Evergy Missouri West, Inc. d/b/a Evergy)
Missouri West for the Issuance of a)
Depreciation Authority Order Relating to)
their Electrical Operations)

Case No. EO-2026-0185

**ORDER DIRECTING NOTICE AND SETTING DEADLINES FOR
INTERVENTION APPLICATIONS AND STAFF’S RECOMMENDATION**

Issue Date: January 29, 2026

Effective Date: January 29, 2026

On January 29, 2026, Evergy Metro, Inc. d/b/a Evergy Missouri Metro and Evergy Missouri West, Inc. d/b/a Evergy Missouri West (collectively “Evergy”). applied for a depreciation authority order establishing depreciation rates to depreciate certain accounts. Evergy requests the Commission authorize depreciation rates for existing plant utility accounts that will be transferred to new plant utility accounts due to the implementation of Federal Energy Regulatory Commission Order 898, which updates the Uniform System of Accounts for certain categories of assets including solar and wind generation, energy storage, environmental credits and computer hardware, software and communications equipment.

Evergy also requests authorization for four new depreciation/amortization rates.

The Commission will direct notice be given and set a deadline for intervention applications. The Commission will also direct Staff to file a recommendation.

THE COMMISSION ORDERS THAT:

1. The Commission’s Data Center shall provide notice of this order and Evergy’s application to the parties in File Nos. ER-2024-0189 and ER-2022-0129.

2. The Commission's Data Center shall provide notice of this order and Evergy's application to the county commissions in Evergy's service territory.

3. The Commission's Public Policy and Outreach Department shall provide notice of Evergy's application to news media serving residents of Evergy's service territory.

4. Applications for intervention shall be filed no later than February 20, 2026. Any such filing shall be submitted through the Commission's electronic filing and information system (EFIS) or delivered to:

Secretary
Missouri Public Service Commission
P. O. Box 360
Jefferson City, MO 65102

5. No later than February 26, 2026, the Commission's Staff shall file either a recommendation regarding Evergy's application or a status report indicating when it expects to file a recommendation.

6. This order is effective when issued.

BY THE COMMISSION

A handwritten signature in black ink that reads "Nancy Dippell".

Nancy Dippell
Secretary

John T. Clark, Senior Regulatory Law Judge,
by delegation of authority pursuant to
Section 386.240, RSMo 2016.

Dated at Jefferson City, Missouri,
on this 29th day of January, 2026.

**BEFORE THE PUBLIC SERVICE COMMISSION
OF THE STATE OF MISSOURI**

In the Matter of the Application of Evergy)
Metro, Inc. d/b/a Evergy Missouri Metro)
and Evergy Missouri West, Inc. d/b/a) File No.: EO-2026-0185
Evergy Missouri West for the Issuance of a)
Depreciation Authority Order Relating to)
their Electrical Operations)

**APPLICATION OF EVERGY MISSOURI METRO AND EVERGY MISSOURI WEST
FOR A DEPRECIATION AUTHORITY ORDER**

COME NOW, Evergy Metro, Inc. d/b/a Evergy Missouri Metro (“EMM”) and Evergy Missouri West, Inc. d/b/a Evergy Missouri West (“EMW”)(collectively, the “Company” or “Applicants”) and, pursuant to Mo. Rev. Stat. 386.250 and 393.1401¹ and 20 CSR 4240-2.060, hereby request that the Missouri Public Service Commission (“Commission”) issue a Depreciation Authority Order (“DAO”) authorizing EMM and EMW to depreciate certain accounts with a specific depreciation rate.

1. EMM is a corporation duly organized and existing under the laws of the State of Missouri, with its principal office and place of business at 1200 Main Street, Kansas City, Missouri 64105. EMM is primarily engaged in the business of generating, transmitting, distributing, and selling electric energy in portions of eastern Kansas and western Missouri. EMM is an electric corporation and public utility as defined in Section 386.020 Mo. Rev. Stat. (2000), as amended. A Certificate of Good Standing was filed with the Commission in Case No. EN-2020-0063 and is incorporated herein by reference in accordance with 20 CSR 4240-2.060(1)(G). EMM is an electric corporation and public utility as defined in Section 386.020, Mo. Rev. Stat. (2010), as amended.

