Format for Prepared Testimony.**

(A) It shall be typed or printed, in black type on a white page that is eight and one-half inches by eleven inches (8 1/2" x 11").

(B) It shall be double-spaced and have pages numbered consecutively at the bottom right-hand corner or bottom center beginning with the first page as page 1.

(C) If not filed electronically, it shall be filed unfolded and stapled together at the top left-hand margin or bound at an edge in booklet form.

(D) It shall have at least a one-inch (1") margin on the top, bottom, and both sides.

(E) Schedules shall bear the word "schedule," and the number of the schedule shall be typed in the lower right-hand margin of the first page of the schedule.

(F) All prepared testimony and other exhibits and schedules shall contain the following information in the following format on the upper right-hand corner of a cover sheet:

Exhibit No.: (To be marked by the hearing reporter)

Issue: (If known at the time of filing)

Witness: (Full name of witness)

Type of Exhibit: (Specify whether direct, rebuttal, or other type of exhibit)

Sponsoring Party:

Case No.:

Date Testimony Prepared:

(G) It shall be filed on line-numbered pages.

(H) Testimony that addresses more than one (1) issue shall contain a table of contents.

(I) Electronically filed prepared testimony shall be formatted and labeled in the same manner as paper filings.

(J) Printing on both sides of the page is encouraged.

(7) For the purpose of filing prepared testimony, direct, rebuttal, and surrebuttal testimony are defined as follows:

(A) Direct testimony shall include all testimony and exhibits asserting and explaining that party's entire case-in-chief;

(B) Where all parties file direct testimony, rebuttal testimony shall include all testimony which is responsive to the testimony and exhibits contained in any other party's direct case. A party need not file direct testimony to be able to file rebuttal testimony;

(C) Where only the moving party files direct testimony, rebuttal testimony shall include all testimony which explains why a party rejects, disagrees or proposes an alternative to the moving party's direct case; and

(D) Surrebuttal testimony shall be limited to material which is responsive to matters raised in another party's rebuttal testimony.

(8) Except as set out in this section, the prepared testimony of each witness shall be filed separately and shall be accompanied by an affidavit providing the witness's oath. In lieu of prepared direct testimony, any party may file a report that presents in narrative form, and with complete and comprehensive detail, the analysis and conclusions of one (1) or more expert witness(es) and the facts and information on which they relied. In any report, the contributing expert witnesses shall be listed together with an indication of the portion or portions of the report to which each contributed. The qualifications of each contributing expert witness shall be attached to the report as a schedule. Any such report shall comply with the commission's requirements in sections (6) and (7).

(9) In any case, the commission or presiding officer may direct that testimony be taken live rather than prepared in advance.

(10) No party shall be permitted to supplement prefiled prepared direct, rebuttal, or surrebuttal testimony unless ordered by the presiding officer or the commission. A party shall not be precluded from having a reasonable opportunity to address matters not previously disclosed which arise at the hearing. This provision does not forbid the filing of supplemental direct testimony for the purpose of replacing projected financial information with actual results.

(11) Any or all parties may file a stipulation as to the facts. This stipulation shall not preclude the offering of additional evidence by any party except as specified in the stipulation.

(12) Exhibits shall be legible and, unless otherwise authorized by the commission, shall be prepared on a standard eight and one-half by eleven inch (8 1/2" x 11")-size page. The pages of each exhibit shall be numbered and rate comparisons and other figures shall be set forth in tabular form.

(13) Exhibits shall be tendered to the reporter at the time of hearing without being prenumbered by the offering party, unless otherwise ordered by the presiding officer.

(14) All exhibits shall be marked at the time of hearing, using a single series of numbers, unless otherwise ordered by the presiding officer.

(15) Unless the presiding officer directs otherwise, when exhibits that have not previously been filed are offered in evidence, the original shall be furnished to the reporter, and the party offering exhibits also shall be prepared to furnish a copy to each commissioner, the presiding officer, and each party.

(16) The presiding officer may require the production of further evidence upon any issue. The presiding officer may authorize the filing of specific evidence as a part of the record within a fixed time after submission, reserving exhibit numbers, and setting other conditions for such production.

