**Re: Tariff Schedule to Adjust FAC Rate of Evergy Missouri West**

Dear Ms. Dippell:

Pursuant to 20 C.S.R. 4240-20.090(8) of the regulations of the Missouri Public Service Commission (“Commission”), Evergy Missouri West, Inc. d/b/a Evergy Missouri West (“EMW”) hereby submits proposed rate schedules to adjust charges related to the Company’s approved Fuel Adjustment Clause (“FAC”). The proposed rate schedule bears an issue date of December 31, 2025, and an effective date of April 1, 2026.

This FAC tariff filing consists of actual fuel and purchased power costs, net of off-system sales revenues incurred by EMW. For the 37th accumulation period covering the period of June 2025 through November 2025, EMW’s actual FAC includable costs were higher than the base energy costs included in base rates by approximately \$33.8 million. In accordance with the Commission’s rule and the Company’s approved FAC, EMW has calculated the FAC tariff that provides for a change in rates to return to customers 95% of those cost changes, or approximately \$32.1 million, plus interest.

In addition, a true-up filing is being made concurrent with this filing covering the 34th accumulation period of December 2023 through May 2024 and its corresponding recovery period of September 2024 through August 2025. The proposed true-up amount results in a balance of \$154,019 remaining to be returned to customers. In summary, these amounts combined including interest amounting to \$277,898 result in a proposed 37th accumulation period FPA of \$32.2 million to be collected from customers.

Direct Testimony and supporting schedules of Linda J. Nunn are submitted concurrently herewith along with schedules containing the information required by 20 C.S.R. 4240-20.090(8), including all workpapers that support the proposed rate schedules.