¹ Unless otherwise noted, all citations are to the Revised Statutes of Missouri (2010), as amended to date.

2. EMM holds Certificates of Convenience and Necessity from the Commission to transact business as an electric public utility in certain areas of the State of Missouri. In addition, EMM has heretofore filed with this Commission a certified copy of the Articles of Consolidation under which it was organized and of all amendments thereto.

3. EMM has no pending actions or final unsatisfied judgments or decisions against it from any state or federal agency or court that involve customer services or rates, which action, judgment, or decision has occurred within three years of the date of this application, except for: *Show Me Ethanol, LLC v. Evergy Missouri Metro*, File No. EC-2026-0064.

4. EMW is a Delaware corporation with its principal office and place of business at 1200 Main Street, Kansas City, Missouri 64105. It is primarily engaged in providing electric and steam utility service in western Missouri to the public in its certified areas. EMW is an “heating company” and a “public utility” subject to the jurisdiction, supervision, and control of the Commission under Chapters 386 and 393.

5. A certificate of authority for EMW to do business in Missouri as a foreign corporation was filed with the Commission in Case No. HN-2020-0065 and is incorporated by reference pursuant to 20 CSR 4240-2.060(1)(G).

6. EMM and EMW are wholly owned subsidiaries of Evergy, Inc. (“Evergy”). The other public utility wholly owned by Evergy is Evergy Kansas Central, Inc. (“EKC”). EMM and EMW have no annual report or regulatory assessment fees that are overdue.

7. EMW has no pending actions or final unsatisfied judgments or decisions against it from any state or federal agency or court that involve customer services or rates, which action, judgment, or decision has occurred within three years of the date of this application.

8. In addition to serving counsel named below, all correspondence, pleadings, notices, orders, and other communications regarding this proceeding should be sent to:

Ronald A. Klote
Senior Director - Regulatory Affairs
Eversource, Inc.
1200 Main Street
Kansas City MO 64105
(816) 652-1298
ronald.klote@eversource.com

Anthony R. Westenkirchner
Senior Paralegal, Legal Department
Eversource, Inc.
1200 Main Street
Kansas City MO 64105
(816) 652-1100
anthony.westenkirchner@eversource.com

9. Data requests concerning this Application should be addressed to Regulatory.Affairs@eversource.com.

10. The Company requests the authorization of depreciation rates for existing plant utility accounts that were transferred to new plant utility accounts due to the implementation of FERC Order 898. This request is similar to what the Company requested in Case No. EO-2025-0040. The current request includes a limited number of corrections to the order issued in Case No. EO-2025-0040 for EMW. In June 2023, FERC issued Order 898 to update the Uniform System of Accounts (USOA) for certain categories of assets including solar and wind generation, energy storage, environmental credits and computer hardware, software, and communications equipment. The Company created new plant and O&M accounts for solar and wind renewable generation and energy storage as well as created new plant and O&M accounts within existing functions for computer software, hardware, and communication equipment. The effective date of FERC Order 898 was January 1, 2025, with prospective application required. The authorized rate for the old

plant utility account will be used for the assets transferred to the new plant utility account until rates are approved in the next depreciation study.

11. In addition to the request for authorization of depreciation rates related to the FERC changes, there are three new depreciation/amortization rates for EMM and one new depreciation rate for EMW that the Applicants' request the authorization of a depreciation rate until rates are approved in the next depreciation study. These new rates are: (1) EMM maintains depreciation reserves by location and unit and EMM has two new plant/location accounts (a) for plant account 312002 at the Hawthorn Unit 5 location, EMM proposes to use the same rate as authorized for the same plant account at the LaCygne Unit 1 location 312002 of 0.47% as the new assets at Hawthorn Unit 5 are the same type of assets as located at LaCygne Unit 1, (b) for plant account 346000 at the Hawthorn Unit 6 location, EMM proposes to use the composite rate of all locations for account 346000 of 4.35%. In other words, EMM proposing to use the composite rate of the individual current authorized rates for account 346000 at locations Northeast, West Gardner, Miami County and Hawthorn Unit 7. (2) EMW maintains depreciation reserves by location and unit and EMW has one new plant/location account. For plant account 312002 at the Iatan Common location, EMW proposes to use the same rate as authorized for the same plant account at the Iatan 1 location 312002 of 6.62%. (3) For EMM's Intangible Account 303000 for Wolf Creek License, EMM proposes to amortize over the new 20-year license extension or 5% annually. The Department of Energy granted a 20-year license extension to Wolf Creek with a 20-year term starting March 11, 2025.