(17) Unless otherwise ordered, any objection to the admission of a post-hearing exhibit must be filed within ten (10) days of the date the exhibit was filed.

(18) Evidence for which a claim of confidentiality is made shall be provided in conformance with 4 CSR 240-2.135 or with any protective order specific to that information.

(19) All testimony shall be taken under oath.

State ex rel. Utility Consumers Council v. Public Service Commission, 562 S.W.2d 688 (Mo. App. 1978). At a hearing on the issuance of a certificate of convenience and necessity, the commission denied appellant consumers council opportunity to cross-examine electric utility's witnesses on certain testimony regarding costs. The proprietary nature of the cost information involved does not protect it from cross-examination by consumers council, and denial of right to such cross-examination was improper.

20 CSR 4240-2.135 Confidential Information

PURPOSE: This rule prescribes the procedures for handling confidential information in cases before the commission.

(1) All items filed in case proceedings before the commission shall be open to the public unless protected pursuant to this rule or otherwise protected by law.

(2) Confidential Designation.

(A) Any person may submit to the commission, without first obtaining a protective order, information designated as confidential if that information is—

1. Customer-specific information;
2. Employee-sensitive personnel information;
3. Marketing analysis or other market-specific information relating to services offered in competition with others;
4. Marketing analysis or other market-specific information relating to goods or services purchased or acquired for use by a company in providing services to customers;
5. Reports, work papers, or other documentation related to work produced by inter-

nal or external auditors, consultants, or attorneys, except that total amounts billed by each external auditor, consultant, or attorney for services related to general rate proceedings shall always be public;

6. Strategies employed, to be employed, or under consideration in contract negotiations;

7. Relating to the security of a company's facilities; or

8. Concerning trade secrets, as defined in section 417.453, RSMo.

(B) Any information designated as confidential shall be submitted with a cover sheet or pleading describing how such information qualifies as confidential under subsection (2)(A) of this rule, including the specific subsection relied upon and an explanation of its applicability. Only the specific information that qualifies as confidential shall be designated as such. In addition, each document that contains confidential information shall bear the designation "Confidential" and the paragraph(s) of 4 CSR 240-2.135(2)(A) through which that information is protected.

(3) Protective Order.

(A) In addition to information that may be designated as confidential as set out in this rule, any person may seek a protective order from the commission designating specific information as confidential. If a protective order is granted, the protected information shall be considered confidential information. A request for a protective order shall be made as follows:

1. By filing a separate pleading denominated "Motion for Protective Order," which may initiate a new case if a related case is not already pending;

2. The pleading shall state with particularity why the moving party seeks protection and what harm may occur if the information is made public;

3. The pleading shall also state whether any of the information for which a claim of confidentiality is made can be found in any other public document;

(B) The information for which a claim of confidentiality is made may be designated as confidential while the motion is pending if only the specific information at issue is designated as such.

(4) The commission may order greater protection than that provided by a confidential designation upon a motion explaining what information must be protected, the harm to the disclosing entity or the public that might result from disclosure of the information, and an explanation of how the information may be disclosed while protecting the interests of the

disclosing entity and the public.

(A) While such a motion is pending, the disclosing party requesting greater protection will be afforded the protection sought. However, in all circumstances, the disclosing party must, at a minimum, provide a detailed summary of the information at issue.

(B) Any document that contains such information shall bear the designation "Highly Confidential," rather than "Confidential," but shall otherwise follow the formatting delineated in section (10) of this rule.

(5) When a party seeks discovery of information that the party from whom discovery is sought believes to be confidential, the party from whom discovery is sought may designate the information confidential.

(A) No order from the commission is necessary before a party in any case pending before the commission may designate discovery responses confidential, and such information shall be protected as provided in this rule.

(B) The party that designates discovery information confidential shall inform, in writing, the party seeking discovery how that information qualifies as confidential under subsection (2)(A) of this rule at the same time it responds to the discovery request. If the party seeking discovery disagrees with the designation placed on the information, that party shall follow the informal discovery dispute resolution procedures set forth in 4 CSR 240-2.090(8). If the party seeking discovery exhausts these dispute resolution procedures, that party may file a motion challenging the designation.

(6) Confidential information may be disclosed only to the attorneys of record for a party and to employees of a party who are working as subject-matter experts for those attorneys or who intend to file testimony in that case, or to persons designated by a party as an outside expert in that case.

(A) The party disclosing information designated as confidential shall serve the information on the attorney for the requesting party.

(B) If a party wants any employee or outside expert to review confidential information, the party shall identify that person to the disclosing party by name, title, and job classification before disclosure. The person to whom the information is to be disclosed shall comply with the certification requirements of section (7) of this rule.

(C) A customer of a utility may view his or her own customer-specific information, even if that information is otherwise designated as confidential.

(7) Any employee of a party or outside expert retained by a party that wishes to review confidential information shall first certify in writing that such expert or employee of a party will comply with the requirements of this rule.

(A) The certification shall include the signatory's full name, permanent address, title or position, date signed, the case number of the case for which the signatory will view the information, and the identity of the party for whom the signatory is acting.

(B) The signed certificate shall be filed in the case.

(C) The party seeking disclosure of the confidential information shall provide a copy of the certificate to the disclosing party before disclosure is made.

(8) If information to be disclosed in response to a discovery request is information concerning another entity—whether or not a party to the case—that the other entity has indicated is confidential, the disclosing party shall notify the other entity of its intent to disclose the information. If the other entity informs the disclosing party that it wishes to protect the information, the disclosing party shall designate the information as confidential under the provisions of this rule.

(9) Any party may use confidential information in prefiled testimony, in a pleading, at hearing, or in a brief if the same level of confidentiality assigned by the disclosing party, or the commission, is maintained. Before including nonpublic information that it has obtained outside this proceeding in its pleading or testimony, a party shall ascertain from the source of the information whether that information is claimed to be confidential.

(10) Any prefiled testimony that contains information designated as confidential shall be filed with both a public and a nonpublic version as follows:

(A) For the public version, the confidential portions shall be removed. The removal of confidential information shall be indicated by underlining and two (2) asterisks before and after the confidential information, e.g., **confidential information removed**. The designated information shall be removed in such a way that the lineation and pagination of the public version remains the same as the confidential version;

(B) For the nonpublic version of the prefiled testimony, the confidential information shall be indicated by underlining and by two (2) asterisks before and after the confidential information, e.g., **confidential information**;

(C) At the hearing, the party offering the prefiled testimony shall present a public version of the testimony in which the confidential portions are removed. The public version of the testimony will be marked as Exhibit _____. The offering party shall also present a separate copy of the prefiled testimony containing confidential information, sealed in an envelope. The version of the testimony containing confidential information will be marked as Exhibit _____.C.

(D) These delineation requirements shall also be used when designating confidential portions of pleadings and briefs.

(11) At any time after the filing of discovery, testimony, brief, or pleading that contains information designated as confidential, the commission may challenge the designation of the discovery, testimony, brief, or pleading. A party may also challenge such a designation at any time by filing an appropriate motion with the commission.

(12) All live testimony, including cross-examination and oral argument, which reveals information that is designated as confidential may be offered only after the hearing room is cleared of all persons except those persons to whom the confidential information is available under this rule. The transcript of such live testimony or oral argument shall be kept under seal and copies shall be provided only to the commission and attorneys of record. The contents of such transcripts shall not be disclosed to anyone other than those permitted access to the designated information under this rule.

(13) All persons who have access to information under this rule shall keep the information secure and may neither use nor disclose such information for any purpose other than preparation for and conduct of the proceeding for which the information was provided. This rule shall not prevent the commission's staff or the Office of the Public Counsel from using confidential information obtained under this rule as the basis for additional investigations or complaints against any public utility.

(14) After receiving a notice of appeal, the commission will deliver confidential testimony constituting part of the record before the commission to the reviewing court under seal, unless otherwise directed by the court.

(15) Within ninety (90) days after the completion of a proceeding, including judicial review, all copies of all confidential information, testimony, exhibits, transcripts, or briefs in the possession of any party shall be

returned to the party claiming a confidential interest in such information if that party requests that the information be returned. Otherwise, the information shall be destroyed by the party possessing such information. Any notes pertaining to such information shall be destroyed.