12. EMM and EMW each have a proposed process change that directly affects the plant account numbering. (1) EMW currently has existing authorized rates for Iatan Unit 2 accounts for 311000, 312000, 314000, 315000 and 316000. EMW proposes to use 311004, 312004, 314004,

315004 and 316004 for Iatan Unit 2 locations using the existing respective authorized rates for Iatan Unit 2, which are the same accounts used by Evergy Metro. Evergy Metro is the controlling company for Iatan Unit 2, which uses the “004” sub-account for Iatan 2 location depreciation rates. By aligning EMW and EMM to use the same plant sub-accounts for Iatan Unit 2, the Company will improve efficiency and consistency across both jurisdictions when there is any activity that occurs at Iatan Unit 2. This change would not impact the existing rates for Iatan Unit 2 at either jurisdiction, only the associated plant account at EMW. (2) EMM currently has existing authorized rates for the Missouri Gross Up AFUDC transmission accounts 352002, 353002, 355002 and 356002. These transmission accounts were re-assigned to use 352003, 353003, 355003 and 356003 respectively for consistency and powerplant numbering after the implementation of FERC Order 898. The Company requests to use the same authorized depreciation rates as the former plant account. Note, there is an existing authorized depreciation rate for 353003 for Communication Equipment but all assets in this account were transferred to 351030 with the implementation of FERC Order 898.

13. See attached **Exhibit A** for a listing of all plant utility account proposed changes for EMM and attached **Exhibit B** for a listing of all plant utility account corrections and proposed changes for EMW. The requested rates would be used until rates are approved in the next depreciation study.

14. The Company presumes that the depreciation rates established in this case will be reviewed when EMM and EMW submits the next depreciation study and the associated depreciation rates are authorized by the Commission.

15. Granting the DAO requested herein will not impact customer rates. Although a DAO puts the Company in a position where it can, in future rate proceedings, request

depreciation expense recovery in rates, a Commission order authorizing a DAO carries with it no guarantee that such rate recovery will be allowed. The Company will seek recovery of these costs in general rate case proceedings.

WAIVER OF 60-DAY NOTICE RULE

16. The Commission's General Provisions regarding its Standards of Conduct include a 60-day notice of filing provision at 20 CSR 4240-4.017(1) ("Rule") which states:

Any person that intends to file a case shall file a notice with the secretary of the commission a minimum of sixty (60) days prior to filing such case. Such notice shall detail the type of case and issues likely to be before the commission and shall include a summary of all communication regarding substantive issues likely to be in the case before the filing party and the office of the commission that occurred in the ninety (90) days prior to filing the notice.

17. Under Section (1)(D) of the Rule, Applicants seek a waiver of this requirement because good cause exists under the facts of this case as the Company has had no communication with the Commission on this matter before filing this Application. Accordingly, good cause exists for a waiver of the Rule in this proceeding.

WHEREFORE, for the reasons stated above, the Company requests that the Commission grant the Company's application and:

a) Issue a DAO to Applicant authorizing EMM and EMW to utilize the depreciation rates in their respective Exhibits A and B related to (1) the FERC 898 plant account corrections and changes, (2) the new plant account/locations and (3) the new process proposals; and

b) Provide the Company with such other relief that the Commission believes is necessary and appropriate and that is not inconsistent with the DAOs requested in this application.

Respectfully submitted,

/s/ Roger W. Steiner