(16) The provisions of sections (6), (7), and (15) of this rule do not apply to officers or employees of the commission or to the public counsel or employees of the Office of the Public Counsel. The officers or employees of the commission and the public counsel and employees of the Office of the Public Counsel are subject to the nondisclosure provisions of section 386.480, RSMo. Neither the officers or employees of the commission, nor the public counsel and the employees of the Office of the Public Counsel shall use or disclose any information obtained in discovery for any purpose other than in the performance of their duties.

(17) Outside experts of the staff of the commission or the Office of the Public Counsel who have been contracted to be witnesses in the proceeding shall have access to designated information and testimony on the same basis as the staff of the commission and the Office of the Public Counsel except that the outside expert shall comply with the provisions of sections (7) and (15). Outside experts of the staff of the commission and the Office of the Public Counsel who have not been contracted to be witnesses in the proceeding shall be subject to all provisions of this rule.

(18) A claim that information is confidential constitutes a representation to the commission that the claiming party has a reasonable and good faith belief that the subject document or information is confidential pursuant to the section of this rule cited as justification for the designation.

(19) The commission may waive or grant a variance from any provision of this rule for good cause shown.

(20) Any reference in any statute or other regulation of this commission that refers to proprietary or highly confidential information shall be interpreted to mean confidential information under this rule.

INTRODUCTION

This guide describes the Missouri Public Service Commission (“PSC”) complaint process and how you can present your case to the PSC without a lawyer. In every case, the PSC wants to make the best decision possible. Therefore, the PSC wants to hear the best presentation from all sides.

The PSC has a Consumer Hotline to assist you. If you have talked over your problem with the utility, and have not reached a satisfactory resolution, you can call the PSC’s Consumer Hotline. The number is 800-392-4211. The PSC also has a website. The PSC website has information, and links to other sites, addressing a wide range of utility issues. The address is <http://psc.mo.gov/>. The PSC does not discriminate on the basis of disability in the provision of programs, services, or employment. Anyone with an impairment of speech, hearing or vision, or

needing other such assistance, may call 800-392-4211 or TDD hotline 1-800-829-7541. The Commission will make every effort to get this information to you in a usable form.

All complaints are unique so you will probably have an issue not addressed in this guide. This guide therefore references other resources including sources of law. This guide is not law. If the law ever conflicts with this guide, the law controls. Neither this guide nor any other document can substitute for hiring your own lawyer.

THE COMPLAINT PROCESS

WHAT IS A COMPLAINT?

A complaint is a statement that a utility has violated a statute, tariff, or Commission order or regulation. The statutes and PSC regulations provide for an informal complaint and a formal complaint. PSC regulations provide a small formal complaint process designed to be more accessible and easier to use.

INFORMAL COMPLAINT

An informal complaint addresses your dispute with the utility without legalistic procedures. Staff can explain the statute, tariff, or Commission order or regulation governing your complaint. Staff can also serve as an intermediary with the utility. Staff does not speak on the Commission's behalf so, when Staff discusses your informal complaint, that discussion is not the Commission's decision. You have the right to make a formal complaint to the Commission.

FORMAL COMPLAINT

A formal complaint starts a proceeding that resembles a trial in circuit court and leads to a legally binding decision on whether the utility violated a statute, tariff, or Commission order or regulation. That decision is so important that the statutes provide all parties with the right to a

hearing. In addition, the PSC's regulations provide pre-hearing procedures including discovery and dispositive motions. A formal complaint is much like a trial in circuit court without a jury.

SMALL FORMAL COMPLAINT

A small formal complaint is a formal complaint in which the amount at issue is less than \$3,000. A small formal complaint differs from other formal complaints in that the hearing must be near where you live: in St. Louis City if that is where you live, your county seat, or within 30 miles of where the utility service was provided. Also, the order deciding your complaint on the merits can issue within 100 days after you file it, though most complainants need more time than that to prepare their case.

HOW TO START A FORMAL COMPLAINT PROCEEDING

First you must write down your formal complaint. You may use the sample complaint form in the back of this guide and fill in the blanks. Or you may draft your own document. Either way, a formal complaint must allege conduct that violates a statute, tariff, or Commission order or regulation. If a formal complaint does not allege conduct that violates a statute, tariff, or Commission order or regulation, the Commission can do nothing with the formal complaint except dismiss it.

Next, you must file that written formal complaint. Filing means that the Commission receives the formal complaint. Send the complaint to:

Secretary
Missouri Public Service Commission
Post Office Box 360
Jefferson City, Missouri 65102-0360

Or use the Commission's Electronic Filing and Information System ("EFIS") at psc.mo.gov.

Once you have filed your formal complaint, the Commission will assign it a file number. Use the file number when discussing your formal complaint in writing or in person. It helps avoid confusion.

FORMAL COMPLAINT PROCEDURE

Your formal complaint is a type of action called a “contested case,” meaning a formally “contested” proceeding before the Commission. It is similar to a trial in circuit court. Formality is reduced but the decision must stand on the law and evidence entered into the record. Generally, see the following authorities:

- Chapter 536, RSMo is the chapter of the Missouri Revised Statutes that sets forth administrative procedure in general. It sets forth the basics of contested case procedure.
- Chapter 386, RSMo is the chapter of the Missouri Revised Statutes that sets forth PSC procedure specifically. It contains several provisions regarding PSC hearings and formal complaints.
- 20 CSR 4240-2.070. This is the regulation that applies to PSC formal complaint procedure specifically.

Other laws cited above also apply.

Your formal complaint may proceed through several phases before the Commission’s resolution.

- Pleadings include your formal complaint and responsive documents in which the parties set forth what they want, the law that allows that relief, and facts relevant under that law.

- Discovery is the process by which the parties learn about what the other parties know and how they know it. It includes devices like data requests, depositions, interrogatories, document production requests, and subpoenas.
- Pre-Hearing Motions ask the Commission to do something in preparation for hearing, like set a schedule or enforce discovery.
- Dispositive Motions ask the Commission to dispose of the formal complaint without a hearing. Dismissal means the Commission has no authority to address the formal complaint. Summary determination means that no hearing is necessary to decide who wins. Both must have support in the record, like admissions in an opponent's pleadings, or an affidavit to support an allegation outside the pleadings.
- Hearing is where the parties offer the Commission evidence on which the Commission decides the formal complaint. Though statutes and regulations relax the law of evidence, certain fundamentals still apply. Consult the authorities cited above.
- Briefs are written arguments in which parties tell the Commission why they should win by citing the statute, tariff, or Commission regulation or order violated; and citing something in the record, like testimony in the transcript, showing that the violation occurred.
- Report and Order is the Commission's name for a decision made after a hearing on a formal complaint. If no hearing occurs, the Commission calls the decision an order. The Regulatory Law Judge drafts a recommended decision but the Commission is the final decision-maker.

The Commission votes on the decision at an open meeting under an agenda posted in advance.

The Commission webcasts its agenda meetings so you can listen on your computer.

The Commission's decision is subject to rehearing until the effective date set forth in the decision. This means that you may ask the Commission to look at the formal complaint some more, including facts that arose after the Commission voted on the decision. But you **must** file your application for rehearing **before the decision's effective date**. An application for rehearing filed **on the effective date is too late**. If the Commission denies an application for rehearing the party who filed it may appeal to a court of law as the statutes provide. If you appeal the Commission's decision, the reviewing court will only look at the issues you set out in an application for rehearing.

HOW THE PSC WORKS

WHAT IS THE PSC?

The PSC is an executive-branch agency of Missouri government that regulates investor-owned utilities and some manufactured houses. The legislative branch of Missouri government created the PSC in 1913 and continues to set legal standards for the PSC to follow. The judicial branch of Missouri government reviews decisions of the PSC for compliance with the law. Subject to those branches of government, the PSC operates its own internal legislative, judicial, and executive functions.

STATUTES, TARIFFS, REGULATIONS AND ORDERS

The subject of the complaint must be a violation of at least one of the following.

- Statutes: The Missouri Revised Statutes. The statutes are laws made by elected officials—your State representatives and State senators—in the Missouri General Assembly. Chapters 386, 392, 393, and 536 contain most of the statutes that

govern your complaint. You can view the statutes online at <https://revisor.mo.gov/main/Home.aspx>.

- Tariffs. Tariffs are schedules of rates, charges, and terms of service that every utility must have on file with the PSC. You can view tariffs online through the Commission's Electronic Filing and Information System ("EFIS") at <https://efis.psc.mo.gov/mpsc/TariffSearch.html>.
- Regulations. The Code of State Regulations. Regulations (or "rules") are laws made by officials like the Commissioners of the PSC. The PSC's regulations are at 20 CSR 4240. You can view the regulations online at <http://www.sos.mo.gov/adrules/csr/csr.asp>.
- Orders. the PSC might also impose other requirements on a utility by order directed to that utility alone. You can view orders online through the Commission's Electronic Filing and Information System ("EFIS") at <https://efis.psc.mo.gov>.

OTHER LAW

Other sources of law that determine your complaint are published in hard copy, which might be available at a public library or law library, and online. The most important laws include:

- Case Law. Case law is made by Missouri appellate courts—the Missouri Court of Appeals and the Missouri Supreme Court—when they decide an appeal from another governmental body. Missouri appellate court opinions are posted at <http://www.courts.mo.gov/page.jsp?id=1944>.

- Commission Decisions. Decisions in other cases can give you an idea of how the Commission analyses formal complaints like yours.

- Federal Authorities. These may include federal statutes, regulations, and case law.

You can also consult secondary sources—books and journal articles that generally outline legal processes and explore specific legal issues. They include the Missouri Bar’s deskbook series, Thomson Reuter’s Missouri Practice Series, and the Journal of the Missouri Bar. Each of those bodies of law is available from other hard copy and online sources, but some online sources are expensive, and some are not as easy to use as the hard copies of authorities listed here. You may find secondary sources at a public library or a law library.

WHO IS WHO AT THE PSC?

The PSC consists of five commissioners, each appointed by the governor subject to confirmation by the Missouri Senate. The commissioners serve staggered six-year terms. Biographies of the commissioners are available online at <https://psc.mo.gov/Commissioners/>.

The Commissioners employ the following persons to help them process complaints.

- Data Center. The PSC’s Data Center operates EFIS, receives filings, transmits order and notices, and keeps the Commission’s records.
- Staff. The PSC hires neutral experts in engineering, accountancy, economics, and others, to help it make the best decisions possible. So that everyone knows what Staff is telling the Commission, the Commission’s regulations provide that Staff is a party—like you and the utility—to your complaint. Staff will investigate your complaint and file a report of its findings in your complaint file.
- Staff Counsel. Staff Counsel is a group of lawyers that the PSC hires to represent Staff in actions including your complaint.

As in an informal complaint, Staff does not speak on the Commission's behalf, nor does Staff Counsel. Staff reports to the Commission, and sometimes the Commission agrees with Staff, but sometimes the Commission does not. So when Staff issues a report or a recommendation, it does not determine your complaint. In a formal complaint, you have the right to make your case to the Commission.

You may contact any of those persons about your complaint but none of them is your advocate in a formal complaint. Unlike a criminal prosecution, there is no right to appointed counsel before the PSC.

In addition, the Commission assigns to your formal complaint a:

- Regulatory Law Judge (“RLJ”). An RLJ is a lawyer employed by the PSC to conduct proceedings in a variety of actions including your formal complaint. The RLJ will manage your case, issue orders on motions or on the RLJ’s own initiative, convene conferences and an evidentiary hearing, and issues orders addressing your formal complaint. The RLJ’s order may constitute a recommendation to the Commission for the commissioners to vote on, or an order may be effective right away.

Do not contact the RLJ about your case except in writing copied to all parties.

To represent all ratepayers, the statutes also create:

- The Office of Public Counsel (“OPC”). OPC is an office of Missouri government independent of the PSC. But OPC represents the public in general and no one person in particular. PSC regulations make OPC a party to every case.

Information Sheet Regarding Mediation of Commission Formal Complaint Cases

Mediation is a process where the parties work together to try to resolve their dispute with the aid of a neutral party, the mediator. The mediator's role is help the parties talk to each other. The mediator may offer suggested solutions, but the mediator has no authority to tell the parties what they must do or to determine who "wins." Instead, the mediator simply works with both parties to help them reach an agreement.

Typically, at a mediation session the parties meet for an off-the-record discussion. The mediation session is not a formal proceeding like a hearing and no attorney is required to participate. The Regulatory Law Judges at the Public Service Commission are trained mediators and this service is offered to parties who have formal complaints pending before the Public Service Commission at no charge. If mediation is agreed to by the parties, the Commission will send notice of who the mediator will be and that person will set up the first meeting.

There cannot be a mediation unless both parties to the complaint agree to try in good faith to resolve the dispute. If both parties agree to mediate the complaint, the only information about the mediation that will be disclosed to the Commission is (a) whether the case has been settled and (b) whether the mediation effort was considered to be helpful. The Commission will not ask what was discussed during the mediation.

If the dispute is settled at the mediation, the Commission will require a signed release from the party filing the complaint before the formal complaint case can be dismissed. If the dispute is not resolved through the mediation process, neither party will be penalized for having taken part in the mediation and the formal complaint case will simply pick up where it left off.

Information Sheet Regarding Mediation of Commission Formal Complaint Cases

Mediation is a process whereby the parties themselves work to resolve their dispute with the aid of a neutral third-party mediator. This process is sometimes referred to as "facilitated negotiation." The mediator's role is advisory and although the mediator may offer suggestions, the mediator has no authority to impose a solution nor will the mediator determine who "wins." Instead, the mediator simply works with both parties to facilitate communications and to attempt to enable the parties to reach an agreement which is mutually agreeable to both the complainant and the respondent.

The mediation process is explicitly a problem-solving one in which neither the parties nor the mediator are bound by the usual constraints such as the rules of evidence or the other formal procedures required in hearings before the Missouri Public Service Commission. The Regulatory Law Judges at the Public Service Commission are trained mediators and this service is offered to parties who have formal complaints pending before the Public Service Commission at no charge. In addition, the assistance of an attorney is not necessary for mediation. In fact, the parties are encouraged not to bring an attorney to the mediation meeting.

The formal complaint process before the Commission invariably results in a determination by which there is a "winner" and a "loser" although the value of winning may well be offset by the cost of attorneys fees and the delays of protracted litigation. Mediation is not only a much quicker process but it also offers the unique opportunity for informal, direct communication between the two parties to the complaint and mediation is far more likely to result in a settlement which, because it was mutually agreed to, pleases both parties. This is traditionally referred to as "win-win" agreement.

The traditional mediator's role is to (1) help the participants understand the mediation process, (2) facilitate their ability to speak directly to each other, (3) maintain order, (4) clarify misunderstandings, (5) assist in identifying issues, (6) diffuse unrealistic expectations, (7) assist in translating one participant's perspective or proposal into a form that is more understandable and acceptable to the other participant, (8) assist the

participants with the actual negotiation process, (9) occasionally a mediator may propose a possible solution, and (10) on rare occasions a mediator may encourage a participant to accept a particular solution. The Judge assigned to be the mediator will not be the same Judge assigned to the contested complaint.

In order for the Commission to refer a complaint case to mediation, the parties must both agree to mediate their conflict in good faith. The party filing the complaint must agree to appear and to make a good faith effort to mediate and the utility company against which the complaint has been filed must send a representative who has full authority to settle the complaint case. The essence of mediation stems from the fact that the participants are both genuinely interested in resolving the complaint.

Because mediation thrives in an atmosphere of free and open discussion, all settlement offers and other information which is revealed during mediation is shielded against subsequent disclosure in front of the Missouri Public Service Commission and is considered to be privileged information. The only information which must be disclosed to the Public Service Commission is (a) whether the case has been settled and (b) whether, irrespective of the outcome, the mediation effort was considered to be a worthwhile endeavor. The Commission will not ask what took place during the mediation.

If the dispute is settled at the mediation, the Commission will require a signed release from the complainant in order for the Commission to dismiss the formal complaint case. If the dispute is not resolved through the mediation process, neither party will be prejudiced for having taken part in the mediation and, at that point, the formal complaint case will simply resume its normal course.
